THIRTY-EIGHTH REPORT

OF THE

INSPECTOR

APPOINTED TO VISIT THE CERTIFIED

REFORMATORY AND INDUSTRIAL SCHOOLS OF GREAT BRITAIN.

To the Right Hon. HERBERT HENRY ASQUITH, Q.C., M.P.,
&c. &c. &c.
Secretary of State for the Home Department.

Great Scotland Yard, S.W.,
April 1895.

General Report.

Sir,

I have the honour to submit to you the Annual Report on the Reformatory and Industrial Schools under inspection, showing their working and results for the year ending December 31, 1894.

During the year every Reformatory and Industrial School in Great Britain has been inspected, at least once, by Mr. Rogers, Mr. Robertson, or myself.

And over 100 surprise visits have been paid.

The total number of Schools under inspection is now 227, viz., 50 Reformatory Schools, 141 Industrial Schools, 14 Truant Schools, and 22 Day Industrial Schools. Of these 3 are Reformatory and 8 are Industrial School Ships.

This shows no alteration in the aggregate, but an increase of one Industrial School and a decrease of one Reformatory School.

There are also 9 Certified Auxiliary Homes in connection with Industrial Schools.

Of the Industrial Schools, 7, viz., Durham, Cumberland, Kent. Mayford, Stafford Boys, Stafford Girls, and Middlesex, were established by County Authorities; 8, viz., Leeds, Leicester, Bristol Girls, Brentwood, the Shaftesbury (training ship), Middlesbrough, Brighton, and Hull Girls, are managed by School Boards; and 1, Shustoke, by the Corporation of Birmingham.

The remainder of the Industrial Schools and all the Reformatories owe their existence to voluntary and independent efforts.

All the Truant Schools and all the Day Industrial Schools, with the exception of one in Liverpool and three in Glasgow, are under the management of School Boards.

General Report.

The Voluntary Day Industrial School in Liverpool is managed by a Committee, and the three schools in Glasgow by the Glasgow Juvenile Delinquency Board.

The total number of juveniles under sentence of detention in Reformatory and Industrial Schools at the close of 1894 was 30,273, viz., 25,025 boys and 5,248 girls.

This shows an increase of 294 boys and an increase of 62 girls, as compared with the previous year.

In addition to the above number, there were at the end of the year 3,251 children attending Day Industrial Schools, and 526 children on license from those schools.

There have been 7,589 admissions during the year 1894, exclusive of children sent to Day Industrial Schools.

	Boys.	Girls.
To Reformatory Schools :—		
England	1,109	171
Scotland	178	29
To Industrial Schools proper :—		
England	2,361	674
Scotland	710	245
To Truant Schools:—		
England	2,112	—
Total	6,470	1,119

In the year 1893 the admissions were :—

	Boys.	Girls.
To Reformatory Schools:—		
England	1,034	151
Scotland	236	42
To Industrial Schools proper :—		
England	2,428	594
Scotland	721	299
To Truant Schools :—		
England	1,949	—

Showing a total increase of 135.

Of the 1,280 juvenile offenders committed to English Reformatories in 1894, 1,228 were dealt with summarily and 52 by Quarter sessions or assize courts.

1,107 offenders were sent to the schools without any previous imprisonment, in accordance with the terms of the new Act which was passed on 22nd September 1893, 926 being sent to English Reformatories and 181 to Scotch.

In comparison with the numbers of last year these figures show an increase of 95 in those sent to Reformatories in England, and a decrease of 71 in Scotland.

The following tables show the gradual increase in numbers and expenditure since 1859:—

Reformatory Schools.

Year.	*Number under Detention.	Paid by Treasury.	Parent.	Rates.	Subscriptions and Legacies.	Total School Expenditure.
		£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.

N.B.—Up to the end of the year 1868 the amounts collected from parents were remitted to the Schools as part of the Treasury Grant. Since then they have been paid in to the Paymaster General.

*These figures represent the total number of offenders under order of detention, and include licences, absconders, &c., liable at any time to return to the Schools. The actual numbers in School are shown in Appendix III. (*a*).

General Report.

The estimate for Reformatories for the year 1895–96 shows an increase of 1,000*l.* for England, and no increase for Scotland.

The estimate for Industrial Schools in England (including Truant Schools) shows a decrease of 1,500*l.*, and for Scotland a decrease of 1,000*l.*

The estimate for Day Industrial Schools in England shows an increase of 250*l.*, and for Scotland remains the same as that for last year.

The net decrease on the whole estimate, including Staff and Office expenses, is 614*l.*

General Remarks.

The past year has been a more anxious one than any we have had for some time.

Inquiries have been held at some half dozen schools, in consequence of complaints having been made that the inmates had been illtreated.

I am happy to be able to report that though in some cases minor irregularities were found to have occurred, which called for remonstrance, there was only one school (a truant one) in which we found excessive punishment had taken place, and even in this case the managers had acted within their legal rights. In one case (that of a reformatory) the charge was decidedly a trumped-up one, without a word of truth in it. It was made by a discharged official, a man of bad character, in an anonymous letter, written as if from an old boy, the writer of which was recognised from the handwriting. In another (a girls' school) the assertions made were not borne out by the evidence. On the contrary, it was proved that girls of exceptionally bad character had been treated with consistent kindness.

On the whole the schools are going on well, and improving year by year. The progress is gradual, and it is only by looking back some twenty years that we can realise how much improvement has taken place in that period. We find that the education has improved, much more is expected in the schoolroom, and there are far more trained and certificated teachers in the work.

Buildings which twenty years since would have received a certificate without remonstrance would not be considered satisfactory now. Less reliance is placed on corporal punishment than was the case formerly, and the use of the birch or cane has been much reduced; and in many schools the inmates are far better off than they used to be in regard to diet and clothing. In short, the schools have marched with the times, and are doing honestly good work, under, with scarcely an exception, energetic and able management.

During the year a Naval Officer has been selected by the Admiralty, at the request of the Home Office, to visit and inspect each of the Reformatory School Ships.

This was done in consequence of representations which were made that as neither of the Inspectors had served in the Navy, the present system of inspection was insufficient, and that there was reason to fear that the "nautical" instruction on board these ships was deficient in consequence.

These representations were probably not based on any personal and practical acquaintance with the working of our ships, all of which are commanded by able and carefully selected officers who have served in the Navy, and I am sure that the gentleman who felt it his duty to make them will be as much gratified as I have been in reading the exhaustive and careful reports of the Naval Inspector, which will be found attached to my reports on each ship.

Several short Acts have been recently passed affecting both Reformatories and Industrial Schools. What is now wanted is a new Act embracing all the recent ones. In such an Act perhaps the principal thing to be kept in view is the necessity of rendering the recovery of parents' contributions more summary, especially in Scotland, and the best method which has been suggested is to assimilate the legal proceedings for recovery of payments to those taken in bastardy cases.

The parents are so often, directly or indirectly, to blame for their children's conduct that their payments should be regularly and strictly enforced.

At present there are too many forms to go through before a case is reported to the Inspector, and before he can take action by obtaining a magistrate's order, and even then the process of collection is slow and surrounded with difficulties.

By the time he is able to commence collecting, the payments, which are due from the date of commitment, have often accumulated to an amount which the parent finds it difficult or impossible to pay. It would be far better if the order on the parent could be made at the time of the child's commitment.

I think the parents' contributions in the case of children committed to a Truant School might well be handed over to the School Boards; the Treasury recouping itself for the loss it would sustain by contributing in all cases of children sent to Truant Schools a lower grant than they do at present, and this grant should be a uniform one.

Conduct.

Though the conduct has been generally very good, there were some exceptional cases which deserve notice.

In September there was an attempt at "fire raising," in the Aberdeen Reformatory at Oldmill; four boys were implicated in a plot to set fire to the school, one of them had been transferred to Oldmill, being one of the ringleaders of the party who set fire

General Report.

to the training ship on the Clyde; one of his companions received such severe burns that he died soon afterwards. There does not seem to have been any ill-feeling or discontent on the part of the boys generally, who behaved very well, and rendered every assistance to the officials in getting at the truth of the matter.

In the same month 15 boys absconded in a body from Stoke Farm Reformatory, whilst out walking.

There has been a good deal of disorderly conduct among the girls at the Limpley Stoke Reformatory.

Some girls at Dalry Reformatory also gave a good deal of trouble, and some of them had to be taken before the magistrates.*

There was an attempt at fire-raising also at Mossbank, near Glasgow.

Health.

The general health in the schools has been good.

On page 460 and the following pages will be found returns of the average number of inmates in each school under inspection, and the number of deaths that have occurred during the year, and the causes of death.

The medical officer of each school sends into this office quarterly a report on the health of the children under his charge, and, in case of any serious outbreak of disease, makes a special report.

In January 1894, during a very severe frost, the boy usually in charge of one of the boilers, accompanied by another boy, proceeded at about half-past eight to light the fires. The pipes appear to have been blocked up with ice, and the safety taps had been removed by the plumber some time before, when he replaced them by plugs. At about 10 o'clock a violent explosion took place, one boy was killed on the spot and one died the next day. An inquiry was made, and a report sent in to

---

* Note.—To show to what lengths girls in a Reformatory School will go, I append an extract from an Edinburgh paper :—

"From Reformatory to Jail.—Yesterday morning at the Edinburgh Police Court, two girls, inmates of the Dalry Reformatory, Ardmillan Terrace, were charged with having, between the 5th July last and the 15th of this month, behaved in a disorderly manner in the Reformatory, unscrewed thirteen brass pegs from the wall in the dining-room, forced open the piano, turned on the gas in the school, made use of threats of personal violence, broken eight panes of glass in the windows, and annoyed and disturbed the inmates. They were further charged with having stolen between the 6th and 15th of this month, from the store-room in the Reformatory, several articles of clothing. A girl was also charged with having assaulted another inmate on the 15th of this month. They pleaded guilty to all the charges, and the magistrate, in pronouncing sentence of fourteen days' imprisonment each, and ordering them at the expiry of the term to be sent back to the Reformatory, said it was the most remarkable case he had ever had before him. So young and yet so violent and so evil-doing. The clerk took occasion before the girls left the bar to state that they had no complaint against the treatment they received in the institution."

the Board of Trade. The Commissioners who held the inquiry completely exonerated the officials of the Reformatory. *General Report.*

In the Parkhead Reformatory, in April, a boy died of vegetable poisoning; he had been eating the buds or leaves of some bushes where he was working. The case was duly reported to the Procurator Fiscal in the usual way, and that official was satisfied with the medical and other evidence produced.

On the "Shaftesbury" a boy was killed by falling when cleaning windows, on the day of the inspection of the ship by the Duke of York.

At Hull a boy was drowned from the "Ripple," the tender of the "Southampton," while she was at anchor, and close to the ship; the boy fell between the ship and the tender. The boy could swim well, and assistance was immediately given, but the tide was running strongly, and he must have struck his head in falling, for he never rose.

In July a boy absconded from the "Akbar" when the boys were in the cricket field, and was found in a field near next day very ill with cramp in his stomach, and died. There was an outbreak of small-pox on board the "Clarence," in the Mersey, in November. The first few cases were slight, and were supposed to be chicken-pox; the disease spread, until at last there were 30 cases, which were treated in a hospital on shore; and all recovered.

Reformatory Schools.

The Reformatory at Buxton, near Norwich, has ceased to hold a Reformatory certificate, and is now carried on as an Industrial School. Reformatory Schools.

Seeing that Reformatory Schools are gradually decreasing in numbers, it may perhaps be worth while to consider whether one or more of the existing schools should not be allowed to receive lads over 16 years of age only. To allow of this, fresh legislation would be necessary. There can be no doubt that a few schools of this sort would be useful, as there are many boys of 17, or even 18, who would profit much by a limited detention, and there are at least one or two schools willing to fall in with the idea.

In general the conduct at the various institutions has been good, and the schools are going on quietly and well.

Reformatory Statistics.

The number of Reformatory Schools at present is 50, viz., 41 in England and 9 in Scotland.

General Report.

Reformatory Schools.

A decrease of 12 schools in the last 15 years.

England:					
Boys, Protestant	-	27	-	Roman Catholic	- 4
Girls „	-	8	-	„	- 2
Scotland:					
Boys, Protestant	-	5	-	Roman Catholic	- 1
Girls „		3	-	„	- –
		43			7

The number of juveniles under detention on December 31, 1894, was :—

	Boys.	Girls.
England :		
Protestant	3,175	451
Roman Catholic	902	133
Scotland :		
Protestant	555	108
Roman Catholic	263	—
Total	4,895	692
Of these were :—		
On license	653	79
In prison	8	—
Absconded	24	2
Total	685	81
Giving a total actually in the schools of	4,210	611

The corresponding numbers for last year were :—

	Boys.	Girls.
England :		
Protestant	3,141	452
Roman Catholic	846	132
Scotland :		
Protestant	545	9
Roman Catholic	236	—
Total	4,768	675
Of these were :—		
On license	641	75
In prison	6	4
Absconded	23	1
Total	667	80
Giving a total actually in the schools of	4,101	595

This number shows an increase of 109 boys and an increase of 16 girls.

The ADMISSIONS to Reformatory Schools in 1894 were 1,487, viz., 1,287 boys and 200 girls, showing an increase of 17 boys and an increase of 7 girls. A total increase of 24.

They were distributed as follows :—

England :

Boys, Protestant	846	Roman Catholic	263
Girls „	127	„	44

Scotland :

Boys, Protestant	114	Roman Catholic	64
Girls „	29	„	—

General Report.

Reformatory Schools.

Of the numbers admitted to English reformatories in 1894 45 had lost both parents, 82 had been deserted, the parents of 10 were in prison, and 20 were illegitimate as far as was known.

Inquiries and proceedings were taken in 1,111 cases with the following results :—

Excused by the magistrates on the plea of poverty	362
Placed under contribution, from 6*d.* to 5*s.* a week	749

Of the numbers admitted into Scotch reformatories in 1894, 4 had lost both parents, 6 had been deserted, and 9 were known to be illegitimate. In about 66 cases the parents had been placed under contribution, and 121 were excused on account of poverty.

The DISCHARGES from Reformatory Schools in 1894, deducting transfers, amounted to 1,159 boys and 183 girls; total, 1,342.

——	Boys.	Girls.	Total.
To employment or service	517	98	615
Placed out through relatives	392	72	464
Emigrated	44	—	44
Sent to sea	121	—	121
Enlisted	23	—	23
Discharged from disease	23	7	30
Discharged as incorrigible	3	2	5
Died	29	3	32
Absconded, not recovered	7	1	8
Total	1,159	183	1,342

The corresponding numbers for 1893 were :—

——	Boys.	Girls.	Total.
To employment or service	478	121	599
Placed out through relatives	470	51	521
Emigrated	47	3	50
Sent to sea	123	—	123
Enlisted	39	—	39
Discharged from disease	15	3	18
Discharged as incorrigible	4	—	4
Died	23	4	27
Absconded, not recovered	24	1	25
Total	1,223	183	1,406

The TOTAL ADMISSIONS to Reformatory Schools to December 31, 1894, amounted to 59,566, viz., 48,910 boys and 10,656 girls.

The TOTAL DISCHARGES to the same date, exclusive of transfers, were 52,763, viz., 43,208 boys and 9,555 girls.

They were disposed of as follows :—

	Boys.	Girls.
To employment or service	15,525	5,427
Placed out through relatives	14,397	2,920
Emigrated	3,277	231
Sent to sea	5,871	—
Enlisted	1,037	—
Discharged from disease	622	242
Discharged as incorrigible	287	115
Died	1,052	353
Absconded, not recovered	1,140	267
Total	43,208	9,555

The numbers for the previous year were :—

	Boys.	Girls.
To employment or service	15,008	5,329
Placed out through relatives	14,005	2,848
Emigrated	3,233	231
Sent to sea	5,750	—
Enlisted	1,014	—
Discharged from disease	599	235
Discharged as incorrigible	284	113
Died	1,023	350
Absconded, not recovered	1,133	266
Total	42,049	9,372

General Report.

Reformatory Schools.

The RESULTS for the years 1891, 1892, and 1893 were as follows :—

Number discharged in the three years was 4,162, viz., 3,659 boys and 503 girls.

Of these 88 had died, viz., 73 boys and 15 girls, leaving 3,586 boys and 488 girls to be reported on.

Of the boys—

2,700	or about 75	per cent.	were doing well.
59	„ 2	„	were doubtful.
576	„ 16	„	had been convicted.
251	„ 7	„	were unknown.

Of the girls—

346	or about 71	per cent.	were doing well.
35	„ 7	„	were doubtful.
27	„ 5	„	had been convicted.
80	„ 17	„	were unknown.

The fuller details are given below :—

——		No. alive reported on.	Doing well.	Doubtful.	Convicted.	Unknown.

The PRISON REPORTS of offenders recognised in prison during the year 1894 as having been in a Reformatory School give the following results :—

The number so identified was 910, viz., males 653, females 34, total 687, in English and Welsh prisons; and 209 males and 14 females, total 223, in Scotch prisons.

The JUDICIAL STATISTICS for England and Wales for the year 1893 give the following number of commitments to prison. Adult—Males, 108,061. Females, 40,477. Total, 148,538. Juveniles—Males, 2,646. Females, 278. Total, 2,924.

The numbers for the previous year were—

Adult (over 16 years of age)—Males, 113,528. Females, 43,061. Total, 156,589.

Juveniles (under 16 years of age)—Males, 3,684. Females, 352. Total, 4,036.

In Scotland the returns for the year ending December 31, 1894, are—

Adult commitments—Males, 32,709. Females, 19,251. Total, 51,960. Juveniles—Males, 587. Females, 111. Total, 698.

In Scotland the returns for the year ending December 31, 1893, are—

Adult commitments—Males, 31,440. Females, 18,566. Total, 50,006.

ENGLAND AND WALES.

TABLES of Adult and Juvenile commitments since 1861.

JUVENILE OFFENDERS (under 16 years of age):—

YEARS.	Boys.	Girls.	Total.	YEARS.	Boys.	Girls.	Total.
1861	7,373	1,428	8,801	*1878	*3,848	*536	*4,384

THE AMOUNTS received from parents of juvenile offenders in Reformatory Schools for 1894 were—

	£	s.	d.
England and Wales -	4,549	0	10
Scotland - -	351	19	2
Total - -	£4,901	0	0

Showing an increase of 265*l.* 2*s.* 11*d.* on amount collected last year.

General Report.

Reformatory Schools.

The average cost of maintenance, including rent and expenses on disposal, and allowing the usual set-off for the profits of the labour of the inmates, was—

For Boys' Reformatories in England, 20*l.* 1*s.* 1*d.*, and in Scotland, 18*l.* 14*s.* 10*d.*

For Girls' Reformatories in England, 20*l.* 17*s.* 11*d.*, and in Scotland, 22*l.* 4*s.* 11*d.*

For last year the figures were—

For Boys' Reformatories in England, 21*l.* 2*s.* 3*d.*, and in Scotland, 18*l.* 1*s.* 8*d.*

For Girls' Reformatories in England, 20*l.* 1*s.* 4*d.*, and in Scotland, 26*l.* 7*s.* 4*d.*

Industrial Schools.

Industrial Schools.

The Buxton Reformatory has been opened as an Industrial School.

The Industrial School for Girls which was badly reported on last year has been doing better this year.

As a rule the schools have gone on quietly and well during the year.

There have been several changes in management, amongst others, Mr. Davison, after 24½ years' faithful service in the Sunderland Boys' Industrial School, has resigned, and has been succeeded by his son.

In August a short but very useful Act came into force, giving valuable and much needed powers to managers of Industrial Schools. The Act declares that any child sent to an Industrial School after the passing of the Act shall after the termination of his period of detention in such school remain up to the age of 18 under the supervision of the managers of such school. License may be revoked, and the child may be recalled to the school, but must not be detained after such recall for a longer period than three months, and notice of each case of recall must be sent to the Secretary of State. The Act does not contemplate that children should be retained in the schools longer than they are at present, but giving to the managers two additional years of legal guardianship will give power to protect the children until the age of 18 from the influence of parents of indifferent character.

Many children, since the passing of the Act, and whose time had nearly expired, have applied for leave to put themselves under the Act, to protect them from their "friends."

Of the 141 Industrial Schools now in actual operation, 107 are in England and Wales and 34 in Scotland.

They are distributed as follows :—

England.—Boys, Protestant 47, Roman Catholic 12.
Girls, Protestant 33, Roman Catholic 11.
Boys and Girls, Protestant 4.

Scotland.—Boys, Protestant 14, Roman Catholic 3.
Girls, Protestant 11, Roman Catholic 3.
Boys and Girls, Protestant 3.

In the Edinburgh United Schools, where both Protestants and Roman Catholics are received, there is always a teacher of the latter persuasion.

The same remark applies also to the Leeds Industrial School at Shadwell.

Roman Catholics are also received in some of the training ships, and two or three of the ordinary schools, under the necessary regulations as to religious instruction and attendance at public worship.

The scheme of selecting boys from Industrial Schools for training ships has a very strong advocate in Captain Nicholetts, R.N., late of the "Formidable," in fact I believe it originated with him, Captain Nicholetts having read a very interesting paper at the meeting of the National Association of Managers and Superintendents of Reformatory and Industrial Schools as far back as 1888.

This is very much the same scheme as was mentioned in my last Report as recommended by Mr. James Hall, and when we have two such experienced men as Captain Nicholetts and Mr. Hall recommending the same procedure we must allow it is worth considering.

The Jewish authorities subscribe to the funds of the East London Industrial School at Lewisham, in Kent; in return for which boys of the Jewish persuasion are received there and are allowed to abstain from work on the Jewish sabbaths and festivals, and to conform to the observances enjoined by their religion. There were on December 31st, 1894, 26 Jewish inmates.

A very large number of children are sent to Industrial Schools at the instance of the London School Board.

The Board has under its own control the "Shaftesbury" Training Ship on the Thames, affording accommodation for about 500 inmates, and a school at Brentwood in Essex, for 100 boys, in addition to which they send children to schools all over the country.

By the returns of the Board it appears that up to the 25th March 1895 no less than 20,808 children have been sent to Industrial Schools (including Truant Schools) from the London School Board District since 1871, viz., under sections 14 and 15 of the Industrial Schools Act, 10,553; section 16, 2,495; under the Industrial School Amendment Act, 412; under section 12 of the Elementary Education Act of 1876, 7,348.

General Report.

Industrial Schools.

In addition to this the Board deal with numerous further cases, some of which were sent to Industrial Schools irrespective of the Board; some are referred to parish authorities, and some to the Divisional Committees of the Board, for action under the byelaws or under the Elementary Education Act of 1876.

Of the 3,035 children sent to English Industrial Schools in 1894, 1,875 were sent at the instance of School Boards (654 at the instance of the London School Board).

The NUMBER of children under detention in the schools on December 31, 1894, was—boys 14,367, girls 4,556; total, 18,923; viz.:—

England.—Boys, Protestant 8,524, Roman Catholic 2,329.
Girls, Protestant 2,172, Roman Catholic 1,010.

Scotland.—Boys, Protestant 2,979, Roman Catholic 535.
Girls, Protestant 963, Roman Catholic 411.

Of these there were—

	Boys.	Girls.	Total.
On license	1,293	263	1,556
Absconded and not recovered	24	4	28

Total number in the schools, viz., 13,050 boys and 4,289 girls; total, 17,339.

Showing a decrease of 104 boys and an increase of 58 girls as compared with last year.

The number retained in the schools waiting situations after the expiration of sentence was 18 boys and 36 girls; total, 54.

The ADMISSIONS to Industrial Schools in 1894, deducting transfers, were—boys 3,071, girls 919; total, 3,990.

Distributed as follows:—

England.—Boys, Protestant 1,885, Roman Catholic 476.
Girls, Protestant 446, Roman Catholic 228.

Scotland.—Boys, Protestant 624, Roman Catholic 86.
Girls, Protestant 177, Roman Catholic 68.

These numbers show a decrease of 78 boys and an increase of 26 girls on those of 1893, the number of admissions for that year being 4,042.

Distributed as follows:—

England.—Boys, Protestant 1,968, Roman Catholic 460.
Girls, Protestant 419, Roman Catholic 175.

Scotland.—Boys, Protestant 603, Roman Catholic 118.
Girls, Protestant 190, Roman Catholic 109.

AGES on admission were—

	Boys.	Girls.	Total.
From 6 to 8	189	164	353
„ 8 „ 10	456	202	658
„ 10 „ 12	1,257	289	1,546
„ 12 „ 14	1,169	264	1,433

FAMILY CIRCUMSTANCES were—

	Boys.	Girls.	Total.
Illegitimate	263	130	393
Both parents dead	117	70	187
Father dead	544	163	707
Mother dead	509	162	671
Deserted by both parents	121	65	186
One or both parents destitute or criminal	92	80	172
Both parents alive and able to take care of their children	2,425	249	2,674

The DISCHARGES from Industrial Schools in 1894 were—boys 3,206, girls 863; total, 4,069; showing an increase of 31 boys and an increase of 62 girls compared with last year.

They were distributed as follows:—

	Boys.	Girls.	Total.
To employment or service	1,370	557	1,927
Placed out through friends	1,114	187	1,301
Emigrated	64	36	100
Sent to sea	382	—	382
Enlisted	114	—	114
Discharged as diseased	48	39	87
Committed to Reformatories	36	15	51
Died	52	25	77
Absconded, not recovered	26	4	30
	3,206	863	4,069

In 1893 the following was the distribution:—

	Boys.	Girls.	Total.
To employment or service	1,309	506	1,815
Placed out through friends	1,024	182	1,206
Emigrated	104	48	152
Sent to sea	396	—	396
Enlisted	134	—	134
Discharged as diseased	54	16	70
Committed to Reformatories	26	11	37
Died	102	35	137
Absconded, not recovered	26	3	29
	3,175	801	3,976

General Report.

Industrial Schools.

The TOTAL ADMISSIONS to Industrial Schools (excluding transfers) up to December 31, 1894, were—83,447 boys and 22,765 girls; total, 106,212.

The TOTAL DISCHARGES to the same date (excluding transfers) were—boys 68,096, girls 18,259; total, 86,355.

They had been disposed of as follows:—

	Boys.	Girls.
Employment or service	26,846	10,869
To friends	19,656	4,079
Emigrated	1,898	471
Sent to sea	10,334	—
Enlisted	2,156	—
Discharged as diseased, or on special grounds	1,484	482
Committed to Reformatories	1,241	231
Died	2,163	922
Absconded, and not recovered	1,318	205
	68,096	18,259

The RESULTS of Industrial Schools, as tested by the proportions doing well, convicted, doubtful, and unknown, of those discharged in 1891, 1892, and 1893 were as follows:—

The total discharged in those three years, omitting deaths, transfers, and committals to Reformatory Schools, was 11,344, viz., boys 9,108 and girls 2,236.

Of the 9,108 boys, 172 had since died, leaving 8,936 to be reported on, of these—

7,589	or about	85	per cent.	were doing well.
214	„	2	„	doubtful.
415	„	5	„	convicted or re-committed.
718	„	8	„	unknown.

Of the 2,236 girls, 51 had since died, leaving 2,185 to be reported on, of these—

1,844	or about	85	per cent.	were doing well.
156	„	7	„	doubtful.
24	„	1	„	convicted or re-committed.
161	„	7	„	unknown.

Comparing these numbers with those of last year, we see that on the 31st December 1893 the total number was 11,299, viz., boys 9,065 and girls 2,234.

Of the 9,065 boys, 168 had since died, leaving 8,897 to be reported on, of these—

7,638	or about	86	per cent.	were doing well.
207	„	2	„	doubtful.
351	„	4	„	convicted or re-committed.
701	„	8		unknown.

Of the 2,234 girls, 55 had since died, leaving 2,179 to be reported on, of these—

1,829	or about	84	per cent.	were doing well.
151	„	7	„	doubtful.
22	„	1	„	convicted or re-committed.
177	„	8	„	unknown.

The fuller details are given below :—

For Industrial Schools the financial returns show the following results:—

The average cost per head of maintenance, including rent and disposal expenses, and allowing for the profits of the industrial departments, which were chiefly from farming, and hire of labour, or from the indoor trades, such as tailoring and shoemaking, brush-making, firewood cutting, match-box making, &c., was as follows:—

	£	s.	d.
In mixed schools for boys and girls :—			
England, on 4 schools	15	9	8
Scotland, on 5 schools	14	10	2
In schools for boys only :—			
England, on 51 schools	18	0	3
Scotland, on 13 schools	13	17	1
In schools for girls only :—			
England, on 44 schools	17	17	0
Scotland, on 12 schools	13	18	1
In industrial training ships :—			
England, 6 schools	23	13	7
Scotland, 2 schools	16	12	3

The RECEIPTS and EXPENDITURE for Industrial Schools were as follows :—

* The 14 Truant Schools are included in these figures.

Truant Schools.

Truant Schools.

The number of children detained in Truant Schools is included in the returns of children in Industrial Schools; but the following

table may be interesting as showing the amount of work these schools have done since the first one was established in 1878.

It must be remembered that this list does not include all children who have been dealt with for truancy under the Elementary Education Act of 1876, as many have been committed to ordinary Industrial Schools.

Schools.	Date of Certificate.	Total No. of Admissions.	In School Dec. 31st, 1894.	On License Dec. 31st, 1894.
Hull - - -	July 1, 1884 -	1,480	100	455
Sheffield - - -	March 5, 1879 -	1,510	79	343
Swansea - - -	October 6, 1882 -	780	61	96
Liverpool - -	December 13, 1878	4,407	116	982
Bristol - - -	July 27, 1883 -	1,407	24	322
Plymouth - -	March 7, 1882 -	1,139	33	302

Holme Court - -	May 15, 1891 -	452	60	201
South Wales - -	1893 - -	198	50	119
Midland - - -	1893 - -	168	74	91

Truant Schools are intended for the reception of children who have committed offences against the 11th and 12th sections of the Elementary Education Act of 1876. They can be proceeded against under either of the two sub-sections of section 11, the first of which deals with truancy alone, whilst the second sub-section deals with children who could be dealt with under section 14 of the Industrial Schools Act.

Towards the end of the year it was felt that there was a want of uniformity in the rules and regulations of Truant Schools, and that in some the rules were stricter than was necessary, and the Home Office issued a set of carefully framed "Model Rules" to which the school managers were requested to conform. Several school boards objected to the new rules, some for one reason, some for another, and an influential deputation waited

General Report.

Truant Schools.

on the Home Secretary in November to lay their views before him. The general opinion seemed to be that a little more elasticity was necessary in the new rules in regard to the limited terms of detention laid down, and some were in favour of a freer use of the birch than the new rules permitted. The new rules when they come into force will ameliorate the condition of the younger truants, and the schools will be just as effective, I think, as at present.

Since Truant Schools came into existence I have never ceased to protest against the strict treatment, the excess of corporal punishment, and the absence of recreation, or anything like reward for good conduct.

Useful schools they are, but though I could name two or three that have always been conducted on moderate or sensible lines, there have been others into which I have never entered without feeling more sympathy for the inmates than for the Truant School system.

The ADMISSIONS to Truant Schools last year were 2,112 boys.

The DISCHARGES were 1,851 boys.

The NUMBERS actually in the schools on the 31st December 1894 were 1,141, and 4,619 were on license.

The AVERAGE COST per head was 19*l.* 19*s.* 6*d.*, and the total expenditure 31,132*l.* 15*s.* 9*d.*, towards which the Treasury contributed 7,338*l.* 1*s.* 6*d.* and the School Boards 23,874*l.* 19*s.* 8*d.*

The TOTAL ADMISSIONS to the 31st December 1894 were 20,771, of which 11,262 had been licensed and not re-admitted, 5,059 licensed and once re-admitted, and 3,446 had been re-committed twice or oftener.

The average length of detention was about 11 weeks 6 days in cases of first admission, 16 weeks in those of first re-admission, and 16½ weeks in those of the second re-admission.

Day Industrial Schools.

DAY INDUSTRIAL SCHOOLS.

As the name implies, these schools only receive day scholars, the children going to them early in the morning in time to receive a substantial breakfast; at midday they have dinner, and before being dismissed for the day tea is supplied to them. The children are well taught, and more or less industrial occupation is carried on, due time being allowed for recreation.

The inmates are taken from the very poorest classes. No clothing is found for them by the schools, but here I may remark that old clothes suitable for children will be thankfully received and distributed at most, if not all the schools, and would be found most useful. Baths and good lavatory accommodation are always supplied, and every possible attention is given to cleanliness.

At present there are only 19 of these schools in England, and 3 in Scotland, but I am in hopes that the numbers in both

countries will increase. By the new Act, passed in 1893, similar powers to establish day industrial schools are given to the local authorities in Scotland as those which are possessed by the local authorities in England.

These schools do really good useful work at very little cost to the Treasury, and reach a class of child which is sometimes very likely to escape the ordinary elementary school. They have been somewhat affected by Free Education, and have had no accession in numbers in consequence. In some schools the numbers have gone down.

Day industrial schools are, without exception, going on well, and doing good work. It is always a pleasure to go into these schools and to see the order apparent everywhere, and the children almost invariably look bright and cheerful. In some, more attention might well be paid to industrial training, whilst in others I have no reason to find fault on this score.

These schools are doing well wherever they have been established, and until School Boards are empowered to feed their poorer children, as well as teach them, these schools must increase, and will do, I am sure, as good work in the future as they have done in the past, and are doing now.

They are most interesting schools to an Inspector; he can feel that there is no mistake about the quality of work done in them, the order and attention are always excellent, the educational state is always satisfactory, and one cannot but hope that some of the orderly and cleanly habits learned in them may be reflected in some degree on the miserable homes from which they generally come.

They are managed, I think without exception, by female teachers; I doubt much if the results would be as good under any other system.

The attendances generally have been very good, with which state of things the certainty of three good meals in the day may have something to do.

The number of children attending Day Industrial Schools on 31st December 1894 was:—

Boys	2,318
Girls	933
Total	3,251

and 385 boys and 141 girls were on license.

At present there are 22 Day Industrial Schools under inspection, of which 19 are in England and 3 in Scotland (under a special Act).

The ADMISSIONS to Day Industrial Schools in 1894 were:—

Boys	1,413
Girls	509
Total	1,922

In the previous year they were:—

Boys - - -	1,509
Girls - - - -	548
Total - - -	2,057

The DISCHARGES were:—

Boys - - -	1,506
Girls - - - -	574
Total - - -	2,080

The total receipts, including 442*l.* 14*s.* 9*d.* profit in Industrial departments, were 30,462*l.* 7*s.* 2*d.*, towards which the Treasury contributed 7,712*l.* 13*s.* 2*d.*, School Boards and local authorities 15,813*l.* 7*s.* 5*d.*, parents 2,926*l.* 16*s.* 6*d.*, parochial authorities 1,388*l.* 17*s.* 5*d.* Subcriptions which were confined to the Kirkdale School amounted to 1,748*l.* 9*s.* 1*d.*

The total expenditure, including loss of 403*l.* 11*s.* 5*d.* in industrial departments, was 29,854*l.* 7*s.* 1*d.*

The average cost per head was 9*l.* 18*s.* 10*d.*; and for food 3*l.* 6*s.* 3*d.*

The results after discharge from these schools cannot be so accurately gauged as they can be from Industrial Schools. The children leave the schools, and, unless they re-appear again in Reformatories or Industrial Schools, are lost sight of. To show these results in the different schools I append the following table:—

Schools certified in	Names of Schools.	Total No. discharged to Dec. 31, 1893.		Sent to Reformatories.		Sent to Industrial Schools.	
		Boys.	Girls.	Boys.	Girls.	Boys.	Girls.

	Total - -	14,708	6,498	265	8	2,368	433

Agents.

In addition to the staff in Great Scotland Yard there are agents in some of the larger towns.

In Liverpool there are two, one connected with the School Board who acts as our agent for Industrial School cases; the other, an Inspector of Police who looks after the Reformatory cases. In both cases the work is superintended by the heads of their respective departments.

There are also agents in Bristol, Birmingham, Glasgow, and Salford.

Mr. Robertson in December visited the principal agents and made a very able report on the subject.

Particular attention was paid to the books, and to the actual dealings of the agents with the parents, and inquiries were made by personal visitation to verify the statements made to the office of the circumstances of the parents, as well as to verify the money transactions between our agents and the parents.

Several of the parents in the different towns were visited, and careful inquiry made into about 100 test cases, by visiting the houses or places of employment of the parents, and interviewing relieving officers and others.

I am glad to say that in no single case was any want of faith on the part of the agents discovered.

In this way, besides being able to test the accuracy of the agents' reports, a better insight was gained into the class dealt with and a better knowledge gained of the difficulties our agents have to contend with.

It is gratifying to find that our agents were generally respected.

The districts are extensive and many of the parents are of a roving habit, so that it was not surprising to find some of the reports not quite up to date.

In many cases payment is evaded by removal from the district, and in many cases regular employment is given up in order to remove from the district where the parents were known.

Some cases were discovered in which, to evade payment, wages were being paid by the employers to the parents through a third party.

The parochial boards in Scotland are only too ready to avail themselves of any loop-hole of escape that the law affords them, and we have great difficulty in collecting payments in the cases in which boards are liable to contribute.

Conclusion.

The total amount collected in 1894 was—

	£	*s.*	*d.*
In England - - - -	15,375	19	1
In Scotland, from parents and parochial authorities.	5,534	9	1
Total - - - -	20,910	8	2

A total increase of 537*l.* 18*s.* 1*d.* over last year's collections.

I cannot close this, my last report, without placing on record the many obligations I am under to Mr. Henry Rogers, the Assistant Inspector, Mr. Costeker, the Chief Clerk, Mr. Robertson, the Sub-Inspector, and the other members of the staff at Scotland Yard, for the very valuable assistance they have rendered to me during my twenty years' service, and for the able and conscientious manner in which the duties of the office have always been performed.

I have the honour to be,
Sir,
Your obedient servant,
WILLIAM INGLIS, Lieut.-Colonel,
Inspector of Reformatory and
Industrial Schools.

APPENDIX No. I. (A.)

Detailed Reports.

Reformatory Schools.

APPENDIX No. II. (A.)

Detailed Reports of Inspectors on Certified Reformatory Schools for the Year 1894.

ENGLAND.

Bedfordshire.

Bedfordshire Reformatory School for Boys, Carlton, near Turvey.

Inspected July 25, 1894.

Number of inmates on day of inspection, boys, 65, and 4 on license.

State of premises.—I went over the premises, and found every department in admirable order. Separate infirmary in the cottage. Farm and garden in good condition and well attended to. 125 acres of land; 5 horses kept, 12 kine, 45 pigs, and 150 head of poultry. General crops looking well, with the exception of the mangold. General aspect very favourable.

Health and general condition.—General health good. One death from acute rheumatism in Bedford Infirmary. A few cases of colds and sore throats during the winter. One case of psoriasis. Boys looked healthy and well cared for.

Conduct and discipline.—Conduct generally satisfactory. Two absentees at the last inspection, both recovered and now doing well. One new boy absconded and was brought back. One or two cases of wilful disobedience and petty theft. One serious case of theft. One wilful mischief and lying. Two out of bounds. With a few exceptional cases of misconduct and disorder, boys going on well and improving. All well behaved and orderly on day of examination.

Educational state.—Education carefully attended to. 25 in Standard Five, 1 absent. Reading good, spelling good. Dictation all passed but one, writing neat and good; in arithmetic 2 failures. Fair knowledge of elementary geography. 15 in Standard Four: the class did well in all subjects; 1 failed in dictation, 1 in arithmetic. 13 in Standard Three: a good and improving class; no failures. 7 in Standard Two: class getting on, but a little weakness in arithmetic in 3 cases; writing very fair, dictation on paper. 5 in preparatory class; two or three dull boys. General order excellent. 22 new boys in year.

Industrial training.—A large farm and a good quantity of stock supplies an abundance of agricultural labour. There is a small tailor's shop, and the boys make their own bread. The practical training is varied and useful.

General remarks.—The school continues to do well, and is a good specimen of a small agricultural colony. The farm work is well done.

Staff.—Superintendent and matron, Mr. and Mrs. John Jones; assistant matron; schoolmaster, Mr. J. Gardner; assistant ditto, Mr. Ernest C. Jones; labour-master, Mr. E. L. Gilkes; farm foreman, dairy-woman, and tailor.

Average number maintained, 60. Total cost for 1894, 1,113*l.* 5*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 11*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 0*s.* 10*d.*

Industrial loss, 116*l.* 12*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 40 discharged in 1891–93, there are doing well 31, dead 1, convicted of crime 8.

Cheshire.

Bradwall Reformatory School for Boys, near Sandbach, Cheshire.

Inspected March 22, 1894.

Number of inmates on day of inspection, boys, 70; on license, 5.

State of premises.—I found house and premises in excellent repair and all well maintained and looking very neat and clean. There is a good garden and 25 acres of land, and some young orchards coming on well. Four milch cows, two heifers, and some pigs and poultry. Interior clean and neat. Dormitories wholesome. General aspect most creditable, arrangements good.

Health and general condition.—Boys looked healthy and thriving, some fine and promising lads; very little sickness. One fracture of leg. One case of pneumonia, one rheumatic fever, one case of itch, one slight rheumatism. Not much sickness. General appearance quite satisfactory. A good cottage hospital.

Conduct and discipline.—There was nothing extraordinary in the punishment records. Some of the usual cases of pilfering, disobedience, neglect of duty, idleness, one case of absconding, one of planning to abscond, a few cases of persistent idleness. A system of marks with money rewards is kept up, it has a very good effect. School improving and boys generally doing well.

Educational state.—This is very well attended to. 10 in Standard Five: superior class, very good results; no failures. 14 in Standard Four: very good work, writing particularly good; class well taught; making good progress. 19 in Standard Three: class carefully attended to and progressing very favourably; no failures. 14 in Standard Two: all doing well and gaining ground. 6 in Standard One and 5 in preparatory class: younger boys, newly admitted, all making way. A good school and excellent order.

Detailed Reports.

Reformatory Schools.

Industrial training.—The occupation is chiefly agricultural. The new orchards give a variety of work. There is a well cultivated garden and a small greenhouse. There is a small class for tailoring. The outdoor work is most useful for the boys, and everything is effectively done.

Staff.—Superintendent and matron, Mr. and Mrs. Ed. Shaw; schoolmaster, Mr. E. Shaw, jun.; bailiff, Mr. Eden; assistant in school and work, Mr. Hayes; tailor, Mr. Henshall.

Average number maintained, 69. Total cost for 1894, 1,302*l.* 17*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 17*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 0*s.* 8*d.*

Industrial profits, 45*l.* 9*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 59 discharged in 1891–93, there are doing well 47, dead 1, doubtful 1, convicted of crime 9, unknown 1.

Devon.

Devon and Exeter Boys' Reformatory, Brampford Wood, near Exeter.

Inspected July 24, 1894.

Number of inmates on day of inspection, boys, 25, and 2 voluntary cases.

State of premises.—In better order; as clean as paint and whitewash could make them, but much behind the times in appliances and convenience. A proper lavatory and bath are much wanted. The situation is good. There are about 26 acres of land, and more attention is paid to market gardening, than which there is no better employment for our boys.

Health and general condition.—Very good; only one entry of a slight feverish attack in the medical journal. The boys looked healthy and robust, and altogether improved.

Conduct and discipline.—The new superintendent came in March 1894, and had had no trouble with the boys. There is a mark system by which boys can earn in the First Class (according to conduct) 6*d.* a week, and 10 boys are in this division; and in the Second Class boys earn 3*d.* a week, in this class were 14 boys. Those in the Third Class, of whom there were only 3, earn nothing.

Educational state.—There were 3 boys in Standard Five: reading and writing very fair; no failures in any subject. 3 in Standard Four: 1 failure in arithmetic. 8 in Standard Three: very fair work; 1 failure in dictation, 1 in arithmetic. 10 in Standard Two: very fair reading and writing; 2 failed in dictation; only 3 passed in arithmetic. 3 in Standard One: a backward class. Order and attention excellent.

Industrial training.—The garden and the land give employment to all the boys, nearly all of whom go, on discharge, to farm service. A tailor comes once a fortnight to mend, assisted by two boys. A good deal of work is done among the neighbouring farmers.

Staff.—Superintendent and matron, Mr. and Mrs. Stephens; Bailiff, whose wife assists in the laundry, and labourer.

Average number maintained, 26. Total cost for 1894, 658*l.* 8*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 25*l.* 6*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 32*l.* 17*s.* 1*d.*

Industrial loss, 152*l.* 13*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 23 discharged in 1891–93, there are doing well 19, convicted of crime 3, unknown 1.

Devon and Exeter Reformatory for Girls, Polsloe Road, Exeter.

Inspected July 23, 1894.

Number of inmates on day of inspection, girls, 43, including a voluntary case.

State of premises.—The school is more than usually well supplied with accommodation. The rooms are good and numerous. There are two laundries, so that the school washing can be kept distinct from that of outside customers. There are single dormitories for the elder girls and also a few for the use of new admissions. There is plenty of space at the rear of the building; a good drying-ground, gravel playground, besides a garden of two acres, which supplies the school with fruit and vegetables. The new system of drainage was working well. Every part of the premises was in excellent order.

Health and general condition.—The health throughout the year had been most satisfactory. There had been no illness, and the medical officer had always been able to report favourably of the general condition. There is a good sickroom, which, however, had not been used for four years. The girls looked hearty and well.

Conduct and discipline.—There had been rather more trouble than usual during the year. One especially bad girl had induced another to abscond with her, and after being brought back was again discovered to be planning another attempt. There were four or five other attempts at absconding. One or two cases of stealing from officers. The management is judicious and kindly and able to enlist the great majority of the girls on its side.

Educational state.—Five in Standard Five: good reading and writing; all passed in dictation and arithmetic. 11 in Standard Four: very fair reading, good writing; all passed in dictation; 5 failed in arithmetic. These two classes had taken the geography of England and had prepared some recitations. 11 in Standard Three: very fair reading, spelling, and writing; 2 failures in arithmetic. 11 in Standard Two: fair reading and spelling; two or three backward girls; 7 failures in arithmetic. 4 in Standard One: 3 of whom passed; the fourth was a new-comer and only just beginning to learn. Order and attention good.

Industrial training.—The girls are trained with a view to domestic service. The commodious premises entail a good deal of housework.

Detailed Reports.

Reformatory Schools.

Sewing is well taught and the specimens exhibited were excellent. There is a good and profitable laundry.

Staff.—Superintendent, Miss Grindon; schoolmistress, Miss Simpson; sewing-mistress, Miss Humphries; cook, laundress, and a gardener.

Average number maintained, 43. Total cost for 1894, 913*l.* 10*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 4*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 5*s.* 2*d.*

Industrial profits, 48*l.* 9*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 32 discharged in 1891–93, there are doing well 28, doubtful 1, convicted of crime 3.

DURHAM.

Sunderland Reformatory for Girls, Tatham Street, Sunderland.

Inspected May 23, 1894.

Number of inmates on day of inspection, girls, 51.

State of premises.—There had been no alterations since my last visit; the premises were in perfect order, scrupulously clean, and thoroughly comfortable. There is a good playground, and good laundry accommodation. The house is not so well arranged as some of the more modern schools, which have been built specially for the work, but is sufficiently suitable, and answers the purpose well.

Health and general condition.—There had been no deaths since the last inspection; one case of pneumonia was the only serious case which there has been for some years. The girl was sent to the hospital in the town, and afterwards to the convalescent home in Harrogate. There is a sickroom, not very large, but bright and cheerful. The girls looked well cared for and contented.

Conduct and discipline.—The only exception to the general good conduct was that of two cases of absconding; one girl was transferred to the Aberdeen Reformatory and one to the reformatory at Glasgow; the latter was a girl who had given a great deal of trouble both at Sunderland and previously at the Hull Industrial School. Good discipline is maintained with very little punishment.

Educational state.—There were 12 girls in Standard Five. 12 girls in Standard Four. 11 in Standard Three. In all these classes reading, writing, dictation, and arithmetic very good; no failures. All the elder girls had had cooking lessons. 3 in Standard Two: reading and writing very fair; only one passed in arithmetic. 3 in Standard One doing very fairly. Order and attention excellent. Singing is taught.

Industrial training.—A few of the older girls work out as full-timers as domestic servants. The remainder are trained for service, and besides helping in housework, laundry, and kitchen, are taught to sew and knit. Very good work is carried on in the laundry.

Staff.—Superintendent, Miss McGillivray; assistant matron, Miss Hardy; schoolmistress, Miss King; sewing-mistress and laundress.

Average number maintained, 50. Total cost for 1894, 1,180*l.* 11*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 23*l.* 12*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 12*s.* 4*d.*

Industrial profits, 257*l.* 2*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 31 discharged in 1891–93, there are doing well 23, dead 1, doubtful 2, convicted of crime 5.

Essex.

Reformatory Ship "Cornwall," Purfleet, Essex.

Inspected October 26, 1894.

Number of inmates on day of inspection, boys, 246, and 22 on license.

State of premises.—In extremely good order. There is a small hospital close to the landing-stage, and about 1½ mile off a good cottage hospital with 24 beds, under the charge of a man and his wife. Everything on board was in perfect order, the decks well ventilated, the bilge sweet, and everything arranged for the comfort and well-being of the boys.

Health and general condition.—There had been one death from phthisis; four boys had been discharged as physically unfit for industrial training, two consumptive, one defective eyesight, one hæmoptysis; a good many cases of mild influenza, one of bronchitis, one pleurisy, one pneumonia, one serious case of ulcer on the shin; a mild case of enteritis. No other serious cases. All the boys looked well. I have never seen them looking better. There were some fine lads amongst them, and they appeared bright, cheerful, and healthy in every respect.

Conduct and discipline.—The general conduct had been exceptionally good, and a very good tone was apparent amongst the boys. A special list of good conduct boys who are entitled to privileges and a little pocket money; 45 are petty officers.

Educational state.—The upper standards did very well at the examination; the lower standards had rather fallen off, but there had been a great many new lads, which accounts for it. There were 18 boys in Standard Five: good reading, writing, and dictation, and good arithmetic with three exceptions. 27 in Standard Four: 1 failure in dictation, 5 in arithmetic. 46 in Standard Three: reading good with three or four exceptions; writing generally good; 2 failures in dictation, 6 in arithmetic. 20 in Standard Two: 7 failures in dictation, 5 in arithmetic. 9 in Standard One: 4 read well; writing fair; 3 failed in arithmetic. Order and attention excellent. Geography is taught in the upper standards.

Industrial training.—I saw the boys march past with their band, and at musical drill: very smartly done. Inspected the bedding of one

Detailed Reports.

Reformatory Schools.

division. There are models for nautical instruction, and classes for sailmaking, wire-rigging, and the usual nautical classes. There are 9 boats for practice in rowing. There is a very good band, and the lads have the use of a field on shore for football and cricket, at which games they can hold their own with their neighbours. At Gravesend regatta they took the first prize for rowing. Boys are taught to mend their own clothes and boots.

Staff.—Superintendent, Captain Morell, R.N.; chief officer, Mr. Nicholls; schoolmasters, Mr. Gardner (on sick leave), Mr. Jones, Mr. Williams; a chief instructor, five seamen instructors, two carpenters, bandmaster, cook.

Average number maintained, 235. Total cost for 1894, 5,233*l.* 15*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 5*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 17*s.* 2*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 255 discharged in 1891–93, there are doing well 195, dead 6, doubtful 10, convicted of crime 19, unknown 25.

Nautical Report.

"Cornwall" Reformatory School Ship.

Date of visit of inspection, September 7, 1894.

I. Condition and cleanliness of ship, and especially the bilges.—Good. Ship very clean throughout. Bilges particularly so.

II. Arrangements and appliances for putting out fire.—Good. One Downton pump, one Early's 3-inch pump. Three extincteurs. One Merryweather pump. A special feature is an arrangement on the upper deck of four 4-ton tanks joined up together, and which are kept full by water laid in from the shore, from these tanks a pipe descends, with hydrants, and hoses in each deck, by which an abundant and practically unlimited supply of water can instantly be directed in any part of each deck.

III. Condition and number of boats for exercising boys in pulling.—Good. Ten boats altogether. Six double-banked, two gigs, one sailing launch, and one sailing pinnace, easily capable of carrying all hands.

IV. Equipment of the ship generally in the way of masts and yards, rigging and sails, for the purposes of instruction as a training ship.—Efficient. Vessel jury-ship rigged, with foretopsail, and foretop-gallant and jib. I suggest a foresail should be fitted if possible.

V. The physical condition of the boys and their proficiency in the various nautical drills and exercises taught on board.—Majority of boys are up to the standard of their ages, some are undersized, all are clean and tidy. Drills and exercises were well, smartly, and quietly performed. One side of this ship being perfectly clear of obstructions, the boys are taught to heave the lead from the chains, and they heave it well.

VI. Whether boys are properly taught to "make and mend clothes" and the use of "palm and needle."—(*a.*) Yes. (*b.*) Yes.

(Signed) Frederic Echlin,
Captain R.N. (Retired.)

St. Edward's Reformatory for Roman Catholic Boys, Boleyn Castle, Upton Park, Plaistow, Essex, E.

Inspected October 24, 1894.

Number of inmates on day of inspection, boys, 106; 20 on license.

State of premises.—I found buildings and premises in good order and repair, and in a very efficient condition. Very good play-yard, in which football takes a prominent place. Dormitories clean and suitable. Good reading-room and playroom for the juniors. Five acres of land and a productive garden. Good chapel. Arrangements generally satisfactory.

Health and general condition.—Some cases of small-pox at the end of 1893. Twenty boys affected, but happily it was of a mild type; one ulcer of foot, one conjunctivitis, one axillary abscess, one case of rheumatism, one case of erysipelas, one of cholera, a few strumous cases, one fracture, and a few cases of sore eyes. Boys looked strong and hearty, and were in good spirits.

Conduct and discipline.—The record of offence and punishment was not a heavy one; not many serious offences. Some cases of dishonesty, striking, wilful damage, idleness, disobedience, and quarrelling; a few cases of impudence, but as a rule the lads behave remarkably well to the Brothers in charge. Two or three cases of leaving the premises without leave. Occasional bad language. I found the lads quiet and respectful. The school was going on very steadily.

Educational state.—22 in Standard Five: general work well done; a few cases weak in arithmetic; boys quick and intelligent and striving to do well. 25 in Standard Four: very fair work, reading and spelling very good; dictation well done, 3 failures; arithmetic many well done, 7 failures. 25 in Standard Three: reading and spelling very fair; dictation and writing well done; a little general geography; arithmetic neat and good. 14 in Standard Two: very fair work; mental arithmetic good. 14 in Standard One, an improving class, paper work. 4 in preparatory class: just in the elements. General order good.

Industrial training.—There is a large class for tailoring of 30 boys, including menders and knitters; 16 in the shoemaking, and many repairs for outside business. There is a large plot of land for cultivation, and a good garden and greenhouse. Some cows and a quantity of pigs are kept. The boys make their own bread and help in the kitchen. There is an excellent band. Manual instruction in the use of tools and woodwork should be introduced. Elementary drawing would be exceedingly useful.

Staff.—Brother Director, Brother Dominick; assisted by six Brothers of the Order of Mercy. Teachers, Brother James and Brother Isidore. Tailor, shoemaker, baker, gardener, and fieldman.

Average number maintained, 114. Total cost for 1894, 2,493*l.* 3*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 17*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 16*s.*

Industrial profits, 279*l.* 17*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 122 discharged in 1891-93, there are doing well 99, dead 5, doubtful 2, convicted of crime 10, unknown 6.

GLAMORGAN.

Glamorganshire Reformatory for Boys, Ty Segur, Neath, South Wales.

Inspected July 20 and 21, 1894.

Number of inmates on day of inspection, boys, 55, and 4 on license.

State of premises.—Went over house and premises and found the whole place in very good order. The arrangements are suitable and convenient. Situation healthy. I had a walk over the farm, 40 acres, and vegetable gardens. The gardens are exceedingly well managed and very productive. The boys were working intelligently under skilful direction. The abundant crop of vegetables gave evidence of clever management.

Health and general condition.—Health good. Boys looked hearty and thriving, clean and decent. A few cases of severe cold, one abscess on elbow joint, one rheumatic fever in hospital. General condition satisfactory.

Conduct and discipline.—Very fair; a good many new boys; one case of absconding in November 1893, one case of smoking and lying, two boys selling cabbage plants and keeping the money, a bad case of destroying a letter, lying, and absconding, two other cases of absconding; a few minor offences. School latterly going on very well; very steady work and good feeling between officers and boys.

Educational state.—School doing well under a careful teacher. 10 in Standard Five: intelligent work; excellent writing, dictation, and arithmetic; good recitations from all standards. 12 in Standard Four: class doing well; superior work. 11 in Standard Three: class doing well, with the exception of two or three Welsh boys, two rather difficult to advance. 11 in Standard Two: all improving; good mental arithmetic. 9 in Standard One: making fair progress. 2 in preparatory class: boys very willing and attentive.

Industrial training.—The farm and the vegetable gardens supply a large amount of useful outdoor training. Vegetables are raised in considerable quantities for market. 40 acres of land and some rough pasture; 4 milch cows, 4 sows, 10 store pigs, and a quantity of poultry need care and attention. A tailor has 7 boys under his charge for mending the clothing. The training is practical and useful.

Staff.—Superintendent and matron, Mr. and Mrs. G. Ewens; schoolmaster, Mr. A. Babington; farm bailiff, Mr. Smith; tailor, Mr. Probert; one domestic.

Average number maintained, 59. Total cost for 1894, 1,072*l.* 13*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 3*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 17*s.* 7*d.*

Industrial profits, 164*l.* 12*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 52 discharged in 1891–93, there are doing well 37, doubtful 1, convicted of crime 13, unknown 1.

GLOUCESTER.

Hardwicke Reformatory for Boys, near Gloucester.

Inspected July 26, 1894.

Number of inmates on day of inspection, boys, 61.

State of premises.—Buildings are old-fashioned, but clean, in good order, and comfortable enough. Some land has been given up, and the farm now consists of 75 acres; the crops were looking well. A better lavatory is much wanted. A cottage a short distance from the main buildings is available for infectious cases.

Health and general condition.—The health generally had been excellent, and the boys looked very well, bright, cheerful, and robust.

Conduct and discipline.—One boy had been sent to prison for four months for stealing when out at work. The birch had only been used twice during the year, and there had been very little punishment of any kind.

Educational state.—Order and attention during the examination very good. There were 13 boys in Standard Five: a good class, only 1 failure in arithmetic. 11 in Standard Four: 2 failures in dictation; 3 in arithmetic; reading and writing very fair. 18 in Standard Three: a good class, only 1 failure in arithmetic. Geography of England in the three upper classes. 11 in Standard Two and 4 in Standard One: making good progress. 3 in a preparatory class.

Industrial training.—Farm work and gardening are the principal industries. Some of the smaller boys make match-boxes; all clothes and outfits are made on the premises. Bread is baked on the premises. Cows are kept, and capital butter made. The garden is very well kept.

Staff.—Superintendent and matron, Mr. and Mrs. Gee; schoolmaster, Mr. Moore; labour-master, farm man, gardener.

Average number maintained, 60. Total cost for 1894, 1,288*l.* 19*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 9*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 7*s.* 1*d.*

Industrial loss, 28*l.* 10*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 81 discharged in 1891–93, there are doing well 69, dead 1, doubtful 3, convicted of crime 8.

Kingswood Reformatory School for Boys, Kingswood, near Bristol.

Inspected June 26, 1894.

Number of inmates on day of inspection, boys, 96; on license 2; 41 new boys received in the year.

State of premises.—The new building is now fully occupied, and the old buildings cleared away. The new house is an excellent one, and supplies good accommodation. A new laundry has been erected, and I found good progress in every respect. Much labour has been expended in bringing the new site into shape, and in levelling the ground about the building. Much also had been done to the garden. The school promises well under the new *régime*, and is doing good work.

Health and general condition.—The medical report was very favourable, very little serious sickness. Boys had a healthy appearance. Some very fine lads to be seen. One injury to elbow-joint; two cases of itch; one inflammatory cold. All boys vaccinated; much small-pox in the neighbourhood; a few cases of skin eruption. Until the new hospital is erected, a room in the new building is appropriated as an infirmary.

Conduct and discipline.—General report as to conduct encouraging. Much general improvement; a few serious cases of theft; one of insubordination; one out of bounds, stealing fruit; one case of breaking into tailor's shop; a few cases of impertinence to officers; one of bad language. The school working steadily, in spite of some drawbacks. Boys in good order and well behaved. Discipline effectually maintained.

Educational state.—School doing well. 17 in Standard Six: work thoroughly well done; no failures; writing excellent. 9 in Standard Five: very fair class; no failures; just a little dull; recitations good. 16 in Standard Four: an intelligent class and work well done; 1 weak in arithmetic. 19 in Standard Three: no failures, very fair intelligence, all improving. 19 in Standard Two: an improving class, much good work. 12 in Standard One: all doing well; proper work; very good arithmetic. 4 new boys in preparatory class. Order excellent. There is a mark system at work, which is exercising good influence in the school.

Industrial training.—I found good work going on in the tailor's and shoemaker's shops. Both are new shops, and supply excellent accommodation. About 36 boys work on the farm and in the garden, which I found much improved and under careful cultivation. The carpenter's shop has been given up for the present. Technical instruction in the use of tools and in woodwork should be re-introduced as soon as possible. There is an excellent band.

General remarks.—With a substantial and commodious new building the school enters upon a new phase of its useful career. Something yet remains to be done, but the progress hitherto has been most satisfactory, and I cannot doubt that before long the requisite buildings will be completed.

Staff.—Superintendent and matron, Mr. and Mrs. George Whitwell; schoolmaster, Mr. W. Verity; assistant schoolmaster, Mr. Rex; cook and bandmaster, Mr. J. Bates; gardener and bailiff, Mr. Jno. Wheatley; general assistant, Mr. Goodrick; laundress and nurse, Mrs. Goodrick.

Average number maintained, 95. Total cost for 1894, 1,600*l.* 10*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 17*s.*

Net cost per head, including profit or loss on industrial departments 14*l.* 2*s.* 2*d.*

Industrial profits, 280*l.* 12*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 59 discharged in 1891–93, there are doing well 48, dead 1, doubtful 1, convicted of crime 6, unknown 3.

Arno's Court Reformatory for Roman Catholic Girls, Arno's Vale, Bath Road, near Bristol.

Inspected June 29, 1894.

Number of inmates on day of inspection, girls, 59.

State of premises.—The house and premises were as usual in admirable order. There is plenty of room, with large playground, covered play-shed, and field for summer exercise. The interior accommodation is excellent, with airy and spacious classrooms and workrooms. Good laundry, with every appliance.

Health and general condition.—Health very good. Medical report satisfactory. The elder girls especially looked hearty and strong. A few weakly on admission. One consumptive case in the sickroom, not likely to recover, a case recently admitted. General appearance indicative of proper food, care, clothing, and attention.

Conduct and discipline.—The report as to conduct was of an encouraging character. A few cases of insolence and misbehaviour and some idleness and neglect. The girls had given comparatively little trouble and appeared to be in good spirits and to be well inclined.

Educational state.—This is carefully and regularly attended to. 17 in Standard Five: good reading and spelling; dictation very good; writing excellent; 4 weak in arithmetic; some good recitations. 13 in Standard Four: work very fairly done; class improving. 12 in Standard Three: a promising class; all work very well done. 9 in Standard Two: class improving; very good work. 7 in preparatory class: getting on. Two girls over 15 years of age; quite ignorant; one rather weak; one recently admitted. Girls quiet and orderly. Discipline good.

Industrial training.—Some very good samples of needlework and knitting were exhibited. Some good woolwork embroidery. The girls make their own bread and help in the kitchen. There is a good laundry, with plenty of superior work. The girls assist in all the household work.

Staff.—Superioress and Sisters of the Order of the Good Shepherd, with a sufficient staff of lay assistants.

Average number maintained, 79. Total cost for 1894, 1,305*l.* 17*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 10*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 7*s.* 3*d.*

Industrial profits, 316*l.* 7*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 50 discharged in 1891–93, there are doing well 41, dead 1, doubtful 3, convicted of crime 2, unknown 3.

Red Lodge Reformatory School for Girls, Park Row, Bristol.

Inspected June 25, 1894.

Number of inmates on day of inspection, girls, 45, and 9 on license.

State of premises.—House and premises in excellent order. Dormitories clean and wholesome. Good laundry. Large play-yard and covered play-shed. General accommodation convenient and suitable.

Health and general condition.—Very fair. The girls looked healthy and properly cared for. A few cases of strumous eczema and three or four cases of tonsillitis; one psoriasis; one epileptic seizure. A case or two of swelled glands; one neuralgia. Many of the girls revaccinated.

Conduct and discipline.—Girls generally going on well; a few troublesome ones. A few cases of refusal to work, insolence, and obstinacy. One girl planning to abscond, transferred to another reformatory. A little bad temper occasionally, with outbreaks of obstinacy and impertinence. But with some troubles of this kind now and then, the school goes on steadily and continues to exert a very good influence. The girls behaved exceedingly well.

Educational state.—Well attended to. 10 in Standard Five: reading very good, with proper expression; spelling excellent; good writing and dictation; arithmetic, all passed but one. 10 in Standard Four: good reading and spelling; 4 rather weak in dictation; writing very good; 3 weak in arithmetic. 9 in Standard Three: 1 weak in spelling and dictation; 1 in arithmetic. The rest passed creditably. 9 in Standard Two: good class, improving. 4 in Standard One: doing well. 2 in preparatory class, just beginning. Girls quiet and attentive.

Industrial training.—The elder girls are occupied with laundry work, which is of a good character. Needlework has always been very well attended to in the school, with knitting and woolwork. Cooking lessons should be systematically given. The girls assist in the kitchen and the housework.

Staff.—Superintendent, Miss E. A. Langabeer; general assistant, Miss Hammond; schoolmistress, Miss S. J. Langabeer; laundry matron, Miss Turner. Two junior assistants.

Average number maintained, 43. Total cost for 1894, 1,173*l.* 14*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 27*l.* 5*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 25*l.* 4*s.* 6*d.*

Industrial profits, 227*l.* 14*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 45 discharged in 1891–93, there are doing well 35, dead 1, doubtful 2, convicted of crime 2, unknown 5.

Hants.

Hants Reformatory School for Boys, Eling, near Southampton.

Inspected July 18, 1894.

Number of inmates on day of inspection, boys, 79, and 1 on license.

State of premises.—I found the whole establishment in perfect order, dormitories clean and wholesome. The accommodation is plain, but serviceable and suitable. There is a small room for sick cases, which I carefully inspected. Good farm and garden under careful cultivation.

Health and general condition.—Rather more sickness than usual since the last inspection. One severe chill, two feverish colds, one death from meningitis, one death from pleurisy in January, five cases of pleuro-pneumonia. Two other cases of swollen glands, some severe colds in January and February 1894. Boys looked hearty and well on day of inspection. Some very fine lads in the school.

Conduct and discipline.—Some restlessness in November 1893, one absconder and four intending to abscond, one case of gross impudence, one of continued disobedience; two cases of bullying another; one stealing onions; one leaving premises without leave. A system of marks and rewards was introduced in the year, and appeared to be working advantageously. Boys well-behaved on the day of inspection.

Educational state.—There had been a change of teachers. But the school work was being well attended to. 15 in Standard Six: reading and spelling very good; English composition well done; all passed in arithmetic but one; an intelligent class. 14 in Standard Five: work very well done; 2 weak in arithmetic. 11 in Standard Four: 1 weak in dictation; good results generally. Standards Six, Five, and Four, good elementary geography. 11 in Standard Three: very good work. 20 in Standard Two: all doing well with one or two exceptions. 4 in Standard One: getting on. Boys quiet and orderly; school well attended to.

Industrial training.—The home farm of 40 acres gives an abundance of outdoor occupation. Six milch cows and some young stock are kept, with a number of pigs, poultry, &c. There is a carpenter's shop and a very good garden. The boys make their own clothing, boots, &c., and make their own bread. The practical training is very useful.

General remarks. The Diocesan Inspector's report on the religious instruction of the lads (September 21, 1894,) was quite satisfactory.

Staff.—Superintendent, Mr. W. F. Harold; matron, Miss S. A. Harold; schoolmaster, Mr. Pinhorwood; labour-master, baker, waggoner, and farm workman.

Average number maintained, 79. Total cost for 1894, 1,763*l.* 14*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 6*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 4*s.* 2*d.*

Industrial profits, 136*l.* 13*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 49 discharged in 1891–93, there are doing well 42, convicted of crime 6, unknown 1.

Herts.

Herts Reformatory School for Boys, Chapmore End, Ware, Herts.

Inspected July 23, 1894.

Number of inmates on day of inspection, boys, 30, and 2 on license.

State of premises.—I found all in excellent order. Dormitories clean and comfortable. Good infirmary. A home farm of 40 acres and a considerable garden. Six milch cows are kept, as well as pigs, poultry, &c. A very healthy site.

Health and general condition.—The health had been well maintained. The boys looked strong and thriving. One case of inflammation of eye. In December nine boys attacked with influenza, but of a mild type. One epileptic attack; one abscess in groin; one effusi of knee-joint. No sick on day of inspection. Sanitary condition very good.

Conduct and discipline.—A good many cases of petty stealing and idleness; one of filthy conversation; one of absconding. Boys in good order, discipline well maintained. General appearance satisfactory.

Educational state.—This receives proper attention. 3 in Standard Six: three advanced lads. General results good, but the arithmetic was indifferent. 5 in Standard Five: work well done; 1 failure in arithmetic. 8 in Standard Four: class did well; but 3 failed in arithmetic. Good recitations in Six, Five, and Four. 7 in Standard Three: very fair results; the junior boys a little defective, recent admissions, and some not very bright. Order very good.

Industrial training.—The farm work employs most of the boys, and some work is done at times for the neighbouring farmers. Some faggot-making and stone-picking is done in the winter. There is a large plot of garden ground.

General remarks.—A satisfactory report from the Diocesan Inspector on the religious instruction of the boys, dated May 17, 1894.

Staff.—Superintendent, Mr. J. A. Fish; matron, Mrs. Webber; schoolmaster, Mr. Godden; labour-master, Mr. W. Darby; assistant matron; tailor, occasional.

Average number maintained, 34. Total cost for 1894, 822*l.* 5*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 3*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 4*s.* 2*d.*

Industrial profits, 136*l.* 13*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 47 discharged in 1891–93, there are doing well 38, dead 2, convicted of crime 7.

Lancashire.

Reformatory School Ship "Akbar," Rockferry, Liverpool.

Inspected April 26, 1894.

Number of inmates on day of inspection, boys, 171, and 72 on license.

State of premises.—I went over every department of the ship, and was glad to find all in excellent order. Much had been done in the way of improvement since my last visit—considerable outlay on repairs—new timber and new bulwarks. The general arrangements are suitable and convenient. The boys sleep on the orlop deck. Good gymnasium, library, and reading-room; a commodious new boat had been added to the ship's equipment.

Health and general condition.—A somewhat long list of ailments and several of a serious character — some cases of eye disorder; one phthisis, one scabies, one sunstroke, one epileptic seizure, one death from heart disease, one pneumonia, one strumous abscess, a few sore throats, one inguinal hernia, one synovitis, one quinsy, one rheumatic fever, one fistula, one death from meningitis—one lying ill with pleuritic effusion. The boys looked well, but the general health for the past two years has been unsatisfactory.

Conduct and discipline.—The report for the year, with a few serious exceptions, was satisfactory. Discipline is well maintained without undue severity; general manner and appearance very favourable; a few cases of theft—one serious case of breaking into captain's cabin; some cases of insolence and insulting language to officers; picking lock of cell and absconding; breaking into cook's galley, theft, and absconding; four boys recently leaving boat and absconding. In spite of some drawbacks the ship was steadily holding her course, and the main body of the boys well disposed and improving.

Educational state.—I took the port watch for the day. 30 in Standard Five: an intelligent class, all the work very carefully done; hardly a failure. 23 in Standard Four: no defect; all getting on well; work carefully done, and much progress. 21 in Standard Three: very fair results; 2 weak in dictation; elementary geography. 11 in Standard Two: all doing well. 1 in Standard One and 4 in preparatory class: the latter backward and ignorant; new boys. General order and attention excellent.

Industrial training.—I inspected the starboard watch in their classes for nautical instruction, which are systematically carried on. There is a competent staff. The appliances for instruction are ample and suitable. There is a class for tailoring—the boys make most of their own clothing—and a class for sail and hammock making. Three or four boys work with the carpenter; some work with the cook in the galley. There is a good band, and there is a field on shore for occasional cricket and football.

Staff.—Captain Superintendent, Captain Edward Hicks, R.N.; chaplain, Rev. R. G. Brearey; chief officer, Mr. J. Callander; schoolmaster, Mr. Bishop; assistant ditto, Mr. Owens, who is bandmaster; also tailor, cook, carpenter, five seamen instructors, one shipping officer.

Average number maintained, 178. Total cost for 1894, 3,550*l.* 1*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 18*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 13*s.* 4*d.*

Industrial profits, 14*s.*

Results on cases discharged in the three years 1891, 1892, and, 1893.—Of 140 discharged in 1891-93, there are doing well 86, dead 5 doubtful 1, convicted of crime 17, unknown 31.

Detailed Reports.

Reformatory Schools.

NAUTICAL REPORT.

Date of Visit of Inspection, September 4th, 1894.

I. Condition and cleanliness of ship, and especially the bilges.—Good. Ship clean. Bilges very clean and sweet.

II. Arrangements and appliances for putting out fire.—Good. There are three seven-inch Downton pumps and one fire engine. A steam fire engine is contemplated.

III. Condition and number of boats for exercising boys in pulling.—Good. There are five double-banked boats, one six-oared galley, and one four-oared gig. The boats are capable of carrying all hands.

IV. Equipment of the ship generally in the way of masts and yards, rigging and sails, for the purposes of instruction as a training ship.—Efficient. The vessel is jury-ship rigged, with a foretop-gallant, foretopsail and jib. I think a foresail should, if possible, be added.

V. The physical condition of the boys and their proficiency in the various nautical drills and exercises taught on board.—Good. The majority of the boys are quite up to the standard of their ages. The nautical drills and exercises taught on board were well performed, and the boys move smartly and quietly. I suggest that one of the swinging boom ends should be fitted for heaving the lead; at present the boys are not taught this essential part of a seaman's work; there are so many projections from the ship's side, that heaving from the chains has been found impracticable.

VI. Whether boys are properly taught to "make and mend clothes" and the use of "palm and needle."—(*a.*) Yes. (*b.*) Yes.

(Signed) FREDERIC ECHLIN,
Captain, R.N. (Retired).

Liverpool Farm School Reformatory for Boys, Newton Bridge, Newton-le-Willows.

Inspected April 28, 1894.

Number of inmates on day of inspection, boys, 134; on license 26.

State of premises.—Found the house and premises in excellent order, and under careful supervision. Dormitories clean and wholesome; boys classified in the dormitories as far as possible; very good workshops; situation airy and healthy; good play-shed; plenty of room for recreation; good swimming bath in the summer; excellent lavatory. All carefully kept.

Health and general condition.—The medical report was favourable; health satisfactory; a few ordinary cases; one bronchial catarrh; one tonsillitis; one bad eyes; one acute case of phthisis, died soon after discharge; one eczema; one crushed finger; a few strumous cases; one gastric pericarditis. Boys looked hearty and well, and take plenty of exercise at recreation time.

Conduct and discipline.—A good many new boys in the year, and a little extra trouble in consequence. Some ordinary cases of theft, use of bad language, and fighting; one or two cases of absconding and attempt to abscond; one case of stealing from a shop in the village. Little or no insubordination, and the Superintendent was able to report substantial progress and improvement. Boys well-behaved, quiet, and orderly.

Educational state.—The classes made a good appearance. 24 in Standard Five: good results generally; 2 failures in arithmetic,

26 in Standard Four: with a few exceptions class did well; 5 weak in dictation, 3 in arithmetic. 36 in Standard Three: very fair work; 2 failed in arithmetic; class making good progress. 33 in Standard Two: a good many new boys in the class, but all improving and under proper care and attention. 15 in Standard One: class gradually improving; very fair work. Boys in very good order.

Industrial training.—The industrial training is varied and useful. I found 8 boys working with the shoemaker; 17 with the tailor—both good shops and doing well; 9 juniors with sempstress in sewing class, mending and darning. A few boys work with the joiner; some wood-chopping is still done in the winter months. The boys make their own bread. There is a flour mill which employs 1 man and 2 boys. The farm supplies much outdoor labour; 17 work in the garden, 24 on the farm. The garden is under careful cultivation, with some good greenhouses.

Staff.—Superintendent, Mr. J. Digweed; matron, Mrs. Digweed; assistant matron; schoolmaster, Mr. Needham, and assistant ditto, Mr. Lockhead; tailor, shoemaker, carpenter, gardener, miller, bailiff, carter, drillmaster, laundress, and needle-woman.

Average number maintained, 137. Total cost for 1894, 2,389*l.* 13*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 8*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 17*s.* 5*d.*

Industrial profits, 131*l.* 18*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 101 discharged in 1891–93, there are doing well 58, dead 2, doubtful 3, convicted of crime 29, unknown 9.

Liverpool Girls' Reformatory, 6, Mount Vernon Green, Edge Hill, Liverpool.

Inspected April 19, 1894. Visited November 27, 1894.

Number of inmates on day of inspection, girls, 77, and 18 on license; 2 in hospital.

State of premises.—The premises are suitable and convenient for their purpose, there is a large play-yard and a good covered shed for recreation in bad weather. The situation is a healthy one. Very commodious laundry and ironing-room. I found all the apartments very clean and tidily kept.

Health and general condition.—The girls in fair health on days of inspection, but a good many cases of indifferent health. Several cases of debility and constitutional weakness, one case of rheumatism, a few cases of sore throat, enlarged tonsils, one or two cases of inflamed eyes and enlarged glands, one case of psoriasis; two cases in hospital, obliged to be sent on admission. Many of the girls had a healthy appearance and improve generally after being in the school a year or two. Many with impaired health on admission.

Conduct and discipline.—Conduct on the whole very fair. The girls are managed with much tact and special knowledge. A few cases of impertinence and refusal to work. Some deception and untruth, occasional insubordination and reluctance to obey, but not of a violent character. Two girls stole the washing money; a few occasionally disrespectful, obstinate, and unreasonable. The school on the whole exercises a sound influence for the benefit of the girls.

Educational state.—Very fair work from all the classes. 14 in Standard Five; reading and spelling very fair; recitation good; all passed in dictation, writing good; 5 backward in arithmetic, the rest fairly satisfactory. 14 in Standard Four: general work good, but 4 backward in arithmetic. 19 in Standard Three: an improving and well-taught class; no failures in the class, arithmetic very good. 14 in Standard Two: class getting on well, carefully taught and improving. Recitation well known. 12 in Standard One: doing very well except in the case of two girls, old and dull. General order excellent.

Industrial training.—There is a good laundry, which is fully occupied with work. Needlework and knitting receive a fair share of attention, and the cooking class has been maintained with the greatest advantage. The girls sing very nicely. Good specimens of laundry work were exhibited, and some good plain needlework and knitting.

Staff.—Superintendent, Mrs. Dearle; assistant superintendent, Miss Ferguson; schoolmistress, Miss Lawrie; sewing-mistress, Miss Cullen, laundry matrons, Miss Jones and Miss Edwards; chaplain, Rev. G. Brearey.

Average number maintained, 78. Total cost for 1894, 1,646*l.* 19*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 2*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 18*s.* 8*d.*

Industrial profits, 280*l.* 2*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 65 discharged in 1891–93, there are doing well 44, dead 3, doubtful 6, convicted of crime 3, unknown 9.

Reformatory School Ship "Clarence" for Roman Catholic Boys, off New Ferry, Birkenhead.

Inspected May 2, 1894.

Number of inmates on day of inspection, boys, 204; 35 on license.

State of premises.—I found every department of the ship in its usual condition of complete efficiency. The "Clarence" is a fine commodious vessel, and supplies admirable accommodation for the number dealt with. The arrangements are good. The boys are well provided for.

Health and general condition.—The boys looked healthy and robust, a good many cases of ophthalmia during the past year; one death from phthisis, one from tuberculosis; a few cases of enlarged glands, one case of jaundice, a case or two of ringworm, one pneumonia, one

debility, one muscular rheumatism, one congestion of lungs. With these exceptional cases of an acute character, health very fair.

Conduct and discipline.—Discipline thoroughly maintained, but a good many cases of difficulty and misconduct throughout the year. Two or three cases of absconding; several cases of theft, disobedience, and neglect of duty. Some bad and filthy language, some trouble from the prohibited use of tobacco. Two cases of indecency, one serious case of crew deserting boat and going ashore. A good many rough lads on board, but good order is well maintained. The lads were quiet and respectful on the day of my visit and well under control.

Educational state.—I took the starboard watch for the day. 38 in Standard Five: some very good work and much intelligence; 5 failures in dictation, 7 in arithmetic. 22 in Standard Four: a very fair class, with some failures; 2 weak in spelling, 1 in dictation, 8 failures in arithmetic. 30 in Standard Three: good reading, 3 or 4 weak in spelling, writing very fair, 4 failures in dictation, 3 in arithmetic. 19 in Standard Two: class did well except in arithmetic, which was bad with 8 failures. 14 in Standard One, and 17 in port watch also, weakness in arithmetic. 5 in preparatory class; rather dull and very ignorant. Order good.

Industrial training.—I inspected the port watch at their regular nautical instructions under a competent staff of seamen instructors. These are thoroughly and efficiently done, and the appliances for imparting the special knowledge required are the best that can be supplied. A class of boys work with the tailor and make almost all the ships' clothing. There is a class also for sail and hammock making, and a few boys work with the carpenter; some assist in the galley. There is an excellent band. The boys drill and march well. Boating exercise is well attended to.

Staff.—Captain Superintendent, Captain E. P. Statham, R.N.; chief officer, Mr. John Thompson; schoolmaster, Mr. John Kearney, assistant ditto, Mr. W. Duggan; carpenter, cook, eight seamen instructors; chaplain, Rev. E. Watson; shipping officer, bandmaster.

Average number maintained, 221. Total cost for 1894, 4,197*l.* 15*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 19*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 13*s.* 10*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893—Of 179 discharged in 1891–93, there are doing well 92, dead 4, doubtful 8, convicted of crime 41, unknown 34.

Nautical Report.

Date of Visit of Inspection, September 5th, 1894.

I. Condition and cleanliness of ship, and especially the bilges.—Very good. Ship very clean. Bilges are very clean and sweet.

II. Arrangements and appliances for putting out fire.—Good. There three seven-inch Downton pumps, and hoses will lead to all parts of the ship.

III. Condition and number of boats for exercising boys in pulling.—Good. There are five double-banked boats and one four-oared gig, capable of carrying all hands.

IV. Equipment of the ship generally in the way of masts and yards, rigging and sails, for the purposes of instruction as a training ship.—Efficient. The vessel is jury-ship rigged, with a foretop-gallant, foretopsail and jib. I think a foresail should be fitted if possible.

V. The physical condition of the boys and their proficiency in the various nautical drills and exercises taught on board.—Good. Most of the boys are up to the standard of their ages, though some are undersized. They performed their different drills well, smartly, and silently. I suggest that one of the swinging boom ends should be fitted for heaving the lead; at present the boys are not taught this essential part of a seaman's work. There are so many projections from the ship's side, that heaving from the chains is found to be impracticable.

VI. Whether boys are properly taught to "make and mend clothes" and the use of "palm and needle."—(*a.*) Yes; to a limited extent. (*b.*) Yes; to a limited extent.

(Signed) Frederic Echlin,
Captain, R.N. (Retired).

North Lancashire Reformatory for Boys, Bleasdale, Garstang, North Lancashire.

Inspected May 19, 1894.

Number of inmates on day of inspection, boys, 125, and about 30 on license.

State of premises.—Well satisfied with the condition of the house, premises, and surroundings. There is constant supervision and an anxious desire at all times to make the whole place practically more serviceable and efficient year by year. There are always some improvements to be found at every visit. The accommodation is of a simple character, but always well-kept, clean, and serviceable in the highest degree.

Health and general condition.—Boys very healthy. Medical report excellent. One case of congestion of lungs, one of jaundice; good recovery. Boys clean, active and vigorous. Sanitary conditions carefully attended to. Plenty of pure fresh water. General aspect eminently encouraging.

Conduct and discipline.—Order and discipline well maintained; at the same time the boys are treated in a frank and friendly manner. The utmost interest is taken in the welfare and progress of each individual. The interest of each one is the interest of all. A good many new boys, and some faults and offences of petty pilfering, disorder, passionate temper, confirmed idleness, inherent vice, and appropriation of property. Two cases of absconding, one attempt to abscond. In spite of all drawbacks, much excellent work going on, much improvement of character, more honesty, more truthfulness, more trust and confidence. Boys quiet and well-behaved. School continues to do well.

Educational state.—This is carefully attended to. 18 in Standard Five: a good class; intelligent and well-taught; superior writing, no failures; careful work. 28 in Standard Four: all exercises well and carefully done; excellent arithmetic; class doing well. 27 in Standard Three: very fair work; class carefully taught and all improving; 1 failed in arithmetic, 1 in dictation. 29 in Standard Two: class making good progress and very carefully taught. 22 in Standard One: class doing well, persevering teaching. General order excellent. The lads sing well.

Industrial training.—I saw the boys at their outdoor work and went through the workshops, cow-house, poultry-yard, and dairy. There is a large farm, a great part of which is rough fell-pasture. 20 boys work as tailors, 20 as shoemakers; very good specimens of work from each of these shops, and much going on. The chief occupation is agriculture, care of horses, cows, young stock, poultry, and pigs. Very good training for the colonies or country life.

Staff.—Superintendent, Mr. Alfred King; matron, Mrs. King; schoolmaster, Mr. Allison; assistant ditto, Mr. Sydney Goode; tailor, shoemaker, labour-master, cowman, general assistant, cook, and laundress.

Average number maintained, 130. Total cost for 1894, 2,502*l.* 14*s.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 5*s.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 16*s.* 8*d.*

Industrial profits, 104*l.* 1*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 143 discharged in 1891–93, there are doing well 121, doubtful 2, convicted of crime 18, unknown 2.

Manchester and Salford Reformatory for Boys, Blackley, near Manchester.

Inspected May 12, 1894. Visited September 28, 1894.

Number of inmates on day of inspection, boys, 90; on license 22.

State of premises.—There had been no material alteration since last inspection. Every part was in thoroughly good working order. The painting and colouring had been done by the boys. There are good workshops, and a spacious gymnasium and recreation room. There are about 70 acres of land in all. Three or four acres of garden with three good greenhouses.

Health and general condition.—The general health had been very good. There had been an outbreak of small-pox in the neighbourhood but the school had fortunately escaped. One case of pleurisy and pneumonia, recovered. One boy had accidentally wounded himself with a chisel, but was well at the time of inspection. One case of synovitis and one of anæmia. All looked hearty and well. The school sustained a sad loss at the beginning of the year by the death of the matron, Mrs. Collins.

Conduct and discipline.—Some cases of pilfering and stealing money. Others of bullying, lying, idleness, and impudence. A boy from an Industrial School had induced another to abscond along with himself; they were brought back within 12 hours. The same boy subsequently tried to induce new boys to abscond. Several minor punishments for school offences. All behaved well during the examination, and looked smart and clean. The official record of punishments inflicted was subsequently called in question, and after a careful inquiry was found not to be a full and faithful account.

Educational state.—18 in Standard Five: reading and spelling good; writing very fair; 1 failure in dictation and 1 in arithmetic. 23 in Standard Four: reading and spelling good; writing very fair; all passed in dictation; 4 failures in arithmetic. 31 in Standard Three:

reading, spelling, and writing good; 3 failed in dictation; all passed in arithmetic. 10 in Standard Two: reading and spelling good; promising writing; 3 failures in arithmetic. 8 in preparatory class, mostly new-comers; all but one making progress. Drawing had been taught to all classes, and very fair specimens were shown. Mental arithmetic, book-keeping, and geography had also received attention.

Industrial training.—There is a good tailor's shop employing 15 boys; 6 work at shoemaking; 7 at carpentering, painting, &c.; 2 in the bakery; 25 match-box makers; 6 in the gardens; 9 field and stock boys; 2 work in the village, one with a blacksmith and the other with a tinsmith. The remainder have various occupations about the house, in the laundry, or at wood-chopping in wet weather. The gardens looked well cared for.

Staff.—Superintendent, Mr. Wm. Collins; matron, Miss Nunn; schoolmaster, Mr. Aldritt; farm bailiff, stableman, shoemaker, tailor, carpenter, labour-master, gardener.

Average number maintained, 90. Total cost for 1894, 2,104*l.* 7*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 23*l.* 7*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 11*s.* 9*d.*

Industrial profits, 462*l.* 19*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 79 discharged in 1891–93, there are doing well 57, dead 1, doubtful 4, convicted of crime 9, unknown 8.

Birkdale Farm Reformatory for Roman Catholic Boys, Ainsdale, near Southport, Lancashire.

Inspected May 1, 1894; visited November 29, 1894.

Number of inmates on day of inspection, boys, 195; on license 44.

State of premises.—In the prolonged absence of the Superintendent, Mr. Shee, from impaired health, a good many defects were to be seen which would not have been visible if the Superintendent had been at his post. But I found the school, notwithstanding, in very good order externally. The dormitories were clean and fresh, and the various officers were attending to their duties in an exemplary manner. The buildings supply excellent accommodation. The boys are well provided for in every point of view.

Health and general condition.—Health fair. Many of the lads looked hearty and strong. A few cases of swollen glands. A number of boys re-vaccinated. One acute rheumatism, one pleurisy, some cases of influenza. In August four cases of influenza and a few of sore eyes, a few sore throats in September and a prevalence of eye complaints. One case of phthisis, one cardiac disease, one strumous ulceration, one case of coma, with cerebral effusion and high fever, ending fatally. Some cases of fever in the early part of the year, one pneumonia; three in infirmary on day of visit, one pneumonia case, one feverish, one bad eyes.

Conduct and discipline.—The school had not been going on very quietly in the absence of the Superintendent. A good many serious faults and punishments. Some serious insubordination at times. Several cases of absconding and attempts to abscond. A good deal of quarrelling and disorder, some of bad language and disobedience, some theft, and some attempts to excite bad feelings. I visited the school later in the year, when the Superintendent had returned to duty, and was glad to find discipline and good order restored and the school working as quietly as usual.

Educational state.—This had fallen off considerably. Much time had been lost. The classes did not appear to advantage. 30 in Standard Five: indifferent work; a great many failures; 19 failed in arithmetic. 45 in Standard Four: reading and spelling very fair; dictation well done, writing good; 8 failures in arithmetic. 55 in Standard Three: a very indifferent class and a great many failures, especially in dictation and arithmetic. 39 in Standard Two: very inferior work and a great many failures. 20 in Standard One: many defects. The educational display was altogether discreditable to the work of the year. Boys were orderly and quiet. I am unable to understand why the schoolroom work should fail to such an extent as it did, even if the Superintendent be absent for a few months.

Industrial training.—I found 32 in the tailor's shop, 25 in the shoemaking. Both these are good shops and turn out very creditable work. The shoemakers make for May Place and Freshfield girls. 12 work with the baker, 2 in the joiners' shop, 52 in the wood-chopping department. The extensive gardens and greenhouses employ a considerable number of boys, and provide much useful occupation. The home farm comprises 34 acres of land. Cows, horses, pigs, and young stock are kept. The industrial occupation is a marked feature in the operations of the school.

Staff.—Superintendent, Mr. Daniel H. Shee (absent at date of inspection); *locum tenens*, Mr. McMenaham; assistant superintendent, Mr. John Guinan; head schoolmaster, Mr. F. Turner; assistant schoolmaster, M. Franks; infirmarian, tailor, shoemaker, baker, farm bailiff, assistant farm bailiff, 2 joiners, cook, and laundress; bandmaster occasional. The chaplain attends regularly.

Average number maintained, 199. Total cost for 1894, 3,673*l.* 17*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 18*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 6*s.*

Industrial profits, 288*l.* 18*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 163 discharged in 1891–93, there are doing well 100, dead 11, doubtful 3, convicted of crime 45, unknown 4.

Toxteth Park Reformatory School for Girls, 9, Park Hill Road, Toxteth Park, Liverpool.

Inspected April 24, 1894. Visited November 29, 1894.

Number of inmates on day of inspection, girls, 60, and 12 on license. 18 new girls since the last inspection.

State of premises.—The whole establishment was in perfect order. Very clean, convenient, and suitable. There is a good workroom, laundry, and wash-house. Good yard and covered play-shed, and an admirable assembly or school room.

Health and general condition.—Very fair. The general appearance was satisfactory. Improved health of late years. The girls now have the advantage of musical and physical drill, which is good for development. One case of tonsillitis, one bronchitis, one gastro-enteritis, one case of eczema. Two girls only fit for infirmary on admission.

Conduct and discipline.—The general report was favourable and encouraging. A few ordinary cases of idleness, disobedience, impertinence, quarrelling with companions, show of temper. A few more serious cases of repeated impertinence, bad language and refusal to work, and stealing from companions. Girls generally in good order, well-affected, and under excellent influence.

Educational state.—Very fair, a number of new girls. 5 in Standard Five: very fair results; 2 weak in arithmetic. 12 in Standard Four: all passed creditably but 2, weak in arithmetic; recitations very good. 18 in Standard Three: very fair results; 3 weak in dictation; 2 failed in arithmetic. 17 in Standard Two: class much improved; very creditable results; one or two rather weak. 6 in Standard One: all doing well but 1, rather a dull girl; 1 exceptional case, very dull. Order excellent. The girls sing very correctly.

Industrial training.—The laundry gives occupation to a large class of the elder girls, under good practical training and supervision. Good specimens of laundry work were exhibited. The workroom receives a full share of attention daily. Good needlework and knitting were exhibited. The girls do the housework and cooking. Lessons in plain cooking are still maintained, very much to the benefit of the girls.

Staff.—Mrs. Herbert Campbell continues to take a prominent part in the general direction of the school. Superintendent, Miss Wilson; schoolmistress, Miss Reilly; workmistress, Miss Willis; laundry matron, Mrs. White.

Average number maintained, 57. Total cost for 1894, 1,212*l.* 3*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 5*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 19*s.* 3*d.*

Industrial profits, 247*l.* 10*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 50 discharged in 1891–93, there are doing well 39, doubtful 2, convicted of crime 4, unknown 5.

Lancashire Reformatory for Roman Catholic Girls, May Place, Old Swan, Liverpool.

Inspected April 27, 1894. Visited December 1, 1894.

Number of inmates on day of inspection, girls, 65, and 3 on license.

State of premises.—The house and premises are constantly maintained in good order. The situation is a healthy one. There is abundance of

room for exercise and recreation. Very good laundry accommodation. Dormitories clean and wholesome. A better sickroom much needed.

Health and general condition.—Health very good. Girls look hearty and thriving, especially the elder girls. A few cases of sore eyes; one case of erysipelas; two or three cases of scabies; one mitral disease of the heart; one death from phthisis.

Conduct and discipline.—With the exception of a few serious cases of violence and insubordination the Superintendent was able to give me a very fair account of conduct during the year. Some discouraging cases of theft and attempt to abscond, violent assault on a companion, refusal to work, insolence to officers, and insubordination; theft of keys, some attempts to abscond; some use of improper language and obscene talk. On the other hand many instances of improvement and desire to do well. The girls were well-behaved and tractable on the day of my visit.

Educational state.—Improved. 13 in Standard Five: reading very fair; writing very good; 1 failure in dictation; 3 in arithmetic. 13 in Standard Four: reading very fair; writing fair; 5 failures in dictation; 4 in arithmetic. 15 in Standard Three: good reading and writing; 2 failures in dictation and 4 in arithmetic. 11 in Standard Two: reading and writing very fair; 2 failures in dictation and 3 in arithmetic. 13 in Standard One: very fair work except in the case of two big girls still very backward. Some extra subjects might be introduced with advantage. Order and attention very good.

Industrial training.—There is an excellent laundry well supplied with good class washing. This employs a large class of the elder girls. The needlework is well attended to. Good samples of knitting and plain needlework were exhibited. The girls make their own clothing and outfits. The girls assist in the kitchen and household work. Systematic lessons in plain cookery should be provided.

Staff.—Superintendent, Miss A. M. Donovan; schoolmistress, Mrs. Breslin; assistant do., Miss Keating; assistant matron, Miss Hudson; laundry superintendent, Miss Rafferty; assistant do., cook, and gardener.

Average number maintained, 68. Total cost for 1894, 1,731*l.* 4*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 25*l.* 9*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 24*l.* 5*s.* 4*d.*

Industrial profits, 218*l.* 18*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 45 discharged in 1891–93, there are doing well 28, dead 1, doubtful 6, convicted of crime 3, unknown 7.

Monmouth.

Monmouthshire Reformatory for Boys, Little Mill, near Pontypool.

Inspected July 30, 1894.

Number of inmates on day of inspection, boys, 23.

State of premises.—Premises in good order. Suitable and convenient for a small farm school. Lavatory much improved. Dormitories clean, well ventilated, and comfortable.

Health and general condition.—Good vegetable and fruit garden and a large farm, under careful cultivation. There has been no serious illness. Health well kept up. Only a few colds and ordinary ailments. Boys looked healthy and vigorous. Good sickroom if required.

Conduct and discipline.—The boys had been going on quietly. No very serious trouble; but one case of striking a boy with a spade. A few troublesome at work, noisy and disorderly. Comparatively little to complain of. Boys well managed and going on hopefully.

Educational state.—This is properly attended to. The boys make good progress from year to year. 2 in Standard Five, 7 in Standard Four, 5 in Standard Three, 5 in Standard Two, 5 in Standard One, all getting on very fairly. New boys in Standard One very ignorant on admission but gaining ground. Boys quiet and orderly. Discipline good.

Industrial training.—The industrial occupation is chiefly provided by the fruit and vegetable gardens, and on the home farm. Four milch cows are kept, 2 horses, with pigs and poultry. A good market for vegetables in the neighbourhood. Boys assist in all the work of the house. A tailor attends occasionally.

Staff.—Superintendent and matron, Mr. and Mrs. Edwin Bilcliffe; schoolmaster, Mr. Merrick; labour-master, Mr. J. Roper; one domestic.

Average number maintained, 28. Total cost for 1894, 531*l.* 6*s.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 19*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 5*s.* 6*d.*

Industrial profits, 131*l.* 13*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 19 discharged in 1891–93, there are doing well 16, doubtful 1, convicted of crime 1, unknown 1.

Norfolk.

Buxton Reformatory School for Boys, Buxton Lamas, near Norwich.

Inspected August 10, 1894.

In default of a sufficient number of commitments to maintain the school in a state of efficiency and completeness the managers resolved to relinquish the reformatory certificate, and to make an effort to carry on the school as an industrial school under the provisions of the Industrial Schools Act, 1866. There were only 21 boys left, December 31, 1893. This re-arrangement was carried into effect. The reformatory school certificate was given up. By 5th May 1894 all the boys under detention had been discharged, licensed out, or transferred elsewhere, and the school, which has at all times been carried on as a thoroughly well-managed and successful institution, came to an end as a Reformatory.

The school premises, after certain alterations and improvements to meet the altered conditions of the case, were certified as an Industrial School, June 23rd, 1894.

NORTHAMPTONSHIRE.

Northamptonshire Reformatory for Boys, Tiffield, near Towcester.

Inspected July 28, 1894.

Number of inmates on day of inspection, boys, 47, 3 on license, and 1 in prison.

State of premises.—I found house and premises clean, tidy, and comfortable; some minor improvements. Dormitories clean and well ventilated, but rather deficient in cubic space. There is a home farm of 45 acres. The situation is a healthy one.

Health and general condition.—Boys in good health, and looking strong and thriving. A few serious cases: one necrosis of bone, one cervical suppurating glands, one epileptic seizure, one death from tubercle on the brain, one severe scald. With these exceptional cases, general health well maintained.

Conduct and discipline.—A change of superintendence in the year, Mr. Jones succeeding to the post of Superintendent in November 1893. The conduct on the whole had been very fair. Some cases of absconding in 1893, and some restlessness and absconding in 1894, owing chiefly to the bad example and influence of a boy of indifferent character, who was in prison at the time of inspection. Some cases of theft and breaking into clothes store. Boys going on well at the time of my visit and improving generally.

Educational state.—This is properly attended to. 13 in Standard Five: creditable work in all subjects, 2 failed in arithmetic. 10 in Standard Four: all passed in a satisfactory way. 9 in Standard Three: work very well done, no failures, neat and careful work. 6 in Standard Two: all passed, but one very backward, and not very bright. 4 in Standard One and 5 in preparatory class. Generally new boys and backward, but all doing something. Order very good, very fair singing.

Industrial training.—The occupation is chiefly agricultural. The farm and garden give plenty of occupation. There is a good garden, and the boys have plots of land allotted to them for their own cultivation. Some cows, pigs, and poultry have to be attended to. The boys also work occasionally for the neighbouring farmers.

Staff.—Superintendent, Mr. W. C. Jones; matron, Mrs. Jones; schoolmaster, Mr. Woodcock; assistant matron, farm bailiff, and labour-master.

Average number maintained, 50. Total cost for 1894, 1,118*l.* 12*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 7*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 10*s.* 6*d.*

Industrial profits, 58*l.* 11*s.* 8*d.*

Detailed Reports.

Reformatory Schools.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 30 discharged in 1891–93, there are doing well 25, convicted of crime 4, unknown 1.

NORTHUMBERLAND.

North-Eastern Reformatory for Boys, Stannington, near Morpeth.

Inspected May 22, 1894.

Number of inmates on day of inspection, boys, 171, of those 123 were Protestants, 32 Roman Catholics, and 16 Jews. One of the teachers is a Roman Catholic, and the Jews receive distinctive religious instruction.

State of premises.—I found the various houses in which the sections are accommodated in very good working order. The school is well organised. I visited every department. The farm-buildings are very extensive and commodious. The school farms 508 acres. There is a very good range of workshops.

Health and general condition.—Medical report favourable. No serious amount of sickness. 1 injury to cornea, one strumous abscess, two conjunctivitis, one incised wound, one case of tonsillitis, one suppurating gland, one fracture of clavicle, one alveolar abscess, one case of pleurisy in the early part of the year, one hæmoptysis, one urticaria, one scabies. Boys looked strong and vigorous.

Conduct and discipline.—The report as to conduct was on the whole favourable. I was glad to notice less roughness and rudeness, and a very general effort for improvement. The records of offence and punishment were not extremely heavy. The usual cases of disobedience to orders, idleness, bad language, impertinence to officers, striking, and bullying; one case of indecency; a decreasing amount of punishment. The lads were quiet and orderly on the day of inspection.

Educational state.—This receives the attention it deserves. 33 in Standard Five: an intelligent class and well prepared, results excellent. 37 in Standard Four: good work; very careful writing; good elementary geography and recitations from Five and Four. 43 in Standard Three: sound intelligence; good results; no failures. 35 in Standard Two: class well taught and making excellent progress. 23 in Standard One: doing very well, carefully taught, and good progress. The schoolwork was exceptionally well done, and the order and discipline exemplary and most gratifying.

Industrial training.—The industrial training is varied, and is carried on with much energy and with successful results. I found 104 boys working on the farm; 12 carpenters; 5 shoemakers; 13 tailors; 12 blacksmiths; 13 in the house; 4 sundry; and 8 in the brickmaking. The smith's shop is a scene of much activity, to which implements of all kinds are brought for repair. There is a very extensive farm, with standing for 16 milch cows, a large quantity of stock, and a flock of sheep. The boys work out occasionally for the neighbouring farmers, and at certain seasons are in great request.

Staff.—Superintendent and matron, Mr. and Mrs. Geo. Middlemiss; schoolmasters, Messrs. Elvish, Howie, Simpson, and Coutts; clerk,

carpenter, blacksmith, tailor, shoemaker, mason, brickmaker, farm bailiff and wife, who is dairy-woman; horsekeeper, and 5 farm labourers.

Average number maintained, 175. Total cost for 1894, 3,174*l.* 16*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 2*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 9*l.* 18*s.*

Industrial profits, 1,555*l.* 7*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 154 discharged in 1891–93, there are doing well 114, dead 2, convicted of crime 35, unknown 3.

SUFFOLK.

Kerrison Reformatory School for Boys, Thorndon, Eye.

Inspected August 7, 1894.

Number of inmates on day of inspection, boys, 81.

State of premises.—The whole establishment looked clean and well-kept. Some important reconstructions, by which the dormitories had been rendered more commodious and airy, nearly complete. Much pleased with the new lavatory. Good laundry and bakehouse. One addition still much needed—a good schoolroom. Farm under careful cultivation. Very good garden.

Health and general condition.—The school suffered from an attack of influenza in January 1894. There were 30 cases, but happily of a mild type, and with good recovery. One serious case of bronchitis, one case of eczema, one weak heart, one follicular tonsillitis. Boys looked hearty and thriving. Health generally good.

Conduct and discipline.—The boys had been going on well. Discipline firmly maintained with full consideration for the boys themselves. No very serious cases of misconduct; a few cases of the usual kind—petty theft, wilful damage, bullying, disorder, impertinence, bad language. One case of absconding. Boys orderly and respectful. A fine intelligent set of lads and a well-managed school.

Educational state.—This is well attended to. The lads year by year show good progress and attain to respectable proficiency. 21 in Standard Five: a very intelligent and well-taught class; subjects well mastered; 4 weak in arithmetic; work carefully done. 20 in Standard Four: reading capable of improvement; progress good; 2 failed in arithmetic. 20 in Standard Three: very fair work; 1 weak in spelling, 1 in arithmetic. 13 in Standard Two; paper work; very fair results. 7 in Standard One: recent comers chiefly; 3 backward, but all getting on. Order excellent.

Industrial training.—The home farm of 73 acres provides a large amount of agricultural employment. Six horses, six milch cows, young stock, pigs, and poultry have all to be attended to. The harvest was just coming on with good promise of average yield. The hay crop very good. A shoemaker with a class of boys look after the boots and clothing. There is a good fife and drum band, and good physical drill.

Detailed Reports.

Every boy can have a piece of land for his own gardening operations. The boys' gardens were very well managed.

Reformatory Schools.

General remarks.—The report of the Diocesan Inspector as to the religious instruction of the lads was favourable.

Staff.—Superintendent, Mr. Fred. W. Gill; matron, Mrs. Robert Gill; assistant matron, Mrs. F. W. Gill; schoolmaster, Mr. W. Claxton; labour-master, Mr. John Turner; assistant do., Mr. David Turner; shoemaker, Mr. B. Hurrell.

Average number maintained, 82. Total cost for 1894, 1,195*l.* 2*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 11*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 3*s.* 4*d.*

Industrial profits, 53*l.* 10*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 69 discharged in 1891–93, there are doing well 57, dead 2, doubtful 1, convicted of crime 7, unknown 2.

Ipswich Girls' Reformatory, Black Horse Lane, St. Matthew's, Ipswich.

Inspected August 6, 1894.

Number of inmates on day of inspection, girls, 46, of these 44 were under legal detention, 2 voluntary cases, 5 on license.

State of premises.—The general appearance of things was quite satisfactory. All clean and comfortable. The accommodation is convenient and suitable. Very good laundry, ironing-room, and playroom. Dormitories clean and well-aired.

Health and general condition.—Health very fair throughout the year. Not much acute sickness. One perostitis, one ulcer on leg, one strumous glands; a little diarrhœa. Girls looked healthy and were in very good spirits. Much physical improvement and some capital physical drill, well carried out and of the greatest utility.

Conduct and discipline.—General report favourable. Girls improving and trying to do well. One or two cases of refusal to work, improper conversation, tearing up clothing, wanting in respect, insubordination, idleness, and indifferent work. One very serious crime of turning the gas on with a view of explosion. Sulkiness and bad temper. Very little bad or immoral language. Occasional insolence and impertinence. In spite of some difficulties I found much good influence at work and much improvement effected.

Educational state.—Some very good work on the occasion. 8 in Standard Five: an intelligent and superior class, all making good progress. 11 in Standard Four: good reading; all passed in dictation but 2, and 2 failed in arithmetic. 14 in Standard Three: class improving; very few failures. 10 in Standard Two: class improving; 1 very weak; two or three new girls, just in the elements. General order exemplary.

Industrial training.—A very good display of needlework, knitting and woolwork, darning and marking. The school has made good progress in this direction of late. There is a good laundry, well supplied with family work. The girls make their own bread, and do all the cooking and housework. Systematic lessons in plain cookery should be provided.

Staff.—Superintendent, Miss Julia T. Taylor; schoolmistress, Miss Fischer; assistant matron, Mis Sadler; laundry matron, Miss Pawsey.

Average number maintained, 47. Total cost for 1894, 1,042*l.* 9*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 3*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 17*s.* 4*d.*

Industrial profits, 169*l.* 1*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 45 discharged in 1891–93, there are doing well 28, dead 2, doubtful 6 convicted of crime 1, unknown 8.

Surrey.

The Philanthropic Society's Farm School, Red Hill.

Inspected November 8, 1894.

Number of inmates on day of inspection, boys, 300.

State of premises.—In very good order, a good many substantial repairs have been effected during the year on the various buildings, involving considerable outlay. The arrangement of the buildings is on a very good system; instead of collecting the 300 boys into one large building they are lodged in five houses, almost a quarter of a mile from each other, each house under a master. In each house is a school-room, and outside, the members of the different houses only meet in the workshops and on the farm. Each of the houses was very comfortable and in admirable order. There is a gymnasium, a large chapel, and good hospital accommodation near the warden's house. The farm consists of 320 acres, of which 260 are freehold. There is a large lecture hall also for general use, and very good shops. Each house has its own playground and bathroom.

Health and general condition.—The general health had been very good, and nothing could have been better than the appearance of the boys on the day of inspection. There had been some cases of influenza, three or four of quinsy, two of pleurisy, one of pneumonia, one of internal tumour, necessitating two operations. The boys looked clean, well dressed, well set up, and extremely bright. There seemed a very good tone throughout the school. There had been one death from blood poisoning and tetanus. One of the house-masters, Mr. Jones, had died, and during his illness the boys of his house had behaved very well.

Conduct and discipline.—Very good. There had been less punishment than I can remember to have found since I first inspected the school. The average number on the good conduct list had been 275.

Detailed Reports.

Reformatory Schools.

There had been no cases of insubordination, 6 of immorality, 17 of pilfering, and 28 of smoking. Any other cases of misconduct were of a very minor character. The boys seem admirably managed with very little punishment. The birch had only been considered necessary in seven cases.

Educational state.—Each house was examined separately. The results were generally satisfactory as regards elementary standard work, but something more might be done in the way of extra subjects, geography, &c.: Garston's, 61: 21 in Standard Five, 11 in Standard Four, 14 in Standard Three, 8 in Standard two, 6 in Standard One, and one new-comer. Very good and careful work throughout; very few failures and all making steady progress. Part singing is taught. Order excellent. Gladstone's, 60: 33 in Standard Five, an intelligent class; good work, no failures except 3 in aritmethic; 9 in Standard Four, 11 in Standard Three, 6 in Standard Two, and 1 new-comer. These classes made a very respectable appearance; order excellent. Gurney's, 59: 25 in Standard Five, very good reading and dictation, good arithmetic; 2 failures. 14 in Standard Four, 8 in Standard Three, 8 in Standard Two, 3 in Standard One, and 1 new-comer. Very fair work throughout all these classes; order very good. Queen's, 59: 16 in Standard Five, good reading, but writing and arithmetic only fair. 17 in Standard Four, 14 in Standard Three, 5 in Standard two: these classes did well. 7 in Standard One, 6 of whom were big lads and of long standing in the school; 2 still backward; order very good. Waterland's, for junior boys, 60: 13 in Standard Five, good work; no failures. 11 in Standard Four: very fair work; 2 failures in arithmetic. 14 in Standard Three: no failures. 13 in Standard Two, 8 in Standard One: very fair work, a few weak in arithmetic; and 1 new-comer; order good. The general tone in all the houses was very encouraging, the elder lads being well set up and evidently well-disposed.

Industrial training.—This is well attended to, and the instruction is thoroughly practical: 18 tailors, 12 shoemakers, 14 carpenters, 10 basket-makers, 3 blacksmiths, 194 field work, 12 cowhouse boys, 4 cart-horse stable, 5 stable and garden, 3 bakers, 3 laundry, 2 bricklayers, 18 house-boys, 2 chapel-boys. The farm operations had been fairly successful, but the low prices made a profit hopeless. A farm of 40 acres, which has been rented for many years, is to be given up. There are two bands, one of 32, the other of 30 boys; 15 boys had emigrated. We saw gymnastic drill and heard the band. There had been examinations in connection with ambulance work—12 gained medallions, 22 passed the second examination, and 32 passed the first examination. Nearly 100 old boys had visited the school during the year, and 42 boys of good character had been allowed home on leave.

Staff.—Superintendent and Warden, Rev. Marshall G. Vine; secretary, Mr. John Trevarthen; masters of houses, Messrs. Howe, Cowen, Hearne, McColl, and Brooker; bailiff, Mr. W. Brown; bandmaster and store-keeper, clerk, tailor, shoemaker, carpenter, two blacksmiths, baker, bricklayer, gardener, basket-maker, gymnastic instructor, shepherd, drill instructor, cowman, five labourers, carter, nurse, needle-woman, cook, and three female servants.

Average number maintained, 291. Total cost for 1894, 7,172*l.* 18*s.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 13*s.*

Net cost per head, including profit or loss on industrial departments, 26*l.* 0*s.* 2*d.*

Industrial loss, 5*l.* 14*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 240 discharged in 1891–93, there are doing well 210, dead 1, doubtful 1, convicted of crime 21, unknown 7.

Wandsworth Reformatory for Boys, Wandsworth Common, S.W.

Inspected September 21, 1894. Visited April 16, 1894.

Number of inmates on day of inspection, boys, 125, and 5 on license. 25 new admissions; 45 discharges.

State of premises.—The whole establishment was in thorough order and in good repair throughout. Dormitories very clean, wholesome, and well ventilated. Sanitary provisions carefully attended to. Good infirmary. Excellent lavatory. Good range of workshops. The work of the school very efficiently provided for in all respects.

Health and general condition.—The general health had been well maintained. No sick cases in house on day of visit. Two or three cases of abscess and herpes; two cases of pneumonia; one of pleurisy; one stomatitis; one spinal concussion; one crushed foot; one dislocated elbow; one death in infirmary from cardiac disease. No infectious disease. Sanitary conditions very good. Boys healthy and vigorous.

Conduct and discipline.—General conduct very good. Two boys absconded in July, causing some disturbance, otherwise very little to complain of. Standard of conduct for the year excellent. One case of breach of trust. I found the lads doing well, in good spirits, well affected, and steadily improving. The school is well organised, and carried on with the utmost consideration for the boys' welfare.

Educational state.—The education receives careful attention. 41 in Standard Five: results satisfactory in all subjects; much intelligence. 4 failed in arithmetic. 27 in Standard Four: an improving class. Work very carefully done, and well put down; no default; class progressing favourably. 23 in Standard Three: very fair work; class getting on well. 21 in Standard Two: some weak boys in dictation and arithmetic. 12 in Standard One: mostly new boys; some weak in arithmetic; all receiving due attention. Order excellent. Religious instruction properly attended to.

Industrial training.—The school is distinguished for its industrial activity. The boys work very diligently, and receive much encouragement to persevere in their labours. The following list gives the divisions of labour for the day: 20 broom-handlers, 2 carpenters, 10 shoemakers, 10 tailors, 4 in the stables, 24 in the saw-mills, 2 in engine-houses, 2 saw-sharpeners, 24 wood-choppers, 2 cooks, 8 laundry, 2 lavatory boys, 4 gate-boys and messengers, 2 painting and glazing, 4 house-boys, 3 school-cleaners; total, 125.

General remarks.—The school continues to be carried on with energy and success, and with large experience of the class dealt with. I regret to have to record here the lamented death of Mr. W. F. Newland, the managing director, after a long and painful illness during the greater part of 1894. No man understood the difficult work of a reformatory school more thoroughly than Mr. Newland. And no one

has taken to the work with a more hearty devotion, or pursued it with a more entire sympathy than did he. Experienced, eminently practical, kindly and good, he had the interests and welfare of the boys always before his eyes, and lost no opportunity to do his best for them, whatever might befall them. Such men are not met with at all times. His friends, and all who knew him, have much reason to lament his loss.

Staff.—Manager and director, Mr. J. F. Newland; superintendent, Mr. W. F. Jackson; schoolmaster, Mr. G. Phillips; assistant ditto, Mr. Sutton; clerk, trade-master, Mr. E. Gibson; tailor, shoemaker, broom-handler, cook, housekeeper, and laundress.

Average number maintained, 130. Total cost for 1894, 3,166*l.* 0*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 7*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 10*s.* 4*d.*

Industrial profits, 678*l.* 18*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 133 discharged in 1891–93, there are doing well 119, dead 3, convicted of crime 9, unknown 2.

Warwickshire.

Saltley Reformatory for Boys, Small Heath, near Birmingham.

Inspected July 27, 1894. Visited December 1, 1894.

Number of inmates on day of inspection, boys, 100, and 29 on license.

State of premises.—In excellent order; very well arranged. New and comfortable rooms have been built for the matron. The dormitories are airy and well lighted, and the Superintendent can walk through them from one end of the building to the other without going downstairs. This is an excellent arrangement in case of fire. There is a large plunge bath and very well constructed lavatory, good schoolroom, and shops. There is a good garden and a farm of 60 acres, about a mile from the school; round the school are 22 acres of land.

Health and general condition.—The general health had been very good. One boy was in the sickroom with inflammation of the bowels; there had been one case of periostitis, following an accident in the football field; one case of concussion of the brain, from a collision in the playground, one case of peritonitis, and a broken arm. There is a very good sickroom. The appearance of the boys was very satisfactory. They are evidently well treated, and look cheerful and healthy.

Conduct and discipline.—There had been one attempt to abscond. The birch had not been used during the year, and the cane but seldom. The general mode of punishment is depriving boys of play. There is a mark system. From the day a boy enters the school he can, if he behaves himself, earn 3½*d.* a week; some boys are paid 1*d.* a day;

monitors rather more. These sums are banked to them, and paid to them by instalments after discharge.

Educational state.—The order and attention during the examination were very good. There were 27 boys in Standard Five: very good reading, writing, dictation, arithmetic; 2 failures in arithmetic and 1 in dictation; very neat work. 17 in Standard Four: a very good class; no failures. 22 in Standard Three: another very good class; only 1 failure in arithmetic. 17 in Standard Two, 11 in Standard One, all getting on well. 5 in a preparatory class, two of them dull boys, over a year in the school.

Industrial training.—In the tailor's shop were 20 boys; in the shoemaker's 10. Some of the boys work in the garden and farm. There is a carpenter's shop. There is a class for knitting, darning, and mending. There is a good band of 21 boys. I saw the boys on parade; they drilled very smartly. I saw them at musical drill and fire drill. The band played very well, and have a good many engagements in the neighbourhood. I heard the boys sing, which they did very well, particularly one small boy with a very good voice, who sung a solo very creditably.

General remarks.—The school is a sub-station of the Birmingham fire brigade, members of which body are on duty every night. Some of the boys are trained to act in case of fire. There is a telephone to the head station in the town.

Staff.—Superintendent, Mr. Arnold; matron, Mrs. Fish, assisted by Miss Haggett. Mr. Arnold was superintending the schoolwork; assistant teacher, Mr. R. Jones; the bandmaster assists in the schoolroom; tailor, shoemaker, gardener, carpenter, farm bailiff and two labourers, cook.

Average number maintained, 100. Total cost for 1894, 2,078*l.* 0*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 15*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 19*s.* 5*d.*

Industrial profits, 6*l.* 12*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 77 discharged in 1891–93, there are doing well 68, dead 1, doubful 2, convicted of crime 4, unknown 2.

Warwickshire Reformatory for Boys, Weston, near Leamington.
Inspected July 28, 1894.

Number of inmates on day of inspection, boys, 89, and 8 on license.

State of premises.—In excellent order, well-arranged buildings, convenient and comfortable. There is a detached hospital, and attached to it are two cells and an exercising yard. The farm contains about 120 acres, and there are good farm-buildings and a productive garden. There is a large field for play and good bathroom, shops, and officers' recreation room.

Health and general condition.—One boy had been discharged, suffering from consumption. There had been a bad case of congestion of the brain, the cause of which could not be traced; the boy recovered. One case of fractured arm, done at play; and a slight case of curvature of the spine. There had been about 20 cases of influenza. There was rather a long list of minor ailments, but the boys looked very well, and there evidently was a very good tone amongst them.

Conduct and discipline.—There had been one case of absconding, the boy was back within the hour. There was a short list of the usual minor offences, but nothing in the way of serious misconduct. The mark list and the punishment list were posted in the schoolroom. The mark system is the same as in former years. Boys of good conduct can earn up to 6*d.* a week. Prizes are given annually.

Educational state.—There were 30 boys in Standard Five: good reading, very good and neat writing and dictation; only one failure in arithmetic; geography of England good; recitation not very good, not enough expression. 19 in Standard Four: very fair reading, very good writing; one failure in dictation. 19 in Standard Three: a good class, no failures. 13 in Standard Two: 2 failures in dictation, 1 in arithmetic. 6 in Standard One: no failures. 4 in a preparatory class: order and attention excellent.

Industrial training.—In the tailor's shop there were 8 boys; in the carpenter's 3 boys, and in the shoemaker's 4 boys. There were a good many boys employed on the farm and in the garden, from which last a quantity of vegetables are sent to the Leamington market. A good deal of firewood is prepared for sale.

General remarks.—Singing is well taught, better perhaps than in any similar institution. The boys form the choir in the parish church; I was much pleased with their singing. I found a new fire-engine on the premises, which had been presented by Lord Leigh.

Staff.—Superintendent and matron, Mr. and Mrs. Pengelley; schoolmasters, Mr. H. Jones and Mr. F. C. Gibbs; drill and band master, tailor, shoemaker, carpenter, gardener, two labour-masters, stockman and waggoner, laundress, and cook.

Average number maintained, 88. Total cost for 1894, 1,810*l.* 5*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 11*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 9*s.* 4*d.*

Industrial profits, 291*l.* 19*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 70 discharged in 1891–93, there are doing well 59, dead 2, doubtful 1, convicted of crime 6, unknown 2.

Warwickshire Reformatory for Girls, 61, Little Park Street, Coventry.

Inspected July 27, 1894.

Number of inmates on day of inspection, girls, 27, and 4 on license.

State of premises.—The general accommodation is very suitable. Every part of the building was in admirable order, clean and wholesome. Good laundry and an excellent schoolroom, with plenty of space for exercise.

Health and general condition.—The girls looked healthy and thriving. No sick cases on day of inspection. One fall from window, without much damage. One case of anæmia, one herpes; two or three cases of tonsillitis; one death from tubercular disease of the brain. General health, with above exceptions, satisfactory.

Conduct and discipline.—General report favourable. I found the girls orderly and well-behaved, and going on steadily. A few difficult cases in the year; one of insubordination; two or three cases of gross insolence, a new girl very unruly at first, kicking, scratching, and biting, but gradually improving; one quarrelling and using bad language; one spiteful words and actions; one case of inciting another to insubordination; one absconding from situation. Many of the elder girls doing well and under good influence.

Educational state.—This is carefully attended to. I found the girls progressing favourably. 7 in Standard Five: with one exception girls doing well, work carefully executed; good recitations, very well delivered. 7 in Standard Four: class doing well, no failures. 7 in Standard Three: neat and good work, no failures; arithmetic well done; good recitation. 5 in Standard Two: work successfully done. 1 in preparatory stage: very ignorant, a new girl. Very good order. The girls sing well.

Industrial training.—There is a good laundry, employing a class of the elder girls, very good specimens of work. A very creditable display of the girls' needlework and knitting. The girls assist in all the work of the house, kitchen, and housework.

Staff.—Superintendent, Miss Higginbotham; schoolmistress, Miss Gwyn; laundry matron, Mrs. Perry; cook and general assistant.

Average number maintained, 28. Total cost for 1894, 714*l.* 17*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 25*l.* 10*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 0*s.* 8*d.*

Industrial profits, 106*l.* 14*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 28 discharged in 1891–93, there are doing well 23, convicted of crime 1, unknown 4.

Wilts.

Wilts Reformatory School for Boys, near Warminster.

Inspected June 22, 1894.

Number of inmates on day of inspection, boys, 54.

State of premises.—There is accommodation for 60 inmates. The school is well and healthily situated. The general aspect is comfortable and home-like. The dormitories and other rooms were in excellent order, clean and wholesome. The lavatories might be improved and

some of the outbuildings were in need of repairs. About 30 acres of farm and garden land, all well cultivated. The boys take an interest in some small garden plots allotted to them.

Health and general condition.—Another year of excellent health. One slight case of tonsillitis was the only item on the sick list. The medical officer's report as to health and sanitary conditions were very satisfactory. The boys looked well.

Conduct and discipline.—There had been no absconding or other very serious offences against discipline. A few cases of idleness, disobedience, impudence, and bullying. Two of pilfering and one of wilful damage to flowers. Two of irreverent behaviour in church. The lads had every appearance of being well-disposed and under good control.

Educational state.—The superintendent had taken charge of the schoolroom himself, and the results were as good as could be expected under such circumstances. 8 in Standard Five: good reading, spelling, and writing; sums well done; no failures. 11 in Standard Four: very fair reading and writing; all passed in dictation and arithmetic. 13 in Standard Three: one boy backward in reading and dictation; the remainder did their work very fairly. 11 in Standard Two: very fair work; the only exceptions being one weak in spelling and two failures in arithmetic. 11 in Standard One: this class showed the necessity for a teacher who could give his undivided attention to the schoolroom. There were 6 boys over a year in the school; several were backward in spelling, 3 failures in arithmetic, writing very fair on paper. Order and attention excellent.

Industrial training.—The land and stock supply nearly all the work. Most of the boots and clothes are now bought ready-made. The repairs are however done by the boys, and they also make a few boots. A tailor comes about once or twice a month to cut out a few jackets, &c. The boys bake the bread and are useful in the house and laundry work.

Staff.—Manager (non-resident), Rev. W. Moore; superintendent and matron, Mr. and Mrs. Chas. Walker; two labour-masters; assistant matron.

Average number maintained, 55. Total cost for 1894, 1,052*l.* 14*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 2*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 12*s.* 7*d.*

Industrial profits, 79*l.* 3*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 54 discharged in 1891–93, there are doing well 42, dead 1, convicted of crime 8, unknown 3.

Limpley Stoke Reformatory for Girls, Limpley Stoke, near Bath.

Inspected June 22, 1894.

Number of inmates on day of inspection, girls, 47.

State of premises.—I found house and premises in good order, clean and wholesome. The superintendent was absent on the day of

inspection. The dormitories were in good order. There is a large playground and an extensive garden. Good laundry and ironing-room.

Health and general condition.—Very fair report for year. Some cases of ringworm and furunculus in the early part of the year, requiring greater attention to bathing and washing and clean towels. Favourable report of late as to general condition, with much improvement, both of health and comfort. One case of measles, two of bronchitis.

Conduct and discipline.—The school has been carried on under great difficulties, with changes in the superintendence and in the school-room also. Formidable cases of misconduct and insubordination throughout the year. The superintendent struggled hard to bring the elements of discord and mischief she had to deal with under reasonable control, and was successful to some extent, very much improving the condition of affairs, but her health gave way and she was obliged to retire. I visited the school at the end of June 1894, and was not satisfied with the condition of the school. I have arranged to visit the school early in 1895.

Educational state.—There was a great falling-off in the educational statistics. 11 in Standard Five: good reading and spelling; dictation and arithmetic very bad; no attempt to do well. 10 in Standard Four: fair reading, spelling, and dictation; arithmetic, 3 passed, 6 failed. 11 in Standard Three: fair work, except in arithmetic, in which 5 passed, 5 failed. 9 in Standard Two: class did fairly well. 6 in Standard One: very backward, but getting on very well. Order very indifferent.

Industrial training.—There was a very creditable display of plain and fine needlework of every kind, with knitting and woolwork. The school has a good reputation for needlework, with a good workmistress. The girls are interested in this branch and the school has turned out some good needle-women. There is a good laundry. The girls do the housework and assist in the kitchen.

General remarks.—There was another change in the superintendence of this school during the year 1894. The changes in the staff have not been favourable to the general good order or progress of the school.

Staff.—Superintendent, Miss A. Crake; schoolmistress; workmistress, Miss Pope; general assistant; laundress and assistant ditto.

Average number maintained, 44. Total cost for 1894, 1,174*l.* 11*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 26*l.* 13*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 9*s.* 1*d.*

Industrial profits, 310*l.* 4*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 56 discharged in 1891–93, there are doing well 29, dead 2, doubtful 1, convicted of crime 2, unknown 22.

WORCESTERSHIRE.

Woodbury Hill Reformatory for Boys, Shelsley, near Worcester.

Inspected August 1, 1894.

Number of inmates on day of inspection, boys, 51, and 16 on license; 23 new cases received in the year.

State of premises.—The premises were all in good working order and looked clean and homelike. The accommodation is by no means good, but is turned to good account. One of the dormitories requires to be rebuilt. A grass field for cricket and football is much needed. The site is a healthy one.

Health and general condition.—The boys looked healthy and strong. There had not been much illness, but there was an attack of influenza in January 1894, and 25 cases of a mild type. One severe case of pneumonia, one inflammation of the lungs, a few boils and abscesses, one ulcerated throat.

Conduct and discipline.—Boys going on steadily. About the usual number of cases of disobedience, quarrelling, use of bad language, persistent insolence, idleness, lying, disorder. One leaving situation without leave. Boys quiet and orderly on the day of inspection and under proper discipline.

Educational state.—This receives adequate attention. 15 in Standard Five: very good results, no failures; class showed much intelligence and did well. 16 in Standard Four: very good work; class did well; good reading, writing, and dictation; 2 rather weak in arithmetic. 12 in Standard Three: class made a good appearance; good teaching and careful work. 6 in Standard Two: all did well. Dictation on paper, arithmetic also; no failures. 2 in preparatory class very young and ignorant. Order very good.

Industrial training.—Outdoor employment on the home farm provides most of the occupation. There is a good garden also. The boys work for the neighbouring farmers at seasonable times. The boys do all the work of the house. A tailor comes occasionally for repairing the clothing.

Staff.—Chaplain and manager, Rev. Theodore N. Flintoff; superintendent and housemaster, Mr. Geo. Bilcliffe; matron, Mrs. Bilcliffe; assistant ditto, Miss Jane Bilcliffe; schoolmaster, Mr. John Gill. Drill and yard master, Mr. J. Harmer.

Average number maintained, 49. Total cost for 1894, 937*l.* 16*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 2*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 19*s.* 9*d.*

Industrial profits, 14*l.* 5*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 48 discharged in 1891–93, there are doing well 38, doubtful 3, convicted of crime 6, unknown 1.

Stoke Farm Reformatory for Boys, Stoke Works, near Bromsgrove.

Inspected August 2, 1894.

Number of inmates on day of inspection, boys, 79, and 20 on license.

State of premises.—I went over the whole establishment, and found farm and garden, house and premises in a very creditable condition of efficiency. The school is well managed in every detail, the arrangements are suitable and convenient. There are some very good workshops, and the farm, fruit, and vegetable gardens are carefully and economically carried on, and give a good return for the labour and cultivation bestowed upon them.

Health and general condition.—The health of the boys had been generally good. A good many severe colds in December 1893. Twelve cases of influenza—one or two officers; one case of rheumatism. Boys all re-vaccinated owing to the prevalence of small-pox. One severe abscess; one in cottage hospital. Boys in good health on the day of my visit and looking hearty and vigorous.

Conduct and discipline.—The work of the school is no child's play. Many of the lads under detention are young men, and to keep such lads in their full vigour and youthful spirit under sound control is no easy task. The school continues to exercise a very sound influence, and it maintains its authority and discipline chiefly by interesting the lads in their own improvement, and making them feel that the control exercised is for their welfare and advantage in the highest point of view. A few cases of occasional disorder and restlessness. Some few cases of absconding at times, and some bad influences at work now and then; but these drawbacks are as nothing compared with the great good effected—the permanent amelioration of the lad's character, and the aspirations implanted in his mind for a nobler and a worthier life than that with which he was formerly so familiar. Forty-three boys had three days' holiday at Whitsuntide, and all returned to time. I was well pleased with what I found going on. The school is carefully managed, and the proper objects in view are steadily kept in sight.

Educational state.—The boys' instruction is very well attended to and steadily pursued, and their intelligence awakened and stimulated. 24 in Standard Five: a very fair class; good results; two or three failures in arithmetic only; good work; excellent recitation, mental arithmetic. Good specimens of mechanical drawing and specimens of work done in technical manual instruction class. 15 in Standard Four: work satisfactorily done. Half the school in Standards Five and Six. 17 in Standard Three: a very good class; all work carefully done; recitation and mental arithmetic. 13 in Standard Two: all coming on well; no failures. 7 in Standard One: all doing well and carefully taught. 3 in preparatory class; ignorant, but beginning to mount the hill. General order excellent.

Industrial training.—The industrial training is very carefully pursued. There is a farm of 76 acres, with productive fruit and vegetable gardens. The year was a good one for pears and plums, but an indifferent one for strawberries and apples. Vegetables did well, but sold for little money. The operations of this culture are carried on vigorously and intelligently, and with good average returns. There are good and useful shops for tailoring, shoemaking, and carpentry. Drawing is made much of.

Thirty-two boys doing well in the manual instruction class in wood-work. The school deserves a word of commendation for the great interest taken in the development of the boys' capacity for usefulness.

Staff.—Superintendent and matron, Mr. and Mrs. G. McGilchrist; assistant matron, Miss J. McGilchrist; head teacher, Mr. A. E. Woodruff; assisted by tailor and shoemaker; farm bailiff, Mr. Thomas Hadley; assistant ditto, Mr. Suffield; tailor, Mr. John Aitken; shoemaker, Mr. Charles Harvey; carpenter, two gardeners, waggoner, baker, and drill instructor. Shoemaker acts as bandmaster.

Average number maintained, 78. Total cost for 1894, 1,401*l.* 10*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 19*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 18*s.* 7*d.*

Industrial profits, 62*l.* 0*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 65 discharged in 1891–93, there are doing well 52, doubtful 3, convicted of crime 6, unknown 1.

York.

Calder Farm Reformatory for Boys, Mirfield.

Inspected August 7, 1894.

Number of inmates on day of inspection, boys, 87, and 17 on license.

State of premises.—The school buildings consist of two blocks, about a quarter of a mile apart, connected by a telephone, which is also laid on to the farm buildings. The sickrooms are convenient, and can be completely isolated. There is a good garden, a farm of about 130 acres, and good workshops, all in good order.

Health and general condition.—The inmates had enjoyed excellent health, the only case of illness reported being one of rheumatism. The boys looked robust and well in every respect.

Conduct and discipline.—There had been four cases of absconding from the school, and one from a situation while on license. The general conduct had been very good, and the punishment list was a short one.

Educational state.—23 boys in Standard Five: all passed in reading; good writing and dictation; 2 failures in arithmetic. 24 in Standard Four: a rather dull class; 7 failures in arithmetic. 20 in Standard Three: only 2 failures in dictation, very neat work. 12 in Standard Two: no failures. 6 in Standard One: coming on well. Order and attention very good.

Industrial training.—8 tailors, 6 shoemakers, 4 carpenters. A good band of 12 boys. A large number of the boys work on the farm and in the garden, and at times amongst the neighbouring farmers. The crops looked very promising.

Staff.—Superintendent and matron, Mr. and Mrs. Hepple; schoolmasters, Mr. Cooper, Mr. John Hepple; tailor, shoemaker, carpenter, farm bailiff, and assistant, and matron at each house.

Average number maintained, 90. Total cost for 1894, 1,822*l.* 0*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 4*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 14*s.* 1*d.*

Industrial profits, 124*l.* 11*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 93 discharged in 1891–93, there are doing well 78, dead 1, doubtful 2, convicted of crime 8, unknown 4.

Castle Howard Reformatory for Boys, Welburn, York.

Inspected August 4, 1894.

Number of inmates on day of inspection, boys, 87, and 20 on license.

State of premises.—The accommodation is ample for every requirement of such a school. Arrangements excellent. I found every department in good order and repair. The situation is a very healthy one. A farm of 95 acres and a good garden. Good chapel and commodious new schoolroom. Farm buildings on a good scale and convenient shops.

Health and general condition.—Health good. Boys looked strong and vigorous. No sickness on day of my visit. Fourteen cases of influenza in the cold weather, but of a mild type, a few cases of weak eyes, one severe bruise, one case of strumous ophthalmia, with these exceptions nothing serious.

Conduct and discipline.—The superintendent's report for the year was, on the whole, satisfactory. A better class of boys of late and more hopeful cases. Crimes and offences of a serious character less frequent. Some ordinary offences of petty theft, insubordinate conduct, disorder, disobedience, and wilful damage. Two cases of absconding. The mark system is still maintained and has a very good influence. I found the boys orderly and well-behaved. The licensing system is carried out in this school with great care and with marked success.

Educational state.—The education receives very careful attention. 17 in Standard Six: an intelligent class of elder boys, good attainments, all passed except 2 in arithmetic; writing and dictation excellent. 23 in Standard Five: satisfactory work; few failures, except 3 weak in arithmetic; work carefully done. 17 in Standard Four: good reading; 3 failures in dictation, the rest good; 6 failures in arithmetic, 11 good. 14 in Standard Three: class did well except in dictation, in which there were 6 failures; all passed in arithmetic. 8 in Standard Two: all improving; good results. 8 in Standard One: a backward lot; mostly new boys, getting on gradually. Order in school good.

Industrial training.—The large farm gives plenty of outdoor employment, and the neighbouring farmers are glad of assistance at critical times. There is a large garden also, with care of stock, pigs, poultry, &c. 10 boys work with the tailor and make all the clothing, outfits, socks, &c. 4 or 5 boys work with the shoemaker. A class of boys work with the basket-maker. The boys make their own bread and gas, and assist in all the work of the house. There is a good drum and fife

Detailed Reports.

Reformatory Schools.

band. The school is well organised and the staff efficient and experienced.

Staff.—Superintendent, the Rev. Richard G. Fish; matron, Mrs. Fish; schoolmaster, Mr. H. Lenge; assistant do., Mr. W. Dickinson; junior do., Mr. F. Kempley; bailiff, Mr. J. Kitchen; 3 labour-masters, tailor, shoemaker, basket-maker and bandmaster, cook, housekeeper, and laundress.

Average number maintained, 92. Total cost for 1894, 1,811*l.* 18*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 13*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 12*s.* 10*d.*

Industrial profits, 128*l.* 6*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 68 discharged in 1891–93, there are doing well 60, convicted of crime 8.

Leeds Reformatory for Boys, Adel, near Leeds.

Inspected August 1, 1894.

Number of inmates on day of inspection, boys, 144, and 56 on license; 1 in Leeds Infirmary.

State of premises.—I found the premises in perfect order. The sick-room arrangements are especially worthy of notice. In every part of the buildings the comfort of the inmates has been well considered. The new part of the buildings, including new shops, boiler-house, and drying-room, are a very great improvement. There is a very large swimming-bath, but much of its usefulness will be lost until it is warmed. There is a large detached building for lectures or service, and a very good well worked garden.

Health and general condition.—Early in the year an explosion took place in some of the boiler pipes during the frost, resulting in the death of two boys. There had been two deaths of emphysema complicated with bronchitis, one boy had been ill with dilated heart, one case of pneumonia, one of synovitis, one of diseased hip. A few cases of scabies brought in from outside. Nothing could be better than the general appearance of the boys.

Conduct and discipline.—There had been four cases of absconding. The school is only five miles from Leeds, and there are no walls, boys can run away when they like, but "absconding" here generally means running off to Leeds to see their friends. No one is allowed to punish except the superintendent, and there had been very few punishments during the year. There is no place where boys are more judiciously managed.

Educational state.—I have never seen better teaching in any of our schools. The examinations are always most satisfactory. There is always a large proportion of the boys in the upper standards, and the work is evenly good. There were 36 boys in Standard Five: reading very good; writing unusually good, as it was throughout the school; arithmetic and dictation very good; recitation very good. 36 in

Standard Four: an equally good class. 37 in Standard Three: equally good, except that one boy failed in arithmetic. 21 in Standard Two: 1 failure in arithmetic. 12 in Standard One: very good, no failures; order and attention excellent.

Industrial training.—There were 12 boys in the tailor's shop, 22 in the cabinet-maker's shop, 6 in the shoemaker's shop. Chopping firewood finds work for some of the smaller boys. A new business has been started; the manufacture of patent fire-lighters. Bread is baked on the premises. 8 acres of garden gives the best of employment to a good many boys. A good deal of the produce of the garden is sent to Leeds. There is a very good band of 24 performers.

Staff.—Superintendent, Mr. Twigg; matron, Mrs. Twigg; assistant matron, Miss Twigg; schoolmasters, Mr. Black, Mr. Pughe, Mr. James Twigg; tailor, shoemaker (who has been 30 years in the school), carpenter, two gardeners, farm bailiff (been here 29 years); bandmaster twice a week.

Average number maintained, 146. Total cost for 1894, 2,550*l.* 14*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 9*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 15*s.* 11*d.*

Industrial loss, 16*l.* 9*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 173 discharged in 1891–93, there are doing well 130, dead 7, doubtful 2, convicted of crime 26, unknown 8.

Yorkshire Reformatory for Roman Catholic Boys, Market Weighton.

Inspected June 8, 1894.

Number of inmates on day of inspection, boys, 214, and 32 on license.

State of premises.—I visited the school with Mr. Rogers and Mr. Robertson, and found all in very fair order. The new building for recreation and drill had been finished, and will be very useful. There are very good workshops. The farm consists of 950 acres, of which 140 are freehold, the remainder are rented. One farm is to be given up shortly.

Health and general condition.—There had been several cases of pleurodynia, one of tonsillitis, one of fractured thigh, several scrofulous cases, and a good many sore eyes, probably caused by the cold winds which had prevailed in the late spring. The general health had been very good, and I have never seen the boys looking better.

Conduct and discipline.—Very good. There had been no absconding, and a very much diminished list of punishments, and the punishments had been light. One boy, a new-comer, had set fire to his bed in the hopes of escaping in the confusion which he hoped would ensue. The boys cannot be an easy set to manage, but they are managed judiciously and without severity. No one about the place is allowed to punish except the superintendent, or by an official acting under his orders, and in his presence.

Educational state.—Order and attention very good. The boys willing and civil. We examined about half the school, seeing the others in the

Detailed Reports.

Reformatory Schools.

workshops. 20 in Standard Five: only 2 failures in arithmetic; work very good. 30 in Standard Four: 10 failures in arithmetic; 1 failure in dictation; reading good; writing very fair. 29 in Standard Three: 3 failures in dictation and 5 in arithmetic. 23 in Standard Two: 2 failures in arithmetic. 18 in Standard One: coming on well.

Industrial training.—Farm work gives employment to a large number of boys. The principal shops are those where printing and bookbinding are taught. The industries have been developed into a well-paying business, under the able direction of Mr. Clarkson. A very large amount of printing is done for various Catholic Institutions. There are good shops for tailoring and shoe-making. There are 40 stocking-making machines, doing a large amount of work for sale. There is matchbox-making for the smaller boys. All the bread wanted is made on the premises. There is a good band of 26 boys.

Staff.—Superintendent, the Rev. P. Castellano; chaplain, Rev. M. Garelli; schoolmasters, Mr. Bryce, Mr. McDonald, Mr. Burke; tailor, shoemaker, carpenter, four printers, bookbinder, baker, man and woman in the knitting department, nine farm men, drillmaster, gasman, man and wife in the kitchen, housekeeper, laundress.

Average number maintained, 222. Total cost for 1894, 4,123*l.* 15*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 11*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 3*s.* 3*d.*

Industrial profits, 696*l.* 0*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 162 discharged in 1891–93, there are doing well 114, dead 6, convicted of crime 39, unknown 3.

SCOTLAND.

ABERDEEN.

Old Mill Reformatory School for Boys, Old Mill, Aberdeen.

Inspected June 5, 1894.

Number of inmates on day of inspection, boys, 102. 38 discharged since last inspection ; admitted 20.

State of premises.—The premises supply excellent accommodation. The site is a very healthy one, The dormitories are well arranged and under good supervision. The school is well supplied with workshops. There are some good farm buildings, with good standing for 40 milch cows; horses, pigs, and poultry are dealt with. There is an excellent dairy ; a quantity of milk and butter is supplied to customers in Aberdeen.

Health and general condition.—The boys looked healthy and vigorous, but the year had not been a very healthy one. The drains had got out of order, and some traces of sickness could be traced to an unsanitary condition. A few cases of sore eyes, one erysipelas, one wound of scalp, one fracture of thigh, one hip-joint disease, in infirmary. One lacerated wound of arm and amputation ; several cases of tonsillitis, two erysipelas, one mesenteric disease died; one case of scarlet fever; one rheumatic fever, and a few cases of enlarged glands. Health improving on the day of my visit. Boys in good spirits and very cheerful.

Conduct and discipline.—A good many ordinary offences of disobedience, cheating, deceit, careless work, disobedience, theft of boys' food, impertinence ; some cases of quarrelling, striking, and fighting; two cases of absconding, new boys ; other than these no very serious crimes and offences up to date of inspection. I found the lads in good order, improving and generally tractable and well-affected.

Educational state.—22 in Standard Five: 2 absent; very good work and carefully taught; all passed but 3 in arithmetic. 25 in Standard Four: work well and carefully done, but 4 failures in arithmetic. 25 in Standard Three : 1 absent ; good and correct work ; all progressing favourably ; 3 weak in arithmetic. 17 in Standard Two : all making fair progress. 9 in Standard One : all doing well. 4 in preparatory class, just in the elements; all the boys quiet and attentive. Excellent order.

Industrial training.—I found 28 boys with the tailor, all well occupied and working diligently ; 23 in the leather shoeshop and 30 in the slipper shoe shop, very useful work going on ; 8 work in the garden, 13 on the farm. The farm and cowhouse are under the management of Mr. George Bain. I found a splendid stock of milch cows of the highest quality. There is a good band.

Staff.—Superintendent, Mr. Robert Simpson; matron, Miss Pyper; schoolmaster, Mr. Hugh Graham; farm overseer, Mr. George Bain; tailor, two shoemakers, gardener, warder, cook, laundress, and farm workmen.

Average number maintained, 103. Total cost for 1894, 2,453*l.* 2*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 23*l.* 16*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments. 23*l.* 11*s.* 11*d.*

Industrial profits, 815*l.* 13*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 56 discharged in 1891–93, there are doing well 48, convicted of crime 8.

Aberdeen Reformatory for Girls, Mount Street, Aberdeen.

Inspected June 5, 1894.

Number of inmates on day of inspection, girls, 27.

State of premises.—The buildings provide very suitable and convenient accommodation for 40 girls. The situation is a good one. There is a capital laundry and drying-room. The premises inside and out were in excellent order.

Health and general condition.—No infectious or contagious disease. Health generally good. A few colds and sore throats; one glandular swelling. Satisfactory immunity from disease. Girls looked particularly healthy.

Conduct and discipline.—I was glad to find the school much improved in every point of view, and going on more steadily and correctly. Two cases of absconding, one of impertinence to teacher, one bad language, one wilful disobedience. With these exceptions the girls had been going on well. I found them orderly, quiet, and obedient.

Educational state.—Well attended to. The girls were making very satisfactory progress. 3 in Standard Five: good results; recitations very well delivered. 9 in Standard Four: all passed creditably; no failures. 6 in Standard Three: good work and satisfactory progress. 3 in Standard Two: all getting on well. 4 in Standard One: gaining ground; 2 recently admitted entirely ignorant. Girls very well-behaved and in excellent order.

Industrial training.—There is a good laundry which fully occupies the elder girls. Some assist in the kitchen and housework. All learn plain needlework and knitting. Systematic lessons in cooking should be introduced.

Staff.—Superintendent, Miss Janet Reid; schoolmistress, Miss Sophia Taylor; laundress.

Average number maintained, 27. Total cost for 1894, 542*l.* 4*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 1*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 16*s.* 6*d.*

Industrial profits, 159*l.* 5*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 15 discharged in 1891–93, there are doing well 9, dead 3, unknown 3.

EDINBURGH.

Dalry Reformatory for Girls, Dalry Lane, Edinburgh.

Inspected March 9, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, girls, 31; on license, 3.

State of premises.—House and premises in excellent order, very suitable and convenient. There is a good laundry and plenty of room for recreation and exercise. A good covered shed for outdoor exercise.

Health and general condition.—The health has been good. Very little serious illness. One case of eczema, one of weak eyes, one diarrhœa, one gastric disorder. Nothing much to complain of. The girls looked well.

Conduct and discipline.—There had been a great deal of trouble in the house of late, many cases of rude conduct, disobedience, insubordination, and restlessness. A change of superintendence in the year, and the staff had not been working harmoniously together; a good many new girls, and many petty offences and minor difficulties. In November and December some grave disorder, and in December three girls absconded. In February a continuance of disorder and three girls absconded; a good deal of public attention was drawn to the case. The girls were punished, some changes took place in the staff, and latterly the school has been going on much more quietly, and has resumed its quiet routine of good order and usefulness.

Educational state.—Very fair. A good many new girls. 7 in Standard Five: good reading, spelling, English composition, writing; arithmetic fair. 7 in Standard Four: very fair results, all passed in arithmetic but one. 10 in Standard Three: all passed in the usual subjects, 1 failed in arithmetic. 1 in Standard Two: backward. 2 in Standard One: backward. Good order in school.

Industrial training.—The laundry gives ample employment for a class of the elder girls. But the reduced number of inmates interferes with the successful operation of this branch of work. The girls make their own clothing and outfits, and knit very well. Good samples of needlework wereexhibited

Staff.—Superintendent, Miss Carter; schoolmistress, Miss A. F. Bradford: laundry matron, Miss Affleck.

Average number maintained, 33. Total cost for 1894, 712*l.* 11*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 11*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 18*s.* 10*d.*

Industrial profits, 29*l.* 3*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 20 discharged in 1891–93, there are doing well 7, doubtful 1, convicted of crime 1, unknown 11.

Wellington Farm Reformatory for Boys, Penicuik, near Edinburgh.

Inspected March 7, 1894.

Number of inmates on day of inspection, boys, 109, and 13 on license.

State of premises.—I went over every department and found the whole establishment in very good order. The dormitories very clean and comfortable, and the general arrangements efficient and suitable. Some alterations were in contemplation to provide a larger workshop for the tailors, and a few other improvements. There is a large farm of 100 acres.

Health and general condition.—Health had been well preserved. One death from epileptic seizure; one case of rheumatism; only trivial complaints throughout the summer. A few cases of influenza in November, but of a mild type. No infectious disease. In 1894 one abscess in neck; one ulcer of leg. The boys looked healthy and thriving, and in very good spirits.

Conduct and discipline.—Boys with a few exceptions had been going on well. One case of insubordination, a little restlessness in May 1893. Three attempted to abscond, one absconded, one lying and deceit, some idleness at work, impertinence and lying, two absconding in December, some cases of petty theft. School going on steadily, with but little to complain about.

Educational state.—The education was very satisfactory; all the classes making good purpose. 16 in Standard Five: an intelligent class; no failures, superior proficiency. 22 in Standard Four: all passed most creditably, no failures. 19 in Standard Three: a satisfactory class, carefully taught, and doing well. 25 in Standard Two: good progress, all well taught, and no failures. 16 in Standard One: progressing favourably; careful and accurate work. 10 in preparatory class, new-comers. Admirable order. Boys quiet and well trained.

Industrial training.—On the day of inspection the boys were thus distributed for industrial occupation. 55 in the shoe-shop as rivetters and finishers, 16 as closers, 18 in the tailor's shop, 13 on the farm, care of stock, &c., 3 in the cooking house, 1 pony boy, and 2 in boiler and engine room, 1 porter at the gate. The shoemaking is carried on vigorously, and the amount of work turned out large and of very good quality. Much encouragement is held out to the lads to apply themselves to their trade. The tailoring is well done, but a larger shop is needed. There is an excellent band of pipers in national costume.

General remarks.—The lads receive much encouragement to do well. A good system of rewards for diligence at work prevails. There is a good reading and recreation room. The band of pipers gives life to the whole establishment occasionally.

Staff.—Superintendent, Mr. John Craster; assistant superintendent, Mr. John Davidson; matron, Mrs. Craster; schoolmaster, Mr. James Kirkpatrick; warder and assistant, Mr. Thos. White; tailor; three shoemakers; engineer and bandmaster, farm grieve, and farm workman.

Average number maintained, 102. Total cost for 1894, 1,965*l.* 13*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 5*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 16*s.* 10*d.*

Industrial profits, 346*l.* 1*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 75 discharged in 1891–93, there are doing well 65, dead 1, convicted of crime 9.

FORFAR.

Rossie Reformatory for Boys, near Montrose.

Inspected June 6, 1894.

Number of inmates on day of inspection, boys, 67.

State of premises.—In good order. The situation is a very pleasant and healthy one—about five miles from Montrose, and two miles and a half from the sea, where the boys often bathe in the summer. The superintendent's house is a short distance from the school buildings. There is a very good garden and about 111 acres of land, of which about 48 are woodland.

Health and general condition.—There had been no serious case of illness to report. The only cases of any consequence were one of bronchitis and one of an epileptic fit, of which there had been no recurrence. The boys looked robust and cheerful.

Conduct and discipline.—There had been three cases of absconding and one attempt to abscond. One boy had given a good deal of trouble, and with two others had planned to set fire to the place; luckily they were overheard by another boy, who reported the circumstance to the superintendent. The general conduct had been very good.

Educational state.—The education had been well attended to, and no less than 47 boys were in the three upper classes. There were 2 in Standard Six, 25 in Standard Five, 20 in Standard Four, 5 in Standard Three, 7 in Standard Two, 1 in Standard One; all doing well and very few failures in any class. Great effort had been made to bring out the intelligence of the boys. The writing was open to improvement. Order and attention very good.

Industrial training.—20 boys were working in the tailor's shop and 20 in the shoemaker's; good work was done in both shops. The farm and garden find good employment for some of the boys, and some work in the house. There is a good band of 16 performers.

Staff.—Superintendent and matron, Mr. and Mrs. McEwan; schoolmaster, Mr. Whitehead; tailor, shoemaker, farm bailiff, and two domestics.

Average number maintained, 67. Total cost for 1894, 1,121*l.* 15*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 14*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 4*s.* 1*d.*

Industrial profits, 96*l.* 4*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 47 discharged in 1891–93, there are doing well 35, dead 1, doubtful 1, convicted of crime 8, unknown 2.

Detailed Reports.

Reformatory Schools.

Lanark.

House of Refuge Reformatory for Girls, East Chapelton, New Kilpatrick, near Glasgow.

Inspected May 29, 1894.

Number of inmates on day of inspection, girls, 34 under detention, 1 voluntary case, and 1 on license.

State of premises.—A very good and well-arranged building, in good order. The situation is very good; no better building of its size anywhere. The telephone has been laid on to Glasgow. All the dormitory floors have been stained and varnished, and the drainage attended to. There is a good garden and playground.

Health and general condition.—A girl whose time had expired died in the school of peritonitis; there had been 13 cases of diphtheritic sore throat, in consequence of which the drains were improved; one case of hæmoptysis; two girls who had been on license had to be sent to the Lock Hospital; one case of chorea; one girl had suffered from diseased jawbone; there was one bad case in the sickroom, an old girl who had come back to be nursed, and is well taken care of.

Conduct and discipline.—The general conduct had been very good; one girl had given some trouble. There had been very little punishment.

Educational state.—I found 7 girls in Standard Five: 3 failures in arithmetic, good reading, writing, and dictation. 5 girls in Standard Four: a very good class, no failures. 10 in Standard Three: good reading and writing, 3 girls failed in arithmetic, 1 in dictation. 7 in Standard Two, 5 in Standard One: coming on well; geography taught; recitation very good in all classes; order and attention very good. In summer, lessons in cookery are given three times a week. Excellent singing.

Industrial training.—The girls are trained for domestic service, and are taught sewing and knitting. They also do house work and laundry work and help in the kitchen.

General remarks.—I found the school going on decidedly better under the new management, the education better attended to, and the intelligence of the girls better developed.

Staff.—Superintendent, Miss Hunter, assisted by Miss Fleming and Miss Morrison; laundress, gardener.

Average number maintained, 36. Total cost for 1894, 1,067*l.* 2*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 29*l.* 12*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 27*l.* 19*s.* 4*d.*

Industrial profits, 113*l.* 3*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 21 discharged in 1891-93, there are doing well 12, dead 1, doubtful 5, unknown 3.

Parkhead Reformatory for Roman Catholic Boys, Westhorn Mills, near Glasgow.

Inspected May 28, 1894.

Number of inmates on day of inspection, boys, 199 in the school, 50 on license.

State of premises.—Improved in many respects, the new portion of the building is very well arranged, and includes a very fine schoolroom and over it a large, well-ventilated, well-lighted dormitory, with a large playshed under the schoolroom. There is a very large swimming bath, good garden, some 12 acres of land. There is a good sickroom. The premises were in very good order.

Health and general condition.—There had been three deaths, one from eating poisonous berries, two from consumption. There had been several serious cases of illness, one of pleurisy, two of peritonitis, two of tonsillitis, three of pneumonia, and one lad had broken his arm in the playground. With these exceptions the general health had been good.

Conduct and discipline.—There had been two cases of absconding, one boy whilst away had been taken up in Newcastle for stealing and was sent to prison for two months. The general conduct had been very good, and the annual amount of punishment had been much reduced. The boys were divided into three grades; on admission a boy is placed in No. 1 grade, by good conduct he works his way into No. 2 and from that to No. 3, in which last grade he can earn a small money payment.

Educational state.—I found 29 boys in Standard Five: good reading, writing, and dictation; 7 failures in arithmetic. 34 in Standard Four: reading and writing generally good; 8 failures in dictation and 7 in arithmetic. 48 in Standard Three: very fair reading, the writing promised well; there were 11 failures in dictation and 10 in arithmetic. 40 in Standard Two: reading and writing very fair; a good many failures in spelling; 10 failures in arithmetic. 27 in Standard One: very fair class. 12 in a preparatory class, order and attention very good. A band had been established.

Industrial training.—I found the industrial training well attended to; 31 tailors; 8 carpenters; 22 shoemakers; 43 matchbox-makers; about 30 work in farm and garden; and some in the house, kitchen, and laundry.

Staff.—Superintendent and matron, Mr. and Mrs. Garden; chaplain, the Rev. T. Angland; schoolmaster, Mr. Brotherhood; assistants Mr. H. Mellon and Mr. T. Cowen; warder, tailor, shoemaker, joiner, matchbox maker, two labour-masters, vanman, three domestics. Bandmaster twice a week.

Average number maintained, 199. Total cost for 1894, 3,488*l.* 15*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 10*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 5*s.* 5*d.*

Industrial profits, 432*l.* 7*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 167 discharged in 1891-93, there are doing well 102, dead 3, convicted of crime 62.

Renfrew.

Kibble Reformatory for Boys, Paisley.

Inspected May 30, 1894. Visited Dec. 11, 1894.

Number of inmates on day of inspection, boys 110, of whom all but 10 are Glasgow boys; 19 on license.

State of premises.—No new buildings, but a good many repairs have been made in the year. There are very good roomy shops, a good garden, a large playground, and a farm of about 40 acres, a short distance from the school. Everything about the place in excellent order. The lavatories would be no worse for being modernised.

Health and general condition.—There had been one death from consumption, one boy had been discharged, epileptic. There had been one case of pneumonia, one of enteric fever, one of laryngitis, one of pulmonary affection. The general health had been excellent, and the appearance of the boys was very satisfactory.

Conduct and discipline.—The general conduct had been very good, with the exception of five cases of absconding; two boys had been sent to prison, and one transferred to Rossie Reformatory. There is a mark system, marks are given for work and conduct, and a boy is able to earn as much as 1*s.* 6*d.* a week.

Educational state.—The schoolroom work had improved, and the order was excellent. There were 7 boys in Standard Five: good work, one failure each in dictation and arithmetic; geography was being taught and some grammar. 18 in Standard Four: a very good class, no failures. 27 in Standard Three: 2 failures in arithmetic, good reading, very fine writing. 23 in Standard Two: very good work; no failures. 27 in Standard One and 5 in a preparatory class, coming on well.

Industrial training.—There were 19 tailors, 18 shoemakers, 24 joiners, 24 farm lads, 19 of the smaller boys chopping firewood, 2 cowboys, 4 in the house. There was a 6-horse gas engine in the joiner's shop, and in every department I saw evidence of good, practical industrial training.

Staff.—Superintendent and matron, Mr. and Mrs. James Grant; schoolmasters, Mr. Love, Mr. Jolly; carpenter, tailor, shoemaker, gardener, and servant.

Average number maintained, 109. Total cost for 1894, 2,200*l.* 13*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 3*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 2*s.* 10*d.*

Industrial profits, 74*l.* 8*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 116 discharged in 1891–93, there are doing well 31, doubtful 1, convicted of crime 27, unknown 57.

Wigton.

Stranraer Reformatory for Boys, Stranraer, N.B.

Inspected March 14, 1894.

Number of inmates on day of inspection, boys, 90, and 6 on license.

State of premises.—I found house and premises in good order, and good sanitary condition. They are very suitable for the work carried on with the exception of the dormitories, which are not so airy and commodious as they might be; but they are kept clean and well ventilated. There is a good range of workshops of a most practical character. Large garden and useful greenhouse.

Health and general condition.—General health well maintained. Very little serious illness; a few cases of sore eyes, and some weakly constitutions. Sanitary conditions carefully attended to. Boys in good spirits, cheerful and well-disposed.

Conduct and discipline.—The lads, and especially the elder ones, give comparatively little trouble. All are conscious that the school gives them a valuable opportunity for practical improvement, and many of them are not only intelligent but manly and straightforward. A few cases of absconding, a few cases of petty theft. Some bad habits to unlearn. Tobacco always causes trouble. In December a badly-disposed boy induced three others to abscond with him—all recovered. Some restlessness at end of 1893 and the beginning of 1894. Boys steady and quiet on day of inspection.

Educational state.—School work very well attended to, good results and much application on the part of the boys. 33 in Standard Five: an intelligent and well-taught class, very careful work, excellent handwriting and arithmetic. 14 in Standard Four: work very well done; good progress and proficiency. 14 in Standard Three: 1 sick; all work carefully done, and sound progress. 18 in Standard Two: all gaining ground; work done on paper. 7 in Standard One and 4 in preparatory class: receiving due attention. Order excellent. Boys quiet and respectful.

Industrial training.—This out-of-the-way Reformatory, at the extremity of Wigton, has always taken a prominent place for practical training of the lads consigned to its care. The superintendent is never satisfied unless he turns an ignorant boy into an intelligent and skilful workman. The process has been going on here for many years with a large measure of success; and it is entirely due to the good common sense with which the instruction has been conducted. The workshops give useful training and instruction in rough carpentry, joinery, cabinet work, rope and twine making, netting, shoemaking, and gardening. Beehives of modern construction are a speciality. The boys work diligently and with good results.

Staff.—Superintendent, Mr. James Ross; matron, Mrs. Ross; assistant superintendent and schoolmaster, Mr. J. McKinstry. One junior assistant in school; tailor, shoemaker, twine-spinner, carpenter, and engineer; cabinet-maker and turner, gardener. Two junior assistants in the house.

Average number maintained, 89. Total cost for 1894, 1,689*l.* 2*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 19*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 7*s.* 10*d.*

Industrial profits, 469*l.* 14*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 85 discharged in 1891–93, there are doing well 43, doubtful 1, convicted of crime 17, unknown 24.

APPENDIX No. II. (B.)

Detailed Reports of Inspectors on Certified Industrial Schools for the Year 1894.

ENGLAND.

Berks.

Girls' Industrial Home, Hill House, Cold Ash, Newbury, Berks.

Inspected October 15, 1894.

Number of inmates on day of inspection, girls, 31; of these 30 were under detention, 1 term expired.

State of premises.—The house and premises were in good order, clean and comfortable. Some important improvements, especially in lavatory and bathroom. The space is somewhat limited, but the situation is healthy and the house accommodation made the most of. A small sick-room has been provided.

Health and general condition.—Some of the girls are constitutionally weak and unhealthy, but improve in this healthy locality. A few ordinary ailments; some bad colds and coughs in the cold season; three cases of whooping cough; a few chilblains: one case of epilepsy discharged; one of deafness; one enlarged glands; one acute eczema; one or two bad heads, and a few sore throats. The children looked well and properly cared for.

Conduct and discipline.—A few cases of theft and bad language; one or two cases of improper behaviour and conversation; some rudeness and impertinence and occasional disrespect. Girls improving, but a good many faults of roughness and rudeness requiring correction. School carefully managed, with satisfactory progress.

Educational state.—Improved. 4 in Standard Four: very fair work. 1 failure in arithmetic, very good reading. 8 in Standard Three: fair work of an improved character; 3 weak in dictation, 1 in arithmetic; good recitation. 4 in Standard Two: good reading, spelling, dictation, and writing; arithmetic indifferent. 8 in preparatory class: very good, all beginning to read and spell. Girls quiet and good.

Industrial training.—The girls engage in all the work of the house, assist in the kitchen and scullery, keep the whole house clean, and wash the clothing. The practical training is carefully attended to. Needlework, knitting, and dress-making form part of the daily instruction. A fair exhibit of needlework and knitting.

General remarks.—The school is under the management of the Waifs and Strays Society, and deals principally with children sent under the Industrial Schools Amendment Act, 1880.

Staff.—Superintendent, Miss Barter; general assistant; schoolmistress, Miss Young; house matron and housekeeper. Rev. W. Grindle officiates as chaplain.

Average number maintained, 30. Total cost for 1894, 585*l.* 16*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 10*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 17*s.* 2*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 10 discharged in 1891–93, there are doing well 6, doubtful 1, unknown 3.

CARNARVONSHIRE.

Industrial School Ship "Clio," Menai Straits, Bangor, North Wales.

Inspected May 5, 1894.

Number of inmates on day of inspection, boys, 246, 2 on the sick list; 63 admitted since the last inspection; 83 discharged.

State of premises.—I inspected every department of the ship, and was glad to find good order, cleanliness, and complete organisation in every detail. Ventilation is well provided for. The arrangements are excellent. The boys are provided with every requisite. There is a good sick-bay in case of necessity, and a very valuable covered deck giving protection and the means of exercise and recreation at all times.

Health and general condition.—In spite of all drawbacks of exposure, wind, and plenty of weather, the boys had a bright and healthy appearance, and looked thriving and hearty. They are small in size, but very active, and full of spirit and energy. Two boys in sick-bay, no deaths, and very little serious illness. Medical report very favourable; a few cases of eczema, bad eyes, sprained ankles, enlarged glands, one fracture from a fall, one case of jaundice, a few influenza cases of a mild type, one case of pneumonia. The boys marched round with their band, and gave an exhibition of physical drill.

Conduct and discipline.—A pretty long list of petty offences, but a small percentage of serious ones. Several cases of disobedience, use of bad language, insubordinate conduct, bullying, quarrelling, and disorder; one serious attack upon another boy. Boys in good spirits and well affected. Order and discipline well maintained. Ship going on very steadily.

Educational state.—This is well attended to. I took the starboard watch. 17 in Standard Six: very good work; well prepared class; good recitation and geography of Europe. 31 in Standard Five: satisfactory work; good arithmetic; recitation and geography of Europe.

31 in Standard Four: an excellent class; work very well done; recitation and geography of England and Scotland. 26 in Standard Three: very good standard work, and geography of England. 16 in Standard Two: class did well; very few failures. 8 in Standard One: satisfactory class. Boys quiet, orderly, and well-behaved.

Industrial training.—The classes for the day went through their nautical instructions under a competent staff of officers. The boys receive careful instruction in every detail of a seaman's duty, including the action of the rudder and the use of the compass in steering. The ship is supplied with all proper appliances for special instruction. 11 boys work with the tailor. Most of the ships' clothing is made on board; 4 work with the carpenter; a class with the sailmaker, and some with the cook in the galley. Most of the boys learn to swim. 33 boys sent to sea in 1894.

Staff.—Captain Superintendent, Captain W. Milner Moger, R.N.; chief officer, Mr. John Delaney; head schoolmaster, Mr. W. Milliard; assistant ditto, Mr. J. Kidd and Mr. C. Stevens; clerk, Mr. W. Wells; second officer, Mr. A. Willcocks; five seamen instructors, one gunnery instructor, tailor, shoemaker, two carpenters, sick-bay attendant, cook and storekeeper, night watchman; shipping agent, Mr. Edward Yeo.

Average number maintained, 244. Total cost for 1894, 5,444*l.* 12*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 6*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 14*s.* 7*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 214 discharged in 1891–93, there are doing well 185, dead 3, doubtful 3, convicted of crime or recommitted 5, unknown 18.

Cheshire.

Chester Industrial School for Boys and Girls, Boughton, Chester.

Inspected March 21, 1894.

Number of inmates on day of inspection, boys, 85; girls, 39; total, 124; 1 girl on license.

State of premises.—I went over the whole premises, and found every department in its usual condition of neatness and good order. Dormitories very clean and well arranged. Separate provision for boys and girls, but only one schoolroom for both sexes. A good range of workshops, and some extensive gardens under careful cultivation. The whole establishment is well kept up.

Health and general condition.—Very good report as to the general health. Boys and girls looked remarkably well, and are well cared for in all respects. Not much serious illness. One severe concussion of

Detailed Reports.

Industrial Schools.

the brain, one scalded leg, one phthisis, one rheumatic attack, a few trifling ailments of the ordinary character.

Conduct and discipline.—Discipline properly maintained; an absence of very serious offences. School had been going on steadily. Two new boys absconded in May. Some cases of petty theft, lying and deception, going out of bounds, and idleness—of no very serious account. Girls doing well.

Educational state.—Mixed school. 42 in Standard Five: 28 boys, 14 girls; reading good; spelling fair; meaning of words, defective; dictation, 9 failures; arithmetic indifferent, 15 failures; not a good class. 25 in Standard Four: 17 boys, 8 girls; reading fair; spelling defective; 14 failures in dictation; writing wanting in style; arithmetic, 6 failures. 24 in Standard Three: 15 boys, 9 girls; a fair average class; creditable work; only 1 failure in arithmetic. 13 in Standard Two: good average class; very few defects. 12 in Standard One: 10 boys, 12 girls; getting on fairly well. 5 boys and 1 girl in preparatory stage. Order fair.

Industrial training.—I found 12 boys working with the tailor, 12 with the shoemaker. There is a large garden, and about 20 boys work with the gardener, and about 40 boys are engaged in wood-chopping. Technical instruction in the use of tools and woodwork should be introduced, together with linear drawing in the schoolroom. The girls are trained for domestic service. All learn to knit and to sew. There is a good workroom. The girls also assist in the kitchen and laundry. There is a good bakery.

General remarks.—Nothing has been done to carry out the suggestions of the Inspector to carry on the girls' school as a separate establishment. The girls would do far better by themselves entirely under female management.

Staff.—Superintendent and matron, Mr. and Mrs. Felix Thomas; deputy superintendent, Mr. Edwd. H. Thomas; schoolmaster, Mr. Thomas H. Tilston; assistant do., Mr. John Edwards; do., for girls, Miss Grane; matron's assistant, Miss Eyre; tailor, shoemaker, sawyer, gardener, carpenter, wood-chopper, baker, cook, and charwoman; bandmaster occasional.

Average number maintained, 129. Total cost for 1894, 1,911*l.* 8*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 16*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 2*s.* 8*d.*

Industrial profits, 217*l.* 2*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 54 boys and 31 girls discharged in 1891–93, there are doing well 48 boys and 25 girls, dead 2 boys and 1 girl, doubtful 2 boys and 2 girls, convicted of crime or recommitted 1 girl, unknown 2 boys and 2 girls.

Albert Memorial Industrial School for Boys and Girls, Corporation Road, Birkenhead.

Inspected March 20, 1894.

Number of inmates on day of inspection, boys, 85; girls, 29; total, 114; 3 boys on license.

State of premises.—The whole establishment in good order, well organised. Dormitories clean and well ventilated. Outdoor conveniences in need of reconstruction. Good playgrounds for both boys and girls. Separate provision for boys and girls, and separate schoolroom. Situation a fairly healthy one.

Health and general condition.—Health very fair, much immunity from serious illness. One scalded foot, one tonsillitis, one eczema, one fracture of right radius, one congestion of lungs, one death from heart disease; few cases of mild influenza; a few cases of catarrh; one carbuncular abscess, one diarrhœa, one scrofulous abscess. Boys looked strong and thriving. Girls had a healthy appearance also.

Conduct and discipline.—No serious misconduct. A few ordinary cases of neglect of work, idleness, &c.—one leaving his work in the bakehouse, one using bad language, and carelessness. Boys had earned a good character for the year. Girls also received a good report and were going on steadily.

Educational state.—Boys very well attended to. 15 in Standard Six, 3 absent: superior work, no failures; very intelligent class; work carefully and neatly done. 13 in Standard Five: very good exercises; a well-taught class, and the greatest accuracy. 13 in Standard Four: one weak in all subjects; 4 weak in arithmetic, 2 in dictation; the rest did well. 18 in Standard Three: class going on satisfactorily; 3 weak in arithmetic; no other failures. 17 in Standard Two: good progress. 9 in Standard One: all doing very well. 4 in preparatory class in the elements. Boys very quiet and well-behaved. Girls—9 in Standard Five: very fair work; 3 backward in arithmetic. 3 in Standard Four: doing well. 3 in Standard Three; all doing well. 12 in Standard Two: all improving under proper instruction. 2 in Standard One: doing well. Very good order.

Industrial training.—The industrial training receives a fair share of attention. But the school does not seem to be able to emerge from the general routine. I found 12 boys working with the tailor, 12 with the shoemaker; very fair work being turned out. There are two engine boys; a large number of boys are engaged with wood-chopping. No technical instruction in the use of tools or woodwork. The girls all learn to knit and to sew, and do the school washing and make all the boys' shirts and socks. The boys make and bake their own bread. There is a very good band.

Staff.—Superintendent and matron, Mr. and Mrs. Bielby; schoolmaster for the boys, Mr. Blakeboro; schoolmistress for the girls, Miss Harrison; tailor, shoemaker, labour-master, work-mistress for the girls, and one domestic.

Average number maintained, 119. Total cost for 1894, 2,121*l.* 5*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 16*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 6*s.* 8*d.*

Industrial profits, 106*l.* 15*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 57 boys and 25 girls discharged in 1891–93, there are doing well 50 boys and 23 girls, dead 2 boys, convicted of crime or recommitted 3 boys, unknown 2 boys, 2 girls.

Stockport Industrial School for Boys, Townend House, Higher Hillgate, Stockport.

Inspected May 16, 1894. Visited December 5, 1894.

Number of inmates on day of inspection, boys, 150; on license 22.

State of premises.—A site has been procured and approved of on which it is proposed to build a new school. In the meantime the old premises are made the best of. A good playfield is required. Better dormitories, lavatories, and workshops may be expected to be provided by having a new building as well as a better situation in a less crowded neighbourhood.

Health and general condition.—Three deaths since last inspection. One from diseased spine, one from bronchitis and heart disease, and one from meningitis. An anxious case of tonsillitis made a good recovery, as did a case of pleurisy. There were several cases of high temperature, which, however, yielded to treatment in a few days. Some coughs and colds and a few cases of ophthalmia. Two boys in the sickroom, one with ophthalmia and the other with a fractured thigh from a fall in the playground, were receiving proper attention. The general appearance was good for town boys.

Conduct and discipline.—There had again been some serious cases of stealing from shops in the town, and also at the seaside on the occasion of the annual trip, by the same boys as last year. Some cases of going out without leave, loitering, and smoking in the streets. Several minor offences—carelessness, disorder, &c. The mark system carrying small rewards was being given a fairer trial, and already beginning to work well.

Educational state.—25 in Standard Five: very fair reading; good writing; no failures, but room for improvement in arithmetical problems. 36 in Standard Four: very fair reading, good writing; 6 failures in arithmetic. 38 in Standard Three: very fair reading, good writing; all passed in dictation; 1 failure in arithmetic. 38 in Standard Two: good reading, spelling, and writing; 1 failure in dictation and 5 in arithmetic. 9 in Standard One: 2 rather backward in reading, but the remainder of the work was well done. 5 in preparatory class: newcomers and beginning to learn. Very fair geography in Standards Five and Four. Good recitations in all standards. There was a decided improvement in method in the lower classes. The boys sing well. Order and attention very good.

Industrial training.—The joiner's shop had been restarted and was doing very fairly, employing 10 boys. 22 work in the tailors' and 20

in the shoemakers' shops. 23 of the smaller boys make shirts, flannels, socks, &c. The printing shop employs 9 boys. About 35 work out (half time) in the town; the majority in hat works, and some few as errand boys. Others assist in the house and laundry work, and the backward boys attend school full time.

Staff.—Superintendent and matron, Mr. and Mrs. W. J. Leach; schoolmaster, Mr. C. H. Holmes; assistant ditto, Mr. J. E. Waltho; printer, shoemaker, tailor, joiner, sewing-mistress, cook, bandmaster, and drill instructor.

Average number maintained, 150. Total cost for 1894, 2,747*l.* 10*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 16*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 16*s.* 8*d.*

Industrial profits, 573*l.* 19*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 96 discharged in 1891–93, there are doing well 82, dead 3, doubtful 3, convicted of crime or recommitted 3, unknown 5.

Stockport Industrial School for Girls, Dialstone Lane, Stockport.

Inspected May 16, 1894. Visited December 5, 1894.

Number of inmates on day of inspection, girls, 59; of these 56 were under detention, 3 on voluntary list; 1 at Southport.

State of premises.—The house and premises are always found in perfect order. The arrangements are excellent. The buildings substantial and good. There is a very convenient workroom and a well appointed laundry. Plenty of room for exercise. The children are well provided for.

Health and general condition.—General health had been very good. The girls looked fresh and healthy, and very clean and tidy in person. A few cases of diarrhœa; one curvature of spine; one bronchitis; a few cases of constitutional debility; one at sea-side suffering from general weakness. No sick in house.

Conduct and discipline.—General conduct very good. Some very well-conducted girls. One girl rather troublesome; one disorderly; one rude and disrespectful; one careless in her work. A good system of marks prevails. 47 in the 1st Grade; 3 in the 2nd Grade; 7 in the 3rd Grade; two or three in the lowest grade. The school continues to be well and carefully managed. General aspect very favourable.

Educational state.—This is well attended to. 12 in Standard Five; no failures; an intelligent class; well taught; good recitations. 13 in Standard Four: satisfactory class; 2 weak in arithmetic; recitation good. 12 in Standard Three: all doing well; good progress; no failures. 9 in Standard Two: class improving; no failures. 9 in Standard One: all doing well; recitation very fair; 2 in preparatory class; both new girls. Order and attention excellent.

Industrial training.—The industrial training receives a due share of attention. The elder girls assist in the laundry, wash for the boys' school, knit their socks and make their shirts. There is a very good

workroom. The girls make all their own clothing; good samples were exhibited. Lessons in plain cookery are needed.

Staff.—Superintendent, Miss Janet Wotherspoon; schoolmistress, Miss Helen Wotherspoon; workmistress, Miss Duggan; laundress, cook, and junior assistant.

Average number maintained, 59. Total cost for 1894, 1,091*l.* 11*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 10*s.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 1*s.* 6*d.*

Industrial profits, 126*l.* 6*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 44 discharged in 1891–93, there are doing well 41, doubtful 1, unknown 2.

Macclesfield Industrial School for Boys, Brook Street, Macclesfield.

Inspected April 18, 1894.

Number of inmates on day of inspection, boys, 150, on license, 12.

State of premises.—I inspected every department, and was glad to find the whole building, workshops, dormitories, &c., in a very efficient condition. There is always some improvement to be found at the school. Much intelligence, great activity, and an enterprising spirit. Routine is not allowed to prevail; when a change is thought to be desirable it is carried out if possible. There is a good range of workshops, due accommodation for the boys, and a good sanitary condition generally.

Health and general condition.—Favourable. Boys looked healthy and vigorous. Very good drill. The boys camp out every summer for a fortnight or so, and derive much advantage for the change. A few sick cases—one abscess; one influenza; one hip disease; four cases of mild scarlet fever; one pneumonia; two febricula; two cases of mumps. Boys very well on day of inspection and in good spirits. The boys have regular exercise and take much interest in their games.

Conduct and discipline.—No very serious misconduct. A few cases of petty theft; one case of absconding; use of tobacco; cases of disobedience; idleness; neglect of duty, and rudeness occasionally; but nothing very grave. The boys seemed well affected, and to understand that the school was interested in their welfare and progress. Discipline is well maintained without much trouble.

Educational state.—This is carefully attended to. There is good progress from year to year, and much pains taken to give the boys a useful education. 16 in Standard Five: an intelligent class; very good arithmetic; geography of Europe; good recitation and English composition. 21 in Standard Four: very creditable work; recitation, geography of Australia, and good mental arithmetic; very good exercises. 17 in Standard Three: a very good class; good geography and recitations; all work done well. 21 in Standard Two: satisfactory work. 15 in Standard One: class coming on well. 17 in preparatory class; making way. Boys very quiet and attentive.

Industrial training.—The industrial training is varied and useful. No other school has exerted itself in the same degree to make the industrial training effective and thorough. There are good shops for tailoring, shoemaking, brushmaking. Three boys in the engine-room. Two nights a week are given up to wood-carving, two nights for drawing. The manual instruction in the use of tools and woodwork had been persevered with and with much success, and some good specimens of wood-carving were exhibited. The boys are much interested in these pursuits. There is an excellent band. The boys drill exceedingly well. There is a fire-engine and fire-brigade also. I was gratified with what was being done to add to the boys' resources and intelligence.

Staff.—Superintendent and matron, Mr. and Mrs. W. Heap; assistant superintendent, Mr. Heap, Junr.; schoolmaster, Mr. Hinde; 2 assistant teachers, 3 shoemakers, 2 tailors, 2 brushmakers, nurse and seamstress; engineer, cook, drillmaster, and bandmaster occasional.

Average number maintained, 147. Total cost for 1894, 2,426*l.* 8*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 10*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 3*s.* 2*d.*

Industrial profits, 20*l.* 5*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 92 discharged in 1891–93, there are doing well 76, doubtful 5, convicted of crime on recommittal 2, unknown 9.

Bishop Brown Memorial Industrial School for Roman Catholic Boys, St. Joseph's, High Street, Stockport.

Inspected May 16, 1894. Visited December 5, 1894.

Number of inmates on day of inspection, boys, 70, and 27 in the Working Boys' Home attached to the school.

State of premises.—I found house and premises in very good order and under careful and experienced supervision. A substantial house and every requisite and provision for the boys' training and accommodation. The Working Boys' Home is a valuable addition, and is found to act successfully in gradually introducing the lads to the outside life.

Health and general condition.—The health had been good. Medical report for the past year generally favourable. A few feverish colds, one case of pneumonia, one glandular abscess, two or three cases of rheumatism, one acute; one fracture of leg bone, some feverish colds in the winter. Boys in very fair health and in good spirits. An excellent infirmary when needed.

Conduct and discipline.—Conduct on the whole good. A few cases of insubordination, petty theft, untruthfulness, sulkiness, and obstinacy. Wilful mischief, opening and destroying a letter, smoking tobacco. General behaviour very fair. Boys improving, obedient and tractable.

Educational state.—Creditable. 2 in Standard Six: intelligent boys, passed well. 13 in Standard Five: 1 weak in dictation, 2 in arithmetic; class doing well; good recitation. 15 in Standard Four;

very good work; 3 rather weak in arithmetic; the remainder did well in all subjects. 18 in Standard Three: general work satisfactory; 4, however, weak in arithmetic. 11 in Standard Two: doing well, with one exception. 8 in Standard One: good progress. 3 in preparatory class: under proper instruction. Boys quiet and orderly.

Industrial training.—I found 11 boys working with the tailor, 10 with the shoemaker. The boys assist in the kitchen and laundry, and do all the work of the house. The Working Boys' Home attached to the school is found to be of much utility in placing the boys out in situations. I found 27 in the Home, working out all day and coming home for meals and lodging. The school was working advantageously. There is a fife and drum band.

Staff.—Sister Superior, Sister Angela, and three Sisters to help her. Tailor, shoemaker, cook and laundress, caretaker. The Rev. Canon Robinson of Macclesfield gives a general direction to the establishment, which is under the management of a committee.

Average number maintained, 94. Total cost for 1894, 1,463*l.* 3*s.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 11*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 9*s.* 5*d.*

Industrial profits, 172*l.* 5*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 37 discharged in 1891-93, there are doing well 28, doubtful 6, unknown 3.

Cornwall.

The "Mount Edgcumbe," Industrial School Ship, off Saltash, Cornwall.

Inspected July 25, 1894.

Number of inmates on day of inspection, boys, 151.

State of premises.—In very good order. There is a field on shore for cricket or football, and a large floating bath near the ship. There is a hospital on shore. A sailing boat of about 10 tons, and several boats for practice in rowing. The situation is sheltered and convenient.

Health and general condition.—There had been no deaths during the year. One boy had been discharged in consequence of ill-health. There had been one case of pneumonia, three of bronchitis, 11 cases of tonsillitis, five of influenza. Nineteen cases of conjunctivitis, one of intestinal obstruction, and one of asthma, transferred to a land school; two cases of chicken-pox, and one boy had broken an arm. None of the cases were very serious, and the boys looked well.

Conduct and discipline.—Three boys had absconded, swimming on shore from the ship, all were brought back. There had been a good many cases of disrespect to officers, otherwise no serious misconduct. There was a rather long list of punishments, which could and should be greatly reduced. Well-conducted boys can obtain three badges, at the rate of one every twelve months, each badge being worth 1*d.* a week. Petty officers are paid from 4*d.* to 6*d.* a week.

Educational state.—There were 39 boys in Standard Five: no failures; recitation not very good; fair knowledge of geography of Europe. 44 in Standard Four. 34 in Standard Three: 4 failure in dictation; very good arithmetic; good reading and writing. 21 in Standard Two: very fair reading, with three exceptions; 3 failures in dictation, 4 in arithmetic. 13 in Standard One: no failures; recitation in all classes. Order and attention very good.

Industrial training.—There are the usual classes for nautical instruction, and shops for tailoring, shoemaking, and a carpenter's shop. The boys are taught cutlass and rifle drill, and the use of the rocket apparatus. There is a good band of 22 performers.

Staff.—Superintendent, Captain Knyvett, R.N.; chief officer, Mr. Smith; schoolmasters, Mr. Andrews and Mr. Gibson; tailor, shoemaker, carpenter, cook, three seamen instructors, one gunnery instructor, an attendant at the shore hospital, a bandmaster four times a week.

Average number maintained, 160. Total cost for 1894, 2,863*l.* 3*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 17*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 16*s.* 2*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 207 discharged in 1891–93, there are doing well 137, dead 3, doubtful 15, convicted of crime or recommitted 12, unknown 40.

Admiralty Nautical Report.

Industrial School Ship "Mount Edgcumbe," at Saltash.

Date of visit of inspection, December 4, 1894.

I. Condition and cleanliness of ship, and especially the bilges.—Ship clean and tidy, bilges quite sweet.

II. Arrangements and appliances for putting out fire.—Satisfactory; were exercised at inspection.

III. Condition and number of boats for exercising boys in pulling.—Boats were all well manned and exercised.

IV. Equipment of the ship generally in the way of masts and yards, rigging and sails, for the purposes of instruction as a training ship.—They are in order and the boys pull creditably. Boats could hold everyone if wanted. Sufficient.

V. The physical condition of the boys and their proficiency in the various nautical drills and exercises taught on board.—Boys rather small for their ages but healthy and active. Seem well fed and cheerful, and are very fairly up in their drills.

VI. Whether boys are properly taught to "make and mend clothes" and the use of "palm and needle."—Yes, as far as may be.

General Observations.

Boys neatly dressed, are rather small for their ages, but seem healthy and happy; the offences are mostly lying and stealing, but the amount of crime is not large.

By far the most part of the boys come from London, next from Devon and Cornwall, and the remainder from various parts of England.

About three boys in two years enter the Royal Navy.

Signature of Officer—G. H. Seymour,
Rear Admiral.

Admiralty Department of
The Secretary of the Admiralty. Naval Reserves.

CUMBERLAND.

Cumberland County Council Industrial School for Boys, Cockermouth.

Inspected May 19, 1894.

Number of inmates on day of inspection, boys, 155, including 2 voluntary cases.

State of premises.—Every part of the building was in a perfect state of order and cleanliness. The dormitories are especially good, well supervised and provided with extra staircases. The infirmary accommodation is well planned and very complete. The gardens are well laid out, and the trees and shrubs are beginning to show to advantage. There are about 30 acres of land, but only a few are utilised by the school as yet. One block of the proposed farm buildings had been erected, and comprises a stable, vegetable store, and hayloft. The old potato store would make a good workshop. There is a hand fire-engine.

Health and general condition.—There had been one death from pneumonia, a critical case of congestion of the lungs was saved by great care and attention. One or two cases of ophthalmia, tonsillitis, and eczema; one rather acute case of rheumatism, two or three accidents in the playground, but nothing very serious. The situation is a healthy one. The boys looked very well.

Conduct and discipline.—A very long list of minor offences and slight corporal punishments in the schoolroom. The general discipline of the school is well maintained without much resort to personal chastisement. A few cases of stealing fruit, bad language, and being out of bounds. The general punishment list is posted up in the schoolroom each month. There is a good mark system, and the money which the lads earn by means of it is deposited for them in the Post Office Savings Bank. The teachers promised to take more advantage of this excellent system in future.

Educational state.—22 in Standard Five: good reading; dictation well done, all passed in arithmetic. 17 in Standard Four: good work; the only failure being one in arithmetic. 42 in Standard Three: good reading and writing; 2 failures in dictation, all passed in arithmetic. 35 in Standard Two: with one or two exceptions the work was very well done; very good writing and sums well set down. 28 in Standard One and 9 in preparatory class: receiving attention, and with very few exceptions making good progress. Geography of England had been taken by Fifth and Fourth, and of the county (with definitions)

by Third and Second. Recitations in all classes showed improvement. Order and attention very good.

Industrial training.—The gardens afford good employment to some of the boys. There are tailors' and shoemakers' shops, and a sewing and knitting class of smaller boys under the charge of a seamstress. There is a bakery, and two or three boys have an opportunity of learning to take charge of the boiler, &c. There is a good band and the boys drill smartly. A good joiners' shop would be a great acquisition to the industrial department of the school.

Staff.—Superintendent and matron, Mr. and Mrs. A. A. Williams; schoolmaster, Mr. W. C. Brodie; assistant do., Mr. Webb, and a pupil teacher; tailor, shoemaker, engineer, gardener, seamstress, yard and band master, cook and baker, laundress, a servant, and occasional labourer.

Average number maintained, 158. Total cost for 1894, 2,899*l.* 14*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 7*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 0*s.* 9*d.*

Industrial profits, 178*l.* 0*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 142 discharged in 1891–93, there are doing well 126, doubtful 3, convicted of crime or recommitted 6, unknown 7.

Devon.

Devon and Exeter Industrial School for Boys, Exminster, near Exeter.

Inspected July 23, 1894.

Number of inmates on day of inspection, boys 71, including 3 whose time had expired. On license 2.

State of premises.—The whole place looked very bright and pleasant. The lavatory had been improved. There are about eight acres of land, all well cultivated. A new and larger schoolroom and a good covered play-shed are now what the school chiefly requires.

Health and general condition.—The medical officer's services were only required to make a quarterly inspection and report. The latter was on each occasion most satisfactory. A few sores, chilblains, and one boy coming in with ringworm were the only cases on the list for the year. A delicate boy transferred from an industrial school ship had much improved in health and strength. The boys looked well.

Conduct and discipline.—There was only a short list of ordinary offences—idleness, carelessness, &c. There is a good mark system. The boys appeared to be under good and kindly control.

Educational state.—19 in Standard Five: very fair reading and neat writing; all passed in dictation and arithmetic. 13 in Standard Four: very fair reading and writing; all passed in dictation, 4 failed in arithmetic. 15 in Standard Three: fair reading, good writing; all passed in dictation, 1 failed in arithmetic. 11 in Standard Two: very

Detailed Reports.

Industrial Schools.

fair reading; good writing on paper; dictation well done; 1 failure in arithmetic. 9 in Standard One: 5 rather backward in reading; very fair spelling and writing; 1 failure in arithmetic. 3 in preparatory class: of whom one had been over a year in the school and was still backward. Recitations had been prepared by most of the classes. Order very good.

Industrial training.—The gardens give good employment to some of the boys; 7 work with the tailor, 6 with the shoemaker, and 7 make the shirts, &c., under the direction of a sewing-mistress. Some useful articles had been turned out of the joiner's shop, which employs 6 boys. The remainder are engaged in wood-chopping or in assisting in the house and laundry work. Mr. Stedman has charge of a drum and fife band of 20 boys.

Staff.—Superintendent and matron, Mr. and Mrs. Heppell; schoolmaster, Mr. Stedman; carpenter, gardener, shoemaker, tailor, seamstress (the last two occasional).

Average number maintained, 68. Total cost for 1894, 1,486*l.* 6*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 17*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 19*s.* 1*d.*

Industrial profits, 193*l.* 2*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 57 discharged in 1891–93, there are doing well 51, dead 2, convicted of crime or recommitted 2, unknown 2.

Plymouth Girls' Industrial School, 1, Marina Place, Mutley, Plymouth.

Inspected July 24, 1894.

Number of inmates on day of inspection, girls 42, only five of whom had been sent under the Industrial School Amendment Act, for which class of girls the school was established.

State of premises.—A small shed has been put up in the play-yard. The premises are somewhat cramped for room, not very convenient, but in good order. The schoolroom is far too small, the dormitories are small and the supervision defective. Means for escape in case of fire scarcely satisfactory.

Health and general condition.—Very good, no illness of any sort during the year. The girls looked well, and well cared for.

Conduct and discipline.—Some few cases of disobedience and rudeness, but no serious misconduct.

Educational state.—Owing to the changes in the schoolroom, some educational ground had been lost, but the work seemed going on steadily on the day of inspection, under the new teacher. There were 3 girls in Standard Four: doing fairly well, no failures. 11 in Standard Three: very fair reading and writing; 3 failures in dictation, 3 in arithmetic. 13 in Standard Two: fair reading and writing; good dictation; 4 failures in arithmetic. 12 in Standard One: fair reading, very fair writing; 3 failures in arithmetic, two in dictation. Order and attention good.

Staff.—Superintendent, Mrs. Bacon; schoolmistress, Miss Bowden; laundress and cook.

Average number maintained, 40. Total cost for 1894, 649*l.* 2*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 4*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 18*s.*

Industrial profits, 49*l.* 3*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 33 discharged in 1891–93, there are doing well 16, doubtful 4, convicted of crime or recommitted 2, unknown 11.

Dorset.

Dorset Boys Industrial School, Milborne, St. Andrew Blandford, Dorset.

Inspected June 30, 1894: visited September 4, 1894.

Number of inmates on day of inspection, boys, 60, and 12 on license.

State of premises.—House and premises in excellent order; very clean, well kept, and orderly. The accommodation is suitable and convenient, a good sickroom is much needed. A large farm is attached to the school. There is a good garden. The boys also have a small plot of garden-ground for their own amusement.

Health and general condition.—The school had been troubled during the year with an outbreak of influenza, with four or five cases of pneumonia; several cases of debility, consequent upon the attack; one case of abscess; one case of rheumatism; one ophthalmia; one congestion of lungs. The year up to date of visit had been rather an unhealthy one. A well-devised infirmary needed. Boys improving in health at the time of my visit.

Conduct and discipline.—The report as to conduct was a favourable one, with the exception of two boys who had given much trouble. A few cases of impertinence, petty theft, falsehood, deceit, idleness, and neglect of duty; one or two cases of defiance and direct disobedience. Boys quiet and well-behaved on the day of inspection, and generally doing well.

Educational state.—Very fair. Improved. 5 in Standard Six: very good work; no failures; recitation good; all passed in arithmetic. 9 in Standard Five: reading and spelling good; 3 weak in dictation; 3 failed in arithmetic; recitation good. 12 in Standard Four: very good exercises, but 4 failed in arithmetic; recitations fair. 12 in Standard Three: very creditable class; work well put down; 2 weak in dictation; 1 in arithmetic. 13 in Standard Two: with one or two exceptions the class did well; some weakness in dictation. 5 in Standard One and 4 in preparatory class making fair progress. Boys quiet and orderly.

Detailed Reports.

Industrial Schools.

Industrial training.—There is a considerable home farm, which gives plenty of outdoor occupation. There is a large garden also under careful cultivation; 4 or 5 cows, 3 horses, pigs and poultry require attention. 4 boys work with a tailor, 6 with shoemaker; very fair specimens of work were exhibited. There is a good laundry. The boys make their own bread. There is a good band. The industrial training is practical and useful. At times the boys do a good deal of work for the neighbouring farmers.

General remarks.—Serious complaints against the management of the school in July and August 1894 by the tailor and school teacher, and careful investigation was made into the charges raised. Certain irregularities, breach of rules, and undue pressure on the boys were discovered and reported to the Home Office. But the graver charges of cruel and improper treatment were not substantiated. The school has always been distinguished for humane and careful treatment of the children committed to its charge, and that character has been generally maintained. In all such schools precise regulations should be laid down, and rigidly adhered to. No inducement should be allowed to break into established routine. Breach of rule leads into difficulties of every kind, and gives a handle to any objection.

Staff.—Superintendent and matron, Mr. and Mrs. J. W. Walker; schoolmaster, Mr. W. Linnell; labour-master, Mr. James Welstead; tailor, Mr. Pearce; shoemaker, Mr. Loader; bandmaster, Sergeant Madden; labour-master, occasional.

Average number maintained, 60. Total cost for 1894, 1,152*l.* 13*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 4*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 16*s.* 2*d.*

Industrial profits, 71*l.* 5*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 35 discharged in 1891–93, there are doing well 32, doubtful 1, convicted of crime or recommitted 1, unknown 1.

Dorset Industrial Home for Girls, West Street, Poole, Dorset.

Inspected July 18, 1894.

Number of inmates on day of inspection, girls, 95.

State of premises.—Every department of the house was in creditable order and well arranged, so far as the circumstances will permit. The accommodation, especially in the dormitories, is open to objection, but there is plenty of room for exercise, a large garden, excellent schoolroom, and a good workroom. A new laundry is much needed.

Health and general condition.—The health had been very fair. A good many delicate girls, and several cases of debility. But the medical officers reported an improved condition of health since the change to Canford Cliffs last summer for a period of several weeks. One death from congestion of the brain, one strumous ophthalmia, one case of eczema, one of herpes, one chorea. Several cases of debility

one swollen glands, one anæmia, six cases of tonsillitis in May, but all well on day of my visit. The girls had a healthy appearance, and were looking bright and cheerful.

Conduct and discipline.—No very serious faults, but a good many entries for temper, sulkiness, breach of rules, idleness, disobedience, careless work. One girl had been very troublesome, of a violent temper, and very insolent at times. Some untruthfulness and deceit. Nothing extraordinary. Girls going on well. General aspect encouraging.

Educational state.—There had been a change of teachers in the year, Miss Edgar succeeding Miss Brown. Some time had been lost in the year. 24 in Standard Five: reading and spelling very good; dictation, no failures; writing very good; many defects in the arithmetic, 12 failures; very indifferent work. 12 in Standard Four: creditable work except in arithmetic, which was poor and defective; 5 failures; recitation good. 11 in Standard Three: 3 failed in dictation and 5 failed in arithmetic; recitation good. 15 in Standard Two: a defective class; 7 failures in dictation and 8 failures in arithmetic. 13 in Standard One: a very defective class. School fallen off considerably. Order good.

Industrial training.—The elder girls work in the laundry, but the appliances for careful instruction are of an inferior kind. A new laundry is necessary. Plain needlework and knitting are well attended to, and there was a good and copious exhibition of articles made. The girls make shirts and socks for the Boys' Home, as well as their own clothing and outfits. There is good practical instruction in the kitchen and scullery. The girls do all the work of the house.

Staff.—Superintendent, Miss E. Saunders; schoolmistress, Miss Edgar; and assistant ditto, assistant matron, laundress, assistant ditto, and one general house assistant.

Average number maintained, 93. Total cost for 1894, 1,494*l.* 9*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 1*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 13*s.* 5*d.*

Industrial profits, 4*l.* 14*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 51 discharged in 1891–93, there are doing well 25, doubtful 12, unknown 14.

Durham.

County Council of Durham Industrial School for Boys, Earls House, Witton Gilbert, near Durham.

Inspected May 26, 1894.

Number of inmates on day of inspection, boys, 140, of whom 31 were Roman Catholics. On license, 22.

State of premises.—This fine and commodious building was in excellent order. There are 50 acres of farm and seven acres of garden. The stock consisted of seven milch cows and some pigs. Some sheep

were also being kept to improve the land. An entirely new and improved system of draining had been carried out at great cost. There is a detached infirmary, a good swimming bath, and suitable workshops.

Health and general condition.—There had been two deaths in the year. Six cases of typhoid fever. Two were sent to the County Hospital, and the others were treated in the detached infirmary; all recovered. One case of pneumonia of right lung also recovered. A few cases of ophthalmia, eczema, and ringworm. Two boys had been successfully operated upon at the county hospital. The general health had been good and the boys looked well.

Conduct and discipline.—Four cases of absconding during the year; one still at large, one sent to a Reformatory. Some cases of impudence, disorder, and laziness. There had also been some smoking and chewing of tobacco. No other officer besides the Superintendent is authorised to punish. There is a mark system at work.

Educational state.—23 in Standard Five: reading very fair with 2 exceptions; writing good; 1 failure in dictation, 2 in arithmetic. 25 in Standard Four: reading good, writing fair; all passed in dictation; 1 failure in arithmetic. 24 in Standard Three: reading and writing good; 1 failure in arithmetic. 29 in Standard Two: reading very fair; writing good; 1 failure in arithmetic. 33 in Standard One: 4 backward in reading and 3 in spelling; 4 failures in arithmetic. 6 in preparatory class. A junior teacher is required to bring on the backward boys. Recitations had been well prepared. Order and attention very good.

Industrial training.—The gardens give employment to 25 boys and 8 others are engaged about the farm. There are good tailors' (23 boys) and shoemakers' (21 boys) shops, where the clothes and boots are made for the school. 25 juniors do the light sewing, knitting, &c. Others are employed in the bakehouse, the laundry, and the boiler-house. There are 6 regular joiners, and the well appointed manual instruction class affords a change of work for 24 boys at a time. There is a brass band of 20 performers.

Staff.—Superintendent and matron, Mr. and Mrs. W. J. Goodenough; schoolmasters, Messrs. Newton and Murray; farm bailiff, tailor, shoemaker, joiner, 2 gardeners, engineer, cook and baker, bandmaster, laundress, and seamstress.

Average number maintained, 145. Total cost for 1894, 2,722*l.* 17*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 18*l* 15*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 4*s.* 2*d.*

Industrial loss, 116*l.* 16*s.* 6*d.*

Results on cases discharged in the three years, 1891, 1892, and 1893.—Of 104 discharged in 1891–93, there are doing well 94, dead 2, convicted of crime or recommitted 2, unknown 6.

Sunderland Industrial School for Boys, Silver Street, Sunderland.

Inspected May 23, 1894. Visited Dec. 7, 1894.

Number of inmates on day of inspection, boys, 94 under detention and 1 on license.

State of premises.—There had been no alterations since my last visit, but the premises looked brighter and were thoroughly clean. The situation is bad, surrounded by houses of a low class, and the buildings are old and not very well arranged, but the most is made of them.

Health and general condition.—There had been one death from consumption, but there had been no other serious case. The boys looked stout and well cared for. There had been a good many entries of very trivial ailments; the medical report was very satisfactory.

Conduct and discipline.—The report of the general conduct was very good. No officer is allowed to punish except the superintendent, and his punishments had been few and light. The mark system is a great help in maintaining order, the money earned by good marks is banked to the boy, and is placed in the bank for him, and given him after discharge.

Educational state.—There were 24 boys in Standard Five: reading and spelling very fair; 2 failures in dictation and 5 failures in arithmetic; recitation in all the classes except in Standard One; the writing in all the classes indifferent. There were 26 in Standard Four: very fair reading; 7 failures in dictation and 5 in arithmetic. 19 in Standard Three: 10 failures in dictation and 4 in arithmetic; very fair reading. 18 in Standard Two: 2 failures in dictation and 4 in arithmetic; fair reading. 7 in Standard One: 2 over a year in school, very backward, 1 quite ignorant, the rest doing well. Order and attention very good. Report for drawing "good."

Industrial training.—There is a tailors' shop, where 10 boys are learning the trade, a shoemakers' shop, with 3 boys; a carpenters' shop; a good deal of patent firewood is made and sold. There is an 8-horse gas-engine, circular saws, and three lathes.

General remarks.—Since the last inspection, Mr. Davison has been succeeded as superintendent by his son, Mr. G. Davison. Mr. Davison has seen 24½ years' service in the Sunderland school, and previously he was for 11 years at Netherton Reformatory. There is a good brass band of 20 performers. The school is only a short distance from the sea, where the boys are taken to bathe two or three times every week in summer.

Staff.—Superintendent, Mr. Davison; matron, Miss Davison; schoolmaster, Mr. Roberts; assistant schoolmaster, Mr. Lambert; tailor, shoemaker, labour-master, bandmaster (twice a week).

Average number maintained, 93. Total cost for 1894, 1,968*l.* 1*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 3*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 3*s.* 1*d.*

Industrial profits, 216*l.* 8*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 59 discharged in 1891–93, there are doing well 52, dead 2, convicted of crime or recommitted 4, unknown 1.

Tyne Industrial School Ship "Wellesley," North Shields.

Inspected May 25, 1894.

Number of inmates on day of inspection, boys, 272, of these 55 are Roman Catholics; 1 is a Jew; and 4 are voluntary inmates.

State of premises.—A new chief officer's cabin has been put up, giving complete supervision of the deck. There is a good drying-room, bathroom, and schoolroom. The decks are well ventilated and well supervised. There is a playfield on shore to which half the boys are taken every fine evening in summer, and as often as possible in winter. Every part of the ship was in excellent order.

Health and general condition.—There had been three deaths from consumption and one from meningitis; a ship, more especially one in the North-East of England, is no place for boys of a consumptive tendency. Three boys had been discharged suffering from phthisis. There had been five cases of bronchitis; one boy had been in hospital for four months in consequence of a kick on the shin at football; three cases of pneumonia, two of pleurisy, one of hernia, one of nephritis, one of jaundice, two of catarrhal fever, three of ophthalmia, 11 of measles, 48 cases of ringworm, and some minor ailments; altogether a long list of invalids, which points to the necessity of more care in admitting only such boys as are likely to stand a ship life, in which there is necessarily much more exposure than in a land school. There is a comfortable cottage hospital on shore, and the boys looked well on the day of inspection. There were 11 boys on the sick list.

Conduct and discipline.—Very much improved, and the cases in which corporal punishment had been considered necessary were few, and the punishments very light, a state of things which reflected great credit on the management. There had only been one case of absconding and no other serious case of misconduct.

Educational state.—All the boys were learning drawing, and the Science and Art Department examination had taken place the day before my inspection. In the schoolroom the order and attention were excellent. There was good recitation in all the classes, the Fifth and Sixth Standards were learning the geography of Europe; the Fourth that of Scotland; the Third that of England; the Second the definitions. Some grammar was taught in each class. There were 19 in Standard Six. 40 in Standard Five. 29 in Standard Four. 35 in Standard Three. 24 in Standard Two. 18 in Standard One, who were examined and passed a very satisfactory examination. There were only 5 failures, all in arithmetic. We examined one watch.

Industrial training.—There are the usual models and classes for instruction in nautical subjects, and a very good band, and shops for tailoring, shoemaking, and carpentering.

Staff.—Captain Superintendent, Captain H. Baynham, R.N.; chief officer, Mr. French; schoolmasters, Messrs. Thaup, Shearlaw, and Potts; a second officer, four seamen instructors, master-at-arms, tailor, shoemaker, carpenter, plumber, cook, steward, and bandmaster.

Average number maintained, 274. Total cost for 1894, 5,511*l.* 12*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 1*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 19*s.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 240 discharged in 1891–93, there are doing well 191, dead 5, doubtful 1, convicted of crime or recommitted 14, unknown 31.

"Green's Home" Industrial School for Boys, in connexion with the "Wellesley" Training Ship, Mile End Road, South Shields.

Inspected May 25, 1894.

Number of inmates on day of inspection, boys, 58, of whom 14 were Roman Catholics.

State of premises.—There had been no alteration in the buildings since the last inspection. The drainage had been thoroughly attended to by the North-Eastern Sanitary Association. It is a bright and cheerful house, with every convenience for the number of inmates. There are very good arrangements for escape in case of fire. All in very good order.

Health and general condition.—There had been one death from phthisis; one boy had broken his leg whilst at play. The boys looked very cheerful and healthy; at 12 years of age they are transferred to the ship. Sick boys are sent to the small hospital belonging to the Wellesley.

Conduct and discipline.—Very good. The boys had given no trouble during the year. There is a good system of marks, by which a boy can earn 2*d.* a week, about seven of the boys are petty officers, and are paid rather more.

Educational state.—All the boys are taught drawing, a little grammar is taught, some geography and recitation. The boys sing nicely. There was 1 boy in Standard Five passed well. 7 boys in Standard Four: all passed well; very good writing, arithmetic, and dictation; good reading and recitation. 20 in Standard Two: 1 failure in arithmetic. 21 in Standard One: a very good class. 8 in a preparatory class. The writing throughout the school was very good, and the sums very neatly set down. Order and attention very good.

Industrial training.—There were 10 boys in the tailors' shop, all the boys are taught to mend their own clothes; 6 boys were employed making stockings with machines; some are employed in housework, some in the laundry. Musical drill is taught. There is a drum and fife band.

Staff.—Superintendent and matron, Mr. and Mrs. Pringle; schoolmaster, Mr. Thompson; a tailor and a cook.

Average number maintained, 60. Total cost for 1894, 828*l.* 6*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 16*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 2*s.* 2*d.*

Industrial profits, 45*l.* 5*s.* 11*d.*

Detailed Reports.

Industrial Schools.

Abbot Memorial Industrial School for Boys and Girls, Gateshead-on-Tyne.

Inspected May 24, 1894.

Number of inmates on day of inspection, boys, 93; girls, 49.

State of premises.—In very good order. The boys and girls are taught in the same schoolroom, at other times they are kept apart. The most extreme and constant watchfulness is necessary, but it is impossible always to prevent improper communication between the boys and girls. There is nothing to recommend the system of having the two sexes in one institution. The two sickrooms are too small. The girls have a large playroom; the boys have none. Some of the workshops are too small.

Health and general condition.—There had been three deaths during the year. A girl died of phthisis, another of pneumonia, and a boy of pneumonia. There had been one case of bronchitis, one of phthisis, and one of pleurisy, eighteen cases of ophthalmia, and one of typhoid fever. With these exceptions the general health had been good, and the children were looking well at the time of my visit.

Conduct and discipline.—There had been very few cases of corporal punishment, and no serious misconduct. The mark system, which is a great factor in maintaining good conduct, is the same as in previous years.

Educational state.—There were 15 boys in Standard Six: reading, writing, dictation, and arithmetic very good; only one failure in the last subject; geography of England very fair. 12 boys and 11 girls in Standard Five: 3 failures in arithmetic; reading, writing, and dictation good. 15 boys and 10 girls in Standard Four: a very good class, no failures. 14 boys and 13 girls in Standard Three: 21 boys and 5 girls in Standard Two. 11 boys and 4 girls in Standard One: all coming on well; order and attention very good. In drawing the reports were good, and there were some very creditable specimens of machine drawing, building drawing, &c. There were 32 in a manual class doing very good work. All the children are examined in drawing. Boys are taught to swim in the Gateshead Public Baths.

Industrial training.—There were 10 tailors, 11 joiners, 14 shoemakers, 11 gardeners, 28 firewood choppers; 4 boys attended to the boiler, 4 to the saw; there is a good band of 34 performers. The girls are taught to sew and knit, make all their own clothes, and shirts and socks for the boys, and do all the mending, and wash for the whole school.

Staff.—Superintendent, Mr. Nicholls; matron, Miss Patterson; schoolmaster, Mr. Tate; assistant ditto, Mr. Maddison; tailor, shoemaker, joiner, workmaster, gardener, bandmaster, assistant matron, cook, and laundress.

Average number maintained, 140. Total cost for 1894, 2,805*l.* 12*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 0*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 18*l* 5*s.* 7*d.*

Industrial profits, 355*l.* 16*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 69 boys and 20 girls discharged in 1891–93, there are doing well 64 boys and 17 girls, dead 1 boy and 1 girl, doubtful 1 boy and 2 girls, unknown 3 boys.

Sunderland Industrial School for Girls, Tatham Street, Sunderland.

Inspected May 23, 1894. Visited Dec. 7, 1894.

Number of inmates on day of inspection, girls, 56 under detention, and 2 voluntary cases.

State of premises.—In very good order, clean, airy, and bright, and large playroom and playground. More bathroom accommodation would be an improvement.

Health and general condition.—The girls looked cheerful and well cared for. The general health had been very good; there had been two or three cases of sore eyes, and one girl was in hospital with curvature of the spine, but she was getting better. There is a small cheerful sick room.

Conduct and discipline.—There had been two or three rather serious cases of taking money, and attempting to throw the blame on others. The general conduct had been very good; The only punishment is the withdrawal of privileges. The mark system is found very useful in maintaining order.

Educational state.—The order and attention in the schoolroom were very good. There were 14 girls in Standard Five: good reading and dictation, very fair writing; 3 failures in dictation; good recitation and a very fair knowledge of the geography of England. 16 in Standard Four: reading very fair, with one exception; writing only fair; 1 failure in dictation; 3 failures in arithmetic; a very fair knowledge of the geography of England. 12 in Standard Three: a very fair class, 2 failures in arithmetic, 2 in dictation, 9 in Standard Two; 5 in Standard One: coming on very fairly. Recitation in all classes.

Industrial training.—The girls are trained with a view to domestic service, and in addition to helping in the housework, kitchen, and laundry, are taught to sew and knit.

Staff.—Superintendent, Miss Smith; assistant matron, Miss J. Scott; schoolmistress, Miss Jessie Smith; one servant.

Average number maintained, 59. Total cost for 1894, 1,274*l.* 2*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 11*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 16*s.* 7*d.*

Industrial profits, 459*l.* 19*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 32 discharged in 1891–93, there are doing well 29, dead 1, doubtful 1, unknown 1.

St. Joseph's Industrial School for Roman Catholic Girls, Carmel Road, Darlington.

Inspected May 25, 1894.

Number of inmates on day of inspection, girls 38, of these 13 were committed cases, 20 on the voluntary list.

State of premises.—I found house and premises very clean and comfortable, and well arranged for the object in view. Considerable progress had been made in thoroughly adapting the building to the necessities of the case. The school was only certified in March 1893. A healthy situation, with an excellent garden and plenty of space.

Health and general condition.—The medical report was satisfactory. The general health had been good. A good infirmary when required; no sick on the day of inspection. Children clean, well clad, and properly attended to.

Conduct and discipline.—The children are young; they had given little or no trouble to the Sisters in charge. I found all promising well, the children cheerful and bright, and in very good order.

Educational state. — The children had been arranged in their standards, and were receiving regular daily instruction. 6 in Standard Four: reading, spelling, dictation, writing, very fair; 2 weak in arithmetic; recitation good. 2 in Standard Three: good progress. 2 in Standard Two: gaining ground. 8 in Standard One: very fair work. The remainder very young, in the elements.

Industrial training.— Order good. Girls quiet and tractable. There is a good workroom. The elder girls were all beginning to knit and to sew. Some of the more advanced were beginning to help in the kitchen and housework.

General remarks.—The school had made satisfactory progress since establishment.

Staff.—S[illegible]ioress, and Sisters of Charity of St. Vincent de Paul; lay assistance in the kitchen and laundry.

Average number maintained, 35. Total cost for 1894, 765*l.* 1*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 17*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments 28*l.* 1*s.* 2*d.*

Industrial profits, nil.

Essex.

Essex Industrial School for Boys, Chelmsford, Essex.

Inspected June 15, 1894.

Number of inmates on day of inspection, boys, 144.

State of premises.—The buildings are plain and substantial, specially constructed for an industrial school, and supply excellent accommoda-

tion; there is plenty of space; good playground and drill-yard; a capital gymnasium and a splendid swimming bath. The situation is healthy and open. A good separate infirmary in case of necessity, and some good workshops. I found the whole establishment in excellent order, well organised and doing good work.

Health and general condition.—A rather heavy list of ailments and sickness; a good many cases of sore throat; 3 psoriasis; 1 otitis; 1 diphtheria; 1 injury of collarbone; several cases of diphtheritic tonsillitis; a few cases of eczema; several diphtheritic attacks; diphtheria very prevalent in Chelmsford; 1 debility; 1 neuralgia; 1 conjunctivitis; diphtheritic sore throat had been very frequent; a good many cases of tonsillitis; 1 necrosis of jaw; 1 conjunctivitis. Boys better at the time of my visit, but there had been an unusual amount of sickness.

Conduct and discipline.—There had been a change of superintendence during the year, Mr. Munro succeeding Mr. Collins, resigned, after many years of faithful service. A few cases of disobedience, bad temper and defiance, sulky conduct, extreme laziness, pilfering in dormitory, insolence and insubordination, one attempt to abscond, one rudeness and insolence, general bad conduct, one insubordination, one repeated acts of disobedience, one absconding, one dishonesty, and one great idleness. A few boys of indifferent character. The majority doing well and improving. Boys quiet and orderly.

Educational state.—This is carefully attended to. 39 in Standard Five (upper class); very good work; neat writing and arithmetic; a very creditable class. 34 in Standard Five; a well-taught class and creditable work; 5 weak in arithmetic; general results good. 27 in Standard Four: class made a respectable appearance; good recitation and generally satisfactory results; good teaching. 23 in Standard Three: reading improved; 2 or 3 weak in spelling; 5 weak in dictation; 1 in arithmetic. 15 in Standard Two: well and carefully taught class; recitation and elementary geography; results very good. 6 in Standard One and 5 in preparatory class; all getting on well. Order very good.

Industrial training.—The industrial training is not neglected. A class of boys work in the garden, which is extensive and well cultivated for fruit and flowers. Manual instruction had been taken up, and a class of boys were receiving instruction in the use of tools and wood-work I found 32 working in the tailor's shop and 27 with the shoe-maker. A junior class was working with the needlewoman, darning, and repairing. Several knitting machines in full work. 10 or 12 boys assist in the laundry. There is an effective brass band, and a drum and fife band also. The boys drill and march well.

Staff.—Resident manager and director, Mr. J. Brittain Pash; superintendent and chief schoolmaster, Mr. A. Munro; assistant teachers, Messrs. Hall, Pack, Free, and one pupil teacher, Mr. Sorrell; matron, Mrs. Gray; cook, laundress, and needlewoman; tailor, shoe-maker, gardener; clerk and general assistant, Mr. J. Hayward.

Average number maintained, 150. Total cost for 1894, 3,193*l.* 0*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 5*s.* 9*d.*

Detailed Reports.

Industrial Schools.

Net cost per head, including profit or loss on industrial departments, 21*l.* 18*s.* 8*d.*

Industrial profits, 90*l.* 13*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 90 discharged in 1891–93, there are doing well 72, dead 1, doubtful 4, convicted of crime or recommitted 5, unknown 8.

School Board for London Industrial School for Boys, Prospect House, Brentwood, Essex.

Inspected June 16, 1894.

Number of inmates on day of inspection, boys, 100.

State of premises.—I found every department in excellent order. The interior very clean and comfortable. Dormitories wholesome and well ventilated, with means of escape in case of fire. There is a good plunge bath, isolated infirmary, and a large plot of garden ground. The upper playground had been levelled and made much more available for cricket and football. A good range of workshops. A project in view for enlarging the school and for general improvement.

Health and general condition.—Medical report very favourable. Boys looked hearty and vigorous. The situation is a healthy one, and the boys enjoy many advantages. Not much serious sickness; school more free than on the preceding year. A few cases of catarrh; one of diarrhœa; one of bronchitis; one of phthisis; one or two cases of ophthalmia; two cases of scarlet fever, but it did not spread; a few cases of influenza in the cold season; one case of hernia. Boys very well on the day of inspection. Sanitary condition satisfactory.

Conduct and discipline.—Report as to conduct satisfactory; nothing of an extreme character. Excellent discipline maintained with a small amount of punishment. Boys very kindly treated, and they receive much encouragement to do well. A few ordinary offences of striking, general disorder, repeated misconduct, dirty habits, impudence, petty theft, disobedience, and quarrelling. School doing well, with a very good tone prevailing.

Educational state.—This is a very good school. The education is very carefully attended to, and the progress from year to year is highly satisfactory. 24 in Standard Six: superior work; no failures; an intelligent class; reading and spelling good; a piece of English composition well done, points taken and generally well expressed; writing good; arithmetic, no failures. 13 in Standard Five: very good work; 1 weak in dictation, 2 in arithmetic; good recitation and good knowledge of geography of Europe. 14 in Standard Four: all work very well done; 1 failure in arithmetic; good recitation. 17 in Standard Three: class doing well; 2 weak in dictation, 1 in arithmetic. 18 in Standard Two: class doing well with one or two exceptions; 3 weak in dictation, 3 in arithmetic. 9 in Standard One: all gaining ground. 5 newcomers in preparatory class. Order excellent. A well-ordered school.

Industrial training.—24 boys work with the shoemaker in two divisions. A very good shop and superior work. 26 in the tailor's shop

very good work and sound progress. I was pleased to find 46 boys in the manual instruction class in the use of tools and woodwork. Excellent specimens of work, and very instructive it was to see the two schoolmasters putting on aprons and fully qualified to teach the boys how to use the chisel and plane and square. The boys make their own bread. The garden gives some outdoor occupation in the summer. Drilling is taught as a class subject. The boys assist in the laundry, kitchen, and housework. There is a most efficient band. The boys drill well.

Staff.—Superintendent and matron, Mr. and Mrs. H. Hartland; schoolmaster, Mr. T. Humphreys; assistant ditto, Mr. F. Wilkins; tailor, shoemaker, assistant matron, labour-master; four female assistants for house, kitchen, and laundry.

Average number maintained, 100. Total cost for 1894, 2,770*l.* 18*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 27*l.* 14*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 28*l.* 1*s.* 11*d.*

Industrial profits, 3*l.* 1*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 47 discharged in 1891–93, there are doing well 37, dead 1, unknown 9.

School Board for London Industrial School Ship "Shaftesbury," off Grays, Essex.

Inspected June 21, 1894.

Number of inmates on day of inspection, boys, 342, of these 316 on the "Shaftesbury," 11 on the "Themis" training-brig, 4 in the infirmary, 11 in hospital. (64 of these are Roman Catholic boys.) 98 admissions and 132 discharges since the last inspection; 56 sent to the sea, 9 to the army.

State of premises.—Every department of the ship was in first-rate order. Good organisation in every detail. I found all working well, with a competent staff of officers, and complete supervision. Boys mostly sleeping on the orlop deck, which is lofty, and provides superior accommodation. There are three night watchmen to ensure good order and quiet behaviour during the night.

Health and general condition.—Generally good till recently, when the ship suffered from an attack of scarlet fever, from March 17, 1894, to June 1, 1894, seventeen cases in all. The fever had abated at the time of my visit, and there had been no fresh cases for some time. A few ordinary cases of inflamed glands, tonsillitis, and bronchitis. An attack of influenza in the letter part of 1893; one case of pneumonia; one case of rheumatism. The ship had been carefully fumigated and disinfected. The boys looked hearty and well at the time of inspection, and very clean and tidy in person.

Conduct and discipline.—A rather long record of faults and punishments. Some cases of absconding and attempting to abscond. A good many cases of petty theft; some cases of insolence and rudeness. A good deal of trouble connected with chewing tobacco and smoking. Several cases of bullying; four cases of stealing boys' parcels; one serious case of breaking into storeroom and stealing provisions; one of selling his clothes and absconding on license, sent to Reformatory. Some cases of indecency; one jumping overboard; attempt to strike an officer, sent to Reformatory. I was glad to notice, however, general good order and obedience. A considerable majority of the boys received a favourable report. The general appearance was satisfactory.

Educational state.—The schoolroom had suffered a little from the breaking out of the epidemic. I was glad to find, however, pretty general improvement. I took the starboard watch. 36 in Standard Six: decided improvement, and good results; good recitation and geography. 17 in Standard Five: a superior class; very good results; much improvement. 31 in Standard Four: improved work; boys doing well. 47 in Standard Three: some big lads in this class; reading very fair; a few defects in spelling; 10 failures in dictation; arithmetic well done; geography of England. 29 in Standard Two: class doing well; recitation and elementary geography. 23 in Standard One; a good many defects in this class, requiring more attention. General order good.

Industrial training.—The watch for the day was receiving regular instruction in nautical matters. I saw the various classes under instruction, with proper appliances for teaching seamanship. The boys drill and march well. There is gun and cutlass drill also. 16 work with the tailor; 24 with the shoemaker; 16 with the cook in the galley. There is an excellent band. All the lads learn to swim. The training-brig the "Themis" does excellent work in training the boys for practical sea service. The electric light had been introduced with great advantage.

Staff.—Captain superintendent, Captain W. Scriven, R.N.; chief officer, Mr. D. Murphy; head schoolmaster, Mr. Jno. Lodge; assistant teachers, Messrs. Kelly, Taylor, T. Jones, Eli Jones; clerk and storekeeper; bandmaster, five seamen instructors; cook, stoker, and mechanic; tailor, master-at-arms, three night watchmen, carpenter, mess-man, shoemaker, electrician, infirmary attendant, nurse; master of the "Themis," mate of ditto, shipping agent, medical officer, total 31.

Average number maintained, 346. Total cost for 1894, 11,649*l.* 2*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 33*l.* 13*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 34*l.* 17*s.* 4*d.*

Industrial loss, 50*l.* 12*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 411 discharged in 1891–93, there are doing well 296, dead 5, convicted of crime or re-committed 14, unknown 96.

Nautical Report.

"Shaftesbury" Industrial School Ship, Grays, Essex.

Date of visit of inspection, November 12, 1894.

I. Condition and cleanliness of ship, and especially the bilges.—The ship is clean and in good condition throughout.

II. Arrangements and appliances for putting out fire.—Very good. Three Downton pumps.

III. Condition and number of boats for exercising boys in pulling.—The boats are amply sufficient and in good condition.

IV. Equipment of the ship generally in the way of masts and yards, rigging and sails, for the purposes of instruction as a training ship.—The ship is well equipped aloft; the fore and main masts being used for the boys' exercise in summer. 30 of the elder boys go in turn for cruizes at sea in the sailing tender.

V. The physical condition of the boys and their proficiency in the various nautical drill and exercises taught on board.—The physique is fairly good except that the newly-joined boys looked small and weakly, but they look healthy, and seem to be well trained and taught, and to improve greatly in physique whilst on board.

VI. Whether boys are properly taught to "make and mend clothes" and the use of "palm and needle."—Due attention is given to making and mending clothes, and the palm and needle.

The boys are clean in their persons and clothes, and seem happy and also well disciplined. The punishments are moderate, and all are entered in a properly kept defaulters' book.

(Signed) Arthur D. Fanshawe,
Captain.
Assistant to Admiral
Superintendent.

St. Nicholas' Industrial School for Roman Catholic Boys, Manor House, Manor Park, Little Ilford, Essex

Inspected October 25, 1894.

Number of inmates on day of inspection, boys, 220; of these 218 under legal detention, 2 on the voluntary list.

State of premises.—I found the whole establishment in very efficient order. The buildings are of considerable extent, and the general arrangements are suitable, ample, and convenient. The boys are well provided for. There is separate provision in all respects for about 100 of the junior boys and a good swimming bath and isolated infirmary. Sanitary requirements receive careful attention.

Health and general condition.—The younger children are delicate on admission; many of them constitutionally weak. Several cases of phthisis and pneumonia; three deaths from phthisis; two cases of bronchitis; one or two of rheumatism; one febricula; one tuberculous disease of intestines. The elder boys looked hearty and strong. There is ample provision for recreation and exercise. The boys take very readily to football, cricket, &c., both seniors and juniors.

Conduct and discipline.—Not a very heavy record. A few cases of petty theft, stealing in the dormitory, disorder in lavatory and bedroom, plotting to abscond, using tobacco, wanton mischief, beating and bullying others, inciting to mischief, quarrelling, and striking. Generally the boys had behaved well, with a few exceptional cases. I found good order prevailing. The boys well-behaved and under proper dicipline.

Educational state.—This is carefully attended to. 36 in Standard Five: much careful training under an intelligent teacher; very good work, hardly any failures; recitation good, and very fair geography of Europe; arithmetic well done, and well put down; much painstaking. 33 in Standard Four: very fair results; reading good, but a little too fast; dictation well done; writing good; arithmetic 5 failures. 39 in Standard Three: creditable work; arithmetic very carefully done, no failures, and class doing well. 47 in Standard Two: class made a very good appearance; carefully taught, and all doing well. 42 in Standard One: very fair progress. 20 in preparatory class. School doing well. Very good order. A good staff of teachers.

Industrial training.—The industrial training is vigorously carried on. 35 work as tailors, 34 as shoemakers, 11 work in the garden, 3 bakers, 4 painters, 2 porters, 13 juniors as knitters and darners; 59 in the kitchen, laundry, and domestic work; 2 in the sickroom; 50 attend school all day. There is a very efficient band. The boys drill very well. An exhibition of industrial work had been arranged. Good specimens of work were exhibited. There is a very large garden, and vegetable produce was well represented. There is a carpenter's shop also.

Staff.—Brother Director, Brother Polycarp, and eight Brothers of the Order of Mercy; yard and drill master, Mr. Eade; tailor, shoemaker, gardener, cook and baker, bandmaster, and night watchman. Chaplain, Rev. F. Hogan.

Average number maintained, 234. Total cost for 1894, 3,539*l.* 17*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 2*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 6*s.*

Industrial profits, 71*l.* 1*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 141 discharged in 1891–93, there are doing well 122, dead 5, doubtful 1, convicted of crime or recommitted 11, unknown 2.

St. John's Industrial School for Roman Catholic Boys, Shern Hall Street, Walthamstow.

Inspected November 21, 1894.

Number of inmates on day of inspection, boys, 144 and 2 absconded.

State of premises.—There had been no material alterations in the buildings since last inspection. The dormitories and the other rooms were in very good order. The school is well supplied for the accommodation, for the various kinds of work, and for the recreation of the inmates. The one defective part is the superintendent's house, which is old, and not in keeping with the rest of the building. There is a good chapel. The garden is turned to good account.

Health and general condition.—There had been two deaths from meningitis, one of these was the result of being hit on the head with a piece of iron thrown by another boy, and was referred to in the General Report for last year. Three boys had been discharged on account of disease. Several of the boys are admitted with scrofulous tendency and enfeebled constitution. Many of them greatly improve in physique, but there is generally a pretty long list of critical cases. The ailments during the year included conjunctivitis, rheumatism, chicken-pox, sore throat, pleurisy, and sore eyes. One bad case of strumous glands. There were two bright little fellows in the comfortable sickroom dying of consumption.

Conduct and discipline.—Two boys had just absconded, taking with them two suits of clothes and some money obtained from firewood customers. They were caught at Birmingham and subsequently committed to a Reformatory. Some cases of bullying. Eight boys had been discovered ill-treating a cat. Latterly there had been a great number of cases of smoking and being in possession of tobacco. A thorough inquiry into the management had recently been held on the premises, and was naturally a severe strain on the discipline of the school. It spoke well for the substantially sound tone of the institution that the boys were found in good order on the day of inspection, and the usual routine going quietly on very much as if nothing extraordinary had happened.

Educational state.—23 in Standard Five: good reading and writing; all passed in dictation; very fair arithmetic, 2 failures. 22 in Standard Four: good reading and writing; 3 failed in dictation and 4 in arithmetic. 20 in Standard Three: fair reading, good writing; 2 failed in dictation and 1 in arithmetic. 20 in Standard Two: very fair reading, very good writing; 2 failed in arithmetic. The foregoing classes acquitted themselves creditably in geography, according to Standard, and in recitation. 19 in Standard One and 3 in preparatory: receiving due attention and, with few exceptions, making good progress. Order and attention very encouraging. The Science and Art examination in drawing had recently been held, and the award was "Excellent."

Industrial training.—The garden and greenhouses afford useful and instructive occupation for 8 boys. Great interest is taken in this department, and a first prize had been obtained at a local flower show for a chrysanthemum bloom. About 14 boys go out to neighbouring houses for a few hours in the morning to assist in housework and gardening. There are good shoe-making and tailoring shops, employing respectively 26 boys and 24 boys. The joiner's shop had not progressed, only 2 boys being employed at carpentering. About 20 engaged in wood-chopping,

others help in the house and laundry work, and the juniors attend school full time.

Staff.—Superintendent and matron, Mr. and Mrs. John Webb; chaplain, Rev. A. J. Hogan; schoolmaster, Mr. V. Cody; assistant ditto, Mr. N. Kelly; tailor, shoemaker, joiner, drill and discipline master, gardener, cook.

Average number maintained, 146. Total cost for 1894, 2,660*l.* 15*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 4*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 17*s.* 4*d.*

Industrial profits, 380*l.* 8*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 82 discharged in 1891–93, there are doing well 68, dead 4, doubtful 4, convicted of crime or recommitted 3, unknown 3.

Halstead Industrial School for Girls, Halstead, Essex.

Inspected August 6, 1894.

Number of inmates on day of inspection, girls, 49; of these 47 were under legal detention and 2 on the voluntary list, 1 on license, 1 in hospital.

State of premises.—Went over house and premises and found all in good order. The accommodation is quite suitable. The children are very properly provided for. There is separate provision for the elder girls, with good effect. There is a capital workroom, good playroom, and plenty of room outside for exercise and amusement. There is a good laundry also.

Health and general condition.—Satisfactory. The girls have the advantage of a change of air at the sea-side, which they much enjoy. One case of pneumonia, one of anæmia, one incipient phthisis. General appearance satisfactory. The girls looked bright and cheerful. Physical drill is kept up.

Conduct and discipline.—Report as to conduct, with one or two exceptions, satisfactory. One case of disobedience, one girl sent to Reformatory School, under bad influence, and one doing badly in service; a few cases of bad temper, repeated impertinence, and a few ordinary cases of disorder. School going on well. Girls generally quiet and well-behaved and under excellent influence.

Educational state.—Very fair. 8 in Standard Five: reading good, spelling good; 2 or 3 careless with dictation; 2 failed in arithmetic. 8 in Standard Four: meanings of words rather imperfect; very fair class; arithmetic good. 8 in Standard Three: reading and spelling very good; 3 failures in dictation, 2 in arithmetic. 7 in Standard Two: very fair work, but 3 failed in arithmetic. 10 in Standard One: all getting on well, good progress and good handwriting. Girls quiet and good.

Industrial training.—The girls engage in all the household work and help in the kitchen and laundry. There is a very good workroom. Good needlework, knitting, &c. were displayed. The girls

have good instruction in this branch. The school is of a practical kind. Some plain lessons in cooking would be an advantage.

General remarks.—The children are carefully instructed in sound religious knowledge. The words of Scripture are well known in the school.

Staff.—General manager and director, Miss Lucy Greenwood; matron, Miss E. J. Hounslow; schoolmistress, Miss E. J. Brown; assistant matron and assistant schoolmistress; sewing-mistress, Miss E. A. Brown; assistant ditto, and laundress.

Average number maintained, 52. Total cost for 1894, 1,123*l.* 3*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 12*s.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 5*s.* 5*d.*

Industrial profits, 80*l.* 19*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 33 discharged in 1891–93, there are doing well 28, doubtful 4, unknown 1.

The Children's Home, Industrial School for Girls, Davis Lane, Leytonstone, Essex.

Inspected November 22, 1894. Visited Oct. 29, 1894.

Number of inmates on day of inspection, girls, 45, and 1 voluntary case. Total, 46.

State of premises.—The house and premises supply good accommodation. There is plenty of room for exercise and a large garden. The dormitories are airy and suitable. A good play and drill room. A commodious laundry. The arrangements are suitable and convenient.

Health and general condition.—The children had a healthy appearance, and looked clean and properly attended to. The ringworm cases had nearly disappeared. A few cases of conjunctivitis, 12 cases of influenza. In the early part of 1894—A few cases of severe cold; one case of chicken-pox in March; one of eczema, one heart disease, one weak lungs. Two or three case of ringworm, and one or two cases of weak eyes.

Conduct and discipline.—The general report as to conduct in the home at Leytonstone was more favourable than it formerly was, chiefly owing to the removal of the more difficult cases to the Auxiliary Home at Clapton. There had in consequence been no violent disturbance of the peace of the house. A few cases of disorder, disobedience, lying and use of bad language. Order had been maintained without difficulty. I found the girls quiet and well-behaved.

Educational state.—Fair. 3 in Standard Five: girls did well; no default. 5 in Standard Four: very fair work except in arithmetic, which was defective; very good reading. 11 in Standard Three: good reading and spelling; the dictation was badly done, many failures; arithmetic very fair. 13 in Standard Two: class improving; dictation poor; arithmetic very fair. 10 in Standard One; class progressing fairly with three or four exceptions, rather backward. 3 in preparatory class, just beginning to read. Order good.

Industrial training.—The elder girls assist in the kitchen, scullery, and housework. There is a considerable laundry, which employs the bigger girls. All learn to sew and knit. Every girl showed me her own piece of needlework and knitting. Musical drill is carried on with advantage.

Staff.—Manager and director, Miss Agnes Cotton, with a staff of assistants; schoolmistress, Mrs. Ward; assistant ditto, Miss Wood; house-matron, laundry matron, assistant ditto, and sewing-mistress.

Average number maintained, 60. Total cost for 1894, 1,503*l.* 0*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 1*s.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 2*s.* 3*d.*

Industrial profits, 434*l.* 2*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 33 discharged in 1891–93, there are doing well 10, doubtful 13, unknown 10.

Auxiliary Home, The Myrtles, 58, Northwold Road, Upper Clapton, N.E.

Inspected November 22, 1894.

Number of inmates on day of inspection, girls, 13; of these, 10 under sentence of detention, 3 on voluntary list; on license 13.

State of premises.—The house is not unsuitable for the work carried on. I found all in good order, clean, and comfortable. There is a large open space for exercise and a very good laundry.

Health and general condition.—The health of the girls had been generally good. No serious illness. A few coughs and colds. The girls had a healthy appearance and looked clean and comfortable.

Conduct and discipline.—There had been a good many cases of misconduct, but some of the girls had behaved very well; others had been idle, obstinate, disobedient, and impudent. A few cases of noise and disorder. One or two cases of refusal to work. Some quarrelling and petty theft. A few very tiresome and troublesome girls, not likely to do well, and disappointing when tried in service.

Educational state.—The girls' education is kept up as far as possible. A regular teacher comes every day. I tested the education. I found 2 in Standard Five, 6 in Standard Four, 4 in Standard Three. Fair reading, spelling, and dictation. Somewhat backward in arithmetic. Girls improving under instruction. All behaved well.

Industrial training.—The laundry occupies the chief part of the girls' time. They keep the house clean, and assist in the kitchen and scullery. All learn plain needlework and knitting. Lessons in plain cooking would be of the greatest advantage to the girls.

General remarks.—The school has been found very useful in dealing with cases sent on license, and returning from license. With the class

of girls here dealt with, such a home is invaluable. Twenty-one cases under detention have been placed out on trial and have returned to the home if found unsuitable.

Staff.—Manager and director, Miss Agnes Cotton; superintendent, Mrs. Douglas; assistant ditto, Miss Hall; laundry superintendent, Miss Bragg; assistant ditto, Miss Avory; school teacher, Miss Baghurst.

GLAMORGANSHIRE.

"Havannah" Industrial School for Boys, Cardiff.

Inspected June 29, 1894.

Number of inmates on day of inspection, boys, 91, including 1 voluntary case and 21 Roman Catholics.

State of premises.—Efforts have been made during the last few years to render the old hulk more satisfactory as regards comfort and sanitation. It is but a makeshift at best. Standing high and dry by the side of a public road in a growing neighbourhood, with houses steadily encroaching, it presents a curious spectacle. Most of the upper deck is roofed in, forming a good schoolroom. There are also two sickrooms on the same deck looking comfortable enough, but no doubt needing further protection against rough weather. The lavatory had been improved and a capital bath provided. Sanitary arrangements are well attended to. There is a plot of garden land producing potatoes and other vegetables for the use of the school. There is also a small playground.

Health and general condition.—There had been four deaths, two from meningitis and two from phthisis. One boy had been discharged on account of disease. A case of inflammation of the lungs had recovered. Three cases of ringworm and a few had come in with itch, but were soon cured. One boy in sickroom with scrofulous abscess. The boys are not very robust, but the majority looked in good health.

Conduct and discipline.—By no means a long list of offences, and nothing very serious. A few cases of loitering about the streets instead of going to work, going home without leave, laziness, quarrelling, bad language, and one case of pilfering.

Educational state.—10 in Standard Five: reading and writing good; recitation very good; 1 failure in dictation and 2 in arithmetic; a very fair beginning had been made in the study of grammar. 19 in Standard Four: reading and dictation good; 5 failures in arithmetic; recitation good. 19 in Standard Three: very fair reading; good recitation and neat writing; 3 failures in dictation and 1 in arithmetic. These three classes had also a good knowledge of the geography of England and Wales. 23 in Standard Two: very fair reading, spelling, and recitation; very good writing; 1 failure in dictation and 2 in arithmetic. 15 in Standard One and 5 in preparatory class: none of these were of very long standing in the school, and had been well prepared; good and promising work. The boys evidently took an interest in their work and were very well-behaved.

Industrial training.—Not much is done in this direction. The garden gives occasional employment to a few. Several work in the town and

neighbourhood as house or errand boys. Some of the clothes are made by the boys and some canvas-stitching is carried on. A good shoemaker's shop is needed to supply the boys with shoes in place of the clogs now in use. A manual instruction class would add to the efficiency of the school's training. There is a ship's gun between decks, which, though of obsolete pattern, affords good opportunity for exercise. Gymnastics are taught by the superintendent's son, and a squad of boys went through dumb-bell and other exercises very smartly.

Staff.—Superintendent and matron, Mr. and Mrs. Jas. Coleman; schoolmaster, Mr. David; boatswain.

Average number maintained, 87. Total cost for 1894, 1,270*l.* 19*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 12*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 12*s.* 2*d.*

Industrial profits, 126*l.* 19*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 63 discharged in 1891-93, there are doing well 45, dead 6, convicted of crime 2, unknown 10.

Swansea Girls' Home, Mountview, The Mumbles, Oystermouth, Swansea.

Inspected July 20, 1894.

Number of inmates on day of inspection, girls, 20, of whom 4 were voluntary cases.

State of premises.—The house was in good order, all the rooms clean and comfortable. The situation is very pleasant in summer, having from one side a delightful view of Swansea Bay, but rather trying in the winter. The house is made the best of, and the general aspect is homelike. The small playground is capable of improvement.

Health and general condition.—There had been practically no sickness during the year. A case of eczema and a few chilblains completed the list. The winter had been severe, but by constant care and a supply of cod-liver oil to the more delicate girls, the school came well through it.

Conduct and discipline.—One or two girls rather troublesome and inclined to be disobedient. Some quarrelling now and then amongst themselves. There had been one case of rather severe punishment. Reliance is chiefly placed on the mark system, by which girls can earn a little money receivable when they leave the school.

Educational state.—1 in Standard Five, who passed well in the usual subjects. 4 in Standard Four: good reading and dictation; 2 failed in arithmetic. 8 in Standard Three; good reading and spelling; no failures. 2 in Standard One: both did well. 5 in preparatory class: 1 girl, over a year in the school, still backward; the others making satisfactory progress. A piece of poetry was well repeated by some of the girls. Singing should be taught. Order and attention very good.

Industrial training.—Some good specimens of plain needlework were exhibited. The girls help in the kitchen and do the washing and housework. A better idea of and training for home life can be obtained in a school like this than in a larger and more ambitious institution.

Staff.—Superintendent, Miss Langley; schoolmistress, Miss Parsell; a committee of ladies superintend the school.

Average number maintained, 19. Total cost for 1894, 268*l.* 10*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 2*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 13*s.* 4*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 6 discharged in 1891–93, there are doing well 5, doubtful 1.

Gloucester.

Park Row Industrial School for Boys, Park Row, Bristol.

Inspected June 27, 1894. Visited November 28, 1894.

Number of inmates on day of inspection, boys, 80.

State of premises.—House and premises in good order. The recent additions have much added to the general efficiency. There is now a good sickroom. The new arrangements for kitchen and dining-room work with advantage. Dormitories much improved.

Health and general condition.—Health very fair. Boys looked bright, active, and lively. Medical report favourable. One death from abscess in ear; one broken chilblains; one case of heart disease; one enlarged glands; one severe fall; one lymphatic abscess; one furunculus. General sanitary condition very fair.

Conduct and discipline.—The record of offences was chiefly of an ordinary character. A good many cases of absconding and going out without leave. Three boys stealing boys' parcels; some cases of untruthfulness, quarrelling, and fighting. Four boys absconded in February; one disorderly and very troublesome; neglect of work; one boy had absconded several times.

Educational state.—Fair. 8 in Standard Five: reading and spelling good; 3 failed in dictation, 2 in arithmetic; one boy very backward. 21 in Standard Four: reading and spelling very fair with two or three exceptions; 4 failures in dictation, writing very fair; arithmetic only moderate, 8 failures. 23 in Standard Three: a more creditable class, very few failures; work neatly put down, a little elementary geography. 16 in Standard Two: reading and spelling very fair; dictation well done on slates; arithmetic well done, 2 failures. 8 in Standard One: getting on, except in arithmetic, which was indifferent. 4 in preparatory class. School rather backward. Order good.

Industrial training.—10 boys work with the shoemaker and make and mend all the boots; make also for the girls at Red Lodge; shoemaker attends 5 days a week from 2 to 5 p.m. 10 boys work with a

tailoress and make all the school clothing. The chief occupation is wood-chopping, than which no occupation is less useful to the boys. No attempt has been made to introduce manual instruction in woodwork and the use of tools. There is a large garden. The boys do all the work of the house, make and bake their own bread, and wash the clothing.

Staff.—Superintendent and matron, Mr. and Mrs. J. Langabeer; schoolmaster, Mr. J. W. Kitchen; assistant in school and labour-master, Mr. George Wilson; tailoress, shoemaker (half-time); assistant matron, Miss M. Langabeer; occasional help in the laundry.

Average number maintained, 80. Total cost for 1894, 1,197*l.* 0*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 19*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 5*s.* 2*d.*

Industrial profits, 207*l.* 1*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 60 discharged in 1891–93, there are doing well 54, convicted of crime or recommitted 2, unknown 4.

Clifton Industrial School for Boys, Clifton Wood, Bristol.

Inspected June 27, 1894. Visited November 28, 1894.

Number of inmates on day of inspection, boys, 176; of these 1 a voluntary case; 78 on license.

State of premises.—House and premises were in excellent order. Dormitories thoroughly clean and well ventilated. In every department a spirit of improvement and progress. Great attenton paid to sanitary requirements. A proposal to make Mardyke House more useful was brought under the notice of the Department. The general aspect was entirely encouraging.

Health and general condition.—The general health had been well maintained, and no very serious illness with the exception of an outbreak of ophthalmia in August and September of 1893, which affected about 50 of the boys, but was soon eradicated. A few cases of abscess, two cases of jaundice, one urticaria, a few cases of influenza in the cold season, a few cases of ophthalmia at end of year, one case of epilepsy, one tubercular disease, one purpura. Boys looked lively and well on day of inspection, and particularly clean and bright.

Conduct and discipline.—School in excellent order. Boys under firm discipline, carried on without any excess of punishment. General report favourable. Nothing serious till November 1893, when two boys were guilty of theft, and afterwards absconded—two boys of indifferent character. In February one case of indecent behaviour, one of lying and false charges; some cases of disobedience, dishonesty, and impudence. General tone of the school good; boys bright and cheerful; all going on steadily under a good staff of officers.

Educational state.—This is well attended to under a good educational staff, 5 full-timers. 9 in Standard Six: work very well done; good reading and spelling; English composition only fair; all passed well in

arithmetic. 21 in Standard Five: a very good class; reading a little wanting in composure; arithmetic well done; more style needed in the handwriting. 37 in Standard Four: a very good class, only 1 failure and that in arithmetic. Good knowledge of European geography in Standards Six, Five, and Four. 44 in Standard Three: a very good class, reading a little hurried; recitation good; arithmetic very fair; geography of England and Wales good. 30 in Standard Two: very promising class; well taught; good mental arithmetic; boys quick and intelligent. 23 in Standard One: all work done on paper; class doing well; good and careful teaching; no loitering permitted. Order throughout the school excellent. Very good recitations. Singing is taught in all standards.

Industrial training.—The industrial training is vigorously carried on. I found 30 boys working with the shoemaker, with good work going on. 43 in the tailoring department, including 20 making up workmen's baskets for the trade. 85 in the brushmaking department, including the patten and clog-making, for which there is a fair demand. There is a very efficient band. The boys drill remarkably well. There is a good swimming-bath.

Staff.—Superintendent and matron, Mr. and Mrs. Frank D. Lord; schoolmasters, Messrs. Wallace, Wightman, and Phillips; tailor, shoemaker, brushmaker, engineer and yardman, cook, laundress, bandmaster occasional.

Average number maintained, 179. Total cost for 1894, 3,240*l.* 3*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 2*s.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 10*s.* 11*d.*

Industrial profits, 475*l.* 6*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 153 discharged in 1891–93, there are doing well 148, dead 2, convicted of crime or recommitted 1, unknown 2.

Industrial School Ship "Formidable," off Portishead, Bristol.

Inspected June 25, 1894.

Number of inmates on day of inspection, boys, 295; number on the training tender the "Polly," 28; in the cottage hospital, 0; total, 323.

State of premises.—I inspected every department of the ship. I was glad to find admirable order and a high condition of practical efficiency The general arrangements for securing health and comfort on board were well organised, and thoroughly carried out. There is a comfortable sick bay for ordinary cases of sickness, and a good cottage hospital for more serious cases. A good reading-room for the more advanced boys. The ship appeared to be administered with the greatest care and forethought, and with sound judgment and common sense. Discipline is firmly maintained, coupled with much kindness and consideration for the boys themselves.

Health and general condition.—The boys looked healthy and bright. One case of debility, one consumption, one enlarged tonsils, one conjunctivitis, one febricula, one death from inflammation of the lungs, one crushed toe, one sudden death (catalepsy), one pleurisy, one enlarged glands; general health very fair.

Conduct and discipline.—Some of the ordinary cases of bullying, disorder, disobedience, impertinence; six cases of attempt to abscond, two cases of theft of provisions, some cases of bad and obscene language, filthy conduct, petty theft, one having a false key. Some difficulties, as usual, but on the whole I found an improving tone, good order, and sound discipline.

Educational state.—I examined the port watch for the day; 48 in Standard Five, 11 being absent on the "Polly." Reading and spelling very good; dictation and writing good; arithmetic well done; good general knowledge of geography of North and South America. 41 in Standard Four: improved; 4 failures in dictation, 7 in arithmetic; class improved; a little more accuracy required in arithmetic. 39 in Standard Three: class improved; much more satisfactory work. Some weakness in dictation; 5 failures in arithmetic. 15 in Standard Two: very fair work in this class, with one or two exceptions. General order very good.

Industrial training.—The classes for nautical training are carried on day by day in a systematic course of instruction under competent seamen instructors. The appliances for teaching seamanship are ample and well selected. The starboard watch went through their exercises smartly and efficiently. 6 boys from each watch work with the shoemaker. About 30 boys with the tailor. Nearly all the boys' clothing is manufactured on board. 6 boys work with the carpenter, and a class with the cook. There is an efficient band. All the boys learn to swim.

General remarks.—The "Formidable" is losing the valuable services of her commander, Captain R. B. Nicholetts, R.N., who has done so much to establish the ship on a firm basis of practical efficiency and good organisation. Some differences of opinion had arisen with the executive committee, and Captain Nicholetts sent in his resignation. Captain Nicholetts retires on June 30 of present year, much to the regret of all who know how to estimate his services, and take an interest in the welfare of the ship.

Staff.—Captain Superintendent, Captain R. B. Nicholetts, R.N.; chief officer, Mr. W. Glasspole; chief schoolmaster, Mr. W. Rice; assistant ditto, Messrs. Wallis, Davey, Reece, and Pierce; five seamen instructors, bandmaster, carpenter, tailor, shoemaker, cook, two night watchmen, nurse, shipping agent. On the "Polly" training tender Captain Hall and three seamen instructors; clerk, Mr. Wells.

Average number maintained, 333. Total cost for 1894, 6,774*l.* 19*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 6*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 0*s.* 5*d.*

Industrial profits, 394*l.* 15*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 302 discharged in 1891–93, there are doing well 186, dead 6, doubtful 17, convicted of crime or recommitted 15, unknown 78.

Bristol Industrial School for Girls, Stanhope House, Somerset Street, Kingsdown, Bristol.

Inspected June 28, visited November 29, 1894.

Number of inmates on day of inspection, girls, 60; of these 59 under detention, 1 on the voluntary list.

State of premises.—House and premises well ordered, clean and comfortable. The house is a convenient one and healthily situated. There is a very good detached schoolroom. Plenty of room for exercise and recreation.

Health and general condition.—Very fair; a few cases of influenza and one of pneumonia; one chorea; one inflamed eyes; a few feverish attacks and one case of eczema. All in excellent health on the day of inspection and looking well.

Conduct and discipline.—One girl had given a great deal of trouble and was continually in mischief. A few cases of disobedience, petty theft, impudence, and bad temper. Three cases of absconding, one use of bad language. The girl above mentioned had exercised a bad influence and done much harm. I saw nothing to complain of in the conduct of the girls, while I was with them; they were quiet, orderly, and good.

Educational state.—The education was receiving careful attention. 12 in Standard Five: work very well done. Good reading and recitation; 2 weak in arithmetic; writing neat and good. 12 in Standard Four: a very good class; no failures at all; recitations very good. 13 in Standard Three: a very satisfactory class; all work done well, no failures. 8 in Standard Two: work very well done; all improving, no failures. 7 in Standard One: 1 rather weak, the rest doing well. 7 in preparatory class, all getting on. Girls in excellent order, quiet and attentive.

Industrial training.—The girls receive careful instruction in needlework and knitting. There were some very good samples exhibited. There is a good laundry for a class of the elder girls. Some work in the kitchen. Much attention is given to cooking, which is of the utmost importance for the class of girls received. The practical training is of much value.

Staff.—Superintendent, Miss Chandler; schoolmistress, Miss Humphreys; assistant ditto, Miss Agnes Kelsey; assistant matron, Miss Dalton; laundress, Miss Pickett.

Average number maintained, 60. Total cost for 1894, 1,027*l.* 11*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 2*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 18*s.* 1*d.*

Industrial profits, 37*l.* 0*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 32 discharged in 1891–93, there are doing well 24, dead 1, doubtful 2, convicted of crime or recommitted 1, unknown 4.

Bristol School Board Industrial School for Girls, Carlton House, 5, Southwell Street, Bristol.

Inspected June 25, 1894. Visited Nov. 29, 1894.

Number of inmates on day of inspection, girls, 48, and 1 on license.

State of premises.—Some important improvements had been carried out, providing new dining-room, capital new laundry, new bathroom, and new sickroom. Alterations complete, with increased facilities for carrying on the work successfully. I found all in good order, clean and comfortable.

Health and general condition.—A good many ordinary ailments. A few cases of eruption and abscess; one ulcer of cornea; one eczema of the head; a few feverish colds, and some cases of influenza; one case of quinsy; one of rheumatism; a few cases of influenza in the early part of the year; one death from inflammation of lungs; one ophthalmia; a few delicate girls. Girls very well at the date of my visit, but a few strumous and delicate.

Conduct and discipline.—The general report was satisfactory. A few troublesome cases. A few lazy ones, with some untruthfulness and deceit. One girl continually stealing, a kleptomaniac—almost incorrigible—and a very difficult case to deal with. Girls quiet, attentive and good, but a little too quiet.

Educational state.—Very fair. 12 in Standard Five: reading and spelling fair; dictation moderate, 3 failures; writing fair; 3 failures in arithmetic; rather heavy class. 7 in Standard Four: a brighter class; work well done; recitation good. 11 in Standard Three: work respectably done; 1 weak in arithmetic; class improving. 9 in Standard Two: class did well except in arithmetic, which was weak, 4 failures. 5 in Standard One: an improving class. 4 in preparatory class: getting on. Girls quiet and well-behaved.

Industrial training.—Some very good work was exhibited in plain sewing, knitting, and woolwork. Some excellent wool mats, the work of the girls, were shown. Needlework is well attended to. There is now a very good laundry, which provides occupation for some of the elder girls. The girls make their own clothing and outfits. 12 of the girls receive systematic lessons in cookery once a week.

Staff.—Superintendent, Miss K. McFarlane; schoolmistress, Mrs. Porter; assistant matron, Miss Bevis; laundress, Miss Williams.

Average number maintained, 51. Total cost for 1894, 917*l.* 8*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 19*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 1*s.* 11*d.*

Industrial profits, 4*l.* 16*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 39 discharged in 1891–93, there are doing well 36, doubtful 2, unknown 1.

Hants.

Purbrook Industrial School for Boys, Cosham, Hants.

Inspected July 16, 1894.

Number of inmates on day of inspection, boys, 69; on license 3.

State of premises.—I found the house and premises in their usual condition of good order. Dormitories clean and well-ventilated, under proper supervision. I found the garden much improved and the greenhouses full of flowers. 18 acres of land under careful cultivation.

Health and general condition.—Health well maintained. Boys in fair physical condition, no serious illness. One scald on foot; one abscess on face; one laceration of finger; one dyspepsia; one ulcer on back. No sick cases on day of inspection.

Conduct and discipline.—Very fair; satisfactory report. One serious case of absconding and two or three attempts to abscond. A few ordinary cases of idleness, carelessness at work, trespassing, disobedience, and troublesome ways. Boys in good order and doing well.

Educational state.—This continues to receive careful attention. 7 in Standard Six: an intelligent class. Good drawing, mapping, and geography. 9 in Standard Five: work all properly done, 1 failure in arithmetic. 15 in Standard Four: all creditably done, but 3 failures in arithmetic. 17 in Standard Three: class did well; 1 very backward boy in all subjects. 14 in Standard Two: satisfactory class. 4 in Standard One: progressing, 3 new boys. Order very good.

Industrial training.—The gardens and the farming land and the greenhouses supply plenty of useful outdoor labour. 8 boys were working with the tailor, 6 with the shoemaker. The boys make their own clothing. A class of juniors darn and mend. The boys make their own bread and do their own washing. There is a good band, and a covered shed for gymnastics. The boys have plots of garden for their own cultivation.

Staff.—Superintendent and matron, Mr. and Mrs. Alfred Fielder; schoolmaster, Mr. E. Chaffey; tailor, Mr. H. Yarker; shoemaker, labour-master, band, drill, and gymnastic instructor, Mr. Kent; laundress occasional.

Average number maintained, 69. Total cost for 1894, 936*l.* 3*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 11*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 14*s.*

Industrial loss, 30*l.* 10*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 50 discharged in 1891–93, there are doing well 49, doubtful 1.

St. Swithun's Industrial School for Boys, Upper Brook Street, Winchester.

Inspected July 17, 1894.

Number of inmates on day of inspection, boys, 85 under detention, 6 on license.

State of premises.—The house and premises are maintained in excellent order. Space is limited, and accommodation none of the best, but I found everything in excellent order; sanitary matters well attended to; dormitories clean and very comfortable. The addition of a cooking-house had given more room in the dining hall. House in good repair.

Health and general condition.—Very fair. No infectious diseases; no deaths; a few feverish cases in 1893; two cases of granular lids; good health in 1894, up to date of inspection; one sore head; two cases of influenza; one weak eyes. Boys looked clean, well-fed, and healthy, and in good spirits.

Conduct and discipline.—Satisfactory on the whole. Some ordinary cases of disorder, wilful mischief, petty theft, impertinence, and lying, one case of bullying. Boys under judicious discipline, and in very good order. The school is carefully managed. I found the boys improving and very orderly.

Educational state.—Indifferent. A change of teachers in the year, and some defects. Present teacher only two months at work; much time had been lost. 11 in Standard Six: fair reading and dictation; arithmetic very bad; 7 failures. 11 in Standard Five; a very poor class; many failures. 16 in Standard Four: reading and spelling fair; several failures in dictation; 8 failures in arithmetic. 16 in Standard Three: 7 failures in dictation, 3 in arithmetic. 17 in Standard Two: reading and spelling fair; 9 failures in arithmetic. 10 in Standard One: had been losing time. Schoolwork much neglected in the year. Great falling off. Boys in good order.

Industrial training.—16 boys were working in the tailor's shop, 16 as shoemakers. Very fair work in each department. A class of juniors under female teacher, making and mending socks and shirts. A good deal of wood-chopping is carried on, but I was glad to find a class of 12 boys receiving manual instruction in the use of tools. There is a large garden under cultivation at some distance from the school. Pigs and poultry are kept. There is an excellent band. The boys drill very efficiently.

Staff.—Superintendent, Mr. J. F. Manning; matron, Miss Warren; school-master (two months), Mr. Wm. Pearse; tailor, shoemaker, joiner and yardmaster, gardener, sempstress, and laundress. Bandmaster and drill sergeant, occasional.

Average number maintained, 85. Total cost for 1894, 1,586*l.* 7*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 13*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 11*s.* 7*d.*

Industrial profits, 364*l.* 5*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 37 discharged in 1891–93, there are doing well 36, unknown 1.

Portsmouth and South Hants Industrial School for Girls, Sydenham House, Waterloo, Cosham, Hants.

Inspected July 14, 1894.

Number of inmates on day of inspection, girls, 37.

State of premises.—I found premises were in good order, clean and well managed. Dormitories well ventilated. Good garden with plenty of room for exercise. The use of the basement has always been objectionable.

Health and general condition.—The children had a healthy appearance, and seemed to have proper attention in every respect. One case of cholera, a few cases of eczema, one otarrhœa, one case of tonsillitis, one follicular ditto, one curvature of spine, one acute bronchitis, one case of ophthalmia. With these exceptions health very fair.

Conduct and discipline.—One or two of the girls had been troublesome, one especially had been rude and rebellious, and had given much trouble. One or two cases of stealing fruit; one wilful disobedience; one violent temper. Girls generally quiet and well-behaved. School going on well.

Educational state.—Very fair. 10 in Standard Five: good reading, recitation, and spelling; 2 failures in arithmetic. 10 in Standard Four: good reading and spelling; 1 failure in dictation, 4 failed in arithmetic. 3 in Standard Three: fair work; 1 weak in arithmetic. 7 in Standard Two: 5 good, 2 weak in arithmetic. 4 in Standard One: improving. 3 in preparatory class. Order very fair.

Industrial training.—There was a very creditable display of plain needlework, knitting, and dresses, &c. The girls make their own clothing and outfits. A very good workroom. The elder girls assist in the kitchen and washhouse. The girls have lessons in plain cooking.

Staff.—Superintendent, Miss Hanmer; schoolmistress, Miss A. Winfield, and junior assistant; house matron, laundress, with occasional assistance, gardener.

Average number maintained, 36. Total cost for 1894, 623*l.* 15*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 6*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 8*s.* 2*d.*

Industrial profits, 33*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 12 discharged in 1891–93, there are doing well 10, doubtful 1, unknown 1.

Hereford.

Herefordshire Industrial School for Boys, Bath Street, Hereford.

Inspected July 30 and 31, 1894.

Number of inmates on day of inspection, boys, 114; of these 90 under legal detention, 24 on the voluntary list; on license 30.

State of premises.—The house and premises are now very suitable for the work of the school. Many important improvements have been effected in the last few years, and further developments are in contemplation. There is a large plot of garden ground, and a capital isolated infirmary. Some very good workshops. I found the whole establishment in first-rate order and under experienced supervision.

Health and general condition.—Rather more sickness in the past twelve months than has been usual. One sore throat, one debility, 23 cases of influenza in September 1893, one case of rheumatism, one case of scarlatina in June, and a few sore throats in February; also a few cases of influenza, one scalded foot, one ringworm, one abdominal enlargement, one debility, one pneumonia, one febrile attack; latterly five or six cases of measles, with good recovery. Boys all well on day of inspection, and in very good spirits.

Conduct and discipline.—A good report as to conduct during the past year. A few troublesome and lazy; some petty theft, two dirty habits in dormitory, two wanton mischief, two disobedient and troublesome; one case of impudence, one waste of food. Nothing very serious. A system of rewards and punishments produces a good effect and prevents punishment. Boys in good order and generally improving. All behaved exceedingly well.

Educational state.—Well attended to. 24 in Standard Five: a very intelligent class, no failures; reading very much improved; good results. 20 in Standard Four: class well taught, intelligence good; a few (5) defective in arithmetic; the rest very good. 29 in Standard Three: very fair class; some defctive in dictation; arithmetic well done; recitation good. 20 in Standard Two: good results generally, but 5

weak in arithmetic; all passed in dictation; writing good; recitation very fair. 14 in Standard One: a promising class. 7 in preparatory class. The boys sing very correctly. General order excellent.

Industrial training.—The industrial training is made of much importance, and much is done for the boys' improvement. I found 15 in the tailoring shop, and 11 with the shoemaker; very good work in both shops. 13 work with the basket-maker; the output was very creditable, and it is a good trade. A good deal of wood-chopping is carried on by the junior boys. Classes for technical instruction in woodwork had been carried on with much advantage throughout the year. The garden provides much useful outdoor occupation. Good fife and drum band.

Staff.—Superintendent and matron, Mr. and Mrs. Edwin Horth; schoolmaster, Mr. Burn; assistant do., Mr. Waldron; assistant matron, Miss T. Young; tailor, shoemaker, basket-maker, carpenter, drill and band-master occasional, gardener, one domestic, and laundress.

Average number maintained, 119. Total cost for 1893, 2,023*l.* 3*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 18*s.* 10*d.*

Industrial profits, 237*l.* 16*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 56 discharged in 1891–93, there are doing well 53, convicted of crime or recommitted 3.

Herts.

Church Farm Industrial School for Boys, East Barnet, Herts.

Inspected November 5, 1893.

Number of inmates on day of inspection, boys, 85, of whom 35 are voluntary cases.

State of premises.—There had been no alterations in the buildings since last year. The premises were in very good order. There are good farm buildings, a good garden, and the dormitories, schoolroom, play-shed, &c., are comfortable and convenient. There are about 42 acres of land.

Health and general condition.—Excellent; one case of broken leg, when bird-nesting, and a few common colds; no serious illness. The doctor visits the school once a week, oftener if wanted. The boys looked well.

Conduct and discipline.—With two or three exceptions, very good. There had been two or three cases of absconding. There had been very little punishment; where there is any, it generally consists of deprivation of privileges.

Educational state.—There were 18 in Standard Six: 1 failure in arithmetic; good reading; very good writing and dictation; good recitation; grammar in the three upper standards. 14 in Standard

Five: 1 failure in dictation, 3 in arithmetic; very fair reading and writing. 14 in Standard Four: a very fair class, only 1 failure in arithmetic. 13 in Standard Three: 3 failures in dictation and 3 in arithmetic; good writing; fair reading. 11 in Standard Two: fair reading and writing; 5 failures in dictation, the same in arithmetic. 11 in Standard One: rather a backward class. Order and attention good. The boys are well taught and sing very nicely.

Industrial training.—10 learn tailoring, 10 shoemaking, and there were 10 in the carpenter's shop. A good many work on the farm and in the garden. Bread is baked on the premises. 11 cows are kept, and a good deal of milk is sold. There is a drum and fife band.

General remarks.—After many years' very active supervision of the school Col. Gillum has left the neighbourhood and resigned his position of Hon. Secretary. His loss will be much felt by the school, to which he devoted nearly all his time. During the year 3 boys have emigrated.

Staff.—Superintendent, Mr. Bowden; matron, Mrs. Bowden; schoolmaster, Mr. Rühl; assistant, Mr. Lawes; tailor, shoemaker, farm bailiff, 2 labourers, general assistant.

Average number maintained, 86. Total cost for 1894, 1,713*l.* 5*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 18*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 13*s.* 1*d.*

Industrial profits, 10*l.* 15*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 14 discharged in 1891–93, there are doing well 10, doubtful 1, unknown 3.

Girls' Industrial Home, George Street, Hemel Hempstead, Herts.

Inspected October 26, 1894.

Number of inmates on day of inspection, girls, 17; of these, 1 term expired, 1 voluntary case.

State of premises.—The house is small, and the general accommodation very limited. I found all in good order, the children seemed well provided for and comfortable. The addition of a small infirmary is a great help. The situation is a healthy one.

Health and general condition.—Fair, several weakly girls, one scrofulous case; one debility; one conjunctivitis; a few colds and coughs, nothing very serious. Good outdoor playroom, a valuable boon for the girls.

Conduct and discipline.—A few very obstinate and troublesome cases among the elder girls. One girl especially had behaved very badly, and it was found necessary to transfer her to another school. Some cases of rudeness, refusal to work, and obstinacy; the chief difficulties arising from the evil example of the girl above mentioned. Children going on better at the time of my visit, and a better feeling was springing up.

Educational state.—Fair. 3 in Standard Five: good reading, spelling, dictation, and writing; 2 weak in arithmetic. 5 in Standard Four: 4 good in reading and spelling; all passed in dictation but 1; writing very fair; 1 very backward generally; 4 failures in arithmetic. 2 in Standard Three: 1 good; 1 backward in dictation. 12 in Standard One: 3 infants, very young; girls quiet and good; recitations good; school rather backward.

Industrial training.—Some good exhibits of plain needlework and knitting. The girls make their own clothing. The elder girls assist in the kitchen, scullery, and household work. Very good physical drill and good singing.

General remarks.—This is a school of the Waifs and Strays Society. The children received are sent under the Industrial Schools Amendment Act, 1880.

Staff.—Superintendent, Miss H. L. Storie; schoolmistress, Miss A. Snow. One general assistant.

Average number maintained, 15. Total cost for 1894, 334*l.* 4*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 5*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 25*l.* 4*s.* 7*d.*

Industrial profits, nil.

Kent.

Kent County Council Industrial School for Boys, Kingsnorth, Ashford, Kent.

Inspected September 28, 1894.

Number of inmates on day of inspection, boys, 163. On license 8.

State of premises.—The buildings are substantial and commodious, Being originally built in sections some re-arrangement, especially as regards the lavatories, of which there are three, would render supervision more effective and more convenient to the present staff. There is a good detached infirmary. The playground had been much improved, adding much to the tidiness of the general aspect. There are nearly 50 acres of farm and 25 of garden. 22 head of stock and a number of pigs and poultry.

Health and general condition.—There had been no deaths since last inspection. One case of necrosis in the foot, caused by a kick from another boy, had been removed to the hospital and successfully treated; a few cases of ringworm, eczema, and shingles; one boy scalded his leg and another sprained his ankle; one case of rheumatism; some rather bad chilblains in the winter. Generally, the boys looked well and thriving.

Conduct and discipline.—One determined absconder had been rather severely punished. The list was not so long as usual and consisted mostly of ordinary offences. Some cases of pilfering food, destroying books, untruthfulness, and general misconduct. The boys appeared in good spirits and well affected.

Educational state.—Two new teachers had been appointed and had already effected some improvement. 7 in Standard Five: reading very fair, writing good; no failures. 25 in Standard Four: reading and writing very fair; all passed in dictation; 2 failed in arithmetic. 43 in Standard Three: reading fair, writing good; all passed in dictation; 5 failed in arithmetic. 35 in Standard Two: reading and spelling very fair; 1 failed in dictation, 6 in arithmetic. 21 in Standard One: very fair reading; good writing on paper; 1 failure in dictation; a few rather weak in arithmetic. 3 in preparatory class, 2 being new-comers; the other dull and backward. Very fair geography in all the standards, also some recitation. Order and attention very good.

Industrial training.—The farm and the gardens, which yield a quantity of fruit for the market, give employment to several of the boys. There is a good dairy turning out about 40 lbs. of butter a week. The carpenter's shop employs 12 boys, and the tailor's 12. Some assist in the kitchen, in the bakehouse, the laundry, &c. There is an excellent band, boys from which are in great request for regimental bands, where they invariably do well.

Staff.—Superintendent and matron, Mr. and Mrs. James Duke; schoolmaster, Mr. Heritage; assistant ditto, Mr. E. J. Sheppard; assistant superintendent, Mr. Body; bandmaster, Mr. Clinton; gardener, labour-master, farm servant, carter.

Average number maintained, 161. Total cost for 1894, 3,202*l.* 14*s.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 17*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 11*s.* 4*d.*

Industrial profits, 754*l.* 9*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 121 discharged in 1891–93, there are doing well 110, doubtful 2, convicted of crime or recommitted 5, unknown 4.

St. Vincent's Industrial School for Roman Catholic Boys, Dartford, Kent.

Inspected October 22, 1894. Visited November 13, 1894.

Number of inmates on day of inspection, boys, 198.

State of premises.—The buildings supply superior accommodation for a large school. I found every department in good working order. The playground, which is extensive, had been much improved. There is a large covered play-shed, which is a great protection to the boys in severe weather. There is a farm of 18 acres and a large garden. There is now a commodious chapel. Dormitories clean and well arranged. Good sickroom when needed and an experienced nurse.

Health and general condition.—The health had been well maintained. The situation is a healthy one, though somewhat exposed in winter. Very little serious illness in the last twelve months. One case of influenza; one injury to head; one tuberculosis; one strumous abscess; one injury to thigh, run over by a cart; no deaths, and but little sickness of a serious character.

Conduct and discipline.—A pretty long list of petty punishments and ordinary offences; disobedience, petty cruelty, theft, bullying others, attempting to abscond, neglect of duty, idleness, wanton mischief, quarrelling; five boys absconded recently, and seemed to have some ground of complaint as to the manner in which personal punishment had been inflicted by certain of the officers without proper authority. I found the boys in good order, and generally well affected, but something had gone wrong of late, it was evident.

Educational state.—The education has, generally, received constant and careful attention. The boys have hitherto made very fair progress; this year is an exception. 42 in Standard Five: reading fair, some very good, a few indifferent; spelling very good; dictation well done, 2 failures; arithmetic, 8 defective; the rest very good and well put down. 36 in Standard Four: an indifferent class; many failures and no painstaking; several indifferent readers; dictation almost entirely a failure—only 10 passed; the arithmetic also was indifferently done, with 12 failures; class careless, making no effort. 47 in Standard Three: a good many failures in spelling, dictation, and arithmetic. Some elementary geography, about 14 boys careless and indifferent. 39 in Standard Two: an indifferent class. 16 in Standard One: reading and spelling good; arithmetic fair. 18 in preparatory class: very backward. With the exception of Standard Five the classes gave me no satisfaction. Much time had been lost in the year, and the results generally were below what one has the right to expect. The schoolwork had fallen off considerably in every point of view.

Industrial training.—I found 60 boys working in the shoemaking shop in two divisions—a good shop, and good work turned out; 44 working with the tailor, and some good work exhibited. The farm and garden supply a large amount of out door work. Cows and pigs are kept. 12 boys work with the carpenter. There is an efficient band. The boys drill very well.

General remarks.—Some complaints were made as to the administration of punishment. An inquiry was made into this. A good many irregularities were discovered. Punishments had been inflicted by the shoemaker, who is also the drillmaster. Discipline had been more or less confided to him. This was quite unjustifiable. Many of the punishments had not been recorded. A stop put to irregular and unauthorised punishments and no officer permitted to punish boys without authority.

Staff.—Brother Director and seven Brothers of the Order of the Presentation; tailor, shoemaker (also acts as drillmaster), carpenter, man cook, farm bailiff; baker and bandmaster, occasional; nurse for juniors and sick children; the chaplain attends regularly.

Average number maintained, 212. Total cost for 1894, 4,111*l.* 7*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 17*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 5*s.* 1*d.*

Industrial profits, 145*l.* 15*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 110 discharged in 1891–93, there are doing well 93, doubtful 6, unknown 11.

East London Industrial School for Boys, Porson Street, Lewisham, Kent.

Inspected November 14, 1894.

Number of inmates on day of inspection; boys, 140, of these 31 are of Jewish extraction.

State of premises.—I went carefully over every part of this excellent school, and I was glad to find everything in good order and well arranged. Numerous improvements had been introduced in every department, all tending to greater efficiency and comfort. Some additional workshops were in contemplation to take the place of present shoemaker's and tailor's shops, which are rather cramped for space. The dormitories were very clean and comfortable. There is a small infirmary, good garden, and greenhouse.

Health and general condition.—Very fair. Boys looked bright and cheerful. A few acute cases and about the usual number of ordinary ailments. One case of psoriasis, one broken finger, one inflammation of lungs, one cold and sore throat, one ulcer on scalp, a few cases of enlarged glands, one lupus of the hand, one ulcerated throat, one acute rheumatism, four or five cases of measles. All boys re-vaccinated; small-pox prevailing in the neighbourhood. One fracture. The boys drill well and enter heartily into their games. General health satisfactory.

Conduct and discipline.—A pretty long list of petty offences and misdemeanours. The record is larger than it otherwise would be owing to a mixture of races in the school. A good many cases of petty theft and roguery; some cases of inpudence, lying, and deception; one boy guilty of setting fire to a portion of the building; more than the usual amount of petty theft; one case of bad language; one gross impertinence. I found the boys in good order and obedient to rule, but some of them are troublesome and vicious.

Educational state.—14 in Standard Six; an intelligent class; with one exception, all did well; good geography of Europe; recitation good; arithmetic well done. 21 in Standard Five: satisfactory work; good geography and recitation; 3 weak in arithmetic; writing very good. 23 in Standard Four: class did well with the exception of three or four weak in arithmetic. 23 in Standard Three: class did well, but 4 backward in dictation. 26 in Standard Two: class going on well; 3 weak in arithmetic; some good recitation. 22 in Standard One: all progressing. 8 in preparatory class. Order very good.

Industrial training.—Careful attention is bestowed on the industrial training. I found 17 boys working with the shoemaker; each boy books his work on the slate every day; this is a very good shop, and good work was being done. 21 were working with the tailor, and make all the clothing. A junior class for knitting and mending. About 50 in the paper-bag making and printing; a well-managed shop and very good work. There is a joiner's shop also, which is gradually developing for technical instruction. There is an excellent band. The boys' marching and physical drill is very good. A good deal of wood-chopping is carried on also.

General remarks.—This school receives a certain number of Jewish boys. This involves a good deal of extra trouble and supervision. The managers deserves credit for their disinterested efforts in this direction.

Staff.—Superintendent and matron, Mr. and Mrs. J. Cartwright; chief schoolmaster, Mr. Fletcher; assistant ditto, Messrs. Ellis and Birkhead; tailor, shoemaker, paper-bag printer, gardener, drillmaster, mechanic, clerk, bandmaster, needle-woman, laundress, cook, and one domestic.

Average number maintained, 139. Total cost for 1894, 3,092*l.* 3*s.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 4*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 11*s.* 10*d.*

Industrial profits, 414*l.* 16*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 54 discharged in 1891–93, there are doing well 46, convicted of crime or recommitted 2, unknown 6.

Milton Industrial School for Boys, Parrock Hall, Milton, near Gravesend.

Inspected November 20, 1894.

Number of inmates on day of inspection, boys, 151 under detention, and 19 voluntary cases.

State of premises.—The lease of the place, which had only a year to run, has been extended for two additional years. The committee are on the look-out for a more suitable site. The present premises are pleasant in summer, but damp and cold in winter. There are 20 acres of land, of which about 19 are grass land, and a very good garden. A separate house for 30 juniors.

Health and general condition.—One case of a broken arm (done at play), four cases of pneumonia, one case of a fit, one of gastric catarrh. The general health had been very good, and the boys looked well.

Conduct and discipline.—Very good, and very little punishment; no serious misconduct. Marks are given for good conduct, 13 of the best boys are called "Sergeants," and are paid 3*d.* a week each. Boys of good conduct have some small money payments for good work.

Educational state.—The order and attention were excellent during the examination. There were 38 boys (and 2 sick) in Standard Five: good and intelligent reading; good writing; 3 boys failed in dictation and 6 in arithmetic; the three senior classes were learning the geography of North America, and recitation. 29 in Standard Four: 4 failed in arithmetic; reading (with 1 exception) good; writing generally good; dictation good. 24 in Standard Three: good and neat work; 1 failure in dictation. 20 in Standard Two: only 1 failure in the class in dictation. 24 in Standard One: coming on well. 11 in a preparatory class. Singing is taught.

Industrial training.—In the tailor's shop were 20 boys, in the shoemaker's 20, and 24 in a sewing-room, making shirts and darning. 6 boys are regularly employed in the garden, more are turned in when wanted. 21 milch cows are kept, and a quantity of milk is sold. 12 boys have been sent to Canada during the past year, and are doing well. There is a good band.

Staff.—Superintendent and matron, Mr. and Mrs. Tyson; schoolmaster, Mr. Jewells; assistant, Mr. Wilson; tailor, shoemaker, gardener farm bailiff, two matrons in the junior house, a nurse, a drillmaster (daily), a cook and laundress.

Average number maintained, 170. Total cost for 1894, 3,011*l.* 5*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 14*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 12*s.* 1*d.*

Industrial profits, 105*l.* 5*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 69 discharged in 1891–93, there are doing well 62, doubtful 1, unknown 6.

St. George's Home for Working Boys, 81, Blackfriars Road, S.E.
Auxiliary Home to St. Vincent's Industrial School, Dartford, Kent.

Inspected November 12th, 1894.

Number of inmates on day of inspection, 75; of these 27 were industrial school cases, the remainder, from boys' orphanages and four voluntary cases.

House, No. 81, Blackfriars Road, is certified for the reception of 45 boys. Boys received from Industrial Schools occupy the house exclusively; the remainder are lodged at No. 83. At the back of the houses are some good workshops for printing, bookbinding, and carpenter's work.

I found the establishment in good working order, and much being done for the benefit of the boys, in getting them off to places of employment and in providing a refuge for them till they are able to maintain themselves.

The Industrial School boys are employed in various places of occupation in the neighbourhood and come home for their meals.

A good reading-room had been provided for the use of the more intelligent of the inmates, with books and magazines. There is a good gymnasium and a play-room, with baths and lavatory.

The home appeared to be working advantageously. It is under proper supervision.

Manager, Rev. Edward St. John, St. George's Clergy House, Southwark, S.E.; superintendent, Mr. T. B. Yates; assistant ditto, Mr. Wm. Hasberry; cook and laundress.

Lancaster.

Bolton Industrial School for Boys, Lostock Junction, Bolton-le-Moors.

Inspected May 18, 1894.

Number of inmates on day of inspection, boys, 204, of these 200 under legal detention, 4 on the voluntary list; on license, 30.

State of premises.—I found every department of this large and important establishment in admirable order and under watchful super-

vision. The boys are well provided for in all respects. The play-yard is now dry and comfortable, and a good play-shed in wet weather. The dormitories are airy and wholesome. The recent additions, providing excellent shops for tailor and shoemaker, and a most efficient building for technical instruction, 58 ft. by 16 ft. by 9 ft., materially add to general efficiency and power. There are 32 benches for instruction in tools and woodwork. The situation is a healthy one.

Health and general condition.—Very fair. Medical report favourable. One case of tuberculosis, one accident from fall, one herpes, one death from pericarditis; three or four cases of influenza in November; one case of pneumonia, one bronchitis, one marasmus, one febricula, one psoriasis, one compound fracture, one pneumonia in the early year, one rheumatism, one burn, one pneumonia, and a few eye complaints. Boys healthy on the day of inspection, with improved appearance. More life, energy, and brightness.

Conduct and discipline.—Generally fair. A large majority doing well. A few serious cases of theft; one of stealing 20*s.*; a few cases of striking others recklessly; one case of stabbing another. One or two cases of absconding or attempting to abscond. Two leaving work at the mill. Some neglect of duty. One delivering wood short; one obtaining money under false pretences; one stealing money from pocket; one theft from another boy; one breaking into tailor's shop and stealing suit of clothes. A few boys of indifferent character. General appearance improved. School going on steadily.

Educational state.—39 in Standard Five: reading very much improved; spelling good; 1 failure in dictation, 2 in arithmetic; recitation fair; arithmetic well done and well put down. 53 in Standard Four: a large class and very good results: four or five weak in dictation and arithmetic; recitation fair. Fair knowledge in Classes V. and IV. of geography of England and Wales. 46 in Standard Three: 34 presented; dictation very indifferent, 20 failures; 10 failures in arithmetic; some recitation and elementary geography. 41 in Standard Two: work with care and smartness; spelling poor; 6 weak in dictation; 9 failed in arithmetic. 27 in Standard One: a good many failures; class might be doing more. 8 in preparatory class: seniors doing well, juniors requiring more attention. Order good.

Industrial training.—The industrial occupation receives careful attention, and has been successfully developing the last few years. I found 22 working with the shoemaker; a good shop and creditable work. 22 with the tailor; good work and under a competent man; some outside work taken in, and a pretty good class of work. A capital technical shop doing well under an experienced workmaster. 80 boys receiving manual instruction in woodwork. Linear drawing taken in the schoolroom as a class subject. 40 boys work at a neighbouring mill as half-timers. 12 work on the farm of 36 acres. There is a quantity of stock requiring attention, and a large cow-house, cows, pigs, horses, and a quantity of poultry. Boys help in the kitchen, laundry, and house. Some wood-chopping in the winter.

Staff.—Superintendent and matron, Mr. and Mrs. Richard Gorst; schoolmaster, Mr. Simmons; assistant ditto, Mr. Birkenhead and Mr. Bishop; yardmaster and technical instructor, Mr. Wren; assistant matron, Miss A. Barclay; nurse and general assistant, cook, and one domestic; gardener, farming man, joiner, tailor, shoemaker, and farm labourer.

Average number maintained, 206. Total cost for 1894, 4,183*l.* 11*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 6*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 7*s.* 9*d.*

Industrial profits, 735*l.* 12*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 125 discharged in 1891–93, there are doing well 112, dead 5, doubtful 2, convicted of crime or recommitted 4, unknown 2.

Manchester Industrial School for Boys, Ardwick Green, Manchester.

Inspected May 6 and 7, 1894. Visited December 3, 1894.

Number of inmates on day of inspection, boys, 200, and 32 on license.

State of premises.—The buildings are now very suitable and convenient. They supply very good accommodation for the boys. Very good day and play room for the boys. Some very good shops. I found every department in excellent order, very clean, comfortable, and well arranged. The dormitories clean and wholesome. Good kitchen and bakery.

Health and general condition.—The health had been well maintained, being under specially careful medical attention and constant vigilance to take cases in hand without delay. One diphtheritic sore throat in June; one ulcerated sore throat; one eye disease. In October a few pulmonary complaints and sore throats; in November 1893 a good many cases of influenza, with good recovery, and no consequent illness. In January some sore throats and suppurating glands. In February a case of typhoid fever, one tonsillitis. The drains were thoroughly cleansed and sanitary matters put into renewed order. General appearance very fair. The boys looked healthy, but many are not strong constitutionally.

Conduct and discipline.—The conduct had been good. The new superintendent, Mr. Ross, took office in March 1894. There had been very few cases of serious importance; a few cases throughout the year of bad language, lying, theft, and idleness; one serious case of theft of money. Some cases of impudence and rudeness; one or two cases of absconding. The school had been going on quietly. Nothing to cause a great disturbance of the usual routine. I find the lads in good order, well-affected, and in good spirits.

Educational state.—School well attended to and very fair work. 28 in Standard Six: an intelligent class and very creditable work, under a good and painstaking teacher; 4 not very strong in arithmetic. 40 in Standard Five: reading and spelling very fair; dictation well done; arithmetic 10 failures; recitation fair. 33 in Standard Four: an improving class; a few failures in dictation and arithmetic. 27 in Standard Three: 5 weak in dictation, 4 in arithmetic; recitation good. 40 in Standard Two: 9 weak in arithmetic, 6 in dictation; some time lost in the year. 14 in Standard One: fair work. 7 in preparatory class: getting on in elementary work. Boys quiet and orderly.

Industrial training.—The industrial training receives careful attention. I found 18 with the shoemaker; 19 with the tailor; 14 joiners; 14 in the printing shop; 30 in the junior class, darning and knitting; 17 with the baker and in the kitchen; 4 engine-boys; 32 in the band; 7 sundry employments; 4 in the lavatory; 3 office boys. I found very good work going on in the printing shop, which has plenty of orders and full work. Drawing is taught as a class subject. There is manual instruction in the use of tools and woodwork.

Staff.—Superintendent and matron, Mr. and Mrs. A. Ross, schoolmasters, Messrs. Allison, Howell, and Stokes; clerk, tailor, shoemaker, two printers, joiner, baker, and cook; engineer, assistant matron, sewing-mistress, cook, and house domestic; band and drill master, night watchman, and gymnastic instructor occasionally.

Average number maintained, 200. Total cost for 1894, 4,341*l.* 2*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 14*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 19*s.* 11*d.*

Industrial profits, 195*l.* 3*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 90 discharged in 1891–93, there are doing well 75, dead 4, doubtful 1, unknown 10.

Manchester Industrial School for Girls, Sale, near Manchester.

Inspected May 7, 1894.

Number of inmates on day of inspection, girls, 102, of these 100 under legal detention, 2 on the voluntary list; on license 3.

State of premises.—The house is a very suitable one for the work carried on. The arrangements have been well considered. The children are well provided for. There is a good playground and a large playroom, affording the greatest comfort to the girls. There is an extensive laundry and a large well-cultivated garden. I found perfect order in every branch.

Health and general condition.—The health of the children had been remarkably good. Very few serious cases; one ulcer of the leg; one tuberculosis; one fatal case of bronchial pneumonia; 1 strumous gland. The girls looked very clean and healthy.

Conduct and discipline.—On the whole the conduct of the girls since the last inspection had given rise to little anxiety. The school had been going on very steadily and quietly. One case of repeated misconduct, a few cases of disobedience and neglect of duty; two girls guilty of improper conversation; one case of pilfering; one of systematic dishonesty. General report favourable. I found the girls in good order, very willing and tractable.

Educational state.—The girls passed a successful examination. 19 in Standard Five: an intelligent class; very well taught; excellent recitation; good reading; arithmetic very well done. 16 in Standard Four: good work in all subjects; two or three failures in one subject only; very neat work. 16 in Standard Three: a promising class; no failures; good results throughout; recitations good; elementary geography.

36 in Standard Two: class properly taught and making very good progress; recitation and geography very fair. 10 in Standard One: all progressing favourably. Order in school excellent.

Industrial training.—The practical training of the girls is not neglected. There is an efficient laundry, with the opportunity of learning the better class of work. The girls assist in the kitchen, and do all the housework. All learn plain sewing and knitting. There was a creditable display of the girls' own work. They make their own clothing and outfits. Systematic lessons in plain cooking are much needed.

Staff.—Superintendent, Mrs. Lyons; schoolmistress, Miss Hathaway; assistant ditto, Miss Holden; house matron, sewing-mistress, cook, laundress, and 2 assistants; gardener, and mechanic for boiler and engine.

Average number maintained, 102. Total cost for 1894, 1,866*l.* 16*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 6*s.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 3*s.* 8*d.*

Industrial profits, 486*l.* 6*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 64 discharged in 1891–93, there are doing well 53, dead 1, doubtful 6, convicted of crime or recommitted 2, unknown 2.

Barnes' Home Industrial School for Boys, Heaton Mersey, near Manchester.

Inspected May 9, 1894.

Number of inmates on day of inspection, boys, 279; of these 1 was in hospital; 24 work as full-timers.

State of premises.—I found this large and important school maintaining its ground in every point of view. No school supplies more compact provision for the comfort and training of its inmates than this. The organisation is excellent. I inspected every part of the building and premises, paid a visit to the farm, and inspected the dormitories. I had full reason to be well satisfied with the arrangement and good order, and with the efforts made for the well-being of the children in charge.

Health and general condition.—The health had been excellent. One death, however, from phthisis; one pleuritic effusion; one enlarged glands; one tonsillitis; one sore throat; one chorea; a few cases of eye disease; one diseased bone of foot. A very great immunity from serious or infectious illness. The boys enjoy many advantages, and have careful medical attention and proper consideration. They are well fed and clothed, and live in a healthy locality.

Conduct and discipline.—General report as to conduct very satisfactory. A very moderate record of offence and punishment. Three absent without leave. A few cases of petty theft and idleness, use of tobacco; three cases of absconding; a few cases of persistent dis-

obedience. Boys in good order and carefully trained. Discipline carefully maintained. The large majority doing well; general aspect most encouraging. The work of the school is carried on with much success.

Educational state.—This is carefully attended to under a staff of competent teachers. 18 in Standard Six: an intelligent class; English composition very fair; good results, but 5 rather backward in arithmetic. 49 in Standard Five: reading improved, spelling very good; good writing and dictation; much weakness in arithmetic; a good many failures. 51 in Standard Four: reading and geography very fair; 5 failures in arithmetic and 4 in dictation. 52 in Standard Three: this class made good results, very carefully taught, one or two exceptions only; recitation good; geography of England and Wales good. 41 in Standard Two: very fair work; six or seven cases rather backward. 26 in Standard One: class improving; good mental arithmetic. 17 in preparatory class: requiring more careful attention. General order excellent.

Industrial training.—The industrial training receives its full share of attention. There are excellent shops, and a good staff of industrial teachers. 50 work with the tailor, 50 with the shoemaker, both good shops and doing good work. A class of 48 boys received manual instruction in carpentry and applied drawing under the Science and Art Department. 50 boys attend a class for instruction in agriculture. 10 work as carpenters. A good smith's shop. 12 work with baker and cook. 14 work as gardeners. The farm of 84 acres is improving under cultivation. 14 milch cows are kept, and a quantity of pigs and poultry. A class of 20 boys work on the farm. There is also a large garden and some greenhouses to attend to. The industrial occupation is useful and varied. There is an efficient band. The boys sing well.

Staff.—Superintendent and matron, Mr. and Mrs. Donald Ross; chief assistant, Mr. Powell; assistant teachers, Messrs. J. K. Thompson, M. Gleave, M. Bradshaw, and T. Smith; assistant matron, officers' cook, laundress, housemaid, cook, lodge-keeper, bandmaster, tailor, shoemaker, mechanic, baker, carter, labourer, watchman, farm bailiff, two ploughmen, cowman, and two dairy-women.

Average number maintained, 280. Total cost for 1894, 6,016*l.* 8*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 9*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 2*s.* 9*d.*

Industrial profits, 385*l.* 19*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 174 discharged in 1891–93, there are doing well 145, dead 4, doubtful 8, convicted of crime or recommitted 7, unknown 10.

St. Joseph's Industrial School for Roman Catholic Boys, Richmond Grove, Longsight, Manchester.

Inspected May 10, 1894. Visited December 3, 1894.

Number of inmates on day of inspection, boys, 400; of these 250 in the senior department, 100 in the junior department, and 50 in the

Detailed Reports.

Industrial Schools.

Working Boys' Home. On license 38. A new boys' home for old scholars has been added to the resources of the school.

State of premises.—This is an extensive establishment, consisting of two main divisions of seniors and juniors. The buildings supply good accommodation, although not of the first class. There is abundance of room, and every necessity of the case is amply and properly provided for. There is a good detached infirmary and a good laundry. The dormitories are lofty and well-ventilated, protected by escapes in case of fire. The lavatory is good, and there is a large plunge-bath. A very commodious set of workshops. The juniors have separate accommodation and are well provided for in their own quarters.

Health and general condition.—Health very fair. Good and quiet provision in case of sickness. The children are delicate on admission and require great care. Two in infirmary on date of visit; one case of phthisis; one of rheumatism; one death from phthisis; a few cases of pneumonia; one congestion of lungs in October; a few colds, chilblains, &c. in the winter; one acute rheumatism; one pneumonia; one febricula; one synovitis. Boys looked bright, cheerful, and well cared for.

Conduct and discipline.—About the ordinary number of petty cases of misconduct, petty theft, wilful damage, deceit, idleness, and disorder. A good many cases of absconding and attempt to abscond. Two or three cases of gambling and fighting. Three sent to Reformatory for repeated absconding and disorder. I found the school in fair order. A good many changes in the staff since last inspection and some uneasiness and restlessness in consequence.

Educational state.—Seniors—38 in Standard Five: an intelligent class, doing well; a few weak in arithmetic. 73 in Standard Four: a well-taught class; geography of England and Wales, and a fair knowledge of grammar; class did well. 62 in Standard Three: with a few exceptions the boys did well; a good class generally; a few exceptions in dictation and arithmetic; recitation and geography very fair. 30 in Standard Two: a good class and well taught; a few weak in arithmetic. Order excellent. Juniors—25 in Standard Three: doing well. 27 in Standard Two: making fair progress. 33 in Standard One: improved teaching and better class. 15 in preparatory class, very young and just in the elements. School promising well, doing good work. Children quiet and willing.

Industrial training.—The industrial training is resolutely carried on, and makes satisfactory advance year by year. I found 28 in the wood-carving shop, very good work and much improvement; 7 in the turning shop; 46 in the shoemaking branch; 28 with the tailor; 5 work with the baker, 3 with joiner, 14 with cabinet-maker; 16 in the mechanics' shop; 4 working in the garden; 2 as plumbers; 2 painters; 6 wire mattress making; 7 cooks; 4 with knitting machines; 3 in the farm work. Much practical training is carried on. Drawing is taught as a class subject. There is a very efficient brass band. The juniors have a drum and fife band. The Working Boys' Home was being carried on successfully, and is of much advantage in introducing boys into outside life, keeping them under protection until able to manage for themselves.

Staff.—Brother Director and assistant Brothers of the Christian schools; chaplain, Rev. P. Daly; clerk, bandmaster, drill instructor,

wire-worker, mechanic, wood-carver, joiner and cabinet-maker, tailor, shoemaker, trained nurse, 2 cooks, and 1 general servant.

Average number maintained, 404. Total cost for 1894, 6,987*l.* 8*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 5*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 0*s.* 4*d.*

Industrial profits, 686*l.* 6*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 291 discharged in 1891–93, there are doing well 265, dead 4, doubtful 3, convicted of crime or recommitted 9, unknown 10.

St. Joseph's Industrial School for Roman Catholic Girls, Victoria Road, Victoria Park, Manchester.

Inspected May 12, 1894. Visited Dec. 3, 1894.

Number of inmates on day of inspection, girls, 150; on license 28.

State of premises.—The buildings provide excellent accommodation for the girls. The apartments are commodious and well-ventilated. The dormitories, protected by fire-escapes, are lofty and wholesome. There is a good workroom and excellent classrooms. A well-appointed laundry is well supplied with abundance of good work. A very suitable Girls' Home is attached to the premises, providing for some of the elder girls and girls returning from service. I found 22 girls in this home. It had proved an unqualified success.

Health and general condition.—Health of the girls had been good, with a few serious cases. The girls generally looked very well and were evidently happy and well-content. Some of the children very delicate on admission. One girl died in September 1893 from phthisis; one hip-joint disease to hospital; one case of influenza; one of quinsy; one bronchitis in the early part of 1894; one erysipelas; one slight ditto; one rheumatism; one case of pneumonia, going on well. General appearance satisfactory.

Conduct and discipline.—The girls are managed with tact and kindness. There were only a few cases in which there was reason for complaint. One or two cases of disobedience; one continually talking; one rudeness and stubborn temper; one insubordination; one rudeness and continual talking. A few cases of bad temper and rudeness. General order good.

Educational state.—Improved. 20 in Standard Five: good reading and spelling; an intelligent class; English composition very fair; writing good; arithmetic, 19 passes, 1 failure. 31 in Standard Four: a very good class, with two or three exceptions; 4 weak in arithmetic, otherwise the girls did well; recitations very good. 31 in Standard Three: class made a good appearance; arithmetic very good. 31 in Standard Two: reading and spelling good; a few weak in dictation and arithmetic. 22 in Standard One: recitation good; class getting on fairly. 15 in preparatory class: all coming under careful instruction. Order in school very good.

Industrial training.—The workroom appeared to advantage. Very careful teaching in plain needlework and knitting. Some very creditable work, and some good workers. The girls are all carefully trained in the use of the needle, and it is a very important branch of instruction for girls. The laundry is extensive. There is thorough training in that branch also. The girls assist in the kitchen and do all the housework. I am most anxious to see a small class of the elder girls getting some systematic lessons in plain cookery every week.

General remarks.—I found 22 girls in the Auxiliary Girls' Home, a separate establishment on the premises. Two Sisters were in charge. Some of the girls work in the city, some in the house. There is room for 25 girls. The home is roomy and well-built.

Staff.—Sister Superior, Mary Gunning, with eight Sisters of Mercy of St. Vincent de Paul; lay assistance in the workrooms, kitchen, and laundry.

Average number maintained, 149. Total cost for 1894, 2,766*l.* 13*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 11*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 14*s.* 2*d.*

Industrial profits, 488*l.* 16*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 81 discharged in 1891–93, there are doing well 71, dead 2 doubtful 3, unknown 5.

Liverpool Industrial School for Boys, 33, Everton Terrace, Liverpool.

Inspected April 30, 1894. Visited Nov. 30, 1894.

Number of inmates on day of inspection, boys, 204. 75 on license. 78 admitted since the last inspection; during the last two years 152 boys have been placed out.

State of premises.—House and premises as usual in a condition of perfect order and cleanliness. Very careful supervision in every detail. The dormitories scrupulously clean and well attended to. Very good workshops. Sanitary condition well attended to. Plenty of room for exercise and recreation.

Health and general condition.—Very good. An absence of very serious cases. Dietary list improved. A few cases of skin disease and conjunctivitis, one febricula, one hernia, one eczema capitis, a few sore eyes. Sanitary condition till end of 1893, good. 1894 one case of bronchitis, one porrigo, one case of otitis, two febricula, one case of measles, one pneumonia to hospital. General health good. Boys looked cheerful and well attended to.

Conduct and discipline.—The report as to conduct was on the whole good. A few exceptional cases, including some very troublesome boys. A few cases of absconding, chiefly among street boys, fond of irregular life. Some cases of petty theft, idleness, neglect of work, bullying, obscene language; one stealing from shop. Chiefly petty offences, no very serious crimes. Discipline and good order well maintained. Boys willing and anxious to please.

Educational state.—This is carefully attended to. 34 in Standard Five: reading and spelling good; dictation, 6 weak in spelling; writing excellent; arithmetic good, 4 not quite satisfactory. 28 in Standard Four: reading much improved; very good dictation; 6 failures in arithmetic, but well put down. 34 in Standard Three: a very good class; all work well and carefully done; mental arithmetic very fair. 42 in Standard Two: class getting on well; a willing set of boys, with very good results and good teaching. 41 in Standard One: a carefully taught class. Boys coming on well. Excellent order throughout.

Industrial training.—This is carried on vigorously. I found 62 in the paper-bag and printing department. 20 working with the joiner, and I was glad to hear that no less than 98 boys were receiving technical instruction in the use of tools and woodwork; drawing being taken in the schoolroom. 32 work with the tailor, 20 with the shoemaker, 42 in the laundry, house, kitchen, &c., and in the general work of the household. 18 juniors in school all day. A grant in aid was received for drawing and manual instruction.

Staff.—Superintendent and matron, Mr. and Mrs. W. E. Barclay; assistant snperintendent, Mr. A. R. Barclay; schoolmasters, Messrs. E. H. Gill, W. Copley, and Pennington; two printers, two joiners, tailor, shoemaker, laundress, cook, sick nurse, house-servant, charwoman occasional.

Average number maintained, 200. Total cost for 1894, 3,750*l.* 2*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 15*s.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 19*s.*

Industrial profits, 137*l.* 3*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 143 discharged in 1891–93, there are doing well 125, dead 2, doubtful 3, convicted of crime or recommitted 9, unknown 4.

Liverpool Industrial School for Girls, 39, Northumberland Terrace, Everton, Liverpool.

Inspected March 17, 1894. Visited Nov. 30, 1894.

Number of inmates on day of inspection, girls, 100 under detention and a few voluntary cases. On license 3.

State of premises.—I found the whole establishment in excellent order. The arrangements are suitable, and the whole house is kept in a condition of efficiency. A healthy site, plenty of room for exercise. A good laundry also, latterly much improved.

Health and general condition.—The girls looked healthy and strong. Medical report fair. Three cases of scarlatina in May 1893. Two cases of erysipelas. In October also one case of scarlatina, one bronchitis, one death from convulsion and coma, one case of debility, one case of epilepsy, one fatal case of meningitis, died in infirmary. General appearance very satisfactory.

Conduct and discipline.—Report as to conduct satisfactory. Most of the girls had behaved well, a few troublesome girls. Some cases of

quarrelling, bad temper, rudeness, and idleness. Some disobedience, one gross impertinence, one wilful defiance and disobedience. Some cases of repeated disobedience, one petty theft. There is a good conduct list and a system of marks, 7 were classed in the first grade, 22 in the second grade, 44 in the third grade, 25 in the fourth grade, the rest not yet classed. Girls very quiet and behave well.

Educational state.—This receives adequate care and attention. 14 in Standard Five: very fair results; 3 weak in dictation; 3 weak in arithmetic. 17 in Standard Four: reading and spelling very fair; some weakness in spelling; arithmetic rather poor, 7 failures; not a very brilliant class. 20 in Standard Three: a much better class; work more carefully done and more intelligence. 24 in Standard Two: very fair reading and spelling; dictation well done, 2 failures; arithmetic weak, 8 failures. 15 in Standard One: not a very strong class; arithmetic very weak. 10 in preparatory class: just beginning to read and write. Order very good. The girls were in very good spirits.

Industrial training.—The girls are practically trained for domestic usefulness. There is a large workroom well supplied with work. A very good display of needlework and knitting. The girls assist in the kitchen and scullery. A class of the elder girls continue to receive lessons in plain cookery. There is a good laundry also, much improved recently.

General remarks.—The report of the Diocesan Inspector as to religious knowledge was very creditable. Good teaching and fair attainments.

Staff.—Superintendent, Miss L. Skinner; assistant do., Miss Colquhoun; schoolmistress, Miss Hamilton; assistant do., Miss Murray; sewing-mistress, Miss Buckland; cook and laundress.

Average number maintained, 104. Total cost for 1894, 1,614*l.* 8*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 10*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 0*s.* 11*d.*

Industrial profits, 226*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 64 discharged in 1891–93, there are doing well 55, dead 1, doubtful 4, unknown 4.

St. Mary's, Kirkdale, Industrial School for Girls, 35, Walton Road, Liverpool.

Inspected November 30, 1894.

Number of inmates on day of inspection, girls, 96; 95 in home, 1 in hospital; of these 70 are committed cases, 25 on the voluntary list.

State of premises.—House and premises in very good order Thoroughly clean and comfortable. Dormitories clean and wholesome. Separate schoolroom and good playground. Small sickroom.

Health and general condition.—Owing to an outbreak of scarlet fever in the school which prevailed from February to June 1894, I was prevented from paying my usual visit to the school in May. At my

visit in November I found the school quite recovered and all going on as usual. The first case of fever was on February 19, and it prevailed till June. There were 38 cases, but of a mild type. One death in hospital. One case of pneumonia, one of sciatica, one of hysteria, one psoriasis, one erysipelas. The girls looked bright and well on the day of inspection, and were in excellent spirits.

Conduct and discipline.—There was a change of superintendence in the year, Miss Osborne succeeding Miss Thomas. I found all working satisfactorily. A few cases of disobedience and misconduct. One case of attempting to set fire to girls' clothing. A few troublesome cases, one very disobedient and defiant, one case of absconding. I found the children going on steadily, and all promising well. Girls very quiet and orderly.

Educational state.—School work had been much interrupted by the outbreak of fever, but I found the classes had recovered lost ground, and the results were satisfactory. 13 in Standard Five: class did well with one or two exceptions; recitation good. 14 in Standard Four: very good work; 1 failure only in arithmetic; recitation good. 16 in Standard Three: class made a good appearance, all doing well. Juniors—23 in Standard Two: an intelligent class, very creditable work. 14 in Standard One: all getting on well and carefully taught. 8 in preparatory class, very young, all beginning to read. Order in school excellent.

Industrial training.—Good samples of knitting and needlework were exhibited. The girls assist in the kitchen, washing, and household work. An elder class of girls continues to receive good practical lessons in plain cooking.

Staff.—Superintendent, Miss Osborne, succeeded Miss Thomas in July 1894; assistant matron, Miss McKay; chief teacher, Miss M. J. McLellan; assistant ditto, Miss E. Roberts; sewing-mistress, Miss Griffiths.

Average number maintained, 100. Total cost for 1894, 1,037*l.* 2*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 7*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 13*s.* 4*d.*

Industrial profits, 63*l.* 9*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 37 discharged in 1891–93, there are doing well 33, dead 1, convicted of crime or recommitted 1, unknown 2.

Holy Trinity Industrial School for Boys, 77, Grafton Street, Toxteth Park, Liverpool.

Inspected May 3, 1894. Visited December 1, 1894.

Number of inmates on day of inspection, boys, 199; of these 196 committed cases, 3 on the voluntary list. 17 on license.

State of premises.—I found house and premises in good order, clean, and well arranged. I went through the dormitories and found them

clean and wholesome. Lavatory very good, and a capital swimming bath. The new playground is found to be a great advantage, and most conducive to general health. The boys derive the utmost pleasure from its use.

Health and general condition.—An improved condition of health as compared with 1893. A few acute cases of pneumonia and phthisis, a few cases of eczema and sore eyes. One broncho-pneumonia, one of pleurisy, and a few scrofulous glands, one death from phthisis, one case of bronchitis, one psoriasis, one quinsy, two cases of ringworm, one feverish attack, one acute bronchitis. Boys in good health on day of inspection. General appearance favourable.

Conduct and discipline.—The report as to general conduct was satisfactory, I found the boys in very good order and under efficient discipline. The usual amount of petty offences and punishment. Some of the ordinary cases of idleness, disorder, disobedience, lying, and petty thieving, one case of insubordination, one smoking in dormitory. Some cases of rudeness and bad language. With these exceptional cases the boys had been going on well. There had been no serious disturbance. I found the boys quiet and well disposed.

Educational state.—The classes passed a good examination. 9 in Standard Six: an intelligent class, work well done; no failures; good grammar and geography. 22 in Standard Five: a very good class; well and carefully taught; elementary grammar and geography, and good mental arithmetic; 3 weak in arithmetic. 40 in Standard Four: good and accurate work; much painstaking; good recitation, 46 in Standard Three: a few weak in dictation; very fair work throughout the class; 2 only failed in arithmetic. 40 in Standard Two: careful teaching; good results; 3 extra subjects; a good class; very few failures. 35 in Standard One: reading a little indistinct; boys not very bright, but the results were substantially good. Order generally excellent.

Industrial training.—The industrial occupation receives careful attention. I found 24 boys working with the tailor and 24 with the shoemaker. There is a good printing shop with plenty of work going on, and employing about 24 boys. A class of 12 juniors work with the seamstress, darn socks, make and mend shirts, repair clothing. A large class of juniors are engaged in wood-chopping. The new joiners' shop was working advantageously, employing 7 boys. There is an efficient band. The boys make their own bread.

Staff.—Superintendent, Mr. George H. Postance; clerk and assistant superintendent, Mr. Isaac Chappell: matron, Miss L. Kirkpatrick; schoolmaster, Mr. N. Brockless; assistant ditto, Mr. F. Andrews, and Mrs. E. J. Boyd; cook and baker, porter and yardman, laundress, two domestics, bandmaster, technical instructor, sewing-mistress, tailor, shoemaker, printer, sawyer, engineer, and van-man.

Average number maintained, 202. Total cost for 1894, 3,769*l.* 16*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 13*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 8*s.* 11*d.*

Industrial profits, 314*l.* 16*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 118 discharged in 1891–93, there are doing well 90, dead 4, doubtful 3, convicted of crime or recommitted 4, unknown 17.

Holy Trinity Industrial School for Girls, 13 and 14, Nile Street, Liverpool.

Inspected April 26, 1894. Visited December 1, 1894.

Number of inmates on day of inspection girls, 80, and 6 on license.

State of premises.—The house and premises supply very good accommodation. No wants left unsupplied. I found all in excellent order. Dormitories clean and well ventilated. Good bath and infirmary. Arrangements generally suitable and convenient.

Health and general condition.—Children were in good health, and seemed well cared for. The young ones especially seemed thriving and happy. One case of strumous glandular swelling, two cases of measles in the winter, a few eruptive cases, one chronic bronchitis, one conjunctivitis, two tonsillitis, two cases of eczema, one synovitis, one otorrhœa, one burn, one eczema capitis. General appearance satisfactory.

Conduct and discipline.—Very fair. A few cases of wilful disobedience and insubordination on the part of two or three obstinate and wilful girls. One continual disobedience, one insubordination in school, one refusal to work, one insolence, one disobedience in school, one idleness and rudeness, one petty theft; one disobedient, insubordinate, and striking an officer, sent to reformatory school. With these exceptional cases, very good order. Children doing well and making good progress.

Educational state.—29 in Standard Five in 2 divisions: very good work, no failures; children properly taught and progressing favourably; an intelligent class; good recitations: a change of teachers in the year, 14 in Standard Four: reading and spelling very fair; 1 failure in dictation; writing good; arithmetic weak, 6 failures. 15 in Standard Three: good reading; some weakness in spelling; 4 failures in dictation; writing good; 3 failed in arithmetic, otherwise well done; recitation fairly good. 6 in Standard Two: pretty fair, except in arithmetic, which was very backward. 10 in Standard One: doing very fairly, 3 exceptions. 6 in preparatory stage: new girls. Order excellent.

Industrial training.—The elder girls help in the kitchen, scullery, and laundry—a poor class of work in the laundry, but some improvement, and a little better work taken in. I found improvement in the work room. All learn to knit and to sew. Systematic lessons in cookery are necessary.

Staff.—Superintendent, Miss M. Bush; schoolmistress, Miss E. Davies; sewing-mistress, Miss Moss; cook and laundress.

Average number maintained, 80. Total cost for 1894, 1,318*l.* 2*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 9*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 8*s.* 5*d.*

Industrial profits, 168*l.* 4*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 32 discharged in 1891–93, there are doing well 24, dead 1, unknown 7.

St. George's Industrial School for Roman Catholic Boys, West Derby Road, Liverpool.

Inspected April 23, 1894. Visited November 28, 1894.

Number of inmates on day of inspection, boys, 273; on license 23.

State of premises.—The whole establishment was in excellent order, well organized and under vigilant supervision. The buildings supply superior accommodation in every detail. No expense has been spared to make the school practically efficient in all respects. The dormitories are very airy and wholesome. They are now warmed artificially. This was done at the urgent request of the Inspector, and it has been thoroughly well done, and with good effects on the general health. The temperature is never raised too high, not much above 50° at any time. The lavatory and plunge bath are very good. There is a good infirmary in case of need.

Health and general condition.—Health improved. Two deaths, one from peritonitis, one from inflammation of the lungs. General health very fair, but the boys are very delicate on admission, and at first require the greatest care. A few cases of strumous abscess, one bronchitis, one peritonitis, a few sore throats, one chronic abscess, one inflammation of lungs, one mumps, one bronchitis in November, a few cases of cold and sore throats in the cold weather, one erysipelas, a few cases of influenza in the early year, two bronchitis, one jaundice. Boys improved in appearance, and they receive careful attention when poorly.

Conduct and discipline.—The record of punishment was not a formidable one. A few cases of disorder, smoking, disobedience, petty theft, bad language, impertinence, rudeness, lying occasionally, gross misconduct in dormitory, fighting and bullying now and then, three or four cases of absconding, some idleness at times. School had been going on pretty steadily, no unusual disturbance. Boys in good order and under sound discipline.

Educational state.—I tested the school classes for the day. 15 in Standard Five: very good results, hardly a failure; very good recitation from the "Merchant of Venice." Geography of England and Wales. Good modulator practice in singing, and some good songs. 29 in Standard Four: very good examination, results satisfactory; good dictation; writing neat and good, but wanting in style; good recitation. 27 in Standard Three: reading and spelling very fair; good dictation; 1 failure in arithmetic; standard did well. 30 in Standard Two: a very good class, with a few exceptions in arithmetic; recitation very fair. 20 in Standard One: class doing very well; elementary geography. 9 in preparatory class: several very dull boys doing little or nothing, greater effort needed. Order in school excellent. Geometrical and linear drawing are taught as class subjects.

Industrial training.—This school maintains its good name for excellent industrial training. I found the shops well attended to, in skilful hands, and providing much valuable training for the boys under detention. 52 boys working with the tailor. A class of juniors making and mending socks. 34 in the shoemaking. The turners' shop was doing very useful work. 36 boys on the lathes, with plenty of work. There is also a good range of workshops for the joiners, 16 boys working at the bench in joinery and cabinet work. A very good display of tables, chairs, and other work. 3 work with the baker, making their own bread. There is a good band.

Staff.—Superintendent and matron, Mr. and Mrs. Thomas Brindle; chief schoolmaster, Mr. Lynas; assistant ditto, Mr. Vaughan; assistant superintendent, Mr. Norton; tailor, shoemaker, engineer, three joiners, two turners, cook and baker, laundress, domestic, night watchman; bandmaster occasional.

Average number maintained, 274. Total cost for 1894, 4,560*l.* 11*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 12*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 15*s.* 9*d.*

Industrial profits, 918*l.* 15*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 189 discharged in 1891–93, there are doing well 153, dead 12; doubtful 2, convicted of crime or recommitted 16, unknown 6.

Boys' Refuge Industrial School for Roman Catholic Boys, 62, St. Anne Street, Liverpool.

Inspected March 19, 1894. Visited November 28, 1894.

Number of inmates on day of inspection, boys, 150, and 30 at the Auxiliary Home at Old Swan.

State of premises.—I found the premises very much improved. The extensive alterations, providing a new dormitory, new dining-room, officers' room, new kitchen, and scullery, had been completed, and gave a new air of completeness and efficiency. Further improvements were in contemplation to improve the workshops. I found much activity in the whole establishment, and a much improved condition of affairs in all respects. House and premises and dormitories in good order, with much improvement.

Health and general condition.—Health very fair. General health and appearance much improved. Boys derive much benefit from a half holiday on Saturday afternoons in the Home at Oakhill, Old Swan, where there is plenty of room and fresh air. One death from acute bronchitis, one from pneumonia, very good health the most part of 1893. In October one case of febricula, one bronchitis, one fracture of fore-arm, two cases of pneumonia, two cases of bronchitis. Children very delicate on admission, requiring great care. Boys continuing to improve under care and good management.

Conduct and discipline.—I was glad to find an improved state of affairs, as regards conduct Far fewer offences and far less punishment. Discipline well maintained without extreme severity, which is always a sign of weakness and inefficiency. One disorder in dormitory, some dirty habits, a few cases of quarrelling and fighting, neglect of duty, staying out late beyond time, leaving church under false pretences and going home, wanton mischief, one impertinence and disrespect. Order very much improved. School promising well, and under kindly and careful superintendence.

Educational state.—School improving. 17 in Standard Five: very good work, but some weakness in arithmetic; handwriting excellent. 22 in Standard Four: very fair results, but a few weak in arithmetic; writing much improved; boys improving. 37 in Standard Three: class doing well with a few exceptions. 31 in Standard Two: generally good work; arithmetic might well be a little stronger; writing very good; good reading and spelling. 31 in Standard One: work generally well done; some weakness in arithmetic; all reading and spelling well. 5 in preparatory class, making a beginning. General order very good. Drawing is now taken as a class subject.

Industrial training.—This is vigorously carried on. I found 18 boys in the tailoring, 13 in the shoemgking, doing very fair work. The printing establishment has a good reputation; good practical work; it occupies 30 boys. 40 boys were engaged in the paper-bag making, and a class of boys in the wood-chopping. The carpenter's shop was employing a class of the elder boys. The wire-mattress department was doing well. There is a junior class for knitting socks and repairs. The industrial side of the school is of a practical kind, and is carried on with advantage.

General remarks.—The possession of the house and land at Old Swan has proved of great benefit, enabling the superintendent to give the boys change of air when required, and a game of cricket or football on holidays and Saturday afternoons. This plan has worked well in more respects than one.

Staff.—Superintendent and matron, Mr. and Mrs. H. Pridgeon; chief schoolmaster, Mr. J. O'Donnell; female teacher (certificated) for the juniors, Mrs. Culligan; clerk, Mr. Spradbury; tailor, shoemaker, joiner, yardmaster, printer and two assistants, cook and baker (including Oakhill Auxiliary Home), laundress, and one domestic. Band and drill master.

Average number maintained, 189. Total cost for 1894, 3,052*l.* 5*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 3*s.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 18*s.*

Industrial profits, 281*l.* 15*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 69 discharged in 1891–93, there are doing well 59, dead 4, doubtful 1, convicted of crime or recommitted 2, unknown 3.

Auxiliary Home in connection with St. Anne Street Refuge, Oakhill, Old Swan, Broad Green, Liverpool.

Inspected March 19, 1894. Visited December 1, 1894.

Number of inmates on day of inspection, boys, 30.

The house and premises at Oakhill were taken in hand as an Auxiliary Home to the Boys' Refuge, St. Anne Street, in the year 1893, and were certified for 30 boys, December 19, 1893.

They are found to be a very useful appendage to the parent Home.

The house is an old substantial family mansion, with very good gardens attached, and 19½ acres of land.

This enables the superintendent to use the Home as a change of air for ailing boys, and as a place of change and recreation for the whole establishment, at St. Anne Street, at convenient times.

The accommodation has been rendered very suitable for the 30 boys dealt with. There is ample room, and the general arrangements are home-like and suitable.

Superintendent and matron: Mr. and Mrs. Higham; Gardener and general assistant in the house.

The garden was being brought under careful cultivation and already supplies a quantity of vegetables for the house in Liverpool.

Average number maintained, &c., included in St. Anne Street.

Beacon Lane Industrial School for Roman Catholic Boys, Beacon Lane, Everton, Liverpool.

Inspected May 4, 1894. Visited Nov. 28, 1894.

Number of inmates on day of inspection, boys, 228; of these 200 were under legal detention, 28 on the voluntary list. 14 on license. Of those on licence, 9 in the Working Boys' Home, Shaw Street.

State of premises.—The whole establishment was in its usual condition of good order. Dormitories clean and well aired. Capital sick-room, and every appliance for carrying on such a work with efficiency. A very commodious range of workshops were nearly complete, providing excellent tailor's shop, band-room, and good technical shop for instruction in woodwork and joinery. A good bathroom is much needed.

Health and general condition.—Health of the boys well maintained. A good many of the juniors needing much care and attention. One case of scarlatina to hospital, 2 cases of bronchial catarrh, 8 cases of measles in the early part of the year, but happily of a light character, with good recovery. Minor ailments carefully attended to; general appearance satisfactory.

Conduct and discipline.—Boys' conduct on the whole very good. No serious offences, mostly boyish faults. A few cases of fighting, quarrelling, and disobedience, a few cases of impertinence and neglecting rules, and forgetfulness. General report favourable. The boys behave remarkably well, and are easily managed without resort to extreme punishment.

Educational state.—This is carefully attended to, the teaching is careful and individual. The boys make very good progress. 45 in Standard Five: very fair reading and spelling; 6 weak in dictation; writing very good; 5 failures in arithmetic, the rest excellent; work very carefully done. Good geography, England and Wales. 36 in Standard Four: a

superior class; work very well done; recitation very fair. Much accuracy. 35 in Standard Three: a satisfactory class; good recitations; elementary geography; work well done. 33 in Standard Two: very fair work; 7 somewhat weak in arithmetic; writing good on paper. 38 in Standard One, doing well, good progress. 13 in preparatory class: very young, mostly new-comers, all progressing. General order excellent.

Industrial training.—The industrial training receives due share and attention. 40 in tailors' shop, in two divisions. A junior class knit the hosiery and jerseys, a very good shop. 30 in shoemaker's shop, having full employment, and very good work. 16 in the joiner's shop; 2 lathes and engine; some useful development in this direction. About 100 of the juniors in the match-box manufactory. There is a properly trained band. The boys drill well.

General remarks.—The boys had the advantage of camping out for a fortnight in the summer of 1893. This was an agreeable break in the routine of school life that had a very good physical effect.

Staff.—Sister Superior, Sister Vincent Morrogh, and 11 sisters of the Order of St. Vincent de Paul; tailor, shoemaker, joiner and assistant do., engineer, bandmaster, and drillmaster occasional. The workmasters sleep on the premises at night.

Average number maintained, 226. Total cost for 1894, 3,198*l.* 7*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 3*s.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 14*s.* 11*d.*

Industrial profits, 24*l.* 7*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 113 discharged in 1891–93, there are doing well 104, dead 1, unknown 8.

St. Vincent de Paul's Home for Roman Catholic Working Boys, 105, Shaw Street, Liverpool.

Inspected May 30, 1894. Visited November 30 and December 2, 1894.

Number of inmates on day of inspection, boys, 61.

State of premises.—This is an Auxiliary Home in connection with the Roman Catholic Industrial Schools, St. George's, West Derby Road, Boy's Refuge, 62, St. Anne Street, and the Boy's Roman Catholic Orphanage, Beacon Lane, Liverpool. The premises, consisting of a large and commodious house, with garden at the back, is fitted up for the reception of 75 inmates. I found the scheme much developed and working successfully and systematically. There is good accommodation for the boys, the rooms are spacious and well ventilated. There is a good gymnasium, bathroom and lavatory. Of the 61 boys, 24 were from Beacon Lane Industrial School, and a few from the other schools above named. The lads taken in are occupied in the city during the day, and come home for their meals and sleep on the premises.

Due provision is made for the comfort of the boys. They seemed to be very properly provided for in all respects. Opportunities are given

for self-improvement and rational recreation. A code of regulations had been drawn up to which the lads generally give ready compliance. Much had been done in the way of extension and improvement, and infinite pains had been taken to secure proper occupation for the boys, and to keep them at their posts.

Staff.—Father Berry of the Catholic Institute, Hope Street, so well known in Liverpool, had been associated with the control and management of the home. Mr. Chilcot Thomas continues to devote much of his time and attention to the success of the undertaking. Superintendent and matron, Mr. and Mrs. Barry ; one assistant cook and one female help.

St. Anne's Industrial School for Roman Catholic Girls, Freshfield, near Formby, Lancashire.

Inspected April 21, 1894. Visited Nov. 29, 1894.

Number of inmates on day of inspection, girls, 173, of these 145 committed cases, 25 on the voluntary list, and 13 on license.

State of premises.—House and premises in excellent order. Dormitories very well ordered, wholesome and comfortable. The house large and commodious, and seems to work successfully. There is a large playground and abundance of rooms. A good sickroom in case of need. A large new playroom was in course of construction. Four good workrooms and a large and efficient laundry.

Health and general condition.—Health very fair. The elder girls looked strong and robust. But on admission many of the children are feeble and constitutionally delicate. Three deaths from phthisis ; one bronchitis ; one case of anæmia, one case of ophthalmia. Three girls in sickroom. No deaths in the year 1894.

Conduct and discipline.—The children had been well-behaved, and had given but little trouble. A few cases of disorder and disobedience and breach of rules. No very serious offences. Some exhibition of temper and obstinacy at times. I found the girls well-managed and generally improving. They were all quiet and orderly.

Educational state.—This is carefully attended to. 25 in Standard Five: good progress; all work done well; good recitation. 23 in Standard Four: excellent work; no failures; all doing well. 26 in Standard Three: some defects in this class in spelling, dictation, and arithmetic; 8 failures in arithmetic. 30 in Standard Two: a very fair class; generally doing well. 33 in Standard One ; all doing well ; an excellent class and all to pass to Standard Two. 28 in preparatory class: very young and recently admitted; all making way. Girls very quiet and attentive. The girls sing very nicely.

Industrial training.—The industrial training receives a large share of careful attention. The girls have great pains bestowed upon them to teach them every branch of plain needlework. There are four good workrooms for young and old. Many excellent samples of needlework and knitting. There is a large and useful laundry, very efficiently fitted up, and well occupied with a good class of work. The elder girls assist in the kitchen and housework, and keep the house in excellent order. Systematic lessons in plain cooking should be given to the elder girls. A small farm had been taken in the neighbourhood of the school. Three or four cows are kept, and a dairy had been set up.

Detailed Reports.

Industrial Schools.

Staff.—Sister Superior, Sister Winifred Dymock, and eight Sisters of Charity of the Order of St. Vincent de Paul; lay assistance in the work-rooms, laundry, and kitchen; one lay teacher in the school room; gardener.

Average number maintained, 171. Total cost for 1894, 2,491*l.* 1*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 11*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 15*s.* 2*d.*

Industrial profits, 214*l.* 17*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 101 discharged in 1891–93, there are doing well 89, dead 1, doubtful 2, unknown 9.

St. Elizabeth's Industrial School for Roman Catholic Girls, 64, Breckfield Road South, Liverpool.

Inspected April 23, 1894. Visited Nov. 28, 1894.

Number of inmates on day of inspection, girls, 98; of these 97 committed cases, 1 on the voluntary list.

State of premises.—I found house and premises in their usual condition of good order and suitable arrangement, Since the last inspection a very commodious new schoolroom has been erected, and an additional class-room. The old schoolroom is to be converted into a lavatory. Dormitories very clean and wholesome. A good garden, with plenty of space for exercise, and a large new play-shed for the use of the girls.

Health and general condition.—The health has been good. The girls had a very healthy appearance. One case of conjunctivitis; one hip-joint disease—discharged; one ulcer on eyelid; one disease of joint—recovered. Very small quantity of illness. The girls are carefully attended to.

Conduct and discipline.—Generally the girls had been going on favourably, but two or three of the inmates had been obstinate and troublesome. One or two cases of wanton mischief; one tearing up her clothing; one wilful disobedience; a few noisy and troublesome; one or two cases of impertinence. These were exceptional cases. The majority of the children were doing well, and were quiet and tractable; a few on the contrary disobedient and bold. The behaviour on the day of inspection was very creditable.

Educational state.—Improved. 16 in Standard Five: an excellent class; all work very well done. Recitation good; no failures. 17 in Standard Four: creditable work; 1 failed in dictation, 2 weak in arithmetic. 24 in Standard Three: very good class; a few elder girls a little backward, but very few failures. Arithmetic very well done. 21 in Standard Two: good reading and recitation; 5 weak in dictation, 6 weak in arithmetic. 9 in Standard One: class getting on; a few exceptions. 11 in preparatory class; new-comers. Very young, just in the elements. The girls sing nicely. Order very good.

Industrial training.—There is a good workroom where the girls make all their own dresses, clothing, and outfits. All learn plain sewing and knitting. Good specimens of needlework and knitting were exhibited.

The elder girls work in the laundry and kitchen, and they do all the housework. A class of the elder girls receive lessons in plain cookery.

Staff.—Sister Superior, M. Austin, and four Sisters of the Order of Mercy. Junior lay assistants in the schoolroom, workroom, and laundry. A certificated teacher in the schoolroom.

Average number maintained, 97. Total cost for 1894, 1,376*l.* 7*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 3*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 13*s.* 4*d.*

Industrial profits, 33*l.* 11*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 54 discharged in 1891–93, there are doing well 46, dead 1, doubtful 3, unknown 4.

Orphanage for Roman Catholic Girls, 65, Falkner Street, Liverpool.

Inspected April 25, 1894. Visited Dec. 1, 1894.

Number of inmates on day of inspection, girls, 109; of these 50 under legal detention, 59 on the voluntary list.

State of premises.—The premises were in very good order. House maintained in a bright and cheerful condition. Good large playground. Good sickrooms in case of need. The children are properly provided for.

Health and general condition.—One case of chronic phthisis; two cases of febricula; one case of bronchitis; one death from phthisis: one spinal caries. Children looking bright and healthy; a few rather weak on admission, but the elder girls looked very strong and healthy. Sanitary conditions carefully attended to.

Conduct and discipline.—There had been very little serious misconduct. A few cases of disobedience and obstinacy. A system of marks had been adopted with good effects, and the children had been graded according to the amount of marks gained for industry and good conduct. 16 were in the first grade, 30 in second grade, 63 in third grade.

Educational state.—This receives careful attention. 6 in advanced class; passed the Fifth Standard: very fair work. Good English composition, well expressed; a fair knowledge of grammar; good arithmetic. 14 in Standard Five: good reading and spelling; English composition very fair; writing good; arithmetic defective, several failures; good recitation. 13 in Standard Four: a very good class; work well done; 1 weak in dictation, 1 in arithmetic; recitation good. 21 in Standard Three: class doing well. Arithmetic very good, recitation good. 14 in Standard Two: satisfactory work; 5 not very strong in arithmetic, but all progressing. 11 in Standard One: class doing well; recitation good. 12 in preparatory class: very young; all doing well. Order excellent.

Industrial training.—The girls receive careful instruction in plain sewing and knitting. There is a good workroom; six of the elder girls

learn machine work. There was a good display of standard needlework. Lessons in plain cookery are still carried on. There is a useful laundry.

Staff.—Superioress and five Sisters of the Order of Nôtre-Dame; certificated teacher, Miss Heffernan, and pupil teacher.

Average number maintained, 105. Total cost for 1894, 1,241*l.* 11*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 16*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 12*s.* 6*d.*

Industrial profits, 30*l.* 18*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 8 discharged in 1891–93, there are doing well 7, unknown 1.

Leicester.

Leicester School Board Industrial School for Boys, Desford, near Leicester.

Inspected April 17, 1894.

Number of inmates on day of inspection, boys, 201; on license 26; 81 of these sent under the Education Act.

State of premises.—The school buildings are substantial and commodious, and supply excellent accommodation for the boys. I found all in good order. The situation is a healthy one. There is plenty of room, a good playground, and a field for cricket and football. A large swimming bath. The farm contains 136 acres, 28 of which are used for garden and fruit-growing. Horses, cows, sheep, and pigs are kept, providing good outside training for the elder boys.

Health and general condition.—The general health had been good. The boys looked healthy and hearty. There is a well-provided infirmary in case of need. A few acute cases. One death from acute endocarditis, one case of periostitis, one otorrhœa, one congenital syphilis; a few cases of ophthalmia; two or three cases of tonsillitis, one bronchitis, one eczema, one congestion of the lungs, one enlargement of the intestines, one debility, one chronic ulcer. General report very fair. Boys somewhat delicate on admission.

Conduct and discipline.—Not a very heavy list of complaints for the past year, and not many serious offences. A few cases of petty thieving, idleness, disobedience, and neglect of duty. Some untruthfulness, as usual; one serious case of stealing while on license, one gross carelessness. I found the boys in excellent order. There is a system of marks, which has a good effect. The general behaviour was very encouraging.

Educational state.—This was satisfactory. 26 in Standard Five; very good work; much painstaking, and good results; good recitation and elementary geography; arithmetic very good. 46 in Standard Four: with the exception of 2 failures in arithmetic, this class passed a favourable examination; a large class, and doing good work; careful teaching and good results. 49 in Standard Three: a satisfactory class; no failures; much painstaking, and very good results; all passed in arithmetic. 33 in Standard Two: 2 failures in dictation, 2 in arith-

metic; all the rest were making good progress; work done on paper; reading and spelling very good. 24 in Standard One: 1 going on well; 6 in preparatory class, new-comers. 178 presented—17 full-timers—passed Standard V. Order in school excellent.

Industrial training.—This receives its due share of attention. I found 27 working as tailors, 14 as shoemakers, 24 in the laundry, 72 on the farm and gardens, 29 in kitchen and bakehouse, 28 full-timers in school, 4 office boys, 3 in the gas-house.

General remarks.—10 meetings of managers held at the school since last inspection, and 103 visits from various members of the Board. The excellent merit grant was awarded for drawing last year. The Inspector was very well satisfied.

Staff.—Superintendent and matron, Mr. and Mrs. Thomas Adcock; schoolmaster, Mr. Wm. Harrison; senior assistant, Mr. P. J. Atkins; junior do., Mr. H. Stenton; clerk and store-keeper, assistant do., tailor, shoemaker, gardener, mechanic, cook, general assistant, three farm labourers, cowman, waggoner, laundress, assistant do., dairymaid, blacksmith, and carpenter (occasional).

Average number maintained, 200. Total cost for 1894, 3,654*l.* 4*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 5*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 0*s.* 2*d.*

Industrial profits, 338*l.* 9*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 137 discharged in 1891–93, there are doing well 93, dead 2, doubtful 6, convicted of crime or recommitted 18, unknown 18.

Middlesex.

London County Council Industrial School for Boys, Feltham, Hounslow.

Inspected June 20, 1894.

Number of inmates on day of inspection, boys, 778, and 119 on license, of whom 42 were at sea, 72 in South Wales in farm service, and 5 in place.

State of premises.—I found the new receiving hospital, near the gate, finished; a very complete and useful building, accommodating 14 boys, new cases. The brig was under repair. There are very extensive and well-arranged buildings, suited to the large number of inmates. There are four divisions of about 180 boys, each one of which is a nautical division, with every appliance and convenience suited to the receiving instruction in the brig "Endeavour," which is built into a field near the main building. There is a very large swimming-bath, and a large gymnasium well fitted up with the usual appliances.

Health and general condition.—The hospital accommodation is excellent. There had been four deaths, from tuberculosis, from abscess, pneumonia, and one boy had died from the effects of a fall from tree when in camp at Walton. There had been a good many cases of a dyspeptic character, a recurrence of which might be avoided if the "sock" shop, situated on the premises, were closed, as I think it should be. There were 41 boys on sick list on the day of inspection. The list of ailments was a

long one, though many of the cases were not serious. The return given in included 37 cases of influenza, 13 of debility, 99 of ophthalmia, 15 of pneumonia, 44 of dyspepsia, and a number of minor ailments; altogether there were 324 entries in the medical journal.

Conduct and discipline.—There had been three cases of absconding. The general conduct had been excellent, and the punishments very much reduced in number. No one is allowed to punish except the superintendent or an official acting under his orders and in his presence.

Educational state.—All the standards were tested. 336 boys were individually examined as follows:—29 in Standard Six: good reading and recitation; very fair writing; 8 failures in arithmetic. 55 in Standard Five: fair reading, needing more care; spelling rather defective; fair arithmetic; 14 failures. 73 in Standard Four: very fair work throughout. 44 in Standard Three: fair reading and spelling; writing, with some exceptions, poor; arithmetic good. 67 in Standard Two: very fair reading and spelling; improved writing on paper; 3 failed in dictation, 12 in arithmetic. 58 in Standard One: reading very fair; writing good; sums well done. 10 in preparatory, receiving due attention. The lower classes had made good progress, but there was much need of improvement in the upper standards, pointing to the necessity of some revision of the time table. Extra subjects should be more largely introduced, with a view to improve the general intelligence. Order and attention very good.

Industrial training.—59 tailors, 28 carpenters, 14 painters, 9 smiths, 11 bricklayers, 13 engineers, 12 cooks, 15 bakers, 75 farm boys, 38 band boys, 99 in the nautical class, 41 shoemakers, 135 in agricultural employment, 14 in the laundry, 33 in the mending room, 22 shirt and sock makers, 16 hall boys, 30 matmakers, 60 brushmakers, 29 basket-makers; a Sloyd class. A new outlet for the boys has been found at Grimsby, in fishing smacks. The nautical class go under canvas on the banks of the Thames for four weeks, where they have practice in boats. The boys drill well, but the day was too wet to see them on parade. The band is a very good one. 750 boys were taken to Southsea for a long day's holiday, by special train. The workshops are very convenient and spacious, and the staff of industrial instructors very competent.

Staff.—Superintendent, Mr. T. B. Beuttler; chaplain, the Rev. H. C. Laycock; clerk, Mr. E. T. Duell; two assistant clerks, seven schoolmasters, and four assistant do., chief inspector and three other inspectors, clerk of the works, a visiting officer, bandmaster, gymnastic instructor, boatswain and two assistant do., infirmarian, farm bailiff and three farm labourers, labour-master, two tailors, baker, two shoemakers, engineer, carpenter, smith, painter, laundryman, matmaker, brushmaker, basket-maker, cook, two gardeners, carter, cowman, two night watchmen, seamstress, laundress, nurse, storeman, shipping officer, &c.—72 in all.

Average number maintained, 757. Total cost for 1894, 18,432*l.* 16*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 6*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 25*l.* 14*s.* 10*d.*

Industrial profits, 530*l.* 3*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 554 discharged in 1891–93, there are doing well 486, dead 3, doubtful 9, convicted of crime or recommitted 44, unknown 12.

Boys' Home Industrial School, Regent's Park Road, N.W.

Inspected November 16, 1894. Visited Sept. 20, 1894.

Number of inmates on day of inspection, boys, 147; of these 120 committed cases, 27 on the voluntary list, 2 on license.

State of premises.—At the date of my inspection I found house and premises in good order. For several months there had been much sickness in the house. Several of the officers had been laid up, and the usual routine and settled organisation had been much disturbed. The year had been one of considerable anxiety, but I found all going on steadily in November.

Health and general condition.—There had been an unusual amount of acute sickness throughout the year. Early in the season one pericarditis, one diphtheria, one congestion of the lungs, one pneumonia, one alveolar abscess, one rheumatic endocarditis, one hip-joint disease, one stomatitis, one abscess on hip, one bronchial catarrah, one tonsillitis. On May 9 a severe and malignant attack of chicken-pox; about 30 cases. The superintendent and his wife and several officers were attacked. The school was not free till the end of September. It was a very critical period, but the boys behaved extremely well. A few cases of ringworm, scabies, and one of ophthalmia. All fairly well on my visit.

Conduct and discipline.—The boys had been conducting themselves on the whole very well; one wilful destruction of property, one repeated misconduct, two cases of absconding; the usual amount of petty offences, but not very much of serious importance. During the serious illness which prevailed from May to September, the boys behaved extremely well, and were most useful and helpful in every point of view. This speaks well for the general good influence exerted by the school.

Educational state.—The school had suffered from the long-continued indisposition and the illness of the schoolmaster. 26 in Standard Five: a very intelligent class; some defects in arithmetic. 25 in Standard Four: reading and spelling good; good dictation, and writing excellent; four or five weak in arithmetic. 27 in Standard Three: a very defective class; spelling very indifferent; much time lost in this class, and indifferent results. 30 in Standard Two: a very defective class; much time lost through illness of boys' teacher. 26 in Standard One: reading and spelling very fair; writing good; a few very backward. 12 in preparatory class. Excellent order. But the school work had suffered from the drawbacks to which the school had been exposed.

Industrial training.—The industrial work is well attended to. I found 18 in the tailor's shop, 22 with the shoemaker, and very fair work in both shops; 12 work with the carpenter and cabinet-maker; a very useful and practical shop, of much advantage to the boys; two or three working at the lathe; 4 help in the bakehouse. There is a large wood-chopping department. An effective band is kept up. The boys drill well.

Staff.—Superintendent and matron, Mr. and Mrs. Embley; chief schoolmaster, Mr. Robert S. Gleave; assistant do., Mr. Pobgee, and pupil teacher; tailor, shoemaker, carpenter, cook and baker, printer, bandmaster, and two labour-masters, clerk; assistant matrons, Mrs. Pobgee and Mrs. Donovan; chaplain, Rev. H. E. Wilson.

Average number maintained, 150. Total cost for 1894, 3,659*l.* 13*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 7*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 8*s.* 6*d.*

Industrial profits, 504*l.* 13*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 70 discharged in 1891–93, there are doing well 61, doubtful 1, convicted of crime or recommitted 1, unknown 7.

Field Lane Industrial School for Boys, Hillfield Road, West Hampstead, N.W.

Inspected September 22, 1894. Visited April 5, 1894.

Number of inmates on day of inspection, boys, 132; of these, 130 under legal detention and 2 on the voluntary list; on license 19.

State of premises.—The premises are very suitable for the work carried on. But the schoolroom is too small. An additional class-room is much needed. I found house and premises in excellent order. Dormitories clean and well ventilated. There is a very good isolated infirmary in case of need. Good asphalted play-ground, covered shed, and a large plot of garden ground.

Health and general condition.—Very good report as to health. Boys had an agreeable change of air at the sea-side. 15 boys had three weeks, 55, two weeks, and 55, one week. This change did them all much good. They went to Ramsgate. No infectious disease; one case of abscess; one dog-bite. Boys looked thriving and well cared for in every respect.

Conduct and discipline.—Report as to conduct satisfactory. A few cases of idleness, petty theft, untruth, and disobedience. Two or three cases of absconding during the year. With these exceptions the school was going on steadily. The boys were in good order, quiet, and attentive on the day of inspection, and well disposed.

Educational state.—Well attended to. 8 in Standard Six: intelligent work; 2 weak in arithmetic; geography of Europe. 20 in Standard Five: a well-taught class; 2 failures in dictation, 1 in arithmetic; very good work in all subjects. 27 in Standard Four: very satisfactory class; good recitations; geography of Scotland; work well done. 24 in Standard Three: class did well in all subjects; arithmetic well put down; geography of England and Wales. 30 in Standard Two: class did well throughout. 17 in Standard One: class improving; three or four a little backward. 6 in preparatory class: new-comers. Order excellent.

Industrial training.—On the day of inspection I found 16 tailors, 20 shoemakers; 4 in the bakehouse; 20 in the needleroom, darning and

mending, 16 gardeners, 46 wood-chopping, and 10 house boys, &c.; tailor's and shoemaker's shops are both good of their kind. The instruction given is valuable. Manual instruction in the use of tools and wood-work should be provided. The boys drill well. There is an excellent band.

Staff.—Superintendent and matron, Mr. and Mrs. S. J. Taylor ; chief schoolmaster, Mr. C. J. Howes; assistant do., Mr. A. Seeley and Mr. G. J. Tulip; tailor, shoemaker, baker, labour-master, needle-woman, laundress, cook, general assistant; bandmaster occasional.

Average number maintained, 130. Total cost for 1894, 2,825*l.* 15*s.*-

Comparative cost per head on ordinary maintenance and management, 21*l.* 14*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 15*s.* 6*d.*

Industrial profits, 570*l.* 15*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 52 discharged in 1891–93, there are doing well 46, convicted of crime or recommitted 2, unknown 4.

Field Lane Industrial School for Girls, 9, Church Row, Hampstead, N.W.

Inspected November 9, 1894. Also visited

Number of inmates on day of inspection, girls, 78, and 1 in consumptive home; 1 on license.

State of premises.—Every part of the house and premises turned to good account, and all as clean and comfortable as possible. Various improvements have been made during the last year or so. The building is now stronger, drainage more satisfactory, and a better chance of escape for the inmates in the event of a fire. The situation is pleasant and healthy.

Health and general condition.—One death during the year from consumption. One girl discharged on account of disease. A girl suffering from consumption was being treated at a home near Swiss Cottage. In the early spring there had been quite an epidemic of sore throat, but only one case developed into scarlet fever. Two more cases of sore throat in July; one case of measles; one girl had her fingers jammed by a door and had to have them amputated; two girls came in with ringworm; two or three cases of ulcer on the eye. The girls' teeth are well attended to. The girls were bright and cheerful.

Conduct and discipline.—Very few cases of misconduct. One girl had been punished for disobedience and bad temper; one or two cases of impertinence and disobedience. The girls give little trouble and are managed with much tact and kindness. The tone of the school is always pleasing and encouraging. There is a good mark system.

Educational state.—9 in Standard Six: reading good; writing very good; all passed in dictation; 2 failed in arithmetic. 16 in Standard Five: reading very fair with 1 exception; dictation very good; 5 failures in arithmetic. 16 in Standard Four: reading very fair with 2 exceptions; writing good; 4 failures in dictation, 7 in arithmetic. 9

in Standard Three: reading and spelling very fair; 1 failure in dictation and 2 in arithmetic. 13 in Standard Two: reading and spelling very fair; 4 failed in dictation, 1 in arithmetic. 6 in Standard One: making good progress with the exception of 1 big girl still backward. 9 in preparatory class: all new-comers and doing well. Good recitations in all standards, geographical readers were in use by most of the classes. The girls sing and drill very well indeed. Very attentive and quiet behaviour.

Industrial training.—There is a good and successful laundry. Needlework is well attended to. There were some excellent specimens of work exhibited. The girls have plenty to do in keeping the house clean and in good order. Some systematic teaching in cookery might, however, be introduced with advantage.

Staff.—Superintendent, Mrs. Nyren; schoolmistress, Miss Pettitt; assistant do., Miss Brier; sewing-mistress, cook, laundress, general assistant.

Average number maintained, 79. Total cost for 1894, 1,742*l.* 0*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 1*s.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 15*s.* 7*d.*

Industrial profits, 237*l.* 14*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 33 discharged in 1891-93, there are doing well 28, dead 1, doubtful 2, unknown 2.

Sloane Street Industrial Home for Girls, 125, Sloane Street, Chelsea, S.W.

Inspected February 23, 1894.

Number of inmates on day of inspection, girls, 44; of these, 32 under legal detention, 12 on the voluntary list.

State of premises.—The house is large, airy, and well ventilated; accommodation very fair; but only one living room. A play-shed much needed. Bath accommodation very scanty. House and premises clean and well kept; in good working order.

Health and general condition.—The girls had the great advantage of a month at the seaside in the summer of 1893. This change did them much good, and there had been very little sickness in consequence. One case of strumous glands, two cases of slight erysipelas, one of peritonitis. The girls got through the winter well, and had a healthy and favourable appearance.

Conduct and discipline.—Report as to conduct satisfactory. I found the girls bright, cheerful, and willing. A few cases of idleness, disobedience, impertinence, obstinacy, bad temper, vulgarity, and rudeness. There is little or no corporal punishment in this school, and affairs go on well without it.

Educational state.—10 in Standard Five: very good class; 1 failed in arithmetic; 1 or 2 weak in spelling; recitation very fair. 10 in

Standard Four: very fair work; 1 failure in arithmetic; recitation good; good English geography for Five and Four. 11 in Standard Three: 1 very bad sight; class did well, but a few weak in dictation; arithmetic very well done. 6 in Standard Two: class very fair progress; arithmetic weak. 5 in Standard One: improving. 2 in preparatory class. A little geography in the junior classes. Girls sing well, tonic-sol-fa system.

Industrial training.—There was a fair show of needlework and knitting. The girls mark very well. They make their own clothing and outfits. The elder ones assist in the kitchen and laundry.

Staff.—Superintendent, Miss Kelly; schoolmistress, Miss Canner; assistant ditto; cook; laundress attends occasionally.

Average number maintained, 42. Total cost for 1894, 831*l.* 3*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 15*s.*

Net cost per head, including profit or loss on industrial department, 20*l.* 5*s.* 11*d.*

Industrial profits, 77*l.* 3*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 20 discharged in 1891–93, there are doing well 11, doubtful 4, unknown 5.

The School of Discipline Industrial School for Girls, Elm House, Parson's Green, Fulham, S.W.

Inspected February 23, 1894.

Number of inmates on day of inspection, girls, 49; of these 39 under legal detention, 10 on the voluntary list.

State of premises.—Found house and premises in good order, and the children properly provided for. A fire-escape had been applied to the upper story. The laundry needs connection with the main building.

Health and general condition.—A few cases of colds and coughs. One case of quinsy, one swollen glands, a few sore throats, one ophthalmia; one case of measles; eleven cases of influenza in December 1893, and a good many colds and coughs in the early part of 1894. Nothing more serious. The girls looked strong and healthy, and were in good spirits.

Conduct and discipline.—Very fair report as to conduct; girls generally obedient and in good order. A few troublesome girls. Some cases of disobedience and impudence; some exhibitions of violent temper; one case of striking an assistant; some occasional insubordination; one girl had been very trying; one case of theft. With these exceptions, girls well conducted and orderly.

Educational State.—Fair. Standards Two and Three defective, requiring more attention. 7 in Standard Five: good reading, spelling, and writing; 2 weak in dictation; 3 failed in arithmetic. 10 in Standard Four: a very fair class; 1 failed in dictation, 1 in arithmetic. 7 in Standard Three: class defective in dictation and arithmetic; 4 failures in arithmetic. 11 in Standard Two: not a good class; many defects. 3 in Standard One: progressing. 11 passed the Fifth Standard. Order good.

Industrial training.—The girls receive careful instruction in needlework, knitting, &c. Good specimens of girls' work were shown. There is a good laundry well supplied with work. The girls make their own dresses and outfits, and assist in the kitchen and housework. Regular lessons in plain cooking should be provided.

Staff.—Matron, Miss Collier; schoolmistress, Miss Shepherd; laundress; one general assistant.

Average number maintained, 47. Total cost for 1894, 944*l.* 2*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 1*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 10*s.* 4*d.*

Industrial profits, 73*l.* 15*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 19 discharged in 1891–93, there are doing well 14, doubtful 4, unknown 1.

St. Margaret's Home Industrial School for Roman Catholic Girls, Mill Hill, Hendon, N.W.

Inspected September 26, 1894.

Number of inmates on day of inspection, girls, 106; of these 99 under detention and 7 on the voluntary list; 6 on license.

State of premises.—This was my first inspection of the new house since occupation. It is most commodious and substantial, and gives far better accommodation than the old one, with increased protection and comfort for the girls. I found it well ventilated and warmed, and very comfortable. Every requirement has been attended to, with good classrooms, two dayrooms, and well-appointed infirmary.

Health and general condition.—The health of the children had been good. Decided improvement. The dietary had been strengthened and the girls looked more robust and vigorous. One death from phthisis. Children very feeble on admission, owing to previous privation and exposure. A few weakly children; one consumptive. One case of pneumonia, one chorea, one bronchitis, one hæmoptysis, four cases of measles. The children will do better with improved accommodation.

Conduct and discipline.—The general report was favourable. A few cases of insubordination, disobedience, show of temper, and obstinacy; some idleness and rude language. Girls orderly and well-behaved. Improved discipline, and some very well-disposed girls.

Educational state.—Fair. 6 in Standard Five: good reading, spelling, dictation, and writing; arithmetic very indifferent. 19 in Standard Four: general work well done; 5 weak in arithmetic. 22 in Standard Three: some defects in dictation; 2 failures in arithmetic; class improving. 23 in Standard Two: class progressing, but several defects in dictation, and arithmetic very indifferent. 25 in Standard One: class getting on well and under careful instruction; all passed in arithmetic but one. 6 in preparatory class, very young. Girls orderly and quiet.

Industrial training.—I found a very good workroom well occupied. Good specimens of plain needlework and knitting, and some good kindergarten work from the juniors. The girls assist in the kitchen and scullery and do all the housework. Some lessons in plain cookery had been introduced with advantage. There is an extensive laundry with every appliance. Some of the elder girls are trained in this branch.

Staff.—The school is carried on by a Superioress and Sisters of the Order of St. Francis. Two certificated teachers in the schoolroom. Lay assistance in the laundry and ironing-room.

Average number maintained, 100. Total cost for 1894, 1,583*l.* 4*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 16*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 11*s.* 8*d.*

Industrial profits, 136*l.* 11*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 48 discharged in 1891-93, there are doing well 38, doubtful 3, unknown 7.

Girls' Home Industrial School, 22, Charlotte Street, Portland Place, W.

Inspected February 21, 1894.

Number of inmates on day of inspection, girls, 27; of these 9 were committed cases; 18 on the voluntary list.

State of premises.—The house was in very good order. The girls are properly provided for. There is a separate schoolroom and a covered play-shed. Dormitories thoroughly clean and well aired.

Health and general condition.—The health had been very good for some time past. The girls passed through the winter well, no fever and nothing infectious. The children had a healthy appearance; a few colds and coughs.

Conduct and discipline.—A few cases of impertinence, obstinacy, and wilfulness; one refusal to do her work; some idleness and rudeness; school going on well; girls improving; less difficulty than in the preceding year.

Educational state.—I was glad to find the school-work much improved. The classes did well, and had made satisfactory progress under the new teacher. 10 in Standard Five: with one exception children all did well; recitations very good; reading very good; arithmetic well done. 8 in Standard Four: class gave satisfaction; work all carefully done. 3 in Standard Three: no failures. 4 in Standard One: all progressing favourably; 1 new girl. Children quiet and orderly; school much improved. The girls sing nicely.

Industrial training.—A very good show of needlework, knitting, and clothing—the work of the girls. There is a good workroom; the girls assist in the kitchen and do all the work of the house; some lessons in plain cooking might properly be introduced.

Staff.—Superintendent, Miss Green; schoolmistress, Miss Jacobs; laundress and kitchen matron, Miss Binns.

Average number maintained, 27. Total cost for 1894, 588*l.* 9*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 15*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 8*s.* 6*d.*

Industrial profits, 39*l.* 5*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 3 discharged in 1891-93, there are doing well 2, unknown 1.

King Edward Industrial School for Girls, Andrew's Road, Cambridge Heath, Hackney, E.

Inspected November 1, 1894.

Number of inmates on day of inspection, girls, 111.

State of premises.—The sanitary arrangements had been completely overhauled and put right; a new bedroom had been added. The buildings are spacious, and very well arranged, cheerful and comfortable. There is a large play-yard with large covered play-room in it. In one wing are 17 cubicles, very tidy, for elder girls of good conduct, much prized. All in excellent order.

Health and general condition.—There had been no deaths; one girl had been discharged, who died afterwards in St. Peter's Home, suffering from phthisis; there had been several cases of tonsillitis, one of phthisis (still in school), and one mild gastric attack. All new girls had been vaccinated. The general health had been very good; a very comfortable sickroom. The appearance of the girls very satisfactory.

Conduct and discipline.—The general conduct was on the whole very good, but some of the girls had been rather troublesome, and there had been some anxiety at times. Rewards are given at Christmas, and small money payments for marks earned by good conduct. Every girl, whatever her conduct may have been, gets a present at Christmas. There had been scarcely any punishment.

Educational state.—Order and attention in the schoolroom were excellent. 26 in Standard Five: 2 failures in arithmetic, work neat and very good; good recitation, reading and writing, and geography. 15 in Standard Four: no failures; a very good class. 18 in Standard Three; all passed well. 25 in Standard Two: only 1 failure in arithmetic and 3 in dictation. 20 in Standard One: coming on well; 7 new-comers in a preparatory class. The girls are taught to sing, and sing well, and are put through musical drill by a drill sergeant; recitation in all classes.

Industrial training.—Very good laundry work. The girls also help in kitchen and house, and are taught to sew and knit.

Staff.—Superintendent, Mrs. Howarth; assistant matron, Miss Dorrington; schoolmistresses, Miss Widdington, Miss Edwards; three industrial matrons; drill sergeant once a week.

Average number maintained, 115. Total cost for 1894, 2,134*l.* 19*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 11*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 11*s.* 4*d.*

Industrial loss, 75*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 66 discharged in 1891–93, there are doing well 44, doubtful 18, convicted of crime or recommitted 2, unknown 2.

Middlesex Industrial School for Girls, Bedfont, North Feltham, Hounslow.

Inspected November 17, 1894.

Number of inmates on day of inspection, girls, 14.

State of premises.—The house was in very good order. The rooms, though small, are bright and wholesome, and afford comfortable accommodation for a small number of girls. There is a grass plot at the side for recreation and a good play-shed is likely soon to be provided.

Health and general condition.—One case of bronchial catarrh was the only case on the sick list for the year. The medical officer on the occasion of his quarterly visits was able to report very favourably of the general health. The girls looked well cared for.

Conduct and discipline.—One or two girls had been inclined to be troublesome, but there had been nothing very serious to record. Miss Staveley had only been in charge three weeks and had already gained the confidence of the girls. All was going on as smoothly as possible.

Educational state.—The superintendent had taken charge of the schoolroom pending the arrival of a newly appointed schoolmistress. 1 girl had passed Standard Five. 3 in Standard IV.: good reading; fair writing; all passed in dictation and arithmetic. 3 in Standard Three: good reading; fair writing; 1 failure in dictation and 1 in arithmetic. 5 in Standard Two: good reading and spelling; 1 failure in dictation and 2 in arithmetic. 2 in Standard One: making satisfactory progress. No extra subjects had been taken, but it is to be hoped that at the next examination the girls will be presented in geography and recitation at least. Order and attention very good.

Industrial training.—Each girl had some very good specimens of needlework and knitting to show. They have the house, kitchen, and laundry to attend to, and are trained generally with a view to domestic service.

General remarks.—Miss Bellamy, who has managed the school successfully for some years, had been obliged to relinquish her charge through failing health.

Staff.—Superintendent, Miss C. F. Staveley; schoolmistress, Miss Connor; assistant matron.

Average number maintained, 13. Total cost for 1894, 216*l.* 7*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 12*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 2*s.*

Industrial profits, 2*l.* 16*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 10 discharged in 1891–93, there are doing well 8, doubtful 2.

Norfolk.

Norfolk Industrial School for Boys, Buxton Lamas, near Norwich.

Inspected August 10, 1894.

Number of inmates on day of inspection, boys, 23.

The school was certified as an Industrial School 23rd June 1894.

State of premises.—The school premises have been utilized as a reformatory school since the year 1855, but owing to the falling off in the reformatory commitments, the managers found it expedient to give up the reformatory certificate and have the school certified as an industrial school under the Industrial Schools Act, 1866.

I found 23 boys under detention at the date of my visit, who were looking well and gradually being brought into something like order and discipline. All were young and apparently much in need of training and teaching. The boys, however, had shown themselves willing and tractable, and had given very little trouble, except to keep them in the right direction. By the end of the year the school had received 63 boys, and the school was providing for extension for a number not exceeding 80.

I tested the educational condition of the boys on the day of inspection. 1 in Standard Five. 2 in Standard Four. 3 in Standard Three. 11 in Standard Two. 4 in Standard One and 2 in preparatory class. Boys improving in school matters and promising well. Very good order.

The boys were beginning to be useful about the garden and in the household work. Not of much use in the farm work for the present, but they soon begin to adapt themselves to the work required to be done.

Staff.—Superintendent and matron, Mr. and Mrs. T. Babington; schoolmaster and assistant superintendent, Mr. T. Babington, junior; tailor and shoemaker, Mr. Edwards; bailiff, labour-master, assistant matron, cook and baker; occasional help in laundry.

Total cost for 1894, 376*l.* 7*s.* 2*d.*

Industrial loss, 117*l.* 7*s.*

Norfolk Industrial School for Girls, Fakenham, Norfolk.

Inspected August 8, 1894.

Number of inmates on day of inspection, girls, 61; of these, 50 were under legal detention, 11 on the voluntary list.

State of premises.—The house and premises were in good order. The children are properly provided for. There is a good garden, with playground, and plenty of room for exercise. The seniors have their department, the juniors theirs. A separate laundry for a class of the elder girls.

Health and general condition.—Health well maintained, very little serious illness. One girl with weak heart; a few cases of sore eyes; one swollen glands. Girls looked thoroughly well and were in good spirits. The situation seems a healthy one. General appearance satisfactory.

Conduct and discipline.—A few girls idle, noisy, rude, and troublesome at times; some disobedient and quarrelsome; one or two cases

of insubordination and obstinacy, but nothing very serious. I found the children doing well, under good influence, and generally improving.

Educational state.—Improved. 9 in Standard Five: an intelligent class; reading exceptionally good; recitation very well given, with proper expression; no failures. 11 in Standard Four: class did well in all the ordinary subjects, but 3 failed in arithmetic. 7 in Standard Three: a satisfactory class, all doing well. 7 in Standard Two: all passed creditably but one, who was backward. 8 in Standard One: doing well. 6 in preparatory class, progressing favourably. Order excellent.

Industrial training.—Much attention is paid to the practical training for domestic service. The girls are specially prepared as housemaids, sewing-maids, kitchen-maids, and laundresses. The workroom is very well attended to. Many articles of clothing, dresses, &c. were exhibited. The laundry occupies the working time of six of the elder girls. Cookery lessons are given.

Staff.—Miss S. Hamond has the general management of the school; superintendent, Mrs. Marshall; schoolmistress, Mrs. Applegate; assistant ditto; housekeeper, kitchen matron, workroom matron, laundress and assistant, and a gardener.

Average number maintained, 60. Total cost for 1894, 1,118*l.* 17*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 12*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 15*s.* 10*d.*

Industrial loss, 25*l.* 6*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 26 discharged in 1891–93, there are doing well 21, convicted of crime or recommitted 1, unknown 4.

Northumberland.

Newcastle-upon-Tyne Industrial School for Boys and Girls, New Road, Newcastle-upon-Tyne.

Inspected May 25, 1894. Visited December 8, 1894.

Number of inmates on day of inspection, boys, 121; girls, 50; total, 170.

State of premises.—The departments, both for boys and girls, were in excellent order. The institution is well organised, and due provision is made for every requirement of such a school. The dormitories were clean, well aired, and comfortable. Some very good shops and excellent new bathroom. There is a very good play-yard for the boys; but the girls are badly off in this respect. The new bathroom is a most valuable addition.

Health and general condition.—The children, both boys and girls, had a very healthy appearance. They are well cared for, and their health and comfort are carefully studied. Very little serious illness.

The seaside home has very good influence. A few slight colds; one injury to hand; one abscess in forehead; one otitis; ons scrofulous ophthalmia. A few ordinary ailments. No deaths.

Conduct and discipline.—The good order of the school had not been greatly interrupted during the year. A few of the usual cases of falsehood, use of bad language, quarrelling, neglect of work, stealing other boys' parcels, wilful mischief, petty thieving, loitering and wandering, idleness, and mischief. Among the girls a few cases of obstinacy, quarrelling, use of improper language, one general misconduct. I found the children well-behaved, willing, and under good influence. The girls much improved.

Educational state.—Very good. Boys—11 in Standard Six: very intelligent class, well taught, good elementary geography and recitation. 20 in Standard Five: very good work; one weak in dictation and arithmetic. 19 in Standard Four: a very creditable class; no failures; very neat work; good teaching, 26 in Standard Three: a promising class; work very well done. 22 in Standard Two: all doing well, good progress. 12 in Standard One: good work, no failures. 10 preparatory. A very well-taught school; excellent order; creditable progress. Girls—14 in Standard Five: very fair work; good geography; 3 weak in arithmetic. 6 in Standard Four: a good class; recitation well delivered. 8 in Standard Three: all doing well; one weak in arithmetic summing. 11 in Standard Two: 2 weak in arithmetic; good progress. 7 in Standard One: doing well. 7 in preparatory class. Girls quick and well ordered. Good singing from both boys and girls. Musical drill in the girls' school fair.

Industrial training.—The boys were occupied as follows at the time of inspection: 14 as printers, 12 as shoemakers, 12 as tailors, 2 machine-knitters, 22 in the sackmaking, 35 in the wood-chopping department, 4 engine boys, 4 sawyers, 4 cart boys, 2 porters, 10 in school the whole day. The industrial departments are vigorously carried on. The printing establishment has now excellent quarters, and is well developed. There is an effective band. 30 in the first band, 16 in the second.

General remarks.—The seaside cottage home at Whitley, providing accommodation for 12 children at one time, proves a great advantage to the school. Children in need of a change derive much benefit from spending a few days at the seaside, and a good many of the children share in the benefit.

Staff.—Superintendent, Mr. R. Willoughby; matron, Miss M. J. Dowman; schoolmaster for the boys, Mr. T. H. Murray; assistant ditto, Mr. James Purvis; teachers for the girls, Miss Bowey and Miss Willoughby; tailor, shoemaker, printer, joiner, boys' warden, cook, nurse and girls' warden; charwoman occasional; mistress of the seaside home at Whitley, Mrs. Hunter; bandmaster occasional.

Average number maintained, 172. Total cost for 1894, 2,940*l.* 19*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 2*s.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 3*s.* 11*d.*

Industrial profits, 733*l.* 1*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 60 boys and 31 girls discharged in 1891–93, there are doing well 52 boys and 27 girls, dead 6 boys, 3 girls, doubtful 1 girl, convicted of crime or recommitted 1 boy, unknown 1 boy.

Northumberland Village Homes, Whitley-on-Sea, near Tynemouth.

Inspected May 24, 1894.

Number of inmates on day of inspection, girls, 136 under detention, 9 voluntary cases, and 1 on license.

State of premises.—The buildings consist of five double cottages, one of which is fitted up as an infirmary. In each cottage there is accommodation for 16 girls. The schoolroom is a large detached building. In each cottage the inmates carry on their own cooking, laundry work, and sewing. There is a large garden and lawn in front of the cottages, and a kitchen-garden behind. The sea is within five minutes' walk. Nothing could be better than the situation of the institution. The cottages are in perfect order. It is a model of what village homes should be.

Health and general condition.—There had been two deaths from consumption. Some slight cases of tonsillitis, three of chicken-pox, three of scabies. All the cottage floors have been stained and varnished, and since then there have been fewer colds, and the general health has been better. The infirmary cottage is very bright and cheerful. The appearance of the children was very satisfactory.

Conduct and discipline.—Very good. The girls have rewards according to the marks they have earned. There had been scarcely any punishment required. Deprivation of treats and privileges is the only punishment.

Educational state.—The upper standards were much improved, and efforts had been made to improve the general intelligence by introducing extra subjects. There were 33 girls in Standard Five, who in addition to reading, writing, dictation, and arithmetic, were learning a little grammar and the geography of Europe; work very well done. 32 in Standard Four: doing the same description of work as Standard Five; only 1 failure in each class in arithmetic. 28 in Standard Three: 4 failures in arithmetic. 18 in Standard Two: 5 failures in arithmetic. 15 in Standard One: 4 failures in arithmetic. 10 in preparatory class: doing very fairly. Order and attention very good. The girls sing very nicely.

Industrial training.—Most of the girls go to domestic service, and are with scarcely any exception doing very well. There are about 30 girls in service in Canada who received their training in the village homes. The girls do all the housework, laundry-work, and cooking. Bread is baked in each cottage. No pains are spared to turn out respectable girls fit for service. Scarcely a day goes by without a visit from some member of the visiting committee.

Staff.—Superintendent, Mrs. Craig, assisted by eight house matrons and a nurse; schoolmistress, Miss Vernon; assistant, Miss Turner; gardener and labourer.

Average number maintained, 138. Total cost for 1894, 2,254*l.* 15*s.* 5*d.*

Detailed Reports.

Industrial Schools.

Comparative cost per head on ordinary maintenance and management, 18*l.* 10*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 0*s.* 10*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 43 discharged in 1891–93, there are doing well 35, dead 2, doubtful 4, convicted of crime or recommitted 1, unknown 1.

Northumberland Association's Industrial Home for Girls, Plain Mellor, Haltwhistle.

Inspected May 21, 1894.

Number of inmates on day of inspection, girls, 24.

State of premises.—House and premises in excellent order. Very clean and suitable. Dormitories well aired and comfortable. The home is well managed, and the children seemed happy and contented. A good play-shed with plenty of room for play. The situation is pleasant and healthy.

Health and general condition.—Girls looked healthy and well cared for. One case of eczema capitis. A few coughs and colds in the winter. The outside wall to the north is rather damp and cold. I saw the mid-day meal, which was excellent and abundant.

Conduct and discipline.—The report on the conduct of the girls was satisfactory. A few cases of disobedience and obstinacy occasionally. Nothing more than childish faults, and very little need of personal correction. School going on well, and carefully managed.

Educational state.—9 in Standard Five: the girls appeared to advantage; all did well but one, who failed in arithmetic; good recitation; careful work. 4 in Standard Four: improving; very good recitation; 1 weak in arithmetic. 3 in Standard Three: all did well; no defects. 5 in Standard Two: the children were making good progress. 2 in Standard One: coming on well. Girls quiet and well-behaved. Good elementary geography.

Industrial training.—The girls have daily lessons in sewing and knitting. Good specimens were exhibited. Each girl had her own piece. The elder girls assist in the kitchen, scullery, and laundry, and gradually improve in practical household knowledge. A course of plain lessons in cookery would be of much advantage to the girls.

Staff.—Superintendent, Miss Mary Mayers; general assistant, Miss Frances Mayers; a gardener assists occasionally.

Average number maintained, 24. Total cost for 1894, 408*l.* 8*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 0*s.* 4*d.*

Industrial profits, 5*l.* 11*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 8 discharged in 1891–93, there are doing well 8

Chadwick Memorial Industrial School for Roman Catholic Boys, Town Moor, Newcastle-on-Tyne.

Inspected May 22 and 24, 1894. Visited December 8, 1894.

Number of inmates on day of inspection, boys, 199; of these 198 under detention, 1 on the voluntary list; on license 8.

State of premises.—House and premises in very good order. Several valuable improvements. The new range of workshops gives much greater facilities for manual instruction in turnery, woodwork, and general carpentry. A powerful engine introduced. Dormitories clean and comfortable. The whole place under careful supervision, and the boys' comfort generally studied. An excellent infirmary.

Health and general condition.—General health good. The situation is a healthy one, and the boys have plenty of fresh air and abundance of exercise. Several acute cases and three deaths. One acute rheumatism, two pleurisy, one pneumonia; one phthisis, died; one death also from consumption, and one from tuberculosis meningitis; one case of scarlatina; a few cases of influenza; two or three cases of sore throat, and one consumptive. General aspect very fair.

Conduct and discipline.—Report as to conduct satisfactory. Very few serious cases. A few of the ordinary faults and offences requiring correction. Some cases of bad language, idleness, wilful mischief, neglect of duty, bad habits, use of tobacco, shirking work, going out without leave, cheating, and untruth. An absence of the more serious offences. The boys seemed happy and contented. All behaved remarkably well.

Educational state.—Fair. 18 in Standard Five: some weakness in spelling and arithmetic; recitation very good. 35 in Standard Four: reading and spelling moderate; dictation well done; 6 failures in arithmetic. 40 in Standard Three: a satisfactory class in all subjects; a few failures in arithmetic; writing very good. 50 in Standard Two: some weakness in the class, especially in arithmetic; class needing greater attention. 17 in Standard One: class improving. 6 in preparatory class. Very good singing. Order excellent.

Industrial training.—The industrial training is very vigorously carried on. I found 31 boys in the shoemaking department, 30 in the tailoring and knitting machines. Both good shops and very good work. A boy cut out a waistcoat for me, and another made it up. 16 boys were employed as joiners, turners, painters, and glaziers. 12 with the engines, boilers, and machines. 16 in the garden. 20 boys attend the manual instruction class, while 23 juniors attend school all day. The boys drill well. There is an efficient brass band.

Staff.—Superintendent, Mr. A. O'Callaghan; general assistant and yardmaster, Mr. Bright; schoolmaster, Mr. Douglas; assistant ditto; matron, tailor, shoemaker, joiner, gardener, cook, and one domestic; drill and band master, occasional; matron for the junior department.

Average number maintained, 193. Total cost for 1894, 3,203*l.* 19*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 12*s.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 6*s.* 6*d.*

Industrial profits, 399*l.* 11*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 89 discharged in 1891–93, there are doing well 81, convicted of crime or recommitted 7, unknown 1.

St. Elizabeth's Industrial School for Roman Catholic Girls, Ashburton House, Gosforth, Newcastle-on-Tyne.

Inspected May 24, 1894. Visited December 8, 1894.

Number of inmates on day of inspection, girls, 99; of these 90 under detention and 9 on the voluntary list.

State of premises.—I went over house and premises and found all in excellent order, and the children well provided for. The accommodation is suitable. The laundry had been much enlarged. There is a good playground, with plenty of room for recreation; a very large garden, which is turned to good account. The situation is a healthy one.

Health and general condition.—The younger children require much care on admission, being constitutionally feeble. The elder girls looked robust and vigorous. Good medical report. Not much sickness. One tubercular peritonitis, a serious case; one phthisis; a few coughs, colds, and minor ailments. Children were in good spirits, and seemed happy and well cared for.

Conduct and discipline.—Little reason for complaint; but one girl had been very troublesome and had caused much anxiety. A few cases of temper, obstinacy, and disobedience. The majority of the girls doing well, obedient and tractable. The elder girls especially did credit to the school training and influence.

Educational state.—Only fair. 15 in Standard Five: good reading and spelling; English composition, moderate attainment only; very good writing; arithmetic defective; 6 failed. 18 in Standard Four: fair work; very good reading; intelligent girls; 2 failed in dictation, 5 in arithmetic. 16 in Standard Three: some failures in dictation and 7 in arithmetic; class somewhat backward. 23 in Standard Two: not a very brilliant class; a good many failures, especially in arithmetic. 11 in Standard One: going on fairly well. 12 in preparatory class: not doing much; very young. Education needing more careful attention. Children quiet and good.

Industrial training.—Careful instruction is given in needlework, knitting, and woolwork. The girls make their own clothing. Good needlework was exhibited. The elder girls assist in all the household work and in the kitchen and scullery. There is an efficient laundry for a class of the elder girls. There is a considerable garden. Cows and pigs and poultry are kept on the place. Some systematic lessons in plain cooking are much needed.

Staff.—Sister Superior, Sister Magdalene, and four Sisters of Charity of St. Vincent de Paul; four lay assistants and two gardeners.

Average number maintained, 100. Total cost for 1894, 1,519*l.* 15*s.* 4*d.*

Industrial profits, 153*l.* 1*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 42 discharged in 1891–93, there are doing well 40, dead 1, doubtful 1.

St. Vincent's Home Industrial School for Roman Catholic Boys, Brunel Terrace, Elswick, Newcastle-on-Tyne.

Inspected May 25, 1894. Visited December 6, 1894.

Number of inmates on day of inspection, boys, 51 ; of these only 4 were committed cases, increased to 10 at the end of the year.

State of premises.—This school was certified for 60 boys February 24, 1894. It consists of two dwelling-houses thrown into one, on an elevated position, at Elswick. The buildings supply fair accommodation but not of the most convenient kind. Much has been done to adapt them to the necessities of the case. There is a good playground and a proper infirmary.

Health and general condition.—The health of the children had been good. A few delicate ones. They appeared to be treated very kindly, and receive requisite attention. The general aspect was favourable. The children were in excellent spirits.

Conduct and discipline.—The children are very young, and had given little trouble so far. The school is designed for the younger children, and it is proposed to transfer the boys to the senior school at Chadwick Memorial, on the attainment of the age of 12 years.

Educational state.—The children were receiving systematic instruction day by day, and were classified according to their attainments. 4 in Standard Four, 5 in Standard Three, 9 in Standard Two, 14 in Standard One, 9 infants ; some progress had been made. Standard One very backward and needing to be systematically taken in hand. Boys orderly and well-behaved.

Industrial training.—This was not much developed at the time of my visit, but some of the elder boys were beginning to be useful and helpful, assisted in the kitchen, laundry, and general work of the house.

General remarks.—The school being for juniors only was placed under female management. Sisters of Charity have undertaken its management.

Staff.—Sister Superior, with two or three Sisters of the Order of St. Vincent de Paul, and lay assistance in the kitchen and laundry.

Average number maintained, 46. Total cost for 1894, 993*l.* 5*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 11*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 11*s.* 10*d.*

Somerset.

Somerset Industrial School for Boys, Twerton, Bath.

Inspected June 23, 1894.

Number of inmates on day of inspection, boys, 180; of these 178 under detention, 2 on the voluntary list; 44 on license.

State of premises.—This is a large school. The premises are extensive, the accommodation generally suitable and good, with a large covered playground and gymnasium. Plenty of space for exercise and recreation. Dormitories spacious and well aired. 63 acres of land are under garden cultivation. A large quantity of vegetables are raised for the market. Found all in very good order.

Health and general condition.—Very fair. The boys looked healthy and well. Five cases of scarlet fever in October 1893, sent to hospital. Several cases of influenza in December, one of pneumonia, one case of chicken-pox, and six or seven cases of mumps, two of pleuro-pneumonia in the early part of the year. Sanitary condition favourable. No death.

Conduct and discipline.—School going on much as usual. A pretty long list of petty offences. Several cases of theft, wanton mischief, impudence, bullying companions, breach of trust, stealing fruit, lying, and deceit. Boys in very fair order. Good discipline maintained without an excess of punishment. General appearance improved.

Educational state.—Improved. 18 in Standard Five: a good class; no failures; arithmetic carefully done and well put down; reading much improved; good recitation. 42 in Standard Four: Standard much improved; very fair work; one or two defective; fair recitation; reading improved. 32 in Standard Three: improved work, one or two weak in reading and spelling, but very general improvement; arithmetic well done. 29 in Standard Two: class gave satisfaction; a few weak in arithmetic. 37 in Standard One: generally a promising class; weak in arithmetic; reading very poor. 10 in preparatory class; just beginning to read. Order very good. Boys quiet and attentive. Much general improvement.

Industrial training.—The land and garden occupy the attention of a large class of boys. A quantity of stock, pigs, and poultry require attention. 14 boys work with the tailor and make the clothes, 8 with the shoemaker. A class of juniors work with the needle-woman, this branch shows to advantage. There is a class for joinery. The boys make their own bread. There is a very good brass band. The boys drill well. The practical training receives a full share of attention.

General remarks.—A good report from the Diocesan Inspector as to the religious instruction of the boys. Much painstaking and good results.

Staff.—Superintendent and matron, Mr. and Mrs. Donald Young; chief schoolmaster, Mr. Winterbotham; assistant ditto, Mr. G. W. James and Mr. Herbert; tailor, shoemaker, carpenter, baker, two labour-masters, two gardeners, ploughman, cowman, yardman, sewing-mistress, and nurse, bandmaster occasional; female assistance for kitchen and laundry.

Average number maintained, 183. Total cost for 1894, 3,492*l.* 13*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 1*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 18*s.*

Industrial profits, 906*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 115 discharged in 1891–93, there are doing well 108, doubtful 1, convicted of crime or recommitted 2, unknown 4.

Somerset Working Boys' Home, Auxiliary Branch, 16 Albert Buildings, Bath.

Inspected June 23, 1894.

This is an auxiliary home, established and maintained by Miss F. Coote, for the benefit of lads on license from, or formerly inmates of, the Somerset Industrial School, Bath.

I went over the house and inspected the provision made for the accommodation of the lads taken in. It provides 11 beds, the whole house was very clean and comfortable, and supplies just what is wanted for the object in view, viz., to give a decent home for a young lad struggling to make his way in the world. There were five boys in the house at the time of my visit. It is carried on by a matron and her husband, under Miss Coote's direction. The boys work at various employments in the city, and come home for their meals. The whole arrangement seemed to be a satisfactory one.

Cannington Industrial School for Roman Catholic Boys, Cannington, near Bridgwater.

Inspected July 19, 1894.

Number of inmates on day of inspection, boys, 91.

State of premises.—The premises are convenient and well arranged; are very suitable for the work carried on, and are maintained from year to year in excellent order, cleanliness, and good repair. Dormitories wholesome and well-ventilated. Three acres of garden, a good playground, large covered shed. Some good shops, orchard, horses, pigs, and poultry.

Health and general condition.—Medical report very satisfactory. No serious illness. Situation a healthy one. Boys properly cared for, well fed and well clothed. Small cottage hospital when required.

Conduct and discipline.—Satisfactory, with a few exceptional cases. Two or three persistent misconduct; one foul language; one disobedience; a few cases of quarrelling and fighting; one case of throwing a knife at another; use of tobacco. Little beyond the ordinary cases of troublesomeness and disorder. Boys generally doing well, and in very good spirits.

Educational state.—25 in Standard Five: reading very fair; spelling good; dictation wanting in care; 3 failures; writing good; arithmetic very indifferent, 14 passed, 10 failed; a poor class. 18 in Standard Four: work satisfactorily done; good recitation; work carefully set down. 24 in Standard Three: a satisfactory class, very few defects; recitation fair; arithmetic good. 10 in Standard Two: all doing well. 8 in Standard One: making good progress. 5 in preparatory class, just in the elements. Boys quiet and orderly.

Industrial training.—The industrial education receives careful and persistent attention. 13 were working as carpenters, 22 as shoemakers, 21 as tailors, 16 juniors as knitters and menders; 5 as garden and house boys; 13 attending school every day. Some wood chopping is done in the winter months. There are some large and productive gardens, with pigs and poultry to look after.

Staff.—Superintendent and matron, Mr. and Mrs. W. Shepherd; choolmaster, Mr. Hugh McGreehin; assistant teacher, Miss Shepherd; tailor, shoemaker, carpenter, workmaster, and one general assistant in the house.

Average number maintained, 91. Total cost for 1894, 1,858*l.* 15*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 8*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 14*s.* 3*d.*

Industrial profits, 351*l.* 3*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 73 discharged in 1891–93, there are doing well 65, dead 2, doubtful 1, convicted of crime or recommitted 4, unknown 1.

Bath Industrial School for Girls, 16, 17, and 18, Walcot Parade, Bath.

Inspected June 24, 1894.

Number of inmates on day of inspection, girls, 80, including 2 voluntary cases; 2 in hospital.

State of premises.—The premises are old and not convenient for supervision. The rooms are kept as clean and wholesome as possible. They are small and numerous, and the means of communication by no means perfect. The three small gardens at the back are utilised for recreation and drying purposes.

Health and general condition.—There had been one death during the year from phthisis. There had been two cases of measles of a mild type. One girl came in with ringworm. Two were away in hospital, one with hip disease and the other with dropsy. Some cases of bad eyes; one with scrofulous gland, and one case of necrosis in the foot. The girls had been for six weeks to Clevedon in the previous summer, and were shortly to go again. These holidays at the seaside are of great advantage to the girls' health.

Conduct and discipline.—Rather more punishments than one likes to see at a girls' school. A few of the girls give some trouble. Two had

absconded, but were brought back the same night. Some cases of rudeness, disobedience, and disregard of rules. One chronic case of petty theft. A good mark system might be tried with advantage.

Educational state.—15 in Standard Five: good reading and writing; all passed in dictation; 2 failed in arithmetic. 14 in Standard Four: good work generally; 1 rather weak in arithmetic. 14 in Standard Three: good work throughout; no failures. 11 in Standard Two: very fair reading, writing, and spelling; 1 failure in arithmetic. 14 in Standard One: this class had been well taught; one girl a little backward. Something more might be done to develop the intelligence. Extra subjects should be taken. Order and attention very good. The Diocesan Inspector had examined the school in religious knowledge in April 1894, and gave a very favourable report.

Industrial training.—This department is well attended to. The laundry is small, but turns out plenty of good work. The girls learn to sew, and some good specimens of plain needlework were exhibited. A good deal of drudgery is necessary in order to keep the three houses thoroughly clean and wholesome. The girls assist in the kitchen, and 20 attend cookery lessons in the town twice a week.

Staff.—Superintendent, Miss Kay; schoolmistress, Miss Blackburn; assistant do., Miss Dingwall; industrial mistress, Miss Pope; laundress.

Average number maintained, 82. Total cost for 1894, 1,358*l.* 7*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 11*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 3*s.* 9*d.*

Industrial profits, 221*l.* 2*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893, —Of 48 discharged in 1891-93, there are doing well 45, dead 1, unknown 2.

Stafford.

Staffordshire County Council Industrial School for Boys, Werrington, Stoke-upon-Trent.

Inspected March 30, 1894.

Number of inmates on day of inspection, boys, 156; on license 11; 1 absconded.

State of premises.—I was glad to find every department in a most efficient condition. The school premises in every point of view are very adequate for the purposes in view. The school buildings are thoroughly good and substantial. Dormitories very clean and well ventilated. Excellent playground and asphalted yard. Good covered shed. Every appliance for carrying on a school efficiently. The school enjoys the great benefit of electric lighting. Very good workshops, kitchen, and laundry, and a good bath.

Health and general condition.—The health had been very good. A small average of sickness. One feverish attack, one contracted fingers, one case of tabes mesenterica, but likely to improve. A good medical report. A capital detached infirmary in case of need. Boys looked hearty and well-nourished.

Conduct and discipline.—On the whole a very fair record. A few troublesome cases. Two wilful disobedience, one insubordination and refusal to work, one forcing a lock and stealing, one breaking open a lock and absconding, one theft from boys' lockers, two concerned in theft of 30*s*. Three new boys absconded, one persistently troublesome, one insolence. The majority of the boys were doing well, and appeared to advantage. A system of marks and rewards is carried out with great care, and produces the best results.

Educational state.—The boys passed a favourable examination, and all the classes did substantially well. The boys are carefully instructed and make good progress. 20 in Standard Five: 2 absent, neat and good work; intelligent class, and only one failure, and that in arithmetic. 37in Standard Four: very creditable work; class did well; 2 weak in arithmetic; all work carefully carried out; intelligent teaching. 43 in Standard Three: good average work; one lad very defective; 3 weak in dictation; 2 failures in arithmetic; all work very fairly done. 34 in Standard Two: very little to complain of; boys carefully taught and getting on well, 2 or 3 weak in arithmetic. 14 in Standard One: all doing very fairly. 3 in preparatory class: doing very fairly. Order excellent.

Industrial training.—The industrial training is well attended to and is carried on vigorously. I found 28 working in the basket-shop, 18 in the tailor's shop, 14 with the shoemaker, and 17 juniors shirt-making, knitting, and darning. 79 employed in farm and garden labour, and in the work of the household. There is a home farm of 48 acres and a quantity of live stock. A most efficient band is maintained. The boys' drill was very good.

General remarks.—Two good cottages were being erected for the accommodation of the officers. Some technical training in the use of tools and woodwork would be an advantage.

Staff.—Superintendent and matron, Mr. and Mrs. Ben. Horth; assistant matron; schoolmaster, Mr. G. Moreton; assistant do., Mr. B. H. Horth; do., Mr. G. H. Chance; tailor, shoemaker, basket-maker, farm bailiff and wife, workmaster, waggoner, bandmaster, nurse, laundress, cook, and domestic.

Average number maintained, 158. Total cost for 1894, 2,764*l*. 4*s*.

Comparative cost per head on ordinary maintenance and management, 17*l*. 9*s*. 11*d*.

Net cost per head, including profit or loss on industrial departments, 17*l*. 12*s*. 2*d*.

Industrial profits, 66*l*. 1*s*.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 114 discharged in 1891–93, there are doing well 97, convicted of crime or recommitted 11, unknown 6.

Stafford County Council Industrial School for Girls, Trent Valley Road, Lichfield.

Inspected March 28, 1894. Visited September 25, 1894.

Number of inmates on day of inspection, girls, 35.

State of premises.—I found house and premises in good order. Interior bright and comfortable. An additional block to hold 30 girls had been added, and was ready for occupation in October. The school is now licensed to receive 55 girls. The schoolroom is small for the additional number, and will require some extension.

Health and general condition.—The girls looked bright and healthy. The situation is a healthy one. One case of rheumatism, one of debility, a few ordinary ailments; not much serious sickness. Health generally good. No sick in the house on the day of my visit.

Conduct and discipline.—The general report was favourable. The majority doing well. One or two of the elder girls had given some trouble. A few cases of impertinence, untruthfulness, improper conduct, disobedience, use of bad language, and occasional rudeness. The children are from a rough class, but improve after a while.

Educational state.—Fair. 14 in Standard Five: reading and spelling good; dictation well done; writing fair; 2 failures in arithmetic; recitation good. 18 in Standard Four: reading and spelling good; 4 failures in dictation, arithmetic indifferent; 9 failures in the class; recitation good. 4 in Standard Three: 2 fair, 2 indifferent Girls quiet and orderly.

Industrial training.—The elder girls assist in the kitchen and laundry and do all the work of the house. The girls were improving in practical usefulness. All learn to knit and to sew. Good plain needlework was exhibited.

Staff.—Superintendent, Miss Elizabeth Heslop; assistant do., Miss Peasland; schoolmistress. Occasional assistance in the laundry.

Average number maintained, 38. Total cost for 1894, 619*l.* 15*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 6*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 14*s.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 8 discharged in 1891–93, there are doing well, 7; unknown 1.

Church of England "Waifs and Strays" Society, Boys' Farm Home, Standon Bridge, Standon, near Ecclesall.

Inspected March 29, 1894.

Number of inmates on day of inspection, boys, 90, and 10 on license.

State of premises.—I found the house and premises in very good order and repair; many improvements carried out. The general aspect was bright and encouraging. Much activity and good progress in all respects. Gardens much improved, and the new orchard and fruit gardens progressing favourably. The interior very clean and comfortable. An isolated infirmary much needed.

Health and general condition.—The health had been very good. The site is a healthy one. A few colds and chilblains in the winter; one enlarged tonsils. No serious illness. Boys were in good spirits and seemed happy and comfortable. No sick in house on day of inspection.

Conduct and discipline.—Very fair. A few bad boys had been introduced into the school and had worked mischief; but the majority were doing well. A few cases of out of bounds; three or four cases of absconding; some cases of stealing fruit and robbing orchards; three refusal to work; a few cases of petty theft; one refusal to obey. A black sheep or two had produced some trouble for a time. I found the lads willing, obedient, and well in hand.

Educational state.—Very fair. 10 in Standard Five: good knowledge of grammar, and good mental arithmetic; not a very distinguished class; arithmetic very defective. 14 in Standard Four: recitation only fair; class otherwise did well; 3 weak in arithmetic. 18 in Standard Three: a very good class; 1 very defective; a promising set of boys. 13 in Standard Two: class did well; no great defect. 19 in Standard One: class improving; 2 very backward. 5 in preparatory class: gaining ground. Boys quiet and well-behaved.

Industrial training.—There is a farm of 50 acres and a large garden. 10 milch cows, a good dairy, horses, pigs, and poultry. The garden employs a class of boys. I found all going on well. The boys are allowed plots of garden for their own cultivation. A tailors' shop employs 12 to 14 boys. I found 11 boys receiving technical instruction in the use of tools and woodwork; this is a great advantage. The school has a very practical side, and gives good training for colonial life.

Staff.—Superintendent and matron, Mr. and Mrs. W. J. C. Day; schoolmaster, Mr. Arthur J. Pennington; assistant do.; gardener and bandmaster, Mr. Fieldhouse; farm bailiff, dairy-woman, tailor, farm hand, needle-woman, two domestics, and occasional assistance in the laundry.

Average number maintained, 95. Total cost for 1894, 1,997*l.* 9*s.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 0*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 19*s.* 9*d.*

Industrial profits, 236*l.* 11*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 22 discharged in 1891–93, there are doing well 20, doubtful 1, unknown 1.

Surrey.

The London County Council Industrial School for Boys, Mayford, near Woking, Surrey.

Inspected November 21, 1894.

Number of inmates on day of inspection, boys, 180, and 9 on license.

State of premises.—In very good order. The buildings are modern and well arranged, and in a healthy situation. There had been no alteration

since last year, but a gymnasium is contemplated. There are about 24 acres of land round the house. The arrangements for escape from the dormitories in case of fire are very good. There is a large well-paved play-yard.

Health and general condition.—There had been no deaths, but one boy had died of consumption shortly after his discharge. One boy had been seriously ill, suffering from general debility. There had been five cases of influenza, one case of pneumonia, one of psoriasis. The general health had been very good, and the boys looked cheerful, bright, and healthy. One lad was in the sickroom with a skin affection.

Conduct and discipline.—There had been four cases of absconding, and two cases of plotting to abscond. The general conduct had been very good; the boys had given no trouble, and there had been very little punishment. After being six months in the school a boy of good conduct is paid 1*d.* a week; after a year of good conduct 2*d.* a week.

Educational state.—I found the educational state improved. There were 13 boys in Standard Six: the reading only fair; the writing good, some very good; 1 failure in dictation, 2 failures in arithmetic. No extra subjects, but geography and recitation will be presented next year. 28 in Standard Five: 1 failure in arithmetic; reading very fair, writing good; all passed in dictation. 23 in Standard Four: 2 failures in dictation, 2 in arithmetic. 42 in Standard Three: 1 failure in dictation, 2 in arithmetic. 36 in Standard Two: 3 failures in dictation, 4 in arithmetic. 24 in Standard One: a promising class. Writing good in all the classes, and sums neatly set down. Order and attention very good. The Diocesan Inspector had left a very good report of the religious knowledge.

Industrial training.—There are some very good shops. Working with the tailor were 24 boys, 16 were learning shoemaking, and 6 were in the carpenter's shop. Some work in the garden, some help in house, kitchen, bakehouse, and laundry. There is a good band of about 24 performers. The boys are practised in battalion and physical drill.

Staff.—Superintendent and matron, Mr. and Mrs. Ridpath; clerk; schoolmasters, Mr. Legge and Mr. Grounsell; tailor, shoemaker, carpenter, gardener, farm man, labour-master, cook and baker, laundress, needle-woman, and nurse.

Average number maintained, 175. Total cost for 1894, 3,132*l.* 5*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 18*s.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 3*s.* 11*d.*

Industrial profits, 203*l.* 9*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 132 discharged in 1891–93, there are doing well 86, dead 1, doubtful 8, convicted of crime or recommitted unknown 34.

Princess Mary's Village Homes, for Girls, Addlestone, near Weybridge, Surrey.

Inspected November 19, 1894.

Number of inmates on day of inspection, girls, 181, including 42 voluntary cases; on license 1.

State of premises.—This extensive establishment consists of 17 cottage homes, training homes for the elder girls, school-house with infant department, two laundries, infirmary, general store, office, and a handsome chapel all well arranged around a well-kept recreation ground. There are about 2 acres of garden land adjoining for disposing of the drainage. Some of the older cottages are scarcely equal to the demands made on them in the way of accommodation, but care is taken to avoid injurious overcrowding in the sleeping rooms as far as possible. All departments were in good working order, well kept, clean, and comfortable.

Health and general condition.—Many of the children come in at a very tender age and with delicate constitutions. By great care and a judicious use of the well-equipped infirmary they are nursed through their childish ailments and scrofulous affections and soon improve in health and strength. There were 11 cases of chicken pox in November 1893, one or two of whooping-cough, one of congestion of the lungs (now in convalescent home, her time in the school having expired), and one of rheumatic fever; some cases of eczema and ringworm. In July 1894 there were nine cases of sore throat accompanied by a rash, and it was feared at first that scarlet fever had broken out in the school. Fortunately this turned out not to be the case. No serious sickness on day of inspection. The girls looked well and properly cared for.

Conduct and discipline.—The spirit and tone of the various little homes depend a good deal on the disposition and character of the particular matron in charge, and to secure the services of a sufficient number of suitable "mothers" constitutes one of the chief difficulties of the cottage system. Moreover, when children come in very young they are apt to be spoilt, and later on when expected to submit to the ordinary discipline are inclined to resist. By firmness and kindness, however, difficulties are smoothed over and the school is carried on with a minimum of friction. Stealing, disobedience, untruthfulness, idleness, and impertinence are the chief offences. The girls were well-behaved and appeared to be under kindly and judicious control.

Educational state.—Not satisfactory; a larger teaching staff and more regular attendance, especially on the part of the elder girls, are needed. 11 in Standard Five: fair reading and writing; 2 failures in dictation and 4 in arithmetic. Two of the failures in each subject were laundry girls and had attended irregularly. 21 in Standard Four: fair reading, very fair writing with a few exceptions; 6 failures in dictation and 6 in arithmetic. 34 in Standard Three: very fair reading and writing; 7 failures in dictation and 10 in arithmetic. 20 in Standard Two: all passed in reading; 6 failures in dictation, and 2 in arithmetic. There were no extra subjects. 26 in Standard One: very fair reading and writing; 6 failures in dictation, 8 in arithmetic. 44 in the infant department had been receiving Kindergarten instruction. They appeared to advantage and sang very nicely. Order and attention very good.

Industrial training.—There were 16 girls in the well-managed training home, whose preparation for domestic service includes lessons in cookery. About 24 work in the two laundries. All the girls learn to sew, and some very good specimens of their work were on view. A new industry had been introduced in the shape of machine knitting, and is likely to prove both useful and profitable. The girls get plenty of practice in housework in the various cottages.

Staff.—Several lady managers and a lady superintendent. Resident chaplain, Rev. H. Brown Gold; secretary, Miss Bates and two assistants;

schoolmistress, Miss Cruickshank; assistant ditto, Miss Pilcher; sewing-mistress, Miss Feisner; matron of training home, Miss Finlay; store-keeper, nurse, housekeeper, four laundresses, dressmaker, stocking knitter, and 16 mothers of homes.

Average number maintained, 184. Total cost for 1894, 3,059*l.* 12*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 12*s.* 6*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 10*s.* 8*d.*

Industrial profits, 225*l.* 9*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 53 discharged in 1891–93, there are doing well 41, dead 2, doubtful 8, unknown 2.

St. Mary's Industrial School for Roman Catholic Girls, Wellesley Road, West Croydon, Surrey.

Inspected November 9, 1894. Visited May 14, 1894.

Number of inmates on day of inspection, girls, 101; of these 100 under legal detention, 1 on the voluntary list.

State of premises.—The house and premises were in excellent order. Dormitories well-ventilated and wholesome; good sickroom; large garden and good playroom; a detached infirmary in case of need; there is an efficient laundry. Accommodation suitable and convenient.

Health and general condition.—The girls looked bright and healthy; a few delicate children; some of them not very strong on admission; one case of abscess, one tubercular peritonitis; one discharged, consumptive; one case of phthisis; one girl lying ill on day of inspection. The elder girls looked very well. The children receive careful attention.

Conduct and discipline.—The report as to conduct throughout the year was favourable. A good spirit prevailed. There had been very little punishment. One serious case of improper behaviour; a few ordinary faults of disorder, idleness, and neglect of duty. I found the girls in very good order and well-disposed.

Educational state.—This is well attended to. 13 in Standard Five: girls doing well; 1 weak in oral spelling, 1 in arithmetic. 6 in Standard Six: a very intelligent class; no failures. Geography of England in Sixth and Fifth. 11 in Standard Four: no failures but 1 in arithmetic; arithmetic the weakest subject. 17 in Standard Three: a very fair class and good progress; 2 failed in dictation, 1 in arithmetic; recitation good. 20 in Standard Two: class doing well. 16 in Standard One: all making way. 18 in preparatory class: very young; all receiving instruction; girls quiet and well-behaved.

Industrial training.—Very good needlework, knitting, and embroidery. The girls make their own clothing. There is a good laundry which occupies some of the elder girls. The girls help in the kitchen and scullery. Lessons in plain cooking should be provided.

Staff.—Sister Superior and six Sisters of the Order of Mercy; cook, laundress, and assistant ditto; gardener. A chaplain attends the school regularly.

Detailed Reports.

Industrial Schools.

Average number maintained, 100. Total cost for 1894, 1,654*l.* 4*s.*

Sussex.

Brighton and Preston School Board Industrial School for Boys, Chailey Common, near Lewes.

Inspected September 26, 1894.

Number of inmates on day of inspection, boys, 60.

State of premises.—The school is healthily situated and of picturesque appearance. The building is old-fashioned, but comfortable, and turned to good account. The top floors show signs of age, and additional means of escape in case of fire should be provided therefrom. Every part clean and well kept. There are about 13 acres of land mostly cultivated as a market garden. Three cows are kept and about 20 pigs. Besides the usual play-yard the boys have the advantage of the common for cricket, &c.

Health and general condition.—Very good. One boy with congestion of the liver was getting better; one or two severe colds, one of swollen glands, and one of abscess. No other serious illness during the year. The boys looked healthy and well cared for.

Conduct and discipline.—A fairly long list of minor offences, but no very severe punishments. A few cases of bullying and thus causing new-comers to abscond. Some cases of wilful damage, idleness, using bad language, misbehaviour in schoolroom and in church. The boys appeared to be well under control.

Educational state.—12 in Standard Five: very fair reading and writing; all passed in dictation; 3 failed in arithmetic. 13 in Standard Four: very fair work; only 1 failure in arithmetic. 16 in Standard Three: very fair reading and writing; 3 failures in dictation; sums well done. 10 in Standard Two: good reading and writing; 2 failures in dictation; all passed in arithmetic. 7 in Standard One: all making satisfactory progress. 1 new boy in preparatory class receiving proper attention. Geography of England in three upper standards. There had been one or two changes of teachers during the year, and the present schoolmaster had only recently been appointed. The boys sing well by note, and some of them sing in the choir of the parish church. Order and attention very good.

Industrial training.—Great interest is taken in the garden, which with the meadow and stock gives employment to several of the boys. 8 work in the tailor's shop and make all the necessary clothes. There is a good carpenter's shop and a class for manual instruction. The boys are useful in the house, kitchen, and laundry. There is a very good band.

Staff.—Superintendent and matron, Mr. and Mrs. H. J. Glover; schoolmaster, Mr. Rowley; Mr. Spence has charge of the tailor's and joiner's shop; gardener, labourer.

Average number maintained, 58. Total cost for 1894, 1,245*l.* 8*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 9*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 23*l.* 2*s.* 3*d.*

Industrial loss, 38*l.* 17*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 48 discharged in 1891–93, there are doing well 38, dead 1, doubtful 1, convicted of crime or recommitted 5, unknown 3.

WARWICKSHIRE.

Penn Street Industrial School for Boys, Deritend, Birmingham.

Inspected August 2 and 3, 1894. Visited November 30, 1894.

Number of inmates on day of inspection, boys, 60; girls, 2; 11 on license; 2 in infirmary.

State of premises.—The house and premises were in good working order. They are situated in the heart of a crowded and smoky neighbourhood. But in spite of all drawbacks the whole place was bright and cheerful. Dormitories clean and comfortable. Some good workshops; wash-house rather poor.

Health and general condition.—Very fair health generally. One death from consumption, one dyspepsia, seven cases of influenza at the end of 1893, and some cases of pneumonia, one bad knee-joint, one ulcer of cornea, one lacerated wound, and one rheumatism, both in infirmary. The boys looked bright and active, and were in very good spirits.

Conduct and discipline.—The school had been going on quietly without any excess, serious insubordination, or misconduct. About the same number as usual of faults and offences. Some cases of impudence to officers, idleness, bad temper, lying, smoking, deceit. Two cases of absconding, some cases of quarrelling and bullying, but nothing outrageous. Boys well in hand, ready and willing and well disposed.

Educational state.—Very fair. 15 in Standard Five: very fair work; 3 weak in dictation; all passed in arithmetic but 1; recitation fair. 14 in Standard Four: all exercises fairly done; no great defect; boys making good progress. 18 in Standard Three: with one or two exceptions the class did well, all improving, one or two backward. 8 in Standard Two: 1 weak in reading and spelling, 1 in dictation, 1 in arithmetic; the rest doing well. Boys orderly, quiet, and well-behaved.

Industrial training.—20 in the wood-chopping; 5 with the shoemaker. There is a resident carpenter, who employs 7 or 8 boys in general wood-work. 10 work with the tailoress, and make all the clothing, shirting, &c. 6 knitters and darners. Some of the elder boys

Detailed Reports.

Industrial Schools.

are employed as out-workers as half-timers, and get permanent employment in this manner. The carpenter's shop was making good progress.

Staff.—Superintendent and matron, Mr. and Mrs. E. A. Francis; schoolmaster, Mr. H. Rule; shoemaker, carpenter, tailoress, and cook.

Average number maintained, 58. Total cost for 1894, 962*l.* 4*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 11*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 5*s.* 1*d.*

Industrial profits, 113*l.* 8*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 47 discharged in 1891–93, there are doing well 40, convicted of crime or recommitted 4, unknown 3.

Birmingham Town Council Industrial School for Boys, Shustoke, Coleshill.

Inspected July 30, 1894.

Number of inmates on day of inspection, boys, 148, and 1 on license.

State of premises.—No alterations since last year, in very perfect order. There is a farm of about 105 acres, strong land, a good garden, and good workshops. There is a large swimming-bath heated by steam. Gas is made in the premises. There are good farm buildings. The dairy is particularly well arranged.

Health and general condition.—The last year had been an unusually healthy one. 16 light cases of influenza, a case of synovitis, and a broken arm were all the cases worth mentioning. The boys looked very well.

Conduct and discipline.—Several minor offences had been recorded, but nothing serious. There is a good mark system, and scarcely any punishment had been necessary during the year.

Educational state.—I found 55 boys in Standard Five: a good class, very good work, and no failures. 34 in Standard Four: another good class, no failures. 35 in Standard Three: a good class, only one failure in arithmetic. 16 in Standard Two: no failures, very good work. 8 in Standard One: doing very well, all writing neatly and legibly on paper. Order and attention excellent. All are taught drawing. At the last examination by Inspector of Science and Art Department the report on their work was "Excellent."

Industrial training.—40 learn tailoring, 6 carpentering, 18 shoemaking. A large number work on farm and in the garden, the soil is too heavy to be suitable for boys' working. Some work in house, kitchen, and laundry. Bread is baked on the premises. There is a drum and fife band of 44 boys. The boys are taught to sing.

Staff.—Superintendent and matron, Mr. and Mrs. F. Horth; assistant matron, Miss H. Horth; schoolmasters, Mr. Bolton, Mr. Ashcroft, Mr. Smith; tailor, two shoemakers, carpenter, baker and cook, labour-master, yardman, cowman, waggoner, laundress, and servant.

Average number maintained, 149. Total cost for 1894, 2,718*l.* 7*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 4*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 18*l.* 6*s.* 5*d.*

Industrial profits, 74*l.* 6*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 97 discharged in 1891–93, there are doing well 88, doubtful 3, convicted of crime or recommitted 3, unknown 3.

Gem Street Industrial School for Boys, Birmingham.

Inspected July 27, 1894. Visited November 30, 1894.

Number of inmates on day of inspection, boys, 150, and 13 on license.

State of premises.—In very good order. The only addition had been a sitting-room for the officials. The different rooms are comfortable and well-ventilated. The situation does not seem very good, but there can be no complaints on the score of its being unhealthy. The premises could not be made more of, they have much improved of late years.

Health and general condition.—The boys had been remarkably free from illness of any kind. A boy had had a finger injured whilst wood-chopping, rendering amputation necessary. All the boys who required it had been re-vaccinated. There is a comfortable sickroom.

Conduct and discipline.—There had been one attempt to abscond; the general conduct had been excellent, and there had been very little occasion for punishment. A mark system is of great use in maintaining discipline. Last year the boys were taken in two detachments to Aberystwyth for a week each. This year they are all going for 10 days or a fortnight to Llandilo. Bad conduct would cause a boy to be left behind, and the fear of losing the annual holiday, no doubt, does much towards keeping boys on the good-conduct list.

Educational state.—There were 21 boys in Standard Five: reading, writing, dictation, arithmetic, and knowledge of geography of England, very good, only one boy failed to do his allowance of sums correctly. 49 in Standard Four: a very good class, only 1 failure in dictation, from carelessness, very good work. 37 in Standard Three: reading and writing very good; 1 failure in dictation, 5 in arithmetic; in this Standard and the one senior to it good geography of England. 25 in Standard Two: all very good except 4 in arithmetic. 13 in Standard One: coming on very well. 4 in a preparatory class, one over a year in the school, very dull and backward; the rest new-comers. Order and attention excellent.

Industrial training.—There were 24 tailors, 16 shoemakers, 40 woodchoppers, 11 out-workers, principally in brass-casting works. Some were employed in house, laundry, and kitchen. There was a brass and reed band of 24 boys. I saw a squad at dumb-bell drill. The boys are taught to sing.

Staff.—Superintendent and matron, Mr. and Mrs. Kirk; assistant matron, Miss Mitchell; schoolmasters, Mr. Robertson, Mr. Chester; tailor, shoemaker, van-driver, bandmaster, cook, and laundress.

Average number maintained, 150. Total cost for 1894, 2,454*l.* 17*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 7*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 1*s.*

Industrial profits, 410*l.* 17*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 106 discharged in 1891–93, there are doing well 79, dead 2, convicted of crime or recommitted 8, unknown 17.

Coventry Industrial Home for Girls, Leicester Street, Coventry.

Inspected July 27, 1894.

Number of inmates on day of inspection, girls, 29, and 2 on license.

State of premises.—Some addition had been made to the premises, providing a new sickroom, the former one having been utilized as a sewing-room. Several useful additions. There is a large laundry, and a good play-yard. I found all in very good order.

Health and general condition.—Since December the health had been very good, hardly anything to complain of. One case of heart disease; one paralytic. In November the school suffered from an attack of influenza of a light character, but nearly all the girls were affected.

Conduct and discipline.—I was glad to hear that the girls had given very little reason for complaint. A few reports for dirty habits, wilful and wanton mischief, deceit, and untruthfulness. The girls had an improved appearance.

Educational state.—Fair. 7 in Standard Five: good reading and oral spelling; dictation and handwriting good; arithmetic only fair, 2 failures; recitation good. 10 in Standard Four: 2 or 3 weak in spelling; 2 failed in dictation; 2 in arithmetic. 4 in Standard Three: 1 weak in spelling and dictation; 1 failed in arithmetic. 4 in Standard Two: with one exception the girls did well. 3 in Standard One: making fair progress. The girls sing nicely. Order good.

Industrial training.—There was a creditable display of needlework and knitting. The girls make their own dresses. The elder girls assist in the kitchen and laundry. Some of the elder girls continue to have lessons in plain cookery. I saw creditable specimens of their skill. The girls went through physical drill very smartly.

Staff.—Superintendent, Mrs. Goulding; schoolmistress, Miss E. Pattinson; one assistant in the kitchen; occasional help in the laundry.

Average number maintained, 30. Total cost for 1894, 682*l.* 12*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 15*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 22*l.* 15*s.* 1*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 20 discharged in 1891–93, there are doing well 14, doubtful 2, unknown 4.

Wilts.

St. Elizabeth's Industrial School for Roman Catholic Girls, Exeter Street, Salisbury.

Inspected June 22, 1894.

Number of inmates on day of inspection, girls, 108; of these, 63 were committed cases, the remainder on the voluntary list.

State of premises.—I found house and premises in their usual condition of good order. The accommodation is very good, and the children are properly provided for. There is a large garden and abundance of room for recreation. Well-fitted laundry with plenty of good work. The school was doing well, and the general aspect encouraging.

Health and general condition.—The girls had a very healthy appearance, and looked bright and cheerful; one death from phthisis; one case of pneumonia and congested lungs; two case of measles; very little serious illness. Medical report favourable.

Conduct and discipline.—The school had been carried on without any serious disturbance. A few complaints of disobedience, impertinence, show of temper, and forgetfulness; a few cases of idleness and neglect of work. Nothing much but childish faults and failings. The elder girls appeared to advantage. The school is carefully and judiciously managed and continues to do well.

Educational state.—This is well attended to. 17 in Standard Five: an intelligent and well-taught class; good English composition and recitation; 1 only weak in arithmetic. 19 in Standard Four: a very good class, work well done, but a few defective in arithmetic. 16 in Standard Three: class did well, no failures, carefully taught. 16 in Standard Two: all getting on well, 2 weak in arithmetic. 8 in Standard One, making good progress. 6 in preparatory class and a few infants. The girls gave me some good exercises in tonic sol-fa and satisfied me in sight-test singing. The girls sing very nicely. Order very good.

Industrial training.—The girls pay great attention to plain sewing, knitting, and woolwork. They make all their own dresses. There was a good display of work in the schoolroom. The elder girls work in the laundry, which is vigorously carried on. Some assist in the kitchen and scullery. The girls do all the house work. Lessons in plain cookery should be provided for.

Staff.—Sister Superior and five Sisters of the Order of St. Vincent de Paul; three pupil-teachers, needlework assistant, laundress, assistant ditto, kitchen-maid, and gardener.

Average number maintained, 108. Total cost for 1894, 1,572*l.* 16*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 11*s.* 3*d.*

Detailed Reports.

Industrial Schools.

Industrial profits, 510*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 19 discharged in 1891–93, there are doing well 16, dead 1, unknown 2.

YORK.

Hull School Board Industrial School for Girls, Hull.

Inspected August 3, 1894.

Number of inmates on day of inspection, girls, 52, of whom 8 were Roman Catholics.

State of premises.—In very good order. The buildings are very well arranged, and complete with every modern appliance. A new staircase has been opened out of infirmary to provide means of escape in case of fire. There is a good playground, play-shed, and garden.

Health and general condition.—There had been one case of scarlatina and one of pleurisy, and ten slight cases of influenza. With the above exceptions there had been nothing in any way serious. The girls looked healthy, but not so tidy as I have seen them.

Conduct and discipline.—The general conduct had not been good, there had been a great many cases of absconding and insubordination; two cases of striking a mistress, three cases of absconding from situations; no less than 18 girls had absconded in one week. There had been a great many cases of bad language and insolence, and five of stealing, but on the whole the conduct was improving when I visited the school. There had been no absconding since February, and the manners of the girls were decidedly better than when I last saw them.

Educational state.—The order and attention were good, a change for the better since last year. There was much room for improvement in the schoolroom. There were only 2 girls in Standard Five: reading good; writing and dictation fair; both girls failed in arithmetic. 5 girls in Standard Four: reading good; writing 3 fair and 2 indifferent. 3 failures in dictation, 4 in arithmetic. 16 in Standard Three: reading, with one exception, good; some of the writing was good; 3 failures in dictation, 7 in arithmetic. 11 in Standard Two: reading very fair; writing 2 good, the rest only fair; 2 failures in dictation, 8 in arithmetic. 15 in Standard One: some of the girls read fairly; spelling backward; writing very fair; 6 failures in arithmetic. 10 had been over a year in the school, 3 over two years, a very backward class. 2 in preparatory class, one a new girl, one over a year in the school.

Industrial training.—The girls are taught to sew and knit, make all their own clothes, help in the house, kitchen, and laundry, and are generally trained with a view to domestic service.

Staff.—Superintendent, Miss Atkin; schoolmistress, Miss Wass; sewing-mistress, cook, laundress, and gardener.

Average number maintained, 52. Total cost for 1894, 1,112*l.* 14*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 21*l.* 8*s.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 1*s.*

Industrial profits, 70*l.* 0*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 52 discharged in 1891–93, there are doing well 41, doubtful 8, unknown 3.

"Southampton" Industrial School Ship, Hull.

Inspected August 3, 1894.

Number of inmates on day of inspection, boys, 211; of these 2 were voluntary cases, and 30 were away on board the tender.

Roman Catholic boys are received into this ship.

State of premises.—In excellent order, thoroughly clean, decks well ventilated, bilge sweet. The ship had been in dry dock in April, and about 700*l.* had been spent on her, repairing her bottom, re-sheathing the bows, and caulking.

Health and general condition.—One boy had been drowned; he fell overboard between the tender and the ship, the tide was running strong, and it is supposed that he hit his head in falling; his body was found at Paul, some miles down the river, no one was to blame; an inquest was held on the body. Two boys had been discharged, suffering from general debility. There had been a few cases of influenza, no very serious cases; general health excellent, and the boys were looking well in every respect. One boy was in the infirmary with hip disease. The sick bay is not very large, but all bad cases are sent on shore to the Hull Infirmary.

Conduct and discipline.—Very good. There had been two cases of absconding. Nothing else worth reporting, punishment is reduced to a minimum, and discipline is well maintained. The schoolmaster is allowed a limited use of the cane, but had only used it twenty-four times in the year, and only two boys (the absconders) had been birched. The mark system is the same as in previous years.

Educational state.—I examined the starboard watch. In Standard Five were 35 boys, reading good, writing very good; 31 passed in dictation and 28 passed in arithmetic; geography of England was being taught. 36 in Standard Four, 60 in Standard Three, 22 in Standard Two: reading and writing good, 2 failed in dictation and 12 failed in arithmetic. 33 in Standard One: about 10 boys were backward; writing was generally fair. Order and attention were very good.

Industrial training.—There were the usual classes for nautical instruction, in which the watch out of school were employed. Boats for rowing; a tender, a three-masted schooner, the "Ripple," of about 100 tons. 8 boys were employed in a tailor's shop under the instruction of two seamstresses, 4 boys were learning shoemaking, and 4 worked with the carpenter. There is a good band.

General remarks.—Since the last inspection three boys had been accepted in the Royal Navy.

Staff.—Superintendent, Admiral Broad; chief officer, Mr. Hobbs; schoolmasters, Mr. Bushby and Mr. Waddington; second officer,

Detailed Reports.

Industrial Schools.

four seamen instructors, gunnery instructor, bandmaster, the crew of the "Ripple," carpenter, cook, two seamstresses, shoemaker.

Average number maintained, 215. Total cost for 1894, 5,254*l.* 15*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 8*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 24*l.* 13*s.* 11*d.*

Industrial profits, 23*l.* 14*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 181 discharged in 1891–93, there are doing well 134, dead 4, doubtful 19, convicted of crime or recommitted 6, unknown 18.

Leeds School Board Industrial School for Boys, Shadwell, Leeds.

Inspected July 31, 1894.

Number of inmates on day of inspection, boys, 172; of whom 48 were Roman Catholics, for whose religious instruction due provision is made, one of the officials is always a Roman Catholic; 50 on license.

State of premises.—In very good order. The dormitories are large and well ventilated. The schoolroom should be larger. There are good shops, a large and very productive garden, and a good playfield, about 25 acres in all, of which 20 belong to the school, and 5 are rented.

Health and general condition.—There had been one case of scarlet fever, a few mild cases of influenza, two of bronchitis, one fractured rib, and one case of concussion of the brain from a fall from a swing. General health had been very good. There was one lad in the sickroom recovering from pneumonia. The general appearance of the boys was very satisfactory.

Conduct and discipline.—The boys had given no trouble, there was no record of any serious misconduct. There had been very little occasion for corporal punishment, and the few punishments there were, were very light.

Educational state.—There were 54 boys in Standard Five: reading very fair, writing generally good; 2 failures in dictation, 1 in arithmetic; recitation good; geography of Europe good. 32 in Standard Four: only 2 failures in arithmetic, reading very fair, writing generally very good, geography of Scotland good. 49 in Standard Three: moderate reading, good writing and dictation; 3 failures in arithmetic; geography of England. 24 in Standard Two: very fair reading, good writing; 5 failures in dictation, 6 in arithmetic; definitions of geography. 14 in Standard One: coming on very well. Recitation in all classes. Order and attention excellent.

Industrial training.—40 boys were employed in the tailor's shop, 30 in the shoemaker's, 18 in the carpenter's shop, where, for the first

time, I found a lathe; 30 gardeners; some employed in the house, kitchen, and laundry. All the bread is made on the premises. There is a good band of 24 performers. I saw the boys at drill, they were very steady. and marched well. Two boys had been emigrated to Winnipeg, both are in good situations, and likely to do well. Of the 172, 51 were Elementary Education Act cases, sub-section 2; 21 had been sent under sub-section 1, and the remainder were Industrial School Act cases.

Staff.—Superintendent and matron, Mr. and Mrs. Dimery; schoolmasters, Mr. Broadbelt and Mr. Day; bandmaster, tailor. joiner. shoemaker, farm bailiff, gardener, labourer, assistant seamstress, cook, laundress, domestic.

Average number maintained, 171. Total cost for 1894, 2,937*l.* 11*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management 17*l.* 3*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 0*s.* 2*d.*

Industrial profits, 422*l.* 1*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 234 discharged in 1891–93, there are doing well 209, dead 3, doubtful 8, convicted of crime or recommitted 12, unknown 2.

Leeds Industrial School for Girls, Windsor Street, York Road, Burmantofts, Leeds.

Inspected June 8 and 9, 1894.

Number of inmates on day of inspection, girls, 82; and 14 on license.

State of premises.—I found every department of the house in excellent order. Dormitories clean and wholesome and well ventilated. Good lavatory and laundry. Good dayroom and sickroom. Open yard and good play-shed. The girls are properly provided for. The use of the basement is somewhat objectionable.

Health and general condition.—The report of the medical officer was satisfactory, but there had been some doubts about the sanitary arrangements. One bad knee, a few swollen glands, one feverish attack; six or seven cases of tonsillitis, arising probably from defective drainage. A few cases of enlarged glands, some constitutional weakness, one case of concussion. The girls looked hearty and well and were in very good spirits.

Conduct and discipline.—The school deals with some difficult cases, and discipline has to be carefully maintained. Some instances of insolence and unruliness, show of temper and sulkiness, rudeness, idleness, and wanton mischief. I found the girls in good order and the school working steadily and successfully. The girls behaved very well.

Educational state.—Well attended to. 15 in Standard Five: a well-taught class; no failures; good recitation and geography. 9 in Standard Four: no failures; very creditable work; good recitation. 11 in Standard Three: the class did well; very careful work. 20 in Standard Two: the children gave me much satisfaction; the work was well done, and the children had been properly taught. 13 in Standard One: all getting on well. 6 in preparatory class recently admitted. Girls most quiet and orderly.

Industrial training.—There is a good workroom. Proper attention paid to needlework and knitting. Good specimens were exhibited. The girls make shirts and socks for a boys' school. The elder girls assist in the kitchen and laundry. A class continues to receive lessons in plain cooking. I had the pleasure of seeing good results of their handiwork, which were creditable.

Staff.—Superintendent, Miss M. Highmoor; assistant ditto, Miss James; assistant teachers, Miss Simpson and Miss Mitchell; cook and laundress. Miss Simpson also takes the sewing.

Average number maintained, 84. Total cost for 1894, 1,321*l.* 7*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 11*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 8*s.*

Industrial profits, 144*l.* 11*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 65 discharged in 1891–93, there are doing well 54, doubtful 5, convicted of crime or recommitted 1, unknown 5.

York Industrial School for Boys, Marygate, York.

Inspected June 9, 1894.

Number of inmates on day of inspection, boys, 120 under detention, of whom 1 was a voluntary case; 28 on license.

State of premises.—In very good order. The buildings are suitable and comfortable, but the situation is bad and the playground far too small. There is a playfield about a quarter of a mile from the school. The sickroom is small and not very cheerful.

Health and general condition.—There had been one death from meningitis and one from phthisis. There had been two cases of chicken-pox, one of shingles, two of febricula, one of conjunctivitis, one of synovitis. The general health had been very good; the boys looked fairly well, but there is no doubt they would do better if the school could be moved into the country.

Conduct and discipline.—There had been a great many cases of absconding, two boys had absconded three times each; in all there had been twenty cases. The general conduct seems to have been good, and there had not been much punishment.

Educational state.—In Standard Five there were 9 boys: reading, writing, dictation, and arithmetic good; no failures. 20 in Standard Four: 2 failures in dictation, 3 in arithmetic; writing and reading good. 31 in Standard Three: 1 failure in dictation, 4 in arithmetic; reading and dictation, good. 33 in Standard Two: 1 failure in dictation. 18 in Standard One: 1 failure in arithmetic. 9 in preparatory class, two of whom had been over two years in the school. Order and attention good. There were some good voices amongst the boys. The singing was good.

Industrial training.—There were 12 boys in the turning shop, with 7 lathes, who receive good practical training and are able to get good wages immediately they are discharged; 12 carpenters—the shop too small and not well lighted; 12 shoemakers, 12 tailors. The smaller boys are employed in chopping firewood. Bread is baked on the premises. There is a small garden. There were 20 boys in a brass band and some others learning.

General remarks.—In the summer all the boys had been taken to Scarborough for a week. They were lodged in one of the school buildings. They behaved very well, and were lucky in having fine weather.

Staff.—Superintendent and matron, Mr. and Mrs. Busby; school masters, Mr. Phillips, Mr. Shaw; turner, tailor, shoemaker, carpenter, labour-master, bandmaster (occasional).

Average number maintained, 120. Total cost for 1894, 2,128*l.* 13*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 4*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 12*s.* 2*d.*

Industrial profits, 238*l.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 87 discharged in 1891–93, there are doing well 73, doubtful 3, convicted of crime or recommitted 4, unknown 7.

York Industrial School for Girls, Lowther Street, York.

Inspected June 9, 1894.

Number of inmates on day of inspection, girls, 49, and 1 on license

State of premises.—In perfect order, no place could be cleaner or neater. The sickroom is rather small. There is a large playroom over the schoolroom. Good laundry accommodation and a small garden.

Health and general condition.—One girl had been discharged, suffering from heart disease; one case of gastric irritation, one of bronchitis, and a few slight cases of influenza; general health very good. The girls looked clean and happy. In September all the girls were taken to Scarborough for a week's holiday.

Conduct and discipline.—A few ordinary cases of idleness, disobedience, and neglect of work; nothing serious. The girls had given no trouble. They are quietly and judiciously managed.

Educational state.—The Diocesan Inspector had left a very satisfactory report on the religious knowledge of the girls. I found them very well-behaved, orderly, and attentive during the examination. There were 10 girls in Standard Five: a very good class; no failures; good reading, writing, dictation, arithmetic, recitation, and geography. 10 in Standard Four: a very good class; no failures. 12 in Standard Three: 2 failures in arithmetic; very good work in both classes; recitation and geography. 11 in Standard Two: 2 failures in dictation, 1 in arithmetic; good writing, very fair reading. 4 in Standard One: one a backward girl, three years in the school. 2 in a preparatory class. The schoolroom work receives great attention.

Industrial training.—The girls are trained for domestic service, help in house, kitchen, and laundry, and are taught to sew and knit. They make all the shirts and socks for the boys' school, and all their own clothes. They bake their own bread.

Staff.—Superintendent, Miss Neale; assistant matron, Miss Amos; schoolmistress, Miss Noyes; an industrial matron.

Average number maintained, 50. Total cost for 1894, 841*l.* 10*s.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 16*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 2*s.* 4*d.*

Industrial profits, 78*l.* 17*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 33 discharged in 1891–93, there are doing well 23, dead 2, doubtful 1, unknown 7.

Middlesbrough School Board Industrial School for Boys, Linthorpe, Middlesbrough.

Inspected May 26, 1894.

Number of inmates on day of inspection, boys, 55; on license 10.

State of premises.—The upper part of the house and the roof were in bad order, and the buildings generally were not in good repair. There is a very good garden. The rooms were clean and neat. There is a canvas shoot on the upper floor for escape in case of fire; new buildings are comtemplated; more land has been taken in and added to the garden, which now contains $2\frac{3}{4}$ acres, all worked with the spade.

Health and general condition.—Very good, only one case worth noticing, that of a boy in hospital with a bad arm. The situation appears a very healthy one.

Conduct and discipline.—There had been two cases of absconding. The general conduct had been very good, and there had been scarcely any occasion for punishment. Boys can earn from 1*d.* to 3*d.* a week, monitors 4*d.* a week. The money so earned is banked to them, and given in instalments after discharge.

Educational state.—All the boys learn to sing and draw. There were 13 boys in Standard Five: very good reading and dictation; good writing; 2 failures in arithmetic; good recitation. 13 boys in Standard Four: no failures, good recitation. 11 in Standard Three: no failures, good recitation. 10 in Standard Two: no failures, good work. 6 in Standard One: getting on well; order and attention excellent. The boys sing in the choir in church. Since the last inspection 9 boys have been sent to Canada.

Industrial training.—I found 14 boys in the tailor's shop, 6 in the shoemakers; 2 were employed in the bakehouse, from which excellent bread is turned out; 10 boys were chopping firewood. A good many are employed in the garden, some in housework; a brass band was about to be started, towards which object the committee had voted 80*l.*

Staff.—Superintendent and matron, Mr. and Mrs. Tarrant; schoolmaster, Mr. Swanson; shoemaker, tailor, cook, and laundress.

Average number maintained, 56. Total cost for 1894, 1,272*l.* 3*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 22*l.* 14*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 21*l.* 16*s.* 7*d.*

Industrial profits, 68*l.* 7*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 37 discharged in 1891–93, there are doing well 28, dead 1, doubtful 2, convicted of crime or recommitted 1, unknown 5.

Shibden Industrial School for Roman Catholic Boys, near Halifax.

Inspected August 2, 1894.

Number of inmates on day of inspection, boys, 149, and on license 30.

State of premises.—I found the premises in excellent order. There are very good workshops, dormitories, swimming-bath, lavatories, schoolroom, and garden. There is unusually good infirmary accommodation. Good bakehouse, and a nice chapel. A good playground and large shed in it. There is telephone communication with Halifax.

Health and general condition.—There had been two deaths, one from intersusception of bowels, one from epileptic convulsions. There had been a case of pneumonia, several cases of bad eyes, and one case of fractured elbow. The general health had been very good, and the boys looked very well and bright.

Conduct and discipline.—There had been two cases of absconding, no other misconduct worth reporting. The boys seem well managed, firmly but kindly.

Educational state.—There were 22 boys in Standard Five: reading good, writing fair; 5 failures in dictation, 1 in arithmetic; geography

of England is taught. 31 in Standard Four: 4 failures in dictation, 4 in arithmetic; reading very fair, some good; writing uneven, some very good, some only moderate. 36 in Standard Three: very fair reading; coming on very well in their writing; 1 failure in arithmetic. 23 in Standard Two, 32 in Standard One: doing very fairly. 4 in a preparatory class. Order and attention very good.

Industrial training.—This is being well attended to and improvement is visible every year. 15 tailors, 13 shoemakers, 5 printers, 4 bakers, 32 in the carpenter's and turner's shops, where 12 turning lathes have been placed, and several other useful wood-working machines. 8 boys work in a neighbouring brick and tile yard. Some help in house, laundry, and kitchen. 3 boys had been emigrated to Canada. I saw a very good report of the religious knowledge of the boys left by the Diocesan Inspector.

Staff.—Superintendent, the Rev. T. Worthy; assistant superintendent, Mr. Curran; matron, Mrs. O'Flaherty; schoolmaster, Mr. Mathieson; assistant do.; turners (3), tailor, shoemaker, baker, printer, gardener, laundress, knitting mistress.

Average number maintained, 156. Total cost for 1894, 2,444*l.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 13*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 2*s.*

Industrial profits, 39*l.* 11*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 119 discharged in 1891–93, there are doing well 91, dead 2, doubtful 2, convicted of crime or recommitted 8, unknown 16.

St. Joseph's Industrial School for Roman Catholic Girls, Howard Hill, Sheffield.

Inspected May 17, 1894.

Number of inmates on day of inspection, girls, 98.

State of premises.—The school is very favourably situated on high ground, and in a good locality, on the outskirts of Sheffield. The accommodation is very good. The rooms are lofty and airy. The children are very well provided for. Better bathing accommodation is much needed. There is an excellent laundry, well supplied with work. Good playground and large garden.

Health and general condition.—Very fair. The children looked healthy and well cared for. A few acute cases. Some of the children very feeble on admission. A few cases of bronchitis and ophthalmia; some glandular swellings. One case of epilepsy; two cases of scarlet fever in the year sent to hospital. One erysipelas, one eczema capitis, one general debility, one case of pleurisy, one broncho-pneumonia, one strumous debility, one case of rheumatism, one acute bronchitis. Sanitary arrangements good.

Conduct and discipline.—School going on steadily. Some ordinary cases of quarrelling, idleness, neglect of work, disobedience, causing disorder in dormitory, ill-using other girls, rudeness, and disrespect. With these exceptional faults now and then, girls improving, and well-disposed. All quiet and well-behaved on day of inspection.

Educational state.—This is well attended to. 15 in Standard Five: an intelligent class, making good progress; good English composition; recitation very good; 1 weak in arithmetic. 14 in Standard Four: class gave me full satisfaction; very good progress. 24 in Standard Three: 2 weak in reading and spelling; arithmetic very good. 20 in Standard Two: class doing well; three or four weak in arithmetic. 18 in Standard One: class getting on; a little weakness in arithmetic. 8 in preparatory class: just beginning to read and spell. Order excellent.

Industrial training.—A good deal of time is devoted to needlework, knitting, &c. Good specimens of the girls' work were presented. The excellent laundry finds plenty of occupation for the elder girls. It is well managed and amply supplied with the better class of articles. A class of the elder girls continue to receive lessons in plain cooking, so desirable in every school of this class. Musical drill is well maintained. The girls assist in the kitchen and scullery, and help in every kind of domestic work.

Staff.—Superintendent, Sister Stephanie, Superioress, with seven Sisters of the Order of St. Vincent de Paul; lay assistance in workroom, schoolroom, kitchen, and laundry.

Average number maintained, 106. Total cost for 1894, 1,541*l.* 16*s.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 10*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 1*s.* 7*d.*

Industrial loss, 210*l.* 14*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 56 discharged in 1891–93, there are doing well 51, dead 2, doubtful 3.

The Beckett Home for Girls, Meanwood, Leeds.

Inspected August 1, 1894.

Number of inmates on day of inspection, girls, 30, of whom 2 were voluntary cases, and 5 on license.

State of premises.—In very good order. The whole premises are on too small a scale. I am glad to say that, since the inspection, plans have been submitted to us of larger and more convenient laundries. A larger schoolroom is wanted. Playground is far too small; the place is too small altogether. The situation is not a very well-chosen one; it must be very bleak and exposed in winter. Every part of the house was beautifully clean and tidy.

Health and general condition.—A few minor ailments, nothing serious. The general health had been good.

Conduct and discipline.—There were some serious exceptions to the general good conduct, and one girl had to be discharged, as her conduct had been such as to render her stay at the school injurious to the other children. There is a mark system by which girls of good conduct can earn small weekly payments.

Educational state.—The girls behaved very well during the examination. There were 6 girls in Standard Four: reading very fair; writing very good; no failures in dictation; 2 failures in arithmetic. 7 in Standard Three: reading, with one exception, very fair; writing, 3 good, 4 only fairly good; no failures in dictation, 1 in arithmetic. 6 in Standard Two: only 1 passed in arithmetic; all passed in other subjects. 5 in Standard One. 5 in a preparatory class. The girls are taught to sing.

Industrial training.—The girls are trained in kitchen, laundry, and housework, and learn to sew and knit.

Staff.—Superintendent, Miss Parry; assistant matron, Miss Hewitt; schoolmistress, Miss Willett; sewing-mistress, kitchen matron.

Average number maintained, 30. Total cost for 1894, 751*l.* 14*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 25*l.* 1*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 25*l.* 5*s.* 1*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 21 discharged in 1891–93, there are doing well 14, doubtful 4, unknown 3.

SCOTLAND.

ABERDEEN.

Aberdeen Industrial School for Boys, Oakbank, near Aberdeen.

Inspected June 6, 1894.

Number of inmates on day of inspection, boys, 245 under detention, and 31 on license.

State of premises.—In perfect order. Extensive, well-arranged, solidly-built buildings, with every convenience. In a very good situation. Large well-lighted, airy dormitories, good gymnasium, good workshops. Excellent sickroom accommodation. Large play-shed, play-field, and garden.

Health and general condition.—There had been one death from diphtheria, two cases of pneumonia, one of bronchitis, one of ophthalmia, one of scarlatina, one of curvature of the spine, one of psoriasis, and three or four scrofulous cases. The general health had been very good, and the appearance of the lads was very satisfactory.

Conduct and discipline.—There had been one attempt at absconding. Very few punishments. General conduct very good. The mark system is the same as in former years; a boy of good conduct can earn from 1*d.* to 1*s.* a month.

Educational state.—There were 41 boys in Standard Five: an excellent class, good work, no failures; a good knowledge of geography of Europe. 38 in Standard Four: only 3 failures in arithmetic. 51 in Standard Three: 1 failure in arithmetic. 39 in Standard Two. 31 in Standard One. 33 in a preparatory class: all doing well. Order and attention excellent.

Industrial training.—There were 24 boys in the net-weaving shop; 37 tailors. Far too much time, which should be devoted to sound industrial training, is devoted to match-making and matchbox-making. All that can be said in favour of these occupations is that it makes the boys quick and active with their fingers, and that it pays very well. There is a prospect of this industry being changed for a more suitable one. 21 boys are employed in house, laundry, and kitchen; 2 boys work at a stocking-knitting machine; 16 work in the garden. There is more land belonging to the school which might advantageously be taken into hand, and added to the garden. I found the garden in excellent order, well worked and well stocked. There is a good brass band of 20 performers, and 15 in a pipers' band.

Staff.—Superintendent and matron, Mr. and Mrs. W. Smith; schoolmasters, Mr. McLeod and Mr. T. Fenwick; schoolmistress, Miss Hay; tailor, gardener, matchbox-maker, drillmaster, bandmaster (occasional), fife major (occasional), nurse, and 4 servants.

Detailed Reports.

Industrial Schools.

Average number maintained, 246. Total cost for 1894, 2,935*l.* 10*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 2*s.* 5*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 16*s.* 9*d.*

Industrial profits, 589*l.* 8*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 131 discharged in 1891–93, there are doing well 114, dead 5, doubtful 4, convicted of crime or recommitted 5, unknown 3.

Aberdeen Industrial School for Girls, Whitehall, Aberdeen.

Inspected June 6, 1894.

Number of inmates on day of inspection, girls, 74, and 3 on license; 12 licensed and discharged since the last inspection; 14 received.

State of premises.—An excellent building, providing substantially for every requirement. Dormitories very airy and commodious. Good kitchen and laundry. Infirmary very suitable. Good lavatory and bathroom; an excellent sewing-room. Situation healthy and airy.

Health and general condition.—The general health had been well kept up. The girls looked bright and cheerful, and were very clean and neatly attired. Medical report favourable. One case of eruption on the skin, one phthisis, one glandular swelling; a few minor ailments.

Conduct and discipline.—The girls had been behaving well. Very few serious complaints. One great rudeness and insubordination; one away without leave; a few girls rather rough and disrespectful. A good system of marks at work and producing excellent results. Ten in the first grade of merit; seven in the second grade; thirteen in the third; sixteen in the fourth; twelve in the fifth grade. Various prizes given in the year for continuous good conduct.

Educational state.—12 in Standard Five: no failures; very intelligent class, and careful work. 15 in Standard Four: one or two weak in spelling; 2 failed in arithmetic; recitation very good. 13 in Standard Three: a good class, well taught and gaining ground. 13 in Standard Two: class doing well; no failures. 7 in Standard One: all doing very well. Girls well-behaved and very attentive. The girls sing correctly and sweetly.

Industrial training.—There is a good laundry and the girls assist in kitchen and house work. A class of elder girls learn plain cooking. Good specimens of needlework and knitting. Four knitting machines at work.

Staff.—Superintendent, Mrs. Anderson; schoolmistress, Miss Buchan; assistant, Miss Forbes; a sewing-mistress and cook.

Average number maintained, 75. Total cost for 1894, 944*l.* 14*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 11*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 18*s.* 2*d.*

Industrial profits, 75*l.* 6*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 27 discharged in 1891–93, there are doing well 21, dead 1, doubtful 1, convicted of crime or recommitted 1, unknown 3.

Aberdeen Female Industrial School, North Lodge, King Street, Aberdeen.

Inspected June 6 and 7, 1894.

Number of inmates on day of inspection, girls, 76, of these 47 under detention, 29 on the voluntary list.

State of premises.—Premises in good order and repair. Dormitories clean, well-aired, and comfortable. Good covered shed and playground. Lavatory and bathroom in the basement; the whole basement floor is not free from objection.

Health and general condition.—Very fair. The children looked healthy, clean, and carefully attended to. A few cases of scabies; some scrofulous abscesses; one case of scarlatina in December last; one case of synovitis; an attack of mild influenza; 40 children affected, but not very seriously; one caries of toe joint; one pleurisy; one phthisis. There is a good sickroom in the building.

Conduct and discipline.—The report as to conduct was satisfactory. Some ordinary cases of impertinence, idleness, disobedience, and neglect of work; one or two out without leave; some a little troublesome and obstinate. I found the children going on well, quiet and well-behaved, cheerful and willing.

Educational state.—This is properly attended to. 16 in Standard Five: all work carefully done; recitation very good; a little more style needed in putting down the arithmetic. 12 in Standard Four: no failures; arithmetic moderate; reading and spelling very good. 12 in Standard Three: not a single failure, work carefully done; recitation very good. 8 in Standard Two: all doing well; very neat work. 7 in Standard One: all getting on well. 18 in two preparatory classes: mostly very young children, under suitable instruction. Girls quiet and good.

Industrial training.—The girls have careful and methodical instruction in sewing and knitting under a sewing-mistress, and help in the kitchen, laundry, and house work. The practical training is useful and effective. The girls drill remarkably well in this school. They also learn to sing very nicely.

Staff.—Superintendent, Miss Melvin; assistant do., Miss M. Melvin; schoolmistress, Miss Cruickshank; assistant do., sewing-mistress, Mrs. Fawns, and one female assistant.

Average number maintained, 77. Total cost for 1894, 958*l.* 0*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 8*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 11*s.* 11*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 23 discharged in 1891–93, there are doing well 22, doubtful 1.

Aberdeen Industrial School for Roman Catholic Girls, Nazareth House, Claremont, Holburn, Aberdeen.

Inspected June 6, 1894.

Number of inmates on day of inspection, girls, 95, 1 on the voluntary list; total 96.

State of premises.—The premises supply suitable and substantial accommodation. Every part of the buildings was in excellent order. Good playground and play-shed. There is a good laundry and a suitable room set apart for an infirmary.

Health and general condition.—Medical report favourable. The children looked healthy, bright, and well cared for. The situation a healthy one and the surroundings good. Two deaths, one from general paralysis, one from phthisis. The children are very feeble on admission, but gain in strength after a few months. No zymotic disease. A few scrofulous cases.

Conduct and discipline.—Conduct had given rise to no particular anxiety. A few of the usual cases of idleness, perversity, sulky and obstinate temper, disorder, and disrespect. Nothing very serious or extraordinary. The general appearance was good. Girls tractable and pleasant.

Educational state.—This continues to receive adequate attention. The work generally was well done, and the intelligence fairly developed. 14 in Standard Five: no failures but one in arithmetic; reading and recitation very good. 16 in Standard Four: 2 weak in arithmetic; the rest very creditable work. 17 in Standard Three: a weakness in oral spelling; dictation well done; all passed in arithmetic. 17 in Standard Two: a very good class; all doing well. 15 in Standard One: progressing well. 15 in a preparatory class; very young. Girls quiet and well-behaved.

Industrial training.—The elder girls assist in the kitchen, laundry, and house work, and help with the little ones. The display of plain work, dressmaking, and knitting was excellent. Some systematic lessons in plain cooking for the elder girls. There is a good laundry.

Staff.—Superioress and three Sisters of the Order of Nazareth; lay assistance in laundry and kitchen; chaplain and director, the Rev. Canon Stopani.

Average number maintained, 93. Total cost for 1894, 953*l.* 13*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 5*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 10*l.* 11*s.* 6*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 40 discharged in 1891–93, there are doing well 35, dead 2, doubtful 1, unknown 2.

Ayr.

Ayr Industrial School for Boys, Commonhead, Ayr, N.B.

Inspected March 13, 1894. Visited September 26, 1894.

Number of inmates on day of inspection, boys, 100, and 5 on license, living in Working Boys' Home, and working in town.

State of premises.—The building is a very useful one, well designed, comfortable, and well built. The accommodation is very good. I found every department in excellent order. A good range of workshops. Good garden and a capital playground. All going on well.

Health and general condition.—Health very fair. Boys not very strong on admission. A few cases of colds and one case of pleurisy; one dislocation of thumb, a few chronic abscesses, one dislocation of shoulder blade, a few cases of ringworm, three or four cases of eczema, and some chilblains. Boys had a clean and tidy appearance.

Conduct and discipline.—Very fair. Several cases of absconding and going home without leave. One bad case of concealing money. Some cases of petty theft and lying. In July and August 1893 several cases of absconding and inciting to abscond; one wilful mischief. Boys quiet and orderly, but a little restless in the year. A change in the superintendence in March 1894, Mr. John Bell succeeding Mr. A. Ross.

Educational state.—Very fair. 14 in Standard Five: reading and spelling very good; writing poor; 4 failures in arithmetic. 12 in Standard Four: a good class; no failures; handwritng capable of improvement. 17 in Standard Three: work creditably performed; well-taught class. 16 in Standard Two: 4 weak in arithmetic; rest of work good; reading very good. 16 in Standard One: class doing very well; good progress. 11 in preparatory class: all beginning to read well; 9 new boys. Order very good.

Industrial training.—The industrial training is carried on vigorously. A very good range of workshops in two floors. 15 working with the shoemaker, making boots for the girls as well as the boys; 8 with the tailor. Some paper-bag making and wood-chopping. 6 boys work with the joiner. There is a lathe at work also. There is an excellent band, and good plot of garden ground with greenhouses.

Staff.—Superintendent and matron, Mr. and Mrs. John Bell; schoolmaster, Mr. Samuel T. Holmes; janitor and joiner, shoemaker, tailor and bandmaster, cook and laundress.

Average number maintained, 100. Total cost for 1894, 1,334*l.* 11*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 6*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 13*s.* 5*d.*

Industrial profits, 9*l.* 7*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 57 discharged in 1891–93, there are doing well 52, dead 1, doubtful 3, convicted of crime or recommitted 1.

Ayr Industrial School for Girls, Carrick Street, Ayr.

Inspected March 13, 1894. Visited September 26, 1894.

Number of inmates on day of inspection, girls, 50, and 1 in hospital.

State of premises.—House and premises in good order, and made the most of, but the accommodation is but of a moderate kind, and there is much need for larger space and a better situation.

Health and general condition.—Very fair. One case of cervical ulcers; one case of scarlatina; one urticaria; one whooping cough; one bronchitis, sent to hospital. Girls had a healthy appearance, and seemed to be thriving; would do better in a more commodious house.

Conduct and discipline.—Fair, but some trouble with the elder girls; some cases of deceit, lying, and impertinence; some wilfulness at times, with disobedience and idleness; occasional fits of bad temper and sulkiness; some rudeness and disrespect; untruthfulness a frequent cause of complaint.

Educational state.—School doing well. 13 in Standard Five: 1 absent in hospital; well-taught class; no failures; good recitation; arithmetic very well done. 5 in Standard Four: all did well. 6 in Standard Three: passed well in all subjects. 5 in Standard. Two: 2 failures in arithmetic; one a very dull girl. 10 in Standard One: class well taught. 12 in infant class; very young; all beginning to read and spell. Girls very well-behaved.

Industrial training.—The girls knit and sew very well. Specimens of work were exhibited. There is a laundry employing 8 of the elder girls. Others help in the kitchen, scullery, and house work. Plain but methodical lessons in cookery are much needed.

Staff.—Superintendent, Miss Laing; schoolmistress, Miss A. M. Brown: assistant matron, Miss McMillan; laundress, Miss Howell.

Average number maintained, 49. Total cost for 1894, 553*l.* 9*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 5*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 15*s.* 2*d.*

Industrial profits, 79*l.* 0*s.* 6*d.*

Results on cases discharged in the three years, 1891, 1892, and 1893.—Of 31 discharged in 1891–93, there are doing well 26, dead 2, doubtful 1, unknown 2.

Kilmarnock Industrial School for Boys and Girls, Portland House, Kilmarnock, N.B.

Inspected March 12, 1894.

Number of inmates on day of inspection, boys, 75; girls, 30; on license, 1 boy.

State of premises.—I found house and premises in excellent order, and every part clean and well kept; dormitories wholesome, well warmed in winter, and ventilated; lavatory and bathroom for the boys too small. The girls have their apartments quite separate, with their own schoolroom and play-yard. Their side of the buildings was clean and comfortable.

Health and general condition.—Health very fair. One or two acute cases; one case of tuberculosis, discharged; one hip disease, to infirmary; one cerebral meningitis, died; one girl chronic enlargement of the glands; in November one case of pneumonia, got better; an epidemic of typhoid fever and influenza had affected the neighbourhood; the school was exempt. Children looked well, and especially the girls.

Conduct and discipline.—The conduct had been good. There had been very few offences of a grave character on the boys' side. A few ordinary offences of disobedience, petty pilfering, idleness, and untruth; two cases of absconding—new boys. Good report from the girls' side also. The children had been doing well, and had given very little cause for complaint.

Educational state.—This is fairly attended to. Boys.—8 in Standard Five: good reading and spelling; 1 failure in dictation; arithmetic poor, 4 failures. 11 in Standard Four: very fair work; 2 weak in arithmetic. 18 in Standard Three: class did well; no failures; good recitation. 12 in Standard Two: all subjects fairly done, but very indifferent arithmetic. 9 in Standard One: class doing well. 8 in preparatory class; beginning to read. 9 in infant class: very young, not doing much. Order very fair. Girls.—The girls gave me satisfaction in their classes. 2 in Standard Five, 4 in Standard Four, 3 in Standard Three, 6 in Standard Two, 9 in Standard One, 6 in preparatory class. The classes were receiving proper attention and were making good progress. Order good.

Industrial training.—Might well be made more of. 12 boys working with the tailor, and a class of juniors knitting and darning socks and repairing shirts. A good deal of wood-chopping is carried on. The industrial training is worth very little. Technical instruction should be supplied and drawing taught in the schoolroom. The girls learn to knit and to sew. They do the laundry work and help in the kitchen and house work. There is a fife and drum band, and there is drill for the boys.

General remarks.—The promise of further technical instruction for the boys has not been as yet fulfilled. The girls also should have systematic technical instruction in the art of plain cookery. What could be more useful for them?

Staff.—Superintendent and matron, Mr. and Mrs. William McMenan; matron for the girls, Miss Davidson; schoolmaster, Mr. William Todd; teacher for girls, Miss Agnes D. Duff; bandmaster and general assistant, Mr. Wm. Davies; tailor, Mr. Pearson.

Average number maintained, 104. Total cost for 1894, 1,525*l.* 5*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management 14*l.* 13*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 12*s.* 3*d.*

Industrial profits, 140*l.* 3*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 52 boys and 24 girls discharged in 1891–93, there are doing well 47 boys and 22 girls, dead 2 boys, doubtful 2 boys, convicted of crime or recommitted 1 boy and 2 girls.

Dumbarton.

The Training Ship "Empress," Industrial School Ship, off Row, Helensburgh.

Inspected May 31, 1894.

Number of inmates on day of inspection, boys, 371 under detention and 2 on license.

State of premises.—In excellent order. No ship under inspection has more accommodation or is better managed. The old engine-room has been utilised as a recreation room. There is a comfortable sick bay and isolation ward. There is a playfield on shore. The ship is lighted all over with the electric light.

Health and general condition.—There had been three deaths, one from drowning, one from pyæmia, one from pleurisy; one boy had been discharged as physically unfit for industrial training. There had been one case of concussion of the brain, caused by a fall from the rigging. There had been some few minor ailments. The general health had been excellent, and the boys looked thoroughly healthy and cheerful. I have never seen a better lot of boys.

Conduct and discipline.—Very good. There had been two cases of absconding. The boys had given no trouble, and there had been very much less punishment than there used to be. Badges, carrying pay, are given for good conduct.

Educational state.—Order and attention very good. I examined the starboard watch, and was quite satisfied with the result of the year's work in the schoolroom. 26 in Standard Five: very good class, no failures; geography of Europe was presented as an extra subject. 39 in Standard Four: only 2 failures in dictation and 1 in arithmetic; very good reading; very fair writing; geography of Scotland and part of England. 31 in Standard Three: 4 failures in arithmetic, none in other subjects, a fair knowledge of the geography of Scotland. 23 in Standard Two, 27 in Standard One, 5 in a preparatory class, all coming on well. All the boys are taught drawing. At the last examination the report was good. 20 boys are taught navigation. There is a very good band.

Industrial training.—There is every appliance in the way of models for instruction in nautical subjects. There are 11 row boats and a steam launch. I saw the boys parade on deck, all looking healthy and clean; they went through the manual exercise and marched round the decks very well with their band. I then saw cutlass drill and physical drill, all giving evidence of able instruction. There are classes for knotting and splicing bends and hitches, use of compass, sail-making, &c., and some of the lads are taught to splice wire rigging. There is a brig of 250 tons, the "Cumbria," in which during the summer the boys have instruction in practical seamanship.

Staff.—Superintendent, Captain Deverell, R.N.; chief officer, Mr. Tew, Lieutenant R.N.; schoolmasters, Mr. Morrison, Mr. Milliken, Mr. Forester, and Mr. Paton; gunnery instructors, four seamen instructors, carpenter, mechanic, bandmaster, tailor, night watchman, master-at-arms, cook, hospital attendant, shipping clerk, crew of the brig, master, mate, boatswain, steward, and four able seamen.

Average number maintained, 371. Total cost for 1894, 7,569*l.* 8*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 8*s.* 1*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 2*s.* 4*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 316 discharged in 1891–93, there are doing well 282, dead 15, doubtful 2, convicted of crime or recommitted 11, unknown 6.

Dumfries.

Dumfries Industrial School for Boys, Burns Street, Dumfries, N.B.

Inspected March 14 and 15, 1894.

Number of inmates on day of inspection, boys, 113; on license 1.

State of premises.—I found house and premises in good order, well kept up, and very convenient and suitable. The buildings are substantial and good. The arrangements provide for all requirements, some very good workshops, a good large playground, plenty of space, and a good swimming-bath.

Health and general condition.—The medical report was favourable, especially in the spring and summer quarters, a few trivial cases only, one case of pneumonia, one tonsillitis, with two relapses, one case of scarlet fever. In October, one case of diseased bone, sent to infirmary. In November and December, four cases of typhoid fever, owing to defective drainage, which was examined and put right.

Conduct and discipline.—The school had been somewhat unsettled by a change in the superintendence, Mr. Macintosh retiring. Four or five cases of absconding and several cases of going out without leave. Some cases of bad language, petty theft, and lying; one case of throwing a knife at another. There had been somewhat of an interregnum, and affairs would have been much worse but one or two members of the committee were untiring in their efforts to keep up the good discipline, and fully succeeded.

Educational state.—Only fair. Much time lost in the year and many defects. 25 in Standard Five: one absent; reading fair; spelling good; dictation well done, writing fair; 8 failures in arithmetic. 18 in Standard Four: a few boys very backward, 4 failures in dictation, 6 failures in arithmetic. 16 in Standard Three: good

reading and spelling; dictation backward, 8 failures; arithmetic very fair. 30 in Standard Two: the class was improving except in arithmetic, which was almost an entire failure. 12 in Standard One: class improving, a few failures. A very willing set of boys and quite orderly. Much school-time lost in the year.

Industrial training.—There are some good shops. I found 13 working as tailors, 8 with the shoemaker, a large class of boys employed in the net-making shop, a class of juniors knit and repair boys' socks and shirts. Some wood-chopping in the winter season. There is technical instruction in the use of tools and woodwork. There is a large garden employing a class of boys. The boys drill well. There is a band of pipers in national costume.

Staff.—Acting superintendent and schoolmaster, Mr. Andrew Smith; matron, Mrs. Copeland; assistant schoolmaster, Mr. McGill; pupil teacher, Mr. Carson; tailor, shoemaker, drill instructor. Pipe-major for the band of pipers, gardener and yardman, and one domestic.

Average number maintained, 106. Total cost for 1894, 1,635*l.* 10*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 15*l.* 8*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 10*l.* 15*s.* 6*d.*

Industrial profits, 602*l.* 5*s.* 3*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 61 discharged in 1891-93, there are doing well 47, dead 1, doubtful 3, convicted of crime or recommitted 4, unknown 6.

Edinburgh.

Edinburgh Original Industrial School for Boys, Liberton, near Edinburgh.

Inspected March 2, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, boys, 206; of these 200 under warrant of detention, 6 on the voluntary list.

State of premises.—I went over every part of the building, and found all in good order and repair. The building provides ample and superior accommodation, all well aired and warmed, and very clean and comfortable. The situation is a healthy one. Some good workshops and a detached infirmary if needed. Two lavatories and two playrooms for the separation of the elder boys from the juniors.

Health and general condition.—Health very fair. Some acute cases. Boys generally looked healthy and thriving, they receive every attention. There are two female nurses to look after ailing boys. All revaccinated in the year, small-pox greatly prevailing. Two cases of pleurisy, one severe fall, one rupture of blood-vessel, one disease of spinal cord, two jaundice, one whooping-cough, one pleurisy in July, one asthma, one catarrhal pneumonia, one eczema, a few abscesses.

Conduct and discipline.—The record of offences was not a very heavy one. No very grave offences; a few ordinary cases of idleness, wanton mischief, impertinence to officers, disorder, bad language, use of tobacco, lying, rudeness, one serious case of improper conduct, no absconding. Boys generally doing well, under sound but kindly discipline. School carefully managed, and the boys' interests constantly studied.

Educational state.—School carefully attended to by two experienced certificated teachers. 57 in Standard Five: a large and intelligent class, much good work, but a few defective in arithmetic; a good many extra subjects, recitation, geography, and grammar. 48 in Standard Four: a very good class; much intelligence; good mental arithmetic and geography; writing very good. 30 in Standard Three: a superior class; work very well done; much intelligence. 26 in Standard Two: very creditable work. 23 in Standard One: well taught and good progress. 10 in preparatory class. Order excellent.

Industrial training.—The industrial training receives careful attention. On the day of inspection 19 were working with the tailor, 15 with shoemaker, 12 with joiner, 24 in the garden, 25 in the band of pipers, 1 with carter, 12 with the cook, 16 juniors with the sewing mistress, 16 darning and knitting, 14 with the laundress. The boys drill well. In the carpenter's shop the boys do all the repairs for the house, and for the girls' house also.

Staff.—Superintendent, Mr. Wm. Henderson; matron, Miss Robertson, and assistant ditto; assistant superintendent, Mr. John Gemmell; chief schoolmaster, Mr. Adam Forbes; assistant ditto, Mr. Donald McDonald; tailor, shoemaker (who is also bandmaster), joiner, gardener and engineer, janitor and pipe drill instructor, carter, cook, sewing-mistress, nurse, and laundress.

Average number maintained, 286. Total cost for 1894, 5,103*l.* 13*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 16*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments 14*l.* 18*s.* 11*d.*

Industrial profits, 1,285*l.* 14*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 128 discharged in 1891–93, there are doing well 121, dead 2, doubtful 1, convicted of crime or recommitted 3, unknown 1.

Edinburgh Original Industrial School for Girls, Lover's Lane, Leith Walk, Edinburgh.

Inspected March 3, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, girls, 85; of these 80 under legal detention, 5 on the voluntary list.

State of premises.—I found the house very clean and comfortable. It supplies good accommodation, but the house is not conveniently arranged. The locality is thronged with passers-by, which is not good for the girls. Rooms spacious and airy. Good workroom and playroom and a very useful laundry and sickroom.

Health and general condition.—Fair. Girls very weakly on admission. A good many scrofulous cases. Two girls suffering from scrofula, one rheumatic inflammation, one enlarged cervical glands, one case of synovitis, one cardiac weakness, one iritis, one death from phthisis, one hip disease, several cases of strumous glands, one in hospital. The elder girls looked healthy and thriving; all receive careful attention.

Conduct and discipline.—Very fair. Instability of character the chief source of complaint. A good many cases of idleness and careless work and untruthfulness; some cases of rudeness and disobedience. No very grave faults, but a great difficulty found in raising the character of the children. The school continues to be carried on with much earnestness, consideration, and care. I found the girls willing and generally improving. The aspect was not at all discouraging. The girls do well on discharge.

Educational state.—The education is carefully attended to. The girls make good progress from year to year. 11 in Standard Five: recitation good; geography of Scotland; very careful work; 3 rather weak in arithmetic. 11 in Standard Four: a very good class; all passed well. 14 in Standard Three: very good reading; with one or two exceptions class did well. 21 in Standard Two: a satisfactory class in all subjects. 10 in Standard One: good progress. 11 in preparatory class: very young, just in the elements. Order very good.

Industrial training.—The industrial training of the girls has for its object the making them useful and practical, with good working knowledge of the kitchen, scullery, laundry, and maids work.

Staff.—Superintendent, Mrs. Mackenzie; schoolmistress, Miss Mary Cullen; sewing-mistress, Miss Stewart; cook, laundress and sick nurse, and some junior assistants.

Average number maintained, &c., included in report for boys' school.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 46 discharged in 1891–93, there are doing well 41, dead 1, unknown 4.

Edinburgh United Industrial School for Boys, Blackfriars Street, Edinburgh.

Inspected March 6, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, boys, 142; of these, 121 committed cases, 21 on the voluntary list; on license 6. Protestant 79, Roman Catholics 63.

State of premises.—I found the premises in very good order. All in good repair and maintained in creditable condition. Good workshops and excellent swimming-bath. Dormitories clean, wholesome and well

aired, and warmed in winter. The school is situated in a very low neighbourhood. The position and surroundings are great drawbacks to good management. Good sickroom.

Health and general condition.—Health very fair. A few cases of debility. Some scrofulous cases; enlarged glands. A few cases of diarrhœa in the summer; one bad attack of rheumatism, a few feverish colds, and some cases of influenza in the autumn; two cases of pleurisy, one curvature of the spine, one elbow abscess. One in hospital with pleuritic attack, two in infirmary; one pleurisy, one spinal complaint. The remainder well and in good spirits.

Conduct and discipline.—Discipline well maintained, but a good many troubles occur from the school being in the midst of a very low neighbourhood. A few cases of insubordination, absconding, and going out without leave. One serious case of stealing brushes from shop, one striking an officer, one malicious destruction of property. Several cases of petty theft, one obscene language. Some impertinence at times. The boys were in good order on the day of my visit and behaved well. The school would do better in a better locality.

Educational state.—Very good progress. 41 in Standard Five: reading much improved; an intelligent class; very fair work; good dictation and writing; a few failures in arithmetic, which might have been better done. 30 in Standard Four: good reading and spelling; dictation well done generally; three or four weak; arithmetic moderate, capable of improvement. 21 in Standard Three, 1 absent: very careful work in the class, with one exception only. 15 in Standard Two: class doing well; 1 failure only in arithmetic. 21 in Standard One: class improved. Very creditable work. 9 in preparatory class: just in the elements. Order very creditable.

Industrial training.—The industrial training is vigorously carried on. 40 boys were working with the brushmaker, doing good work, 23 with the shoemaker, who takes the band, and his boys are mostly band-boys as well; 40 working with the tailor, under a good instructor; 2 with the engine; a junior class knitting, darning, and repairing. Boys assist in the kitchen and house work. A very efficient band. The boys drill well.

Staff.—Superintendent, Mr. Archibald McLauchlan; assistant superintendent and chief schoolmaster, Mr. James Fraser; assistant teacher, Mr. J. Doran; for the juniors, Miss Ferguson; tailor; shoemaker, who also takes the band; brushmaker; janitor and drill sergeant; housekeeper, cook, laundress, sewing-mistress; singing-master, occasional.

Average number maintained, 139. Total cost for 1894, 2,326*l.* 7*s.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 14*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 17*l.* 1*s.* 5*d.*

Industrial loss, 46*l.* 5*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 76 discharged in 1891–93, there are doing well 69, dead 3, doubtful 1, convicted of crime or recommitted 3.

Boys' Working Home for Roman Catholic Boys, 52, Lauriston Place, Edinburgh.

Inspected March 6, 1894. Visited June 2, 1894.

Number of inmates on day of inspection, boys, 28.

State of premises.—I found the house working usefully in connection with the Edinburgh United Industrial School, providing a decent and comfortable home for boys on first leaving the school and starting in industrial life. The house is certified for 24 boys.

Health and general condition.—The house is but small, and I found a tendency to accommodate rather more than it can properly provide for. The arrangements fairly satisfy the requirements of the case, but more space is needed in every point of view. I went over house and premises and found them in good working order. But if expansion is contemplated, more commodious premises must be provided.

Conduct and discipline.—The lads are generally tractable and orderly. The greatest difficulty arising from the tendency of the lads to change their places.

Educational state.—Opportunities are provided to enable the lads to keep up their education, and for self-improvement. There is a good library of books.

Industrial training.—The lads are occupied in various places of employment during their working hours, and come home in the evening. Effort is made to make the home as comfortable and attractive as circumstances will permit.

Staff.—An officer and his wife look after the lads, maintain order and regularity, and prepare the food of the inmates and administer to their requirements.

Leith Industrial School for Boys, Lochend Road, Leith.

Inspected March 5, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, boys, 136; of these 132 committed cases, 4 on the voluntary list.

State of premises.—House, premises, dormitories, and workshops were in a condition of complete efficiency. Well maintained and all in very good order. Good, airy, and well-ventilated rooms, a capital playground, and every convenience. The situation is a healthy one and the buildings appropriate and substantial.

Health and general condition.—Health very fair. Boys looked healthy and well cared for. A few acute cases of broncho-pneumonia; two cases of jaundice; one feverish cold; two or three cases of rheumatism; one pneumonia; 71 boys re-vaccinated; one rheumatic heart. Boys very clean and tidy in person.

Conduct and discipline.—The record of offences was a light one. A few trivial cases of impertinence, bullying smaller boys, mischief, idleness at work, using tobacco. Not many serious charges against the boys. The general report was good. School doing well.

Educational state.—This is well attended to. 30 in Standard Five: a large class, work very well done, Boys bright and intelligent; two or three weak in arithmetic. 26 in Standard Four: very creditable work; only one or two weak in arithmetic and dictation; class did well. 30 in Standard Three: excellent reading and spelling; dictation well done; handwriting good; 6 weak in arithmetic. 22 in Standard Two: a very well-taught class; making good progress. 14 in Standard One: all doing well. 14 in primer class; all progressing and carefully dealt with. Order excellent.

Industrial training.—This is well attended to; the various occupations actively carried on. I found 10 working as turners, 12 as shoemakers, 24 as tailors, 6 in the laundry, 6 in the kitchen, 6 in the general house work, 32 in the firewood department. A large number are very young, and the children under Standard Three attend school all day. There is a good gas-engine, saw-bench, and several lathes. A large plot of garden ground. There is an excellent band. The boys drill well.

Staff.—Superintendent, Mr. A. S. Nelson; chief teacher, Mr. William Allan; assistant superintendent, Mr. Jas. Turner; tailor, shoemaker, janitor, and turner; van-man; cook and laundress.

Average number maintained, 138. Total cost for 1894, 1,770*l.* 14*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 16*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 19*s.* 10*d.*

Industrial profits, 269*l.* 5*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 61 discharged in 1891–93, there are doing well 55, dead 1, doubtful 1, convicted of crime or recommitted 4.

Leith Girls' Victoria Industrial School, Restalrig Road, Leith.

Inspected March 3 and 5, 1894. Visited August 30, 1894.

Number of inmates on day of inspection, girls, 56; of these 52 under detention, 4 on the voluntary list, 1 absconded not recovered.

State of premises.—I went over every department, and was pleased to find the whole house thoroughly clean and comfortable and amply provided for in every respect for carrying on a successful work of the kind. Good dayroom, workroom, bathroom, and lavatory.

Health and general condition.—A healthy situation and a very healthy year. One of psoriasis, one broncho-pneumonia, one severe case of pneumonia, under good recovery; some severe colds in February. One pneumonia, one bronchitis; both recovered; no deaths. All girls re-vaccinated, owing to the prevalence of small-pox. Girls looking very happy and in good spirits. School doing well.

Conduct and discipline.—Very fair with a few exceptional cases. Two cases of deceitfulness and repeated disobedience, occasional display of temper, and some obstinacy. There is a system of marks which has a good effect on the general conduct of the girls.

Educational state.—Very fair work. 14 in Standard Five: very good class; girls intelligent and well taught: good recitation and very fair English composition; no failures in the class. 4 in Standard Four: rather moderate display; 4 rather dull girls, but good recitation. 5 in Standard Three: creditable display; good recitation; 1 failed in arithmetic. 13 in Standard Two: creditable progress; work well done. 13 in Standard One: 2 weak in dictation; 3 failed in arithmetic; the rest did well. 8 in primer class, very young, progressing. Very good order.

Industrial training.—There is a capital workroom. Needlework and knitting receive full attention. Good display of needlework, clothing, and woolwork. The girls make shirts and socks for the boys as well as their own clothing. There is a very good laundry. The elder girls assist in the kitchen and house work. Some lessons in practical cooking would be of much service.

Staff.—Superintendent, Miss Mackenzie; general assistant, Miss Is. Mackenzie; schoolmistress, Miss Taylor; laundress.

Average number maintained, 60. Total cost for 1894, 782*l.* 6*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 0*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 12*l.* 9*s.* 5*d.*

Industrial profits, 70*l.* 4*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 29 discharged in 1891–93, there are doing well 26, dead 1, doubtful 1, unknown 1.

Haddington.

St. Joseph's Industrial School for Roman Catholic Boys, Tranent, Preston Pans, near Edinburgh.

Inspected March 8, 1894.

Number of inmates on day of inspection, boys, 100, and 7 on license.

State of premises.—I was well satisfied with the general arrangements, and with the good order and cleanliness of the various departments. Satisfactory progress during the past year in all respects. Dormitories clean, well ventilated, and under proper supervision. A healthy site, and plenty of room for exercise and recreation. Some large gardens under careful cultivation, two acres of additional land taken in.

Health and general condition.—Health well maintained. The medical report was very favourable. Very few cases of illness of serious importance. Two or three cases of bad eyes, one case of pneumonia, one abscess in neck, one inflammation of the kidneys. The boys got through the winter well. The general appearance was quite satisfactory. They seemed to have due attention.

Conduct and discipline.—The record was not a very heavy one. Two or three cases of absconding, mostly new cases. One boy attempted to

absconded. A lad of bad character, newly admitted, had given much trouble. One case of pilfering handkerchiefs from other boys, three chewing tobacco. With these exceptions much encouraging good conduct and steady improvement.

Educational state.—Much improved. 9 in Standard Five: reading and spelling good; dictation well done; handwriting good; recitation very fair; arithmetic defective. 11 in Standard Four: class improved; 2 weak in dictation; arithmetic defective. 17 in Standard Three: good work generally; arithmetic, 13 passed, 4 failures. 21 in Standard Two: class doing well: good recitation; arithmetic well done, but wanting in method and neatness. 23 in Standard One: class coming on well. 17 in preparatory class: progressing favourably. Boys quiet and in excellent order.

Industrial training.—32 of the boys were working with the tailor, in two divisions; they make all the school clothing and knit the socks, and darn and repair. The occupation is chiefly in the gardens, which are large, and improving in cultivation and yield. A large quantity of vegetables, flowers, &c., are raised for the Edinburgh market. Some of the boys assist in the kitchen and laundry. The boys drill well.

General remarks.—I found the school doing well and making satisfactory progress. Boys well in hand and well disposed.

Staff.—Superintendent and matron, Mr. and Mrs. Edward McGee; head teacher, Miss A. T. McGee; assistant do., Miss Barry; assistant superintendent, Mr. Wm. McGee; gardener, tailor.

Average number maintained, 100. Total cost for 1894, 1,034*l.* 0*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 6*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 10*l.* 18*s.* 2*d.*

Industrial profits, 75*l.* 11*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 19 discharged in 1891-93, there are doing well 16, dead 1, convicted of crime or recommitted 1, unknown 1.

Forfar.

Arbroath Industrial School, Dale Cottage, Arbroath, N.B.

Inspected June 5, 1894.

Number of inmates on day of inspection, boys, 30 under detention, and 2 boys and 3 girls day scholars.

State of premises.—In very good order, much improved in every way of late years. There is a playground and a good garden, large schoolroom, and a good dormitory over it.

Health and general condition.—There had been one case of influenza, two of pneumonia, and one of conjunctivitis. The general health had been very good, and the boys looked clean, well dressed, healthy, and bright.

Detailed Reports.

Industrial Schools.

Conduct and discipline.—Very good, very little occasion for punishment.

Educational state.—There were 4 boys in Standard Five: reading and writing very fair; dictation good; arithmetic very neatly done; 2 failing in accuracy. 5 boys and 1 girl in Standard Four: reading very fair; writing indifferent; dictation and arithmetic very good. 4 in Standard Three: reading and writing very fair; dictation good; arithmetic 2 failures. 7 in Standard Two: reading very fair; writing indifferent; 3 failed in dictation, all in arithmetic. 5 in Standard One: 3 passed in arithmetic; reading and spelling very fair; writing bad. 7 in a preparatory class: very backward. Order and attention very good.

Industrial training.—The industrial work consists of gardening, wood-chopping, and the general work of the house; nearly all the boys can knit, and some can mend clothes.

Staff.—Superintendent and matron, Mr. and Mrs. Aitken; schoolmistress, Miss Brown.

Average number maintained, 35. Total cost for 1894, 435*l.* 5*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 8*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 12*l.* 5*s.* 4*d.*

Industrial profits, 5*l.* 16*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 16 discharged in 1891–93, there are doing well 14, dead 1, doubtful 1.

Dundee Industrial School for Boys, Baldovan, near Dundee.

Inspected June 4, 1894. Visited December 12, 1894.

Number of inmates on day of inspection, boys, 197.

State of premises.—The buildings for this large and important school are of the most substantial and efficient character. The arrangements are most suitable and convenient. I found admirable order and excellent organization in every department. There is an extensive garden under careful cultivation, including a botanical collection of an interesting character.

Health and general condition.—Health well maintained. Children well clothed, especially in the cold season, with under garments of the warmest kind. Site a very healthy one, and every precaution taken for the maintenance of health and vigour. One case of conjunctivitis; a few cases of catarrh; one severe case of tonsillitis; one death from jaundice, sent to the infirmary; one suppurating ear, mentally unfit for discipline; one urticaria. Boys looked thriving and well cared for. Sanitary conditions satisfactory.

Conduct and discipline.—For so large a school the report as to conduct was favourable. Discipline well maintained without undue punishment. Some ordinary cases of misconduct, impertinence to

officers, lying, idleness, and neglect of duty. Two cases of absconding, some cases of disobedience, petty theft, and use of tobacco; some occasional cases of disrespect, but no insubordination. Boys very orderly and quiet. General aspect encouraging and hopeful.

Educational state.—The school education continues to receive systematic attention. 22 in Standard Five: good general work; four or five weak in arithmetic; recitations very good. 29 in Standard Four: very good reading, spelling, writing, and dictation; a few defects in arithmetic, which was well put down. 43 in Standard Three: a good class, well taught and doing well; 2 failed in arithmetic. 43 in Standard Two: very fair ordinary work, but arithmetic weak in several cases; some knowledge of Scotch geography. 26 in Standard One: class making good progress. 30 in preparatory class: very young. Order excellent.

Industrial training.—The industrial education is carried on with spirit and energy, and I was pleased to find that the technical instruction of the boys in woodwork and the use of tools had been carried on with advancing success. I found 40 working with the tailor, 25 with the shoemaker, some sack-making also to order, 6 joiners, 10 knitters and darners, 6 painters, 12 cooks. I found the shops very actively employed, doing good work.

General remarks.—Much is done at this school to rouse the intelligence of the boys by interesting them in collections of natural history, plants, minerals, insects, &c. The botanical garden is a special feature.

Staff.—Superintendent, Mr. W. M. Dickson; chief teacher, Mr. P. Langlands; assistant ditto, Mr. Ramsay; tailor, shoemaker, gardener, general agent; janitor and drill instructor; watchman, bandmaster; housekeeper, Mrs. Currie; cook, nurse, laundress.

Average number maintained, 215. Total cost for 1894, 3,082*l.* 6*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 6*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 4*s.* 7*d.*

Industrial profits, 23*l.* 1*s.* 5*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 122 discharged in 1891–93, there are doing well 106, dead 1, doubtful 3, convicted of crime or recommitted 6, unknown 6.

Boys' Refuge, Dundee, in connection with Baldovan Industrial School.

Visited June 5, 1894, and Dec. 12, 1894.

Number of inmates on day of inspection, boys, 27. Of these 15 were on license from Baldovan, 12 time-expired boys from Baldovan.

State of premises.—In very good order; thoroughly suitable buildings, very clean and comfortable.

Educational state.—The boys attend evening classes, and I saw a note from the head-master of the school certifying that they had made good progress, and attended very regularly, and all who could possibly have earned a prize for good attendance had done so.

Conduct and discipline.—The boys have given no trouble. One boy had run away, who had been pilfering.

Industrial training.—All the boys are employed in the town at wages varying from 3*s.* to 7*s.* 6*d.* a week. It rarely occurs that a boy has to be dismissed from the Home for bad conduct. The advantages of the Home are much appreciated by the boys, but when their earnings amount to about 8*s.* a week they generally think they can get on by themselves, and prefer to leave the house. A Home of this kind is an invaluable adjunct to an Industrial School.

Staff.—The Home is well managed. Superintendent and matron, Mr. and Mrs. Campbell.

Dundee Industrial School for Girls, Ward Road, Dundee.

Inspected June 5, 1894.

Number of inmates on day of inspection, girls, 78, and 1 on license.

State of premises.—In very good order; not very suitable, but made the most of. The new school at some little distance from the town is progressing, but will not be ready for some time.

Health and general condition.—There had been one death from consumption. Three cases of scarlet fever, one of enlarged glands, one case of amputation of toe. General health very good. I have seen the girls looking more tidy.

Conduct and discipline.—Very good. The girls had given no trouble during the year.

Educational state.—There were 19 girls in Standard Five: reading good; writing should be improved; dictation good; arithmetic, 3 failures. 10 in Standard Four: in reading all passed; writing not very good; 1 failure in dictation; all passed in arithmetic. 10 in Standard Three: very fair class; no failures. 18 in Standard Two: 2 failures in arithmetic; very fair reading and writing; no failures in dictation. 13 in Standard One: no failures. 8 in a preparatory class: order and attention good. A little geography in the upper classes. Singing taught. The girls were rather dull.

Industrial training.—The girls are trained for domestic service. I saw very good knitting and sewing. The girls make the shirts for Baldovan School. Some of them help in kitchen, laundry, and house. The girls are taught musical drill.

Staff.—Superintendent, Mrs. Mitchel; schoolmistress, Miss Young; assistant matron, Miss Mitchell; sewing-mistress, servant.

Average number maintained, 80. Total cost for 1894, 982*l.* 12*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 5*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 14*s.*

Industrial profits, 46*l.* 8*s.* 4*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 47 discharged in 1891–93, there are doing well 37, dead 3, doubtful 2, convicted of crime or recommitted 1, unknown 4.

The "Mars" Industrial School Ship, Dundee.

Inspected June 4, 1894.

Number of inmates on day of inspection, boys, 382, of whom 163 were Roman Catholics. In addition there were 3 voluntary cases.

State of premises.—The ship was in a state of perfect efficiency. The upper deck is roofed over forward, and thus affords shelter, which is much needed in rough weather. The electric light is in use all over the ship. There is a large building on shore fitted up as a hospital. There is a telephone to each side of the river. The arrangements for extinguishing fire are very complete. There is a large swimming-bath near the shore, and a tender, a brig of 141 tons, affording accommodation for 55 boys in addition to the crew.

Health and general condition.—The boys had been very healthy during the year. Four had been discharged as physically unfit for a sea life. There had been a few cases of bronchitis, slight feverish attacks, and a rather long list of very trivial ailments, but nothing serious. The appearance of the boys on the day of inspection was most satisfactory; they looked bright, clean, and healthy.

Conduct and discipline.—Two new boys had run away from a picnic. There had been no other offence worth recording, and very little punishment. The general conduct had been exemplary.

Educational state.—I examined the starboard watch. 35 boys in Standard Five: a very good class; only 2 boys failed to satisfy me in arithmetic. Geography is taught in all the classes. 35 in Standard Four: no failures; very good work. 37 in Standard Three: again no failures; a very good class. 41 in Standard Two: one failure in arithmetic; reading very fair; writing good; all passed in dictation. 27 in Standard One; no failures. The boys sing very well. Order and attention very good. A few boys have commenced to learn navigation.

Industrial training.—I saw the port watch at their nautical classes, and at carbine and musical drill. The tender takes 55 boys out at a time for a cruise, changing crews about once a month. There is a good steam launch, rowing boats, and all the models. There are two good bands, 43 in the first and 62 in the second.

Staff.—Superintendent, Lieutenant Scott, R.N.; chief officer, Mr. Flynn; schoolmasters, Messrs. Thomas, Stovin, Stables, and Kirk; master-at-arms, bandmaster, two carpenters, cook, steward, shoemaker, gymnastic instructor, engineer, Admiralty instructor, four seamen instructors, gardener (on shore), and a nurse in charge of the hospital; the crew of the brig, a master, a mate, and four able seamen.

General remarks.—The bronze medal had been awarded to Mr. Stables in April for jumping overboard and saving a boy.

Average number maintained, 386. Total cost for 1894, 7,364*l.* 0*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 1*s.* 7*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 2*s.* 1*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 354 discharged in 1891–93, there are doing well 303, dead 9, doubtful 10, convicted of crime or recommitted 24, unknown 8.

Lanark.

Glasgow Industrial School for Boys, Mossbank, Millerston, Glasgow.

Inspected June 1, 1894.

Number of inmates on day of inspection, boys, 374.

State of premises.—About 300*l.* had been spent in additions and improvements since my last visit. I found a large chapel had been built, the old one being turned into a recreation or drill room; new bakehouse and new boilers for cooking and warming. One of the features of the school is the conveniently arranged infirmary, close to but detached from the main building, sickrooms, day wards, kitchen, and nurses' quarters. The dormitories are large, well lighted, and well ventilated; each under a dormitory matron. There are two good class-rooms; very good shops; good swimming-bath; large baking-house, gas and water are supplied from Glasgow, to which town a telephone is laid on. All parts of the building in excellent order. 13 acres of land.

Health and general condition.—There had been one death from meningitis; there had been one case of phthisis; one boy had had his collar-bone broken when at play. The general health had been excellent and the boys looked bright and healthy. There is a cottage home at Innellan on the Clyde, to hold 10 boys; a very useful place, always full.

Conduct and discipline.—There had been two cases of absconding; in both cases the boys were sent to reformatories. The general conduct had been very good. About 40 boys have leave to go home every Saturday, and the fear of having their leave stopped is a great factor in maintaining discipline. There is very little occasion for corporal punishment.

Educational state.—There were 25 in Standard Five: a very good class; very good reading, writing, dictation, arithmetic, recitation, and geography of Europe; no failures. 38 in Standard Four: very good reading, writing, dictation, and only 3 failures in arithmetic; good geography of Europe, and recitation. 35 in Standard Three: a very good class, no failures; good recitation and geography of Scotland. 50 in Standard Two, 43 in a second Standard Two: both very good classes; only 1 failure in arithmetic in the second class; very good work; recitation and geographical definitions. 68 in Standard One: 25 in an infants' class; all coming on very well. Order and attention excellent.

Industrial training.—In the tailor's shop were 30 boys, and there was a large class of shirtmakers, menders, and darners. There were 60 boys

in the shoemaker's shops, where a great deal of work is done, both for the school and for customers. Eight boys assist the baker, where bread is baked for all the Glasgow Industrial Schools. Some of the boys help in kitchen, laundry, and house. There is a very good brass band of 30 performers. 16 boys are told off to work on land and in garden. Battalion drill and physical drill are taught. A large proportion of the boys can swim.

Staff.—Superintendent and matron, Mr. and Mrs. Falconer; schoolmasters, Mr. Conley, Mr. Stevenson, Mr. Duross; assistant teacher, Miss Falconer; storekeeper and drillmaster, Mr. Ferguson; three tailors, three shoemakers, two women in the shirt-making room, two bakers, three farm men, night watchman, engine-man, laundry maid, cook, six dormitory matrons, one hospital nurse, bandmaster and singing-master twice a week.

Average number maintained, 387. Total cost for 1894, 6,940*l.* 11*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 18*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.*

Industrial profits, 225*l.* 9*s.* 11*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 241 discharged in 1891–93, there are doing well 169, dead 3, doubtful 7, convicted of crime or recommitted 3, unknown 59.

Glasgow Working Boys' Home, Rotten Row, Glasgow, in connection with Mossbank Industrial School, Glasgow.

Inspected May 29, 1894. Visited December 10, 1894.

Number of inmates on day of inspection, boys, 16, all old Mossbank Boys. There is accommodation for 20 boys.

State of premises.—The house and premises were clean and comfortable, but are not very convenient and barely suitable for the purpose in view.

The report as to the conduct of the boys was not unfavourable. They give little trouble in the home, and go to their work regularly, returning to the home when work is over.

They are employed in various occupations in the city, and were reported to me as in the main doing well.

Superintendent and matron, Mr. and Mrs. Quin.

Glasgow Industrial School for Girls, Maryhill, Glasgow.

Inspected May 29, 1894.

Number of inmates on day of inspection, girls, 200, and on license 25.

State of premises.—A very large, well-arranged building, with every convenience. All the rooms well lighted, well ventilated, with plenty of room. Since last year all the floors have been stained and varnished,

a very great improvement in every way; the example should be followed in all schools. Three schoolrooms, two very good workrooms, four good cottages, for 20 girls each, generally occupied by the smaller girls, who go to the main building for instruction and work. All in perfect order. Two stone staircases to every dormitory and sickroom, so that danger from fire is reduced to a minimum. Wire spring-mattresses are being gradually introduced all over the building. The bath accommodation might be better.

Health and general condition.—There had been two deaths from phthisis; one case of chronic ophthalmia in hospital. General health excellent. Girls looked bright, happy, and well cared for.

Conduct and discipline.—Very good. The girls had given no trouble. The only case of misconduct worth noticing was that of two girls who had absconded, and had been sent to Chapelton Reformatory. The mark system is a great assistance in maintaining discipline. The girls wear blue, red, or brown ribbon in their hair, according to conduct. No school is better managed.

Educational state.—I found 29 girls in Standard Five: a very good class; good recitation; geography of England; reading, writing, and dictation very good; arithmetic very good, with 3 exceptions. 37 in Standard Four: no failures; very good work; very good recitation; geography of England. 50 in Standard Three: good reading and recitation; very fair writing; 1 failure in dictation, 5 in arithmetic; a little knowledge of geography of Scotland. 39 in Standard Two: reading with 1 exception good; writing very good; 2 failures in dictation, 7 in arithmetic; good recitation. 20 in Standard One: a very good class. 25 in a preparatory class: mostly new-comers, and very small. Order and attention very good. Musical drill and singing very good.

Industrial training.—There is a very good laundry, and good work done in it. All the girls are taught to sew and knit; some help in the house, some in the kitchen. 25 of the elder girls had had three months' cooking lessons. The girls when going away have a very good outfit given to them. Six milch cows are kept for the use of the school.

Staff.—Superintendent, Mrs. Cameron; matron, Miss Gibb; schoolmistresses, Miss Nelson, Miss Muir, Miss Guthrie; four cottage matrons, one kitchen matron, laundry matron, and nurse; four sewing-mistresses, van-man, singing-master and drill sergeant twice a week, and gardener, whose wife takes care of dairy.

Average number maintained, 210. Total cost for 1894, 4,091*l.* 2*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 9*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 19*l.* 13*s.* 9*d.*

Industrial profits, 256*l.* 5*s.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 121 discharged in 1891–93, there are doing well 112, dead 2, doubtful 2, convicted of crime or recommitted 3, unknown 2.

St. Mary's Orphanage for Roman Catholic Boys, 72, Abercromby Street, Gallowgate, Glasgow.

Inspected June 1, 1894. Visited December 10, 1894.

Number of inmates on day of inspection, boys, 200, and on license 50.

State of premises.—On both occasions of my visit I found the house and premises in very good order, and the sanitary conditions what they ought to be. The dormitories are simple, well aired, and wholesome; well warmed in winter, and with means of escape, in case of fire, from each floor. There is a large shed for drill and exercise.

Health and general condition.—The health of the boys has been well preserved for some years past. By careful attention to diet and clothing, protection from cold and damp, strict cleanliness, and immediate advice in case of illness, life, valuable life, is preserved which otherwise is sacrificed. One death from pneumonia; one case of scarlet fever, a critical case, but recovered; one case of phthisis in March; one case of bronchitis. One boy in infirmary, consumption. The boys generally had a healthy appearance, and looked properly attended to.

Conduct and discipline.—The report on the whole was satisfactory and encouraging. Not much serious misconduct. No absconding. Some of the ordinary offences common to these schools—impertinence, disobedience, quarrelling and striking, neglect of work, chewing tobacco, and idleness. Boys in good order and under proper control. In good spirits and going on satisfactorily.

Educational state.—I tested all the classes. 25 in Standard Five: very fair class except in dictation, in which there were several failures; arithmetic well done. 30 in Standard Four: work carefully done; 1 failure in arithmetic; writing very good. 30 in Standard Three: a good class; work well and carefully done; all passed in arithmetic. 25 in Standard Two: dictation indifferently done, 10 failures; all passed in arithmetic. 24 in Standard One: with a few exceptions the class did well. Boys quiet and orderly, and anxious to do well.

Industrial training.—The industrial occupation is carefully attended to and is vigorously carried on. 20 were working with the tailor, 20 with the shoemaker, who makes for the girls' house also; 52 in the paper-bag manufacture, and a large class engaged in the wood-chopping. Two van-boys, two engine-boys, two messengers. There is a very good band. The boys drill very effectively. Manual instruction in the use of tools and woodwork should be introduced.

Staff.—Superintendent and matron, Mr. and Mrs. William Devine; schoolmaster, Mr. P. Sorley; assistant do., Mr. Thos. Ryan; house-man, Mr. John Fraser; assistant do.; bandmaster, Mr. W. Stewart; outdoor officer, wood-chopper, van-man, tailor, shoemaker, paper-bag maker.

Average number maintained, 388. Total cost for 1894, 5,415*l.* 10*s.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 19*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 9*s.* 9*d.*

Detailed Reports.

Industrial Schools.

Industrial profits, 334*l.* 12*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 111 discharged in 1891–93, there are doing well 86, dead 1, doubtful 2, convicted of crime 22.

St. Mary's Orphanage for Roman Catholic Girls, 72, Abercromby Street, Gallowgate, Glasgow.

Inspected June 1, 1894. Visited December 10, 1894.

Number of inmates on day of inspection, girls, 188, and 3 on license.

State of premises.—The premises are suitable and commodious. The accommodation very good, and I am glad to add that a new bathroom has been supplied, giving all the accommodation for bathing that is requisite. Dormitories very clean, airy, and well ventilated. Good play-shed, workroom, and excellent laundry. The girls are well provided for.

Health and general condition.—Very fair. One or two cases of scarlet fever in the autumn of 1893, one case of erysipelas, two cases of scrofulous ophthalmia. A few ophthalmic cases besides. Very little serious illness; a very healthy year. The girls looked thriving and healthy, and in very good spirits.

Conduct and discipline.—Very fair. Nothing extraordinary, but some cases, as usual, of sulkiness, stubbornness, and ill-temper. A few cases of impertinence, boldness, and disrespect. Some idleness and neglect of duty. Girls doing well on the whole, with some occasional faults requiring correction.

Educational state.—I tested the education in each class. 20 in Standard Five: very good work; all passed creditably. 20 in Standard Four: a well-taught class; all passed satisfactorily; handwriting very good; arithmetic no failures. 21 in Standard Three: all the usual subjects very well taken; no failures; careful work. 20 in Standard Two: the class passed a good examination; all progressing favourably. 20 in Standard One: doing well. Excellent order, and a carefully-taught school.

Industrial training.—Particular attention is given in this school to the practice of needlework, dressmaking, knitting, and woolwork, also machine-work of every kind. There is a capital workroom. There is a good laundry. A better class of work is required. The boys should do their own laundry work. A class of the girls assist in the kitchen. The girls cook for the boys' side also. Some systematic lessons in plain cooking should be provided for the instruction of the girls.

Staff.—Sister Superior, M. A. McLean, and seven Sisters of Charity to assist her; assistant teacher, Miss Finan; some junior assistants in sewing-room, kitchen, and laundry.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 112 discharged in 1891–93, there are doing well 103, dead 3, doubtful 3, convicted of crime or recommitted 3.

Slatefields Industrial School for Roman Catholic Boys, Gallowgate, Glasgow.

Inspected May 28, 1894. Visited December 10, 1894.

Number of inmates on day of inspection, boys, 150, and 8 on license.

State o premises.—In very fair order. Improvement is apparent every year, and the premises are much more convenient and in better order than they used to be. The Superintendent had only a few minutes' notice of my visit. The play-yard is far too small, and there does not appear to be any way of enlarging it. A large piece of waste ground close to the school would provide all that is wanted, but I am told it can neither be bought or hired.

Health and general condition.—There had been two deaths, one of tubercular peritonitis, and one of gangrene of the lungs. There had been a serious case of hip disease. The general health had been very good. The appearance of the boys was satisfactory.

Conduct and discipline.—Very good, and very little punishment recorded. There is no mark system, but certain privileges are allowed for good work and conduct.

Educational state.—There were 20 boys in Standard Five: reading good; writing very good style and very neat; all passed well in dictation; 2 failed in arithmetic; good recitation; geography of Scotland. 32 in Standard Four: reading and writing very good; 1 failure in dictation, 4 in arithmetic; recitation and geography of Scotland good. 35 in Standard Three: reading with 1 exception very fair; writing good; dictation good; 3 failures in arithmetic; recitation very fair; and some geography. 29 in Standard Two: 24 in Standard One: both classes coming on well; 9 in a preparatory class. Order and attention very good.

Industrial training.—20 boys in the tailor's shop make and mend all the clothes. There are 20 boys in the shoemaker's shop. 34 boys work —17 on alternate days—in a neighbouring rope-walk, an occupation which is open to objection. There is a shop for paper-bag making, where the younger boys find employment. Some boys help in house-work, laundry, and kitchen. A carpenter's shop should be substituted for the rope-walk industry. There is a drum and fife band of 20 performers. The boys are exercised in ordinary and musical drill. About 30 boys learn drawing.

Staff.—Superintendent and matron, Mr. and Mrs. Maley; schoolmaster, Mr. Duffy; assistant, Mr. Rogers; house-man, tailor, shoemaker, cook, and laundress. Bandmaster twice a week.

Average number maintained, 149. Total cost for 1894, 2,493*l.* 5*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 14*s.* 8*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 15*s.* 11*d.*

Industrial profits, 361*l.* 4*s.* 9*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 80 discharged in 1891–93, there are doing well 68, dead 3, convicted of crime or recommitted 9.

Dalbeth Industrial School for Roman Catholic Girls, Dalbeth, near Glasgow.

Inspected March 10, 1894. Visited May 28, 1894.

Number of inmates on day of inspection, girls, 117; of these 105 under legal detention and 12 on the voluntary list.

State of premises.—The premises are very suitable and supply excellent accommodation. I found the school well organised and every department in good order, and the general arrangements suitable and adequate. Dormitories airy and well ventilated.

Health and general condition.—Improving. But children very weak on admission; health constitutionally impaired. One case of ophthalmia, one pneumonia in October with pericarditis; one death from bronchitis, one from pneumonia; one strumous glands, one tabes mesenterica, one abdominal abscess, one spasmodic catarrh, one corneitis. Children appeared to be receiving the greatest care, and were cheerful and contented.

Conduct and discipline.—The children had given very little trouble and were going on well. Some ordinary cases of impertinence, disobedience, idleness, and insincerity. Many of the girls were doing well and had much improved since admission. I found all working satisfactorily. Good order had been established. The school was working steadily and quietly.

Educational state.—School making good progress. Only established as an industrial school since May 1892. 11 in Standard Four: all doing well, no failures, handwriting much improved. 17 in Standard Three: class carefully taught, making good progress, no failures. 24 in Standard Two: very good reading and spelling, 3 weak in dictation and a few weak in arithmetic; all improving. 19 in Standard One: very fair work, all receiving careful attention. 18 in preparatory class: all going on nicely, and beginning to read and write. Order in school very good.

Industrial training.—The instruction in needlework, knitting, &c. was steadily being carried on, and some good samples of work were at hand. The elder girls were beginning to be useful and helpful. I found good progress in all respects.

Staff.—Superioress and Sisters of the Order of the Good Shepherd.

Average number maintained, 114. Total cost for 1894, 1,078*l.* 19*s.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 9*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 9*l.* 15*s.* 4*d.*

Industrial profits, 11*l.* 13*s.* 8*d.*

Perth.

Perth Fechney Industrial School for Boys, Wells Hill, Perth.

Inspected June 4, 1894.

Number of inmates on day of inspection, boys, 149 under detention and 4 on license.

State of premises.—I found the new buildings finished. The bath is very large, and a great acquisition. Very good and well-arranged buildings, in excellent order, good workshops, very productive garden, large playfield, telephone to the town, fire-escape, and speaking tubes from each dormitory to the superintendent's room. No school could be in better order or better managed.

Health and general condition.—One boy had been drowned, bathing without leave; one boy had died from the effects of a scald; one boy had died from heart disease. The general health had been very good, and nothing could be better than the appearance of the boys. They looked clean, bright, intelligent, and well cared for in all respects.

Conduct and discipline.—Very good. Very little punishment. There had been two abscondings. The mark system is still carried on and is most useful in maintaining discipline, and doing away with the necessity of using the tawse.

Educational state.—There were 44 boys in Standard Five: very good class, good and intelligent reading, good plain writing, no errors in dictation, 2 failures in arithmetic; good knowledge of geography of England, very quick answering in mental arithmetic, and good recitation. 29 in Standard Four: good reading, writing, dictation, and recitation; 2 failures in arithmetic; some geography and mental arithmetic. 19 in Standard Three: good class, no failures. 21 in Standard Two: good again, no failures. 21 in Standard One: very good class. 15 in a preparatory class. Order and attention very good. There was a very good brass band.

Industrial training.—This is very well attended to, and the work is thoroughly practical, 16 joiners, 30 bobbin-makers; in this shop was some very ingenious machinery; 30 turners, a great deal of wood-work is turned out of this shop; 17 tailors, 15 shoemakers, 10 garden boys, 6 knitters, 10 house boys; about 15 very small ones, school all day. Some boys help in the kitchen and laundry.

Staff.—Superintendent, Mr. Hutchison; matron, Mrs. Gellatly; schoolmasters, Mr. Forrest and Mr. McJannet; tailor, shoemaker, two turners, a bobbin-turner, sawyer, gardener, van-man, bandmaster, three domestics.

Average number maintained, 150. Total cost for 1894, 2,538*l.* 15*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 15*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 10*l.* 1*s.* 6*d.*

Industrial profits, 570*l.* 0*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 71 discharged in 1891–93, there are doing well 66, dead 1, convicted of crime or recommitted 1, unknown 3.

Perth Ladies' Industrial School for Girls, Craigie, Perth.

Inspected June 4, 1894.

Number of inmates on day of inspection, girls, 60 under detention, 1 voluntary case, and 5 on license.

State of premises.—In excellent order well arranged, and very comfortable; outside iron staircase for use in case of fire. The bath accommodation is rather limited; good playground; a very pleasant situation.

Health and general condition.—There had been one case of shingles; one girl had had the top of her finger cut off in bread-cutting machine; one case of incipient phthisis, 12 cases of whooping cough, two scrofulous cases; general health very good. There is a good, large sickroom, with a cheerful look-out. Delicate girls are sent to Broughty Ferry when they require change.

Conduct and discipline.—Nothing could be more satisfactory than the report of the year's conduct; no misconduct of any sort reported.

Educational state.—There were 4 girls in Standard Five: there were no failures; in addition to reading, writing, dictation, and arithmetic, geography of England and a little grammar had been taught; work very neat, no failures. 8 in Standard Four: a very good class; no failures. 9 in Standard Three: all passed. 12 in Standard Two: 1 failure in arithmetic. 12 in Standard One: no failures, all the work good. 13 beginners in a preparatory class. Order and attention excellent; the girls sing very nicely.

Industrial training.—Very good instruction given in sewing and knitting. In a recent knitting competition in Dundee the girls of the school obtained the second, fourth, sixth, and eighth prizes. Knitting is made a speciality, and a great deal is done for sale. The girls are trained for domestic service, and help in house, laundry, and kitchen.

Staff.—Superintendent, Miss Kelman; schoolmistress, Miss Tait; sewing-mistress, general assistant, and servant.

Average number maintained, 61. Total cost for 1894, 1,030*l.* 6*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 17*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 12*s.* 5*d.*

Industrial profits, 119*l.* 8*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 29 discharged in 1891–93, there are doing well 25, dead 1, unknown 3.

Perth Industrial School for Girls, Wells Hill, Perth.

Inspected June 4, 1894.

Number of inmates on day of inspection, girls, 52 under detention; of these 2 were voluntary cases, and there were 4 on license.

State of premises.—In excellent order, thoroughly clean, well arranged, well situated, and comfortable in every respect. No alterations since last year.

Health and general condition.—There had been one death from congestion of the lungs; one long case of rheumatism quite recovered. No other illness worth noticing. The girls could not have looked better.

Conduct and discipline.—The girls had given no trouble; they appear to be judiciously managed with great kindness, and seem happy, well-behaved, and cheerful.

Educational state.—There were 10 girls in Standard Five: reading good; writing and dictation very good; two failures in arithmetic. 12 in Standard Four: a very good class; no failures. 6 in Standard Three: reading, writing, dictation, and arithmetic very good; no failures. 6 in Standard Two: no failures; a very good class. 7 in Standard One: coming on very well; no failures. 10 small ones in a preparatory class. Order and attention excellent. The girls sing very nicely, and are regularly drilled.

Industrial training.—I saw good specimens of sewing and knitting; some of the girls work in the house, the laundry, and the kitchen, and receive the necessary training for domestic service.

Staff.—Superintendent, Miss Gray; assistant matron, Miss Reed; schoolmistress, Miss Yates; sewing-mistress and industrial teacher.

Average number maintained, 54. Total cost for 1894, 1,066*l.* 5*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 14*s.* 11*d.*

Net cost per head, including profit or loss on industrial departments, 20*l.* 5*s.* 3*d.*

Industrial profits, 72*l.* 10*s.* 2*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 25 discharged in 1891–93, there are doing well 21, doubtful 3, convicted of crime or recommitted 1.

Renfrew.

Greenock Industrial School for Boys and Girls, Captain Street, Greenock.

Inspected May 31, 1893.

Number of inmates on day of inspection, boys 145, girls 60.

State of premises.—Boys' department, very good order throughout the building. Dormitories clean and wholesome. Arrangements good. Night watch from 9 p.m. till 6 a.m. Schoolroom far too small. Another classroom required. Girls' department, very clean and comfortable. The girls would do far better in a separate establishment.

Health and general condition.—Boys—Very fair condition of health. One case of pneumonia, two or three cases of measles, two cases of scarlet fever, a few strumous abscesses, a few cases of influenza in December and January, one case of phthisis, one enlarged gland. Boys looked healthy and vigorous. Many very young. Girls—One case of scarlet fever, died; a few cases of catarrh, one case of diarrhœa. Girls had a very healthy appearance and looked bright and well cared for in all respects.

Conduct and discipline.—Boys in good spirits, vigorous, and thriving; discipline well maintained; a good many ordinary cases of pilfering, lying, idleness, bad language, and use of obscene expressions; two cases of absconding, one or two of going out without leave. Girls—doing well generally; a few faults of carelessness, impertinence, and occasional

Detailed Reports.

Industrial Schools.

untruthfulness. Not a very heavy list of faults. Girls improving. General appearance encouraging and hopeful.

Educational state.—Boys—30 in Standard Five: class doing well; very creditable work; two or three weak in arithmetic; geography of England and Scotland very good; a promising class. 25 in Standard Four: class did well, very few failures; good progress. 29 in Standard Three: class improving; ordinary work well done; 3 weak in arithmetic. 20 in Standard Two: with one or two exceptions all did well. 15 in Standard One: a capital class; very good work. 20 juniors, all very young. Boys orderly, quiet, and attentive. Girls—19 in Standard Five: satisfactory progress and good English composition and creditable arithmetic; 3 weak in that subject. 12 in Standard Four: very good class. 7 in Standard Three: all doing well. 9 in Standard Two: good reading and spelling; 4 weak in arithmetic. 3 in Standard One and 6 in primer; 3 very young. School going on satisfactorily. Very good order.

Industrial training.—Boys—I found 29 working with the shoemaker, and 28 with tailoress, making and repairing the school clothing; 36 in the brushmaking department, turning out good work; a class of juniors knitting and darning. The girls work in the kitchen and laundry, in which there is plenty of hard work, but not much instruction. The girls should have systematic lessons in plain cookery, and good class laundry work. All learn to knit and to sew. There is a workroom and a sewing-mistress.

Staff.—Boys—Superintendent, Mr. Alexander Thomson; schoolmaster, Mr. John B. Thomson; shoemaker, tailoress, brushmaker, janitor and workmaster, night watchwoman. Girls—Superintendent, Mrs. Mackie; schoolmistress, Miss Napier; sewing-mistress, cook, laundress.

Average number maintained, 202. Total cost for 1894, 2,315*l.* 15*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 9*s.* 3*d.*

Net cost per head, including profit or loss on industrial departments, 11*l.* 11*s.* 6*d.*

Industrial loss, 22*l.* 9*s.* 6*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 60 boys and 23 girls discharged in 1891–93, there are doing well 45 boys and 19 girls, dead 1 girl, doubtful 6 boys and 1 girl, convicted of crime 2 boys and 1 girl, unknown 7 boys and 1 girl.

Paisley Industrial School for Boys and Girls, Albion Street, Paisley.

Inspected May 30, 1894.

Number of inmates on day of inspection, boys 119, girls 50, under detention, and 4 boys and 1 girl voluntary cases.

State of premises.—There had been no alterations in the building, but I saw plans of alterations and additions to the shops and bathroom.

The girls have now a separate schoolroom. The premises were in very good order; rooms all well ventilated and well lighted; in the upper dormitories are two fire-escapes; the lower dormitories have each two staircases. There are two very comfortable sickrooms, one for boys, the other for girls.

Health and general condition.—There had been five cases of scarlet fever, not severe, sent to the Paisley Infirmary for treatment; two cases of pneumonia. General health very good. The children looked very well and cheerful.

Conduct and discipline.—There had been four cases of absconding; one boy still away. General conduct very good. Very little occasion for punishment. The system of marks is a great help to discipline. Children of good conduct can earn from 1*d.* to 6*d.* a week.

Educational state.—There were 21 boys in Standard Five: no failures in reading or dictation; writing indifferent; 7 failures in arithmetic; geography of Europe and the British Isles; a little grammar. 24 in Standard Four: no failures in reading; 6 failures in dictation, 11 in arithmetic; geography and a little grammar taught. 18 in Standard Three: all passed in reading; writing only fair: 7 failures in dictation, 3 in arithmetic. 24 in Standard Two: 1 failure in reading; writing fair; 2 failures in dictation, 8 in arithmetic. 12 in Standard One, 12 in preparatory class. Order and attention not good at first, better afterwards. On the whole, the educational state was not so good as in former years.

On the girls' side there were 8 girls in Standard Five: a good class; no failures; some geography taught, and Scotch history and grammar. 7 in Standard Four: very good class; no failures. 10 in Standard Three: only 1 failure in arithmetic, the girl had been ill; very good class. 11 in Standard Two, 4 in Standard One, 9 in a preparatory class. Order and attention excellent.

Industrial training.—There is a good brass band of 24 performers. 39 boys were at work in the tailor's shop, 40 in the shoemaker's. 20 work as half-timers, learning joinery, shoemaking, and turning. 20 were employed in tassel-making, a very inferior class of industrial training, which I hope will be dropped when the new shops are finished. The girls do a good deal of laundry-work, house-work, and kitchen-work, and learn to sew and knit.

General remarks.—The school would get on better and be far easier to manage if the girls could be sent to a separate institution.

Staff.—Superintendent and matron, Mr. and Mrs. Thomas Smith; schoolmasters, Mr. Cryle and Mr. Shanley; schoolmistress, Miss Macfarlane; tailor, shoemaker, workmaster, night watchman, cook and housemaid, drill sergeant five times a week.

Average number maintained, 165. Total cost for 1894, 2,881*l.* 15*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 9*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 15*l.* 19*s.* 6*d.*

Industrial profits, 245*l.* 10*s.* 10*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 85 boys and 31 girls discharged in 1891–93, there are doing well 77 boys and 27 girls, dead 1 boy and 3 girls, doubtful 1 girl, convicted of crime or recommitted 2 boys, unknown 5 boys.

STIRLING.

Falkirk Industrial School for Boys, Kerse Lane, Falkirk.

Inspected June 2, 1894.

Number of inmates on day of inspection, boys, 55; of these 54 under detention, 1 on the voluntary list.

State of premises.—House and premises maintained in excellent order. Dormitories clean and well aired, rather crowded. Good lavatory and bathroom. Good garden and playground. Isolated infirmary when required.

Health and general condition.—Only fair. The boys come into the school in a very weak state. One tabes mesenterica, one fistula, one case of colic, one of sore throat, one of strumous abscess in groin, one tuberculous fistula. One death from pneumonia in January 1894. One chorea, one ill with disease of the bowels. Many very young. The elder boys looked stout and hearty.

Conduct and discipline.—School a good deal troubled with boys running home without leave, many cases of this, and the only cure would be to let each boy earn a holiday occasionally by good conduct. In October a serious case of stealing and selling bundles of firewood. One boy sent to Reformatory for absconding. In February 1894 a very serious case of stealing a considerable sum of money from the superintendent's room; 8 boys implicated, the ringleader sent to a Reformatory. This was followed by a good deal of absconding, but all the boys were recovered. School had recovered its usual condition and the restlessness had passed off.

Educational state.—Fair. 5 in Standard Five: good reading and spelling; 1 failed in spelling, 2 dictation, 2 in arithmetic. 10 in Standard Four: good reading and spelling; dictation well done; writing good. 11 in Standard Three: a good class; no failures; work carefully done. 12 in Standard Two: reading very fair; 3 failures in spelling; dictation well done; writing good; 2 failed in arithmetic. 10 in Standard One: all did well with one exception. 5 in preparatory class: progressing. Boys quiet and orderly.

Industrial training.—13 juniors learning to knit, darn and sew, and work machines; 4 in the tailoring, the rest in the garden and wood-chopping. 22 in drum and fife band. There is a good garden under careful cultivation. A few boys go out to work in the morning and after school hours.

Staff.—Superintendent, Mr. John Clark; matron, Mrs. Clark; teacher and bandmaster, Mr. John O. Murdoch; workmaster, Mr. H. M'Call; tailor, Mr. Finlayson; assistant teacher and sewing-mistress, Miss Jane Henderson.

Average number maintained, 54. Total cost for 1894, 979*l.* 9*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 2*s.* 9*d.*

Net cost per head, including profit or loss on industrial departments, 16*l.* 19*s.* 6*d.*

Industrial profits, 62*l.* 15*s.* 7*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 32 discharged in 1891–93, there are doing well 28, dead 1, doubtful 2, convicted of crime or recommitted 1.

Stirling Industrial School for Boys, Sauchie House, Baker Street, Stirling.

Inspected June 2, 1894.

Number of inmates on day of inspection, boys, 38, and 1 voluntary case.

State of premises.—In good order. A canvas shoot had been placed in the upper part of the house, for escape in case of fire. There is a very good garden and a good schoolroom. The buildings are not very large, but provide sufficient accommodation.

Health and general condition.—The superintendent died in the autumn of 1893. There had been very little illness, one case of pneumonia, one of pleuro-dynia, two of ophthalmia, and one of cephalgia. The boys looked very well.

Conduct and discipline.—There had been very little occasion for punishment. The boys had given no trouble.

Educational state.—The education was being well attended to, the writing was much improved. There were 6 boys in Standard Five: very fair reading; good writing; very good dictation and arithmetic. 7 boys in Standard Four: one failure in arithmetic; good reading, writing, and dictation. 5 in Standard Three: no failures. 7 in Standard Two: 2 failures in arithmetic. 7 in Standard One: good reading, very fair writing. 6 in a preparatory class. Order and attention very good.

Industrial training.—8 tailors, 24 wood-choppers, 3 boys making fire lights; the garden is worked by the boys. I recommended the manager to take in more garden ground and have less wood-chopping.

Staff.—Superintendent, Mr. Russell; matron, Mrs. Coghill; tailor three hours a day, workmaster.

Average number maintained, 39. Total cost for 1894, 652*l.* 17*s.* 9*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 14*s.* 10*d.*

Net cost per head, including profit or loss on industrial departments, 14*l.* 0*s.* 4*d.*

Industrial profits, 106*l.* 6*s.* 1*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 27 discharged in 1891–93, there are doing well 18, doubtful 1, convicted of crime or recommitted 1, unknown 7.

Stirling Industrial School for Girls, Stirling.

Inspected June 2, 1894.

Number of inmates on day of inspection, girls, 26, and 4 on license.

State of premises.—In very good order; some arrangement is wanted in the new dormitory for escape in case of fire; good schoolroom, laundry, and garden.

Health and general condition.—There had been one death from acute inflammation of the lungs; one case of laryngitis, one of ophthalmia; general health very good; much improved since the additional buildings were put up.

Conduct and discipline.—Very good. Such girls as have behaved well and have respectable homes are allowed to go home on Saturday afternoons. Scarcely any punishment needed.

Educational state.—The order and attention excellent. 5 girls in Standard Five: good reading; very good writing; no errors in dictation; no failures in the arithmetic; a little geography. 3 girls in Standard Four: no failures. 5 girls in Standard Three: 1 failure in dictation; good reading, writing, and arithmetic. 6 in Standard Two: good reading, writing, and dictation; rather weak in arithmetic. 4 in Standard One, all passed in the usual subjects. 3 in a preparatory class. The girls sing very nicely.

Industrial training.—The girls are trained for domestic service, learn to sew and knit, and work in the house, kitchen, and laundry.

Staff.—Superintendent, Miss Berry; teacher, Miss Davy; a laundress one day in the week.

Average number maintained, 29. Total cost for 1894, 409*l.* 8*s.* 11*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 2*s.* 4*d.*

Net cost per head, including profit or loss on industrial departments, 13*l.* 4*s.* 11*d.*

Industrial profits, 25*l.* 6*s.* 8*d.*

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 6 discharged in 1891–93, there are doing well 5, doubtful 1.

WIGTON.

Newton Stewart Industrial School for Girls, Newton Stewart, N.B.

Inspected March 14 and 15, 1894.

Number of inmates on day of inspection, girls, 54.

State of premises.—The interior accommodation is excellent. Everything is provided to make the children healthy and comfortable. Dormitories very clean and well furnished. A new lavatory had been made, with good bathing accommodation. The play-yard is poor, and wants paving or asphalting, and a good play-shed for exercise out of doors is much required.

Health and general condition.—Health very good; very little sickness. Well appointed sickroom, unoccupied all through the winter. The girls enjoy the privilege of a cottage home at the seaside at Whithorn, where they spend a few weeks in the summer. This change is of the utmost advantage. Girls re-vaccinated in the year; one case of strumous disease, three cases of erythema, one ulcer of cornea, one suppurating ear. Girls looking well and healthy, cheerful and bright.

Conduct and discipline.—Very fair report as to conduct. A few ordinary cases of untruthfulness, stubbornness. Some idleness and carelessness. No very serious faults. School carefully managed and girls doing well.

Educational state.—Fair. 14 in Standard Five: good reading and spelling; 3 failures in arithmetic, 1 in dictation. 11 in Standard Four: 2 failures in arithmetic; work wanting in neatness; 1 failed in dictation. 10 in Standard Three: a very good class; no failures. 7 in Standard Two: writing poor; 3 failed in arithmetic, 2 in dictation. 7 in Standard One: a defective class; 3 infants. Order very good.

Industrial training.—The elder girls assist in the laundry, kitchen, and scullery. Good needlework and knitting exhibited. The practical training is carefully attended to. Systematic lessons in plain cookery should be provided.

Staff.—Superintendent, Miss J. McKay; assistant, Miss Ross, and one general assistant.

Average number maintained, 49. Total cost for 1894, 588*l.* 8*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 0*s.* 2*d.*

Net cost per head, including profit or loss on industrial departments, 12*l.* 5*s.* 5*d.*

Industrial profits, nil.

Results on cases discharged in the three years 1891, 1892, and 1893.—Of 16 discharged in 1891–93, there are doing well 12, dead 2, doubtful 2.

APPENDIX No. II. (C.)

Certified Truant Industrial Schools.

Detailed Reports for 1894.

Devon.

Plymouth School Board Truant School.

Inspected July 24, 1894.

Number of inmates on day of inspection, boys, 27.

State of premises.—In very good order; a roomy comfortable house. There is a small garden and drill yard.

Health and general condition.—Very good. Early in the year there were a few cases of ophthalmia. Several boys were found unwell on admission; but there were no serious cases.

Conduct and discipline.—Generally very good. Of the 27 in school five were there for the first time, eight for the second, nine for the third, four for the fourth, and one for the sixth time. There had been 101 punishments with the birch, of which 76 were on re-admission from license, and 25 for various school offences. Such schools should be carried on with far less resource to the birch. Punishments on re-admission should be done away with. The new truant school rules will cause a great reduction, and assimilate the treatment of children in truant schools more to that of boys in ordinary industrial schools.

Educational state.—Order and attention very good. 3 boys in Standard Four, 6 in Standard Three, 9 in Standard Two, 9 in Standard One. Fairly good results, but I think more could be done in the schoolroom.

Industrial training.—Mat-making, wood-chopping, and gardening. The boys are allowed half an hour daily for play, but committee do not find football or anything for the boys to play with.

Staff.—Superintendent and matron, Mr. and Mrs. Fairbank; labour-master, Mr. McCarthy; cook, Mrs. McCarthy.

Average number maintained, 33. Total cost for 1894, 674*l.* 9*s.* 5*d*

Comparative cost per head on ordinary maintenance and management, 20*l.* 8*s.* 9*d.*

Industrial loss, 22*l.* 12*s.* 10*d.*

Results.—Of 1,139 admissions to December 31, 1894, 690 had been licensed and not re-admitted, 220 licensed and once re-admitted, and 214 licensed and re-admitted more than once.

Essex.

North London Truant Industrial School, High Street, Walthamstow.

Inspected June 14, 1894. Visited February 22 and November 22, 1894.

Number of inmates on day of inspection, boys, 103; 120 on license.

State of premises.—I found the new buildings completed and occupied. They provide increased accommodation, a new schoolroom, a new dormitory, increased bath and lavatory accommodation, and excellent laundry and a new boardroom. The alterations had been well carried out and give increased facilities for carrying on the work with efficiency. The school is now certified for 120 inmates. I found every department in excellent order, and was glad to find the garden much improved. The drainage had been put into renewed order.

Health and general condition.—The health of the children had been well kept up. They receive careful attention from the medical officer. A few cases of sore throat, swollen glands, and strumous sores; one case of chicken-pox; one rheumatism with fever, a severe case; one blood poison, one scabies, one discharge from ear, two or three cases of scabies, one eczema, one tonsillitis, one chicken-pox. Scabies had given a little trouble for a time. General appearance favourable. Boys properly cared for and improving physically.

Conduct and discipline.—The boys do not give much trouble in the school, and are managed with tact and special experience. The chief cause of complaint is truancy and irregular attendance at school while on license. The boys behave well enough when under sound influence and proper discipline. I saw no depression. No cell punishments in the school. A few cases of idleness, carelessness, and boyish faults. Boys generally improving and deriving much advantage from the good discipline of the house.

Educational state.—This continues to receive very careful and particular attention. The object in view being to establish the boy in his standard, and to give him confidence and assurance as to his own ability so far as it goes. He comes to the school very often discouraged and hopeless. The school, if a good one, sends him out again hopeful and determined. 7 in Standard Four: all did well but 1 in arithmetic; very good work; fair knowledge of geography of England and Wales; good recitation. 19 in Standard Three: very good work; only 1 failure in arithmetic. Boys all getting on well. 20 in Standard Two: all improving; 4 weak in arithmetic; some knowledge of geography. 32 in Standard One: coming on very well; all improving; excellent order; much perseverance with the boys. The school well understands the points to be aimed at. Excellent order.

Industrial training.—The boys' working time is occupied in the garden or in the wood-chopping department. More might easily be done in providing the boys with some manual instruction. There is a large drillroom and workshop, and plenty of room for a few benches for instruction in the use of tools and woodwork. There is a large garden, which occupies some of the boys at the proper season. The boys drill well. They assist in the kitchen, scullery, and laundry, and do much of the work of the house.

Staff.—Superintendent and matron, Mr. and Mrs. C. E. Kirk; schoolmaster, Mr. F. R. Todd; assistant teacher to be appointed; labour-master, cook, laundress, needle-woman.

Average number maintained, 107. Total cost for 1894, 2,146*l.* 7*s.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 1*s.* 2*d.*

Industrial profits, 10*l.* 14*s.* 1*d.*

Results.—Of 1,945 admissions to 31st December 1894, 1,185 had been licensed and not re-admitted, 431 licensed and once re-admitted, and 272 licensed and re-admitted more than once.

West Ham School Board Truant Industrial School, Fyfield, Ongar, Essex.

Inspected June 13, 1894.

Number of inmates on day of inspection, boys, 80; mostly from West Ham School Board district; a few from other boards.

State of premises.—The house and premises are very well adapted for the particular work carried on. The buildings were specially designed and built for a truant school, and satisfy every requirement. Very good playground and an excellent drill-shed. Good workshop and swimming-bath. The dormitories were very clean and well arranged.

Health and general condition.—Boys looked healthy. Situation somewhat cold and exposed. Boys rather feeble on admission; some cases of eczema and ulcers, one alveolar abscess, one scald, two sore throats, one rheumatism, one fall, one crushed fingers, some chilblains in the winter, one boy accident to hand, a few cases of enlarged glands, a few cases of inflamed eyes, one case of influenza, one ringworm, one diarrhœa; a good many petty ailments. No very serious disorders. Boys improve in health by their stay.

Conduct and discipline.—A good many punishments for non-attendance at the outside school while on license. Two or three cases of absconding. A good many faults of idleness, disorder, impudence, dishonesty, bad habits, insubordinate conduct, rudeness to officers, requiring correction. Boys in good order. No apparent depression. School carefully administered.

Educational state.—Improving. 1 in Standard Five. 8 in Standard Four: very fair work; a few exceptions. 15 in Standard Three: very fair work; 5 weak in dictation; 4 moderate in reading; arithmetic well done. 33 in Standard Two: fair results; class improving; reading generally good; 5 weak in dictation; boys gaining ground. 14 in Standard One: class improving; a few backward boys; arithmetic well done. 9 in preparatory class: just in the elements. Order very good. The boys sing well.

Industrial training.—There is a large garden and about eight acres of farming land. The soil is pretty stiff clay. Some wood-chopping is carried on. The boys help in the kitchen and laundry and keep the house clean. The boys drill well. What is wanted is some manual instruction in the use of tools and woodwork, or, as in other truant schools, the boys might make some of their own clothing.

Staff.—Superintendent and matron, Mr. and Mrs. A. Culling; schoolmaster, Mr. G. Willgosse; drillmaster, labour-master, cook, laundress, needle-woman occasional.

Average number maintained, 76. Total cost for 1894, 1,862*l.* 5*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 24*l.* 10*s.* 1*d.*

Results.—Of 1,138 admissions to 31st December 1894, 537 had been licensed and not re-admitted, 283 licensed and once re-admitted, and 268 licensed and re-admitted more than once.

GLAMORGANSHIRE.

Swansea School Board Truant Industrial School, Bonymaen, near Swansea.

Inspected July 20, 1894.

Number of inmates on day of inspection, boys, 78, of whom 34 were in for the first time, 39 for the second time, 3 for the third, and 1 for the fourth. About 160 on license.

State of premises.—The situation is healthy, but the approach from Swansea is steep and rough. The building had recently been enlarged and improved. All the rooms were in good order and fairly convenient. Communication by bells is needed. The playground required levelling and facing. The floor of the wood-chopping shed was in a bad state. The water supply was shortly to be improved, and several canvas shoots for escape from the dormitories in case of fire were to be provided.

Health and general condition.—There had been no deaths. The air is good and the boys enjoy very good health. There had been one case of sub-acute rheumatism. Some of the boys come in with ringworm or itch, but are soon cured. Better means for purifying the clothing they bring with them are needed.

Conduct and discipline.—There had been two or three cases of absconding and attempting to abscond. A few cases of stealing, of smoking, impertinence, and general unruliness. The cells have been abolished, and to this fact the superintendent attributes a better spirit amongst the boys. There had been no cases of punishment for truancy, and judging also by the prolonged terms a number of the boys are kept in the school, they would appear to be industrial school or pauper cases rather than truants.

Educational state.—5 in Standard Four: good and neat work; no failures. 16 in Standard Three: good reading; very good writing and arithmetic. 16 in Standard Two: good reading, spelling, and writing; no failures. 29 in Standard One: mostly doing well and making progress. 12 in preparatory class; some very backward and needing special attention. Drawing was being taught to all; good singing. Order and attention excellent.

Industrial training.—Considering the increase in the numbers and the length of time the boys are being kept, much more might be done in this department. There is a class for sewing, knitting, and repairing the clothes, but the majority of the boys are employed at wood-chopping. Some assist in the house, laundry, and kitchen. The boys drill well.

Detailed Reports.

Truant Industrial Schools.

Staff.—Superintendent and matron, Mr. and Mrs. S. J. Edwards; schoolmaster, Mr. David Edwards; labour and drill master, Mr. James McCammon; laundry and sewing-mistress and one domestic.

Average number maintained, 72. Total cost for 1894, 843*l.* 12*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 14*s.* 4*d.*

Industrial loss, 14*l.* 15*s.* 6*d.*

Results.—Of 730 admissions to 31st December, 1894, 304 had been licensed and not re-admitted, 243 licensed and once re-admitted, and 129 licensed and re-admitted more than once.

South Wales and Monmouthshire Truant Industrial School, Quakers' Yard, Treharris, Merthyr Tydfil.

Inspected July 20, 1894.

Number of inmates on day of inspection, boys 66; on license 57.

State of premises.—This new truant school for 90 boys was established by a combination of school boards for the benefit of the South Wales district, and was certified for 90 boys, November 8, 1893. It began work in January 1894. The house and premises are well and substantially built, in a healthy and picturesque neighbourhood, and supply ample and complete accommodation for 90 boys, with apartments for the chief officers. There is abundance of room for recreation and exercise. The arrangements have been well considered, and satisfy every ordinary requirement.

Health and general condition.—The health of the boys had been good. Marked improvement in the condition of the boys after a few weeks' detention; one boy with weak heart, one cataract on eye, two or three cases of diarrhœa. Good medical report; nothing of very serious import.

Conduct and discipline.—The officers in charge had been accustomed to deal with the class of boys received, so that new-comers soon fell into the ordinary routine. I found all going on regularly and satisfactorily. The school had made a good start. One case of absconding; one misbehaviour in dormitory; two cases of truancy on license; two or three cases of disobedience; one wilful mischief. I found the school gaining ground, and all promising well.

Educational state.—The classes had been arranged according to the standards. I found 16 in Standard Three: improving work; all doing well; very fair results; neat work and good progress. 12 in Standard Two: reading and spelling good; all passed in dictation; 3 weak in arithmetic; progress very fair. 32 in Standard One: fair progress for the time; some weakness in arithmetic; all improving in reading and spelling; good instruction. 6 in preparatory class; just in the elements. Boys quiet and good. Order excellent.

Industrial training.—Not much developed at the time of my visit, but some of the elder boys at work assisting in getting the garden into order outside, and busy in the kitchen, laundry, and house work. All doing something to improve the condition of affairs. Very good progress for the time since establishment.

Staff.—Superintendent, Mr. Wm. Davies; matron, Mrs. Courtenay; schoolmaster, Mr. Josh. Heath; general assistant, Mr. Tucker; workmaster, Mr. Whitton; two female assistants, cook, and laundress.

Average number maintained, 50. Total cost for 1894, 1,513*l.* 2*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 30*l.* 5*s.* 3*d.*

Results.—Of 198 admissions to 31st December 1894, 145 had been licensed and not re-admitted, and 11 licensed and once re-admitted.

GLOUCESTER.

Bristol School Board Truant Industrial School, 9, Southwell Street, Bristol.

Inspected June 28, 1894. Visited November 26, 1894.

Number of inmates on day of inspection, boys, 44; of whom 23 were in for the first time, 10 for the second, 9 for the third, and 2 for the fourth. About 280 on license.

State of premises.—In good order. The dormitories, schoolroom, and dining-room are pleasant and satisfactory. The lavatory and laundry are too small. The former had been thoroughly repaired by November, but not enlarged. The wash-house besides being small is not well ventilated, and the washing of 20 boys cannot be conducted under healthy conditions. There are no workshops, and it is probable that no room for their erection could be conveniently found on the present premises.

Health and general condition.—There had been two or three cases of ringworm, some cases of boils and other sores, several of chilblains and coughs and colds in the winter. One boy jammed his thumb in the wringing machine and was sent to the hospital. Another scalded both his hands, but soon recovered. One boy, subject to epilepsy, had been discharged. The boys looked fairly well but rather listless.

Conduct and discipline.—A tolerably long list of offences, including cases of disobedience, shirking and scamping work, dirty habits, destroying clothes. Several cases of boys trying to poison their fingers with a view to evade work. Two or three attempts to abscond. A few cases of stealing. Several cases of punishment for return to the school a second or third time. The use of the cells as a punishment was discontinued in October, and it is to be hoped that this experiment will be persevered with. A much healthier tone might be maintained in the school by providing some occupations for the boys in which they could take a wholesome and useful interest.

Educational state.—Rather more backward than usual. 12 in Standard Four: fair reading; good writing; 7 failures in dictation, 3 in arithmetic. 10 in Standard Three: fair reading with two or three exceptions; 2 failures in dictation and 2 in arithmetic. 14 in Standard Two: fair reading, with one exception; 4 failed in dictation; 7 in arithmetic. 4 in Standard One and 1 in preparatory, making very fair progress. 3 others were admitted during the day. No extra subjects. Something might be done to make the schoolroom work more attractive. The boys were quiet and orderly.

Industrial training.—There is practically no industrial training. The boys do the house and laundry work and assist in the kitchen. They are drilled, but there is no musical drill.

Detailed Reports.

Truant Industrial Schools.

Staff.—Superintendent and matron, Mr. and Mrs. Thomas Gillespie; schoolmaster, Mr. Robert Sharpe; drill and yard master, and one general servant.

Average number maintained, 44. Total cost for 1894, 899*l.* 13*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 8*s.* 11*d.*

Results.—Of 1,407 admissions to 31st December 1894, 897 had been licensed and not re-admitted, 392 licensed and once re-admitted, and 104 licensed and re-admitted more than once.

LANCASHIRE.

Liverpool School Board Truant Industrial School, Hightown, near Liverpool.

Inspected April 28, 1894. Visited December 1894.

Number of inmates on day of inspection.—Protestant section—Boys, 48, of whom 24 were in for the first time, 16 for the second, 6 for the third, 1 for the fourth, and 1 for the fifth; about 620 on license. Roman Catholic section—Boys, 75, of whom 26 were in for the first time, 26 for the second, 20 for the third, and 3 for the fourth; about 500 on license.

State of premises.—Both houses were in excellent order. All the rooms were thoroughly clean and wholesome. The gardens were looking very tidy and well kept. The drainage had been improved and was said to work perfectly well. The cells were still in use. They might more advantageously be made into one good room for each section, for sleeping or industrial training purposes.

Health and general condition.—The general health had been well maintained. There had been two or three cases in each section of conjunctivitis, but all recovered. A few boys came in with itch and ringworm, but not so many as formerly. Two or three of delicate constitution were discharged. The winter had not been severe. Each section has a comfortable sickroom, and there is constant medical attendance. The boys looked healthy and thriving.

Conduct and discipline.—Two or three cases of absconding on the Protestant side and one on the Roman Catholic side. Not many cases of punishment for truancy. Some cases of ordinary offences, idleness, &c. Generally the school had been going on steadily and there had not been much need for severe punishment.

Educational state.—Protestant section—5 in Standard Four: very fair reading and writing; moderate arithmetic. 10 in Standard Three: very fair work throughout. 7 in Standard Two: good reading; very fair writing and arithmetic. 18 in Standard One: 3 or 4 failures; but all seemed to be making progress, and most of the work was well done on paper. 8 in preparatory class, beginning to learn. Roman Catholic section—4 in Standard Four: good reading and writing, fair arithmetic. 22 in Standard Three: good reading, writing, and spelling; 3 failures in arithmetic. 25 in Standard Two: very fair reading and writing; 3 failures in dictation, 5 in arithmetic. 16 in Standard One:

2 backward in reading, 2 in writing, and 6 in arithmetic. 8 in preparatory class, only 3 of whom could write. Order in both sections excellent.

Industrial training.—Each section has its plot of garden, in which great interest is taken, affording healthful and useful employment for some of the boys. There is some wood-chopping in the winter. The boys mend their clothes and help in the kitchen, house, and laundry. Each section has a capital workshop, which might well be turned to more practical account.

Staff.—Protestant section—Superintendent and matron, Mr. and Mrs. J. K. Leitch; labour-master, cook, and laundress. Roman Catholic section—Superintendent and matron, Mr. and Mrs. T. B. George; labour-master, cook, and laundress. An outdoor visitor is attached to each section to look after the boys on license.

Average number maintained, 113. Total cost for 1894, 2,239*l.* 11*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 19*l.* 17*s.* 10*d.*

Industrial profits, 64*l.* 7*s.* 5*d.*

Results.—Of 4,407 admissions to 31st December 1894, 2,122 had been licensed and not re-admitted, 1,090 licensed and once re-admitted, and 925 licensed and re-admitted more than once.

Middlesex.

School Board for London Truant Industrial School, Upton House, Urswick Road, Homerton, E.

Inspected June 19, 1894. Visited December 31, 1894.

Number of inmates on day of inspection, boys, 141; of these, 105 were Protestants, 35 Roman Catholics, one Jew. 242 new cases since last inspection. Percentage of attendance at outside schools, 90 per cent. On license about 350.

State of premises.—I went over house and premises, inspected the dormitories, sickroom, bakery, and laundry. I was pleased to find all in excellent order. The buildings provide good accommodation for every need. There is a new and good shop for tailoring and shoemaking, a shop for manual instruction in the use of tools and woodwork is to be added. The whole establishment was in good order and repair and under careful supervision.

Health and general condition.—The health is very carefully watched and attended to. The medical officer visits nearly every day and sees any of the boys who may be suffering from any slight ailment or disorder. There had been no serious sickness during the year. A few cases of sore throat, abscesses, shingles, eczema, and other sores; a few cases of sore throat, general debility, and diarrhœa, all of which yielded to treatment. Two boys sprained their ankles. The boys generally looked clean, healthy, and well cared for in every respect.

Conduct and discipline.—A tolerably long list of minor offences; in the majority of cases, however, very slight punishments were found sufficient. Some cases of disorder at work, at drill, or in the dormitories;

idleness, untruthfulness, and pilfering of food. Two or three cases of irreverence at prayers; four or five cases of absconding, all brought back. Discipline is well maintained and bad habits checked without undue severity. The boys were quiet and attentive during the examination and played heartily when dismissed for recreation.

Educational state.—This is very carefully dealt with. 19 in Standard Four: very fair results; 4 weak in dictation, 2 in arithmetic; good recitation and elementary geography. 28 in Standard Three: very good work, results very satisfactory; 1 weak in arithmetic; writing good; recitation very fair. 35 in Standard Two: reading and spelling good with three or four exceptions; 8 weak in dictation; 13 backward in arithmetic. Class rather backward; a good many new boys. 50 in Standard One: reading and spelling very fair; writing large and good; definitions in geography; drawing attempted. Very fair class with a few exceptions. 9 in preparatory class: receiving proper attention and making progress. General order very good.

Industrial training.—The industrial training has received new development of late. I found 24 boys working in the tailor's shop, and making good advance in their business, making nearly all the clothing. A large class receiving instruction in the use of tools and woodwork, with very good specimens of their work. Linear drawing is now taken as a class subject in the schoolroom. Very good physical drill. Daily recreation should be provided for.

Staff.—Superintendent, Mr. A. J. Walker; matron; head schoolmaster, Mr. G. Chandler; assistant ditto, Mr. W. M. James, Mr. I. Cunningham; two labour-masters, tailor, shoemaker, baker, nurse, cook, laundress, and housemaid.

Average number maintained, 135. Total cost for 1894, 2,804*l.* 0*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 20*l.* 15*s.* 5*s.*

Industrial loss, 14*l.* 6*s.* 10*d.*

Results.—Of 3,744 admissions up to 31st December 1894, 2,233 had been licensed and not re-admitted, 861 licensed and once re-admitted, and 595 licensed and re-admitted more than once.

School Board for London Truant Industrial School, Highbury Grove, Highbury, N.

Inspected June 19, 1894. Visited December 18, 1894.

Number of inmates on day of inspection, boys, 200.

State of premises.—No material alterations. The buildings as adapted to the requirements of a Truant School answer their purpose thoroughly well, and fully satisfy the necessities of this case. Very good sickroom; some useful workrooms. Every part of the building was in excellent order and repair. There is constant and careful supervision over every branch.

Health and general condition.—The school is now a very large one with 200 inmates. I found the sanitary precautions properly attended to. General health satisfactory. A few more serious cases; one

congestion of lungs in August, two cases of scarlatina, one case of diarrhœa, one scald, one case of jaundice, one hernia, two cases of pneumonia, one swollen glands. Inflammation of eyelids, one injury to finger. Boys looked healthy and thriving, and they are carefully attended to.

Conduct and discipline.—The report as to conduct was altogether encouraging. Very little serious misconduct. Much is done for the benefit of the boys, and there is but little ground for serious complaint. A little disobedience, idleness, and deceit occasionally. I found the school doing well, exerting a very good influence, and fully alive to the expediency of doing as much for the real improvement and benefit of the boy as possible during his limited stay in the school.

Educational state.—Much care is bestowed on the schoolroom. 44 in Standard Four: a very good class, all work very well done; all passed in arithmetic but 3; geography of England and Wales; 3 weak in dictation. 47 in Standard Three: reading and spelling improved; class doing well, very neat work; good teaching and superior results; 2 weak in arithmetic. 31 in Standard Two: class improving; 5 weak in arithmetic; neat work on paper. 39 in Standard One: reading and spelling good; writing good; very careful teaching and good results. 38 in preparatory class: improving; quite newly in; all beginning to read, write, and do easy sums. General order excellent.

Industrial training.—This is carried on with increasing energy. The boys now make their own clothing and their own boots. I found 29 in the tailor's shop, doing very well; a class of juniors knitting and mending. The shoemaker's shop was also doing well, and making most of the school boots. I found 30 boys engaged in that shop. A considerable class receive manual instruction in the use of tools and woodwork. The boys assist in the laundry, kitchen, and house work. The musical drill was excellent. The boys sing very nicely.

General remarks.—The school is interesting, because in a short space of time it lays itself out to do a good deal for the boy, and is successful in carrying out its objects in a remarkable degree.

Staff.—Superintendent and matron, Mr. G. T. Peall; schoolmasters, Messrs. Peck, Barnett, and Tomlinson; manual inspector, drillmaster, tailor, shoemaker, baker, cook, laundress, and assistant, general assistant, two domestics, nurse and needlewoman, clerk. Total, 18.

Average number maintained, 199. Total cost for 1894, 3,562*l.* 3*s.* 7*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 18*s.*

Industrial profits, 65*l.* 4*s.* 7*d.*

Results.—Of 1,703 admissions to 31st December 1894, 1,018 had been licensed and not re-admitted, 421 licensed and once re-admitted, and 209 licensed and re-admitted more than once.

Chiswick and Heston School Board Truant Industrial School, Holme Court, Isleworth, Middlesex.

Inspected November 15, 1894.

Number of inmates on day of inspection, boys, 62.

State of premises.—The house and premises are very well adapted for the particular work carried on. The arrangements are suitable and

convenient. I found the whole establishment particularly clean and comfortable. The dormitories sweet, well ventilated, and wholesome. Large garden and good play-yard. Good shed and a capital workshop.

Health and general condition.—The medical report was not unfavourable. A few chilblains in the early part of the year. Three cases of ringworm, one abscess in ear, one abscess of toe, one weak eyes, one ulcerated tonsils, one ophthalmia, one herpes, one case of measles, one scrofulous sores. No serious cases. The boys looked well, and receive proper medical attention and care when they require it.

Conduct and discipline.—A good many offences, and some serious faults requiring correction. A good many difficult cases to deal with. Discipline maintained with a diminished amount of severity. A good many cases of truancy, returning to the school in consequence of non-attendance in the ordinary school while on license. Some cases of petty theft, two or three cases of absconding and wilful disobedience, one refusal to work. Some rudeness to officers, impudence, and idleness. I found the school going on steadily, improving, and little or no ground for complaint.

Educational state.—This is properly attended to, but the boys are not in the school very long, consequently the effort of the school is to perfect and consolidate what is attempted. 1 in Standard Five. 8 in Standard Four: very fair work with a few exceptions. 9 in Standard Three: class improving; a little grammar; very fair results. 17 in Standard Two: class improving; very fair work, real and good; good writing on paper. 17 in Standard One: a few weak boys here; some big boys also very backward; arithmetic well done with two or three exceptions. 7 of these boys in the school for second time. 10 in preparatory class, receiving proper attention; all improving. The boys sing very well. Order excellent.

Industrial training.—There is a good garden, and in the season this gives some outdoor employment. There is a carpenter's shop; 5 of the boys work in this, and do repairs for the house. 12 are now receiving some instruction in the use of tools and woodwork. There is a junior class for mending and needlework and darning. The boys assist in the kitchen, house work, and laundry. Good physical drill very well done. Drill takes the place of play to a large extent, but a certain amount of recreation is provided for.

General remarks.—An inquiry was held in the early part of the year in reference to alleged ill-treatment and excess of punishment on the part of the Superintendent and his officers. The complaints were exaggerated and not fully substantiated, but there was evidence to show that punishments had been severe, and that a too vigorous rule had been maintained. The Superintendent was warned to be careful, and greater leniency enjoined for the future.

Staff.—Superintendent and matron, Mr. and Mrs. W. E. Newberry; schoolmaster, Mr. A. N. Clayton; labour and drill master, Mr. J. Blewitt; cook and general assistant, laundress, and needlewoman.

Average number maintained, 60. Total cost for 1894, 1,097*l.* 5*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 18*l.* 5*s.* 9*d.*

Industrial profits, 8*l.* 11*s.* 4*d.*

Results.—Of 452 admissions to 31st December 1894, 241 had been licensed and not re-admitted, 104 licensed and once re-admitted, and 23 licensed and re-admitted more than once.

STAFFORDSHIRE.

The Midland Truant Industrial School, Beacon Street, Lichfield.

Inspected March 28, 1894.

Number of inmates on day of inspection, boys, 32.

State of premises.—This new school for truants was established by the school boards of Burton, West Bromwich, and Walsall, acting together for a common purpose. The school was certified December 28, 1893, for 100 boys, and began work in Januaay 1894, and at the date of my visit had 32 inmates. At the end of 1894 the number of inmates was 74, and 168 boys had been received into the school. The building is thoroughly substantial and excellent, and provides for every requirement of such a school. The site is a good one, at a little distance from the city. There is plenty of room for exercise and recreation.

Health and general condition.—Boys appeared to be doing well. One had been injured before admitted, one boy scarlet fever, only one case; one rheumatism in ankles, one conjunctivitis, one otitis. Scarlet fever case quite recovered. Medical report favourable.

Conduct and discipline.—The Superintendent and his officers had previous experience of industrial school life. The boys had fallen into regular habits without much difficulty. I found all promising well, and getting into good order. One or two cases of disorder. Two absconders, quickly recovered. One neglect of work, one repeatedly filthy, one or two cases of idleness and disorder. Boys going on quietly and steadily.

Educational state.—The boys were arranged in their standards. I found 52 in Standard Four, all doing well; good mental arithmetic; geography of England; class going on well. 7 in Standard III.: all doing well; much progress; good results; all improving. 9 in Standard Two: very fair work on paper; 2 weak in arithmetic; very good reading and spelling. 6 in Standard One: very fair; good progress. 5 in preparatory class: all going on well. Boys quiet and orderly. Drawing taught in all standards.

Industrial training.—The industrial occupation had not been developed at the time of my visit. The elder boys were helping in all the work of the house, in the kitchen and scullery, and in the laundry. Some of the elder boys were working with labour-master in getting the place into order outside the building. A class of juniors: 8 were working with the needle-woman repairing clothing and darning socks, &c.

Staff.—Superintendent and matron, Mr. and Mrs. B. C. Housden; schoolmaster, Mr. Roach; assistant ditto, Mr. Watkins; labour-master, needle-woman, and cook.

Average number maintained, 48. Total cost for 1894, 1,361*l.* 19*s.* 4*d.*

Detailed Reports.

Truant Industrial Schools.

Comparative cost per head on ordinary maintenance and management, 28*l.* 7*s.* 6*d.*

Results.—Of 168 admissions to 31st December 1894, 91 had been licensed and not re-admitted, and 9 licensed and once re-admitted.

Sussex.

Brighton and Preston School Board Truant Industrial School, Purley Lodge, Patcham, near Brighton.

Inspected September 27, 1894.

Number of inmates on day of inspection, boys, 38, of whom 20 were in for the first time. On license 68.

State of premises.—The premises are small, but compact and made the best of. All the rooms were in good order, as clean and comfortable as possible. The school would be the better for a little more land. The situation is healthy and the buildings answer their purpose fairly well.

Health and general condition.—There had been only one case of serious illness, that of a boy with biliary colic, developing into pneumonia; through careful nursing he recovered. A few cases of boils and sores. A few come in with ringworm, but are soon cured. One scrofulous case of enlarged gland. The general health had been very good and the boys looked fresh and well.

Conduct and discipline.—The majority of the cases of punishment, on a not very long list, were on account of truancy while on license, and consequent return to the school. There had been only one attempt to abscond. Three boys had been implicated in a bad case of stealing. Otherwise the boys had given little trouble, and had every appearance of being under humane and judicious control.

Educational state.—2 in Standard Five: Good reading and writing, 1 backward in arithmetic. 6 in Standard Four: good reading, writing, and arithmetic; no failures. 10 in Standard Three: good and improving work throughout; no failures. 10 in Standard Two: 2 a little backward in reading and 3 in arithmetic, the rest of the work was very fair. 6 in Standard One and 4 in preparatory: 2 very backward; the remainder were making respectable progress. Very fair mental arithmetic. Drawing had just been introduced. The boys behaved remarkably well, and were bright and intelligent.

Industrial training.—The chief employment is wood-chopping, at which about half the school are employed. There is a class of 6 smaller boys for repairing the clothes. The remainder do the house-work and washing. Now that drawing is being taught in the school-room manual instruction might be tried in conjunction with it.

Staff.—Superintendent and matron, Mr. and Mrs. E. Taylor; school-master, Mr. Simpson; labour-master, Mr. Potter, and one domestic.

Average number maintained, 39. Total cost for 1894, 684*l.* 3*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 17*l.* 10*s.* 10*d.*

Industrial profits, 24*l.* 7*s.* 11*d.*

Results.—Of 700 admissions to 31st December 1894, 348 had been licensed and not re-admitted, 152 licensed and once re-admitted, and 135 licensed and re-admitted more than once.

YORKSHIRE.

Hull School Board Truant School for Boys, Marlborough Terrace, Hull.

Inspected August 3, 1894.

Number of inmates on day of inspection, 87 boys, of these 17 were Roman Catholics. Of the 87 boys in the school, 37 were new cases, 19 had been re-admitted once, 18 twice, 9 three times, 3 four times, and 1 seven times.

State of premises.—In very good order. An alteration had been made to meet my objections as to the want of means of escape from the small dormitory in case of fire. There is a good play-yard, and though the buildings are not very well arranged, they are sufficiently comfortable.

Health and general condition.—There had been very little sickness. There had been one case of scarlet fever, which was at once removed to the hospital, and three cases of conjunctivitis. The boys looked well.

Conduct and discipline.—Very good. The only cases in which the birch was used were those of re-admission. School offences very few and very lightly punished. Boys are well and kindly managed.

Educational state.—There were 2 boys in Standard Five, who passed in all the usual subjects. 16 in Standard Four, 25 in Standard Three, 23 in Standard Two, 17 in Standard One, 4 in preparatory class. The results cannot be expected to be so good as in Industrial Schools, but were sufficiently good as to show that the schoolroom was receiving every attention. The order and attention were very good.

Industrial training.—50 boys were employed in mat-making, and were turning out very superior work. Others were employed in housework, 12 in a tailor's shop, 4 in a carpenter's, and 6 with the shoemaker.

Staff.—Superintendent and matron, Mr. and Mrs. Langdale; schoolmaster, Mr. W. Smith; tailor, shoemaker, carpenter, one domestic.

Average number maintained, 93. Total cost for 1894, 1,200*l.* 15*s.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 12*s.* 9*d.*

Industrial profits, 116*l.* 4*s.* 9*d.*

Results.—Of 1,480 admitted up to 31st December 1894, 718 had been licensed and not re-admitted, 152 licensed and re-admitted once, and 375 licensed and re-admitted more than once.

Sheffield School Board Truant Industrial School, Hollow Meadows, near Sheffield.

Inspected May 17, 1894.

Number of inmates on day of inspection, boys, 80; of whom 40 were in for the first time, 27 for the second, 6 for the third, and 7 for the fourth. On license 202.

State of premises.—Every part was in very fair order. The top dormitory referred to in last report had been supplied with hot-water pipes. The dormitories were tidy and clean. There is a good play-

Detailed Reports.

Truant Industrial Schools.

field. There are about 11 acres of garden, well cultivated. Some pigs and a horse are kept.

Health and general condition.—The winter had not been so severe as usual, and the health throughout the year had been good. There had not been so many chilblains and very few colds. One serious case of croup, got better. Only one case of ringworm. The medical officer visits frequently. The boys generally looked strong and well.

Conduct and discipline.—Rather a long list of ordinary offences, disobedience, impudence, lying, cheating, idleness, and pilfering. Some punishments for breach of license. Four or five cases of absconding. Four boys had been transferred to ordinary Industrial Schools.

Educational state.—5 in Standard Four: very fair reading; good writing; all passed in dictation; 1 failed in arithmetic. 11 in Standard Three: very fair reading; good writing and arithmetic; only 1 failure in dictation. 31 in Standard Two: very fair work, with two or three exceptions. 25 in Standard One: of whom 20 did well. 8 in preparatory: beginning to improve. No extra subjects. Order and attention very good.

Industrial training.—The garden, in which a quantity of flowers and vegetables are grown provides very good work for a number of boys. Others do the washing and assist in the general housework. A good workshop is needed. The boys drill well.

Staff.—Superintendent, Mr. Isaac McHardy; matron, Miss Nimmo; schoolmaster, Mr. Horace Kemp; labour-master, gardener, stable lad, and two domestics.

Average number maintained, 79. Total cost for 1894, 1,335*l.* 5*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 16*l.* 18*s.*

Industrial loss, 64*l.* 19*s.* 3*d.*

Results.—Of 1,510 admissions to 31st December 1894, 733 had been licensed and not re-admitted, 490 licensed and once re-admitted, and 197 licensed and re-admitted more than once.

APPENDIX No. II. (D.)

Certified Day Industrial Schools.

Detailed Reports for 1894.

ENGLAND.

Durham.

Gateshead School Board Day Industrial School, Windmill Hill, Gateshead-on-Tyne.

Inspected May 23, 1894. Visited December 6, 1894.

Number of inmates on day of inspection, boys, 58; girls, 19; total, 77; 86 children on the register, about 20 of these are Roman Catholics.

State of premises.—I found house and premises in fair order. Playground and lavatories on a very moderate scale, and inadequate for the numbers dealt with. A large workshed for wood-chopping.

Health and general condition.—Health had been good. Very little sickness or infectious disease. A few ordinary ailments, which the school deals with as far as possible. The general aspect was encouraging. The school continues to exercise a good influence. The children were bright and cheerful, and most anxious to give satisfaction. All were clean and fairly decent in appearance.

Conduct and discipline.—The children are well-behaved. Very few cases of disorder, disobedience, or insubordination, except truancy and non-attendance at school. Not much to complain of in other respects. The school is managed with much tact, forbearance, and special knowledge; and with a little more encouragement might do far more than it is now able to attempt.

Educational state.—This is always good, always most carefully attended to. The results are generally most satisfactory for such a school. 4 in Standard Six: results good; no failures; good recitation and elementary geography; reading very good. 4 in Standard Five: no failures; good and careful work. 9 in Standard Four: all did well, but one girl very backward. 15 in Standard Three: the class gave me entire satisfaction; all work well done; recitations well delivered; arithmetic very good. 24 in Standard Two: a promising class, carefully taught, and doing well. 17 in Standard One: all doing very well and under careful and persevering instruction. Order and behaviour excellent.

Industrial training.—Little is done in this direction except wood-chopping. No attempt is made to make the industrial work useful and valuable to the class of children attending the school. The school is called an industrial school, and it is so only in name. Other schools of the same class can give technical instruction in woodwork and the use of tools, as in tailoring, shoemaking, joinery, &c. In other places the girls get technical lessons in plain cookery, than which nothing can be more useful and practical. I would gladly see more done in this direction, if the school is to be maintained. What could be done is shown in the schoolroom, where there is no lack of application, no want of intelligence, or successful result.

Staff.—Superintendent, Miss J. McQuaker; assistants, Miss Draper, Miss Chaston, Miss Bryant; labour-master, cook, and housekeeper.

Average number, 61. Total cost for 1894, 722*l.* 14*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 16*s.* 11*d.*

Industrial loss, 15*l.* 2*s.* 8*d.*

Sunderland School Board Day Industrial School, The Green, Bishopwearmouth.

Inspected May 23, 1894. Visited December 7, 1894.

Number of inmates on books on day of inspection, boys, 112; girls, 7; total, 119; 109 presented for examination; 2 absent through sickness; 8 not presented, new-comers; of these 26 boys and 1 girl are Roman Catholics.

State of premises.—House and premises in good order, clean and well attended to, and suitable for the work carried on. Good play and drill shed. Large space for exercise, and a good wood-chopping shed and engine and saw-bench and wood-chopping machine. An upper story for technical instruction in the use of tools and woodwork.

Health and general condition.—Health very fair. Children generally clean and decent. Very little infectious disease. Children very willing and cheerful. Saw the mid-day meal, which was abundant and of good quality. General appearance satisfactory.

Conduct and discipline.—The children give very little trouble, except in the way of truancy and non-attendance at school. A few cases of petty disorder and disobedience, neglect of duty and idleness. Good order in school. I found the children quiet, orderly, and well-behaved. Discipline is properly maintained.

Educational state.—Very fair. 3 in Standard Five: very fair work; 1 weak in arithmetic. 17 in Standard Four: a good class; no failures; superior work and much painstaking; fair knowledge of elementary geography and good recitation. 31 in Standard Three: this class also gave me satisfaction; work very carefully and accurately done; recitation good; geography very fair. 36 in Standard Two: class doing well; 2 weak in arithmetic; the rest did well; recitation good. 22 in Standard One: an improving class; three or four weaker than the

average; class doing well and receiving careful instruction. General order very creditable.

Industrial training.—The chief occupation is wood-chopping. It does not teach the boys very much. There is an engine, circular saw, and a wood-chopping machine. I was glad to find that a few carpenters' benches had been provided, and some good tools for teaching the boys the use of tools and woodwork. Drawing in school might well be introduced. This has been done in other schools of the same class.

Staff.—Superintendent, Mrs. E. Goldsworthy; assistant teachers, Miss A. E. Thurlow and another; workmaster and outdoor officer, Mr. Goldsworthy; cook and general assistant.

Average number, 106. Total cost for 1894, 986*l.* 17*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 6*s.* 2*d.*

Industrial profits, 130*l.* 6*s.* 3*d.*

Gloucester.

Bristol School Board Day Industrial School, Temple Back, Bristol.

Inspected June 28, 1894. Visited November 26, 1894.

Number of inmates present on day of inspection, boys, 102; girls, 38; total, 140. 145 on books, 5 absent from illness.

State of premises.—House and premises in very good order. The building was specially constructed for a Day Industrial School, and answers its purpose well. The external accommodation is very good, spacious and well-paved playgrounds, good play-sheds, an excellent swimming-bath, and a good workshop.

Health and general condition.—Rather more sickness than usual during the year. The medical officer calls weekly, a good many petty ailments, a few cases of eczema, swollen glands, anæmia and debility, a few bad colds and coughs, one whooping-cough, one pleurisy in hospital, one psoriasis, a few cases of ringworm and chilblains, a few feverish colds and inflamed eyes, several cases of debility, one bronchitis. Many of the children looked fairly well, but not so robust as in some schools of the same class.

Conduct and discipline.—Children improved. Better discipline and increased order. A good many truant cases still, but better attendance than formerly. A few cases of theft outside the school. Children orderly, quiet, and much improved in all respects.

Educational state.—Improved. 4 in Standard Five: good results; recitation and geography very fair. 19 in Standard Four: class gave satisfaction; 2 weak in arithmetic; linear drawing very good. 37 in Standard Three; improved work; geography of England and Wales very good; recitation clear and distinct, with two or three exceptions all did well. 38 in Standard Two: very creditable work throughout the class; all work carefully done; recitation good; some knowledge of geography; class making good progress. 31 in Standard One: class very fair; a few defects in spelling and four or five weak in arithmetic; recitation good. 11 in preparatory class, new-comers, not made

Detailed Report.

Day Industrial Schools.

sufficient attendances to be presented. Order in school very good.

Industrial training.—I was glad to find the joiner's shop making a better show of work this year; 18 boys receiving instruction in the use of tools and woodwork, and a considerable advance since last year. Some very good musical drill was exhibited for both boys and girls, much precision and good exercises. The children sang very nicely. The girls have lessons in needlework and knitting. Cooking classes are to follow.

General remarks.—School much improved in all points of view, and steadily progressing.

Staff.—Superintendent, Miss B. Ganson; assistant teachers, Miss Meikle, Miss Hallett, Miss Vowles, Miss Chard, and one supplementary teacher; caretaker, Mr. Westaway; cook, Mrs. Westaway; attendance officer, Mr. Lewis, who also takes the carpenter's shop.

Average number, 132. Total cost for 1894, 1,403*l.* 11*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 12*s.* 8*d.*

Industrial profits, 30*l.* 0*s.* 1*d.*

LANCASHIRE.

Liverpool School Board South Corporation Day Industrial School, Park Lane, Liverpool.

Inspected April 24, 1894. Visited November 27, 1894.

Number of inmates on day of inspection, boys, 159, girls, 74; total, 233. Of the 159 boys, 90 Roman Catholics, 60 Protestants. Of the 74 girls, 40 Roman Catholics, 34 Protestants. On license, 23 boys and 27 girls; total, 50. Average for year, 234.

State of premises.—I did not find the school so excessively crowded as in former years, and it works far more comfortably with the diminished numbers. The classrooms are large and commodious, but the play-yards and other exterior appliances are contracted and far too small for such a school. Lavatories and baths are all on too small a scale for thorough efficiency. Extension or transfer to another and more suitable site seems desirable.

Health and general condition.—The report as to the general health of those who attend the school was favourable. A medical officer advises as to those requiring medical attention. There had been no epidemic; a few cases of measles, some cases of fever; a good many ordinary ailments dealt with in the school itself, with much advantage to the suffering children. A few cases of debility, swollen glands, and a few severe colds and sore throats. The children had a fairly healthy appearance, and were happy and cheerful with a few exceptions.

Conduct and discipline.—Truancy and irregularity in attendance as usual the chief faults to require notice. There is but little to complain about in other respects. The children are well managed with a large measure of tact and experience, and continue to behave remarkably well in school. A few cases of indolence and disobedience. Very little rudeness or disrespect. Children under excellent control and improving in every respect. The school maintains its excellent influence in dealing with a special class.

Educational state.—4 in Standard Five: all doing well. Good recitation and geography. 17 in Standard Four: the results were good in every case. Recitation clear and distinct. Good elementary geography. 39 in Standard Three: class carefully taught, with successful results, and very good and careful work; one careless in arithmetic. 69 in Standard Two: a very creditable class, with very few exceptions. A large and well-taught class, improving and very well disposed. 59 in Standard One: Reading very fair; spelling, backward, requiring more attention recitation good; geography in the elements; writing good. 40 in the preparatory class; only moderate work, class backward; a good many new-comers; class might be doing a little more. General order very good.

Industrial training.—I was glad to find 24 boys in the manual instruction class in woodwork and the use of tools making fair progress. Some very good sock making by the girls, making for Hightown and Sandbach Reformatory; very good specimen of needlework and knitting on the part of the girls. A class of girls receiving instruction in plain cooking. The girls assist in the kitchen and housework.

Staff.—Superintendent, Miss Knight; first assistant, Miss Faulkner; second ditto, Miss Robison; assistant teachers, Miss Moneypenny, Miss Greaves, Miss Parsons, Miss Quayle. Miss Ratcliffe takes the sewing class. Miss Quayle takes the cookery class.

Average number, 240. Total cost for 1894, 1,935*l.* 11*s.* 5*d.*

Comparative cost per head on ordinary maintenance and management, 8*l.* 1*s.* 4*d.*

Industrial profits.—3*l.* 8*s.* 9*d.*

Liverpool School Board Day Industrial School, Bond Street, Liverpool.

Inspected April 25, 1894. Visited November 27, 1894.

Number of inmates on roll on day of inspection, boys, 146; girls, 82; total, 228. Present 137 boys, 77 girls; total, 214. 35 on license. Average for year, 203·58. The children are nearly all Roman Catholics.

State of premises.—This is now a large and important school. Since the recent enlargements and extensions the buildings and premises are very suitable and convenient. The general accommodation and arrangements are very good. Abundance of room for exercise and recreation. The classrooms are airy and spacious. Good bath and lavatories. I found all in good order and under careful supervision.

Health and general condition.—Health very fair. Medical report satisfactory. The medical man comes when required. A few cases of measles, a few cases of fever, one of phthisis, a few cases of eczema and sore eyes, one bronchitis, one eczema capitis, one chorea. Children sent to the dispensary when necessary. The children were clean in person and fairly tidy in appearance. They come from homes of poverty and suffering. All looked bright and gay in spite of many drawbacks and much misery; they are treated with great kindness. The school maintains its usefulness and good influence. I had reason to be well satisfied with what I found going on.

Conduct and discipline.—With the exception of cases of truancy and irregularity in attendance, the children give but little trouble in school. A few ordinary cases of idleness and disorder. Attendance is kept up by careful looking up and by a system of rewards for careful and punctual attendance. Prizes are given occasionally to induce the children to be regular and well-behaved.

Educational state.—This is well attended to. 13 in Standard Four: superior work; very good teaching; good recitation and geography. 44 in Standard Three: a well-taught class; good class work; recitation and geography of England and Wales very good. 47 in Standard Two: class very carefully taught; good results; recitation and elementary geography. 39 in Standard One: class doing well; writing excellent; very careful work. Lower Standard One, 33: class making good progress under a trained teacher. 33 in preparatory class: progressing favourably.

Industrial training.—32 boys were receiving manual instruction in the use of tools and woodwork at the Addison Street centre, and were making good progress. Some mat-making also. 36 girls also receive lessons in plain cooking. The girls all learn to knit and sew. There was a capital display of girls' sewing and knitting of every kind. Musical drill is well kept up. A class of boys and girls went through their exercises in my presence with great neatness and precision. The children sing very nicely and correctly.

Staff.—Superintendent, Miss M. Mallorie; first assistant teacher, Miss Ronayne; second assistant, Miss Cragg; assistant teachers, Miss Lynch, Miss Connor, and Miss A. Mallorie; supplementary teachers, Miss Roberts and Miss Cormack; clerk, cook, caretaker, and three visiting officers.

Average number, 205. Total cost for 1894, 1,898*l.* 10*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 5*s.* 3*d.*

Industrial profits, 9*l.* 6*s.* 10*d.*

Liverpool School Board Day Industrial School, Queensland Street, Edge Hill, Liverpool.

Inspected April 19, 1894. Visited November 27, 1894.

Number of inmates on day of inspection, boys, 67, girls, 33; total, 100. On the roll 70 boys and 34 girls. Average for the year, 116·7. 29 on license attending ordinary schools.

State of premises.—The school buildings were erected for the purposes of an Industrial School, and supply first rate accommodation. There is room for 200 children. The classrooms are spacious and well ventilated. Lavatories somewhat small for large numbers. Good drill and assembly room. Separate playgrounds for boys and girls. The building is maintained in excellent order. I found all going on well on the occasion of both my visits.

Health and general condition.—The health had been very fair; a few serious cases. The children were all fairly clean and respectable. All were in good spirits, well-behaved, and pleasant to deal with. Several cases re-vaccinated; a few cases of eczema and scabies; a few cases of

measles and some cases of typhoid fever. General appearance fairly satisfactory. All taken to camp in July 1893 for a week.

Conduct and discipline.—About the ordinary number of cases of truancy and late attendance at school. Not much to complain of while at school. A few cases of idleness and disobedience. Some two or three leaders in truancy. School very carefully and judiciously administered and doing well.

Educational state.—8 in Standard Four: class doing well; intelligently taught; good recitation and geography. 16 in Standard Three: all doing well under careful instruction. 17 in Standard Two: very satisfactory work; good recitation and elementary geography. 37 in Standard One: making good progress; careful teaching. 25 in a preparatory class: just beginning to read and write; very ignorant on admission. General order excellent, and a very good staff of officers.

Industrial training.—A class of boys occupied in making coal-sacks of a superior kind; a little mat-making. I was pleased to find that a class of girls were still receiving lessons in plain cooking. 20 boys receiving manual instruction in the use of tools and wookwork. The girls assist in the kitchen and laundry; also learn to knit and to sew.

Staff.—Superintendent, Miss Elizabeth Cregg; assistant teachers, Miss Waite, Miss Goodacre, Miss Wollie, Miss Redmond, and Miss Campbell; caretaker, Mr. J. R. Jones; cook, Mrs. McGowan; two attendance officers, cooking instructress occasionally; clerk, Miss O'Brien.

Average number, 118. Total cost for 1894, 1,432*l.* 14*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 12*l.* 2*s.* 10*d.*

Industrial loss, 12*l.* 11*s.* 4*d.*

Liverpool School Board Day Industrial School, Addison Street, Liverpool.

Inspected April 27, 1894. Visited November 26, 1894.

Number of inmates on day of inspection, boys, 128, and 52 girls; total, 180. Number on roll, 131 boys, 52 girls; total, 185. Of these 98 boys and 37 girls are Roman Catholics, total, 135; 33 boys and 15 girls are Protestants, total, 52.

State of premises.—The new buildings specially erected for this school are spacious and most suitable. They supply every requirement. I found them in admirable order. There is good supervision over every part of the building. Good separate playground for boys and girls. Fine swimming bath. Good lavatories, kitchen, and dining-hall. Large assembly room and a good manual instruction room for woodwork, which is used as a centre for other schools.

Health and general condition.—Health well maintained. Very little serious illness. The children presented a respectable appearance. All were clean in person. The utmost effort is made to induce the children to be tidy and neat so far as circumstances will permit. The medical adviser calls periodically. A few cases of sore eyes, one case of rheumatism; a few ordinary ailments, and these are dealt with by the superintendent as far as possible. The children looked bright and well treated.

Conduct and discipline.—The report as to the conduct of the children was favourable. All behave well when in attendance at the school. It was quite an exceptional case for the children to give much trouble. They receive proper consideration and are generally grateful for the kindness shown to them. The chief fault, as usual, is truancy and unpunctuality. Faults and punishments moderate in number and severity. Order and discipline well maintained without much difficulty.

Educational state.—The education is very systematically attended to. An experienced staff of officers, and much perseverance on their part to get the children on. 2 in Standard Five and 12 in Standard Four : all doing well; very good results; good recitation and geography of Scotland. 23 in Standard Three : very well taught; no failures and good work. 51 in Standard Two : all doing well; excellent results; work on paper; recitation good; fair knowledge of elementary geography. 48 in Standard One : very good results; all getting on well. 47 in preparatory class : making fair progress under a skilful teacher. This includes 12 in preparatory class; very young. Order in school excellent.

Industrial training.—36 of the boys attend the manual instruction class and make good progress. They attend twice a week. Linear drawing is carefully taught in the schoolroom. The girls receive careful instruction in sewing and knitting, and assist in the kitchen and laundry. A class of boys and girls gave me some good musical drill, which was carried out with great skill and precision. The children sing very nicely.

Staff.—Superintendent, Miss Martha Tarry; 1st assistant, Miss Wall; assistant teachers, Miss Kearney, Miss Russell, Miss Griffiths, Miss McKone ; clerk, Miss Higgins; caretaker, cook, and two outside visitors.

Average number, 179; total cost for 1894, 1,808*l.* 6*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 2*s.* 1*d.*

Kirkdale Day Industrial School for Boys and Girls, Major Street, Kirkdale, Liverpool.

Inspected April 20, 1894. Visited November 28, 1894.

Number of inmates on roll on day of inspection, boys, 214, of these 92 committed cases, 122 on the voluntary list. Average for the year 213·6. Present 199. Girls, committed cases, 105 ; 196 on the voluntary list. Total, 301. Average for the year, 252·6. Present, 287.

State of premises.—The buildings are extensive and supply much accommodation, but barely sufficient for the large attendance of children. Separate school-rooms and separate staffs of teachers for boys and girls. Classrooms very fair, but somewhat crowded. Some useful shops for tailoring, shoemaking, printing, paper-bag making, and match-box manufacture. The buildings were in good working order, but more space is much needed.

Health and general condition.—The health of the children had been very fair. Not much infectious disease. The medical officer attends at least once a week, and gives attention when necessary. A great many petty ailments are dealt with at the school. An effort is made to relieve

the children so far as is possible. The school is beneficially occupied in a very poor neighbourhood, and is a house of refuge for solving many practical and pressing difficulties and troubles.

Conduct and discipline.—There is not much difficulty in keeping fair order and discipline. The rule is not of a very rigid character. The children willingly submit and readily conform. Some cases of truancy and irregularity occur throughout the year. They are leniently dealt with. The children are not treated severely. It would not be permitted. I found very good order prevailing in both the boys' and girls' schools. The girls' school continues to do well, with very good order.

Educational state.—Boys—15 in Standard Five: class doing well; properly taught. 18 in Standard Four: a very good class; no failures; good recitation and geography; arithmetic very good. 42 in Standard Three: creditable work with very few exceptions; class did well; recitation good. 59 in Standard Two: a very good class; careful work; geography very fair; recitation good; fair mental arithmetic. 55 in Standard One: standard doing well. 10 in preparatory class: getting on. Some good singing. Girls—17 in Standard Four: a very good class; careful teaching and good work. 35 in Standard Three: a well-taught class; recitation good. 47 in Standard Two: good reading and spelling; a few weak cases in arithmetic; dictation very well done; recitation good. 53 in Standard One: class carefully taught and good results; recitation good; arithmetic well done. 31 in preparatory class, 53 in infants' class, 52 in second infants' class. All receiving instruction and making some way in the elements. General order very well maintained.

Industrial training.—At the boys' side the industrial element receives much attention. 20 work with the shoemaker and 16 with the tailor, both good shops, and three or four apprentices. 30 with the printer, and 80 in the match-box shop. Something might be attempted for the elder girls. All learn to knit and to sew; a few knitting machines might be introduced. There is a good band.

Staff.—Boys—Superintendent, Mr. W. Gorrie; assistants, Messrs. W. Smith, G. Talbot, and J. Hulme; tailor, shoemaker, two printers, two bag makers, caretaker and joiner, bandmaster occasional, two visitors, superintendent of kitchen, cook, and assistant ditto. Girls—Superintendent, Mrs. Wylie; assistants and teachers, Miss Kneale, Miss V. Harris, Miss Neville, Miss Hulme, Miss Cann, Miss Cross, Miss Bramhall, and Miss Clegg.

Average number, 450. Total cost for 1894, 2,878*l.* 13*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 6*l.* 7*s.* 11*d.*

Industrial loss, 276*l.* 13*s.* 11*d.*

Manchester School Board Day Industrial School, Mill Street, Ancoats, Manchester.

Inspected May 8 and 9, 1894. Visited Dec. 1894.

Number of inmates on roll on day of inspection: Protestant section—boys, 117, girls, 28; total, 145. Present, 120. Roman Catholic section—boys, 92, girls, 26; total, 118. Present, 114. Total on books, 263. Total present, 234.

State of premises.—The school buildings were constructed specially for a Day Industrial School. They are substantial and good, and provide for every possible requirement of such a school. The apartments and classrooms are spacious and well ventilated. There are good playgrounds and covered sheds for boys and girls. A very good laundry had been fitted up. Some very good workshops, and yet, notwithstanding all the splendid provision of externals, the school cannot be regarded as a complete success up to the time of inspection.

Health and general condition.—Health very fair. Not a great deal of sickness. There had been no epidemic. The superintendent does all that is possible for the relief of petty ailments and accidents. The children did not give me entire satisfaction.

Conduct and discipline.—Truancy is the principal cause of complaint. The children do not give much trouble in school. They are willing, and respond to kindness and consideration shown to them. All behaved well on the day of inspection. A few incorrigible truants among them. Very often in trouble on that account, but attendance is well maintained by careful attention and by hunting up the defaulters.

Educational state.—Protestant section—9 in Standard Five: class did well; no failures; writing very good. 11 in Standard Four: very good work; 1 failure in arithmetic. 44 in Standard Three: very good reading and oral spelling; dictation generally well done, and writing good; 4 failures in arithmetic; 37 passed, 7 failed; well put down; very fair work in class, with a few exceptions. 26 in Standard Two: creditable work; good reading and spelling; arithmetic well done, only 1 failure. 22 in Standard One: class doing fairly well, with very few exceptions. 5 in preparatory class. Very good order. Good recitations and elementary geography. Roman Catholic section—2 in Standard Five: both passed. 10 in Standard Four: reading and spelling fair; dictation very indifferent, 6 failures; writing fair; arithmetic all passed; geography of Scotland and good recitation. 25 in Standard Three: dictation inferior, 7 failures; writing fair; 2 failures in arithmetic; good recitation and geography of England. 37 in Standard Two; reading and spelling very fair; elementary geography fair; recitation good; dictation very defective, 11 failures; arithmetic very backward; 23 failures. 22 in Standard One: reading and spelling fair; recitation good; dictation and arithmetic defective. 18 in preparatory class; recently admitted; not doing much. Section had lost time. Change of teachers, and some time had passed over without much being effected. The lower classes, 40, requiring more attention.

Industrial training.—I was glad to find 20 boys working with the shoemaker and getting on fairly well. Drawing is now taken as a class subject and applied in the manual instruction class, in which 36 boys now receive instruction. The workroom numbers 18 benches. Some sack-making is also carried on. A drum and fife band had been established. 12 to 14 of the girls receive instruction in plain cooking, and several are employed in the kitchen and scullery. A very good laundry had been set up, but not with marked success at present. The girls all learn to knit and to sew, and to use the sewing-machine.

Staff.—Superintendent, Mrs. Mackay; school teachers and assistants, Protestant section—Miss Mann, Miss Scotson, Miss Mootz; Roman Catholic section—Miss Regan, Miss Hogan (supplementary), Miss Field; shoemaker, Mr. Knowles; cook, needlewoman, laundress, and assistant.

Average number, 234. Total cost for 1894, 1,958*l.* 16*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 8*l.* 7*s.* 5*d.*

Industrial profits, 44*l.* 14*s.* 9*d.*

Salford School Board Day Industrial School, Albion Street, Windsor Bridge, Salford.

Inspected May 8, 1894. Visited Dec. 1894.

Number of inmates present on day of inspection, 169 boys, 56 girls; total, 225; of these 135 were Protestants, 90 Roman Catholic. On the roll, 174 boys, 56 girls; total, 230. Average for past year, 213. On license, 101.

State of premises.—The buildings are very suitable for the particular work carried on. No school of the kind is better adapted for the purposes in view. There is an excellent drill-room. Good separate playrooms for boys and girls. Good baths and lavatories. Some additional buildings in contemplation to provide a special workshop for technical instruction. I found every department in admirable order.

Health and general condition.—The health had been good. Very little sickness. A few cases of measles and a few feverish cases. Medical advice is called for when necessary. The children looked healthy and invariably respectable, tidy, and clean. Various prizes of boots and clothing are given in order to encourage regular and punctual attendance and habits of cleanliness and tidiness. There are good baths and lavatories, and they are effectually made use of.

Conduct and discipline.—The conduct had been generally good. A few exceptions of unpunctuality and truancy. A few instances of insubordination and rudeness to officers, quarrelling and fighting occasionally, some impertinence at times, but the children are well-behaved as a rule and give little cause for serious complaint. The school maintains its influence and does much for the improvement and welfare of those who come within its reach.

Educational state.—This is well attended to. 30 in Standard Four: an intelligent class, careful teaching and good results; good recitation, and elementary geography; great accuracy. 44 in Standard Three: reading and spelling very good; no failures; dictation and writing very good; arithmetic very well done. 59 in Standard Two: excellent work; three or four weak in arithmetic; good recitation and geography. 59 in Standard One: reading and spelling good; writing generally good; good recitation and elementary geography. Order excellent. A very good examination.

Industrial training.—The industrial training in this school is real and carried on in earnest for the good of the children. It is considered, as it should be, an essential part of the whole scheme. 12 boys work with a tailoress, 24 with the shoemaker. Manual instruction is provided for 40 boys in woodwork and use of tools; a very great advantage to the boys. The girls learn to knit and to sew, and assist in the kitchen and laundry. Cooking lessons for the girls should be provided. A very good collection of clothing—boots, shoes, trousers, coats, waistcoats, shirts, socks, &c.—was exhibited, manufactured by the children themselves, and distributed in part as rewards for industry and regularity.

There were presented some good samples of musical drill by both boys and girls. The children sing very well.

Staff.—Superintendent, Mrs. Harrison (Lee); first assistant, Mrs. Cox; assistant teachers, Mrs. McDougall, Miss Binns, and Miss Heyes; caretaker, shoemaker, tailoress, cook, attendance officer.

Average number, 209. Total cost for 1894, 1,688*l.* 16*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 8*l.* 1*s.* 7*d.*

Industrial profits, 2*l.* 15*s.* 6*d.*

Blackburn School Board Day Industrial School, Mayson Street, Blackburn.

Inspected May 11, 1894. Visited December 1, 1894.

Number of inmates on day of inspection, boys 60, girls 12, total 72; on license 5. Of these 36 are Protestants, 36 Roman Catholics, only 1 absentee.

State of premises.—The building is a very good one. The arrangements are suitable and convenient. There is accommodation for a much larger number of children. I found good order prevailing in every department.

Health and general condition.—The health had been very fair. Very little fever or serious sickness. Ordinary ailments are dealt with in the school by the Superintendent. There is no regular medical officer. Children are sent to the infirmary if seriously ill. The children looked fairly clean and tidy. Personal cleanliness is well provided for in the school.

Conduct and discipline.—The report as to conduct was satisfactory. A few cases of truancy. The children behave well while in the school. There had been no extra punishment. I found the school doing well, its authority was respected. There was full control and good behaviour.

Educational state.—Fair. 3 in Standard Four: good reading and spelling; 1 weak in dictation, 2 in arithmetic. 7 in Standard Three: 1 absent; a well-taught class; careful work and good progress; no failures. 22 in Standard Two: reading and spelling very good; 5 failed in dictation; arithmetic well put down, but 4 weak and 4 failures; handwriting good. 38 in Standard One: not a very brilliant class, requiring closer application and more teaching; a defective class; many new cases. The remainder in the preparatory class, very backward. Order good. Some knowledge of geography.

Industrial training.—The children sing nicely. Good physical drill. There is a very good workshop for mat and sack making. I did not find very much going on. The girls assist in all the work of the house, and in the kitchen and scullery. There is a laundry for the girls. The girls learn to knit and sew.

Staff.—Superintendent, Mrs. Whittaker; teachers, Miss Smith and Miss Barrington; labour-master and cook.

Average number, 75. Total cost for 1894, 850*l.* 1*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 11*l.* 6*s.* 8*d.*

Industrial profits, 12*l.* 5*s.* 11*d.*

Oldham School Board Day Industrial School, Gower Street, Oldham.

Inspected May 11, 1894. Visited December 4, 1894.

Number of inmates on day of inspection, boys 105, girls 45, total 150; 65 being Roman Catholics.

State of premises.—The buildings are substantial and more than usually well supplied with modern improvements. There is a good and well-fitted sickroom. The rooms, lavatories, staircases, &c. are all well planned and were in excellent order. The yard had been asphalted, and a house for the caretaker was being built.

Health and general condition.—The health of the children is well attended to. There is a regular medical officer, who calls occasionally and whenever required. There had been no serious illness. The children looked well and, thanks to the efforts of the management, fairly well clad.

Conduct and discipline.—Truancy and sleeping out are the chief offences, of which there was a tolerably long list of cases. About the time of the Whitsun and August holidays are the most troublesome periods. One or two cases of absconding during the day and a few of fighting, smoking, and bad language. The boys are rather rough but not really vicious. The school is undoubtedly having a wholesome effect and doing its work ably and well. The general behaviour was most encouraging.

Educational state.—2 in Standard Five: good reading and writing; 1 just failed in arithmetic. 19 in Standard Four: good reading and writing; 1 failure in dictation, 5 in arithmetic; neat work generally. 25 in Standard Three: a good class; only 1 failure in dictation. 40 in Standard Two: a well-prepared class; very neat and good work on paper; all passed in dictation; 3 failed in arithmetic. 42 in Standard One: good reading; very good writing; 3 failed in arithmetic; substantial progress was being made. 22 new-comers not presented. The recitations were good and the geography very fair in all the standards. Order and attention excellent. All the boys were presented in drawing and 30 of them in manual work on the 25th April, and the award was excellent. Singing is taught and there is very good musical drill.

Industrial training.—This department is receiving careful and thoughtful attention. There is a manual instruction centre on the school premises and 30 of the boys receive 4 hours' instruction a week. A shoemaker instructs 16 boys in clog-making and boot and shoe repairing. Some of the smaller boys are employed at wood-chopping. The girls and most of the boys learn to knit and sew. The housework and washing are done by the children. The Superintendent also proposes to introduce systematic lessons in cookery.

Staff.—Superintendent, Miss Marion Greenwood; assistant teachers, Miss M. F. Hearne, Miss E. Peters, and Miss E. Wright; cook, caretaker, and shoemaker.

Average number, 136. Total cost for 1894, 1,371*l.* 12*s.* 10*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 1*s.* 8*d.*

Industrial profits, 20*l.* 19*s.* 11*d.*

Norfolk.

Great Yarmouth School Board Day Industrial School, South Town, Great Yarmouth.

Inspected August 9, 1894.

Number of inmates on books on day of inspection, boys, 36; present 35, 1 boy absent, fractured arm.

State of premises.—School-house and premises in their usual order, clean, and well arranged; not unsuitable for the work carried on. There is a good playground, garden, and workshop, with masters' apartments, which are somewhat limited in accommodation. Sanitary condition good.

Health and general condition.—General health good. No serious illness or fever. Boys looked active and willing; if unwell, the child is sent to the infirmary, where he obtains medical advice and aid. General appearance very fair.

Conduct and discipline.—Not a very great deal to complain of. A few cases of truancy, petty theft, impertinence, and occasional bad language; chief fault, stopping away from school. Boys very good workers and very willing as a rule. Cheerful and in good spirits.

Educational state.—Moderate. 3 in Standard Four: 1 boy very backward; 2 failed in arithmetic; recitation good; geography fair. 7 in Standard Four: a good many new boys, somewhat indifferent work; arithmetic very poor. 12 in Standard Three: an improving class; most of the work done fairly well: recitation good. 10 in Standard Two: a good many new boys, a very faulty class; dictation and arithmetic very poor. 3 in Standard One: just in the elements, improving. Order good.

Industrial training.—The boys' working time is occupied with wood-chopping and ship-fender making; excellent work in the latter business. The garden employs a few of the boys in the season. They do most of the work of the house, and help in the kitchen. The boys work very willing and diligently.

Staff.—Superintendent, Mr. W. Goode; matron, Mrs. John Goode; industrial trainer, Mr. W. Naldrett; one general assistant in the house.

Average number, 30. Total cost for 1894, 448*l.* 16*s.* 3*d.*

Comparative cost per head on ordinary maintenance and management, 14*l.* 19*s.* 2*d.*

Industrial profits, 58*l.* 14*s.* 2*d.*

Northumberland.

Newcastle Day Industrial School, New Road, Newcastle-on-Tyne.

Inspected May 26, 1894. Visited December 6, 1894.

Number of inmates on day of inspection, boys, 105; girls, 23; total, 128; of these 39 were Roman Catholics; school open 270 times

in past year, average attendance, 110 boys, 17 girls, total 127; average on books, 119 boys, 18 girls, total 137.

State of premises.—The buildings are substantial and convenient, especially as regards the classrooms, which are lofty and suitable. There is a good workroom for the boys. There is but little space in the play-yard. More room is much needed for baths and lavatories. I found every department in very good order.

Health and general condition.—A medical man visits the school every fortnight, and more frequently if required. Health of the children very fair. A good many cases of ophthalmia, one heart disease, one conjunctivitis, one defective sight, one rheumatism. Children fairly clean and respectable, in very good spirits.

Conduct and discipline.—The general conduct had been very fair. Truancy, some idleness, and disobedience the only serious faults. The children give but little trouble in the school, and are generally cheerful and gay. Attendance very well maintained. Punishments of no great severity.

Educational state.—The education is properly attended to. The results were very fair. 9 in Standard Five: class did well; no failures; arithmetic well put down; recitation and elementary geography. 25 in Standard Four: the class made a good appearance; no failures. 19 in Standard Three: very fair work; 3 weak in arithmetic. 32 in Standard Two: a very fair class; the children gave me good results; 1 failure in arithmetic; fair recitation; geography. 26 in Standard One: class well taught and doing well. Order very good.

Industrial training.—The chief occupation is wood-chopping, and some technical instruction in the use of tools had been introduced. I was very glad to find that 32 boys were receiving instruction in tailoring. This is a step in the right direction. For no class of children is a little technical instruction so advantageous as for the one dealt with here. The girls have instruction in sewing and knitting, they do a little washing and assist in the kitchen and housework.

Staff.—Superintendent, Miss W. C. Dewar; school teachers, Miss E. Lightfoot, Miss M. Cole, Miss M. Tate; cook and caretaker, Mrs. Dobie; workmaster, attendance officer.

Average number, 112. Total cost for 1894, 1,106*l.* 5*s.* 8*d.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 17*s.* 7*d.*

Industrial loss, 57*l.* 0*s.* 1*d.*

Nottingham.

Nottingham School Board Day Industrial School, George Street, Nottingham.

Inspected March 30 and 31, 1894.

Number of inmates on day of inspection, boys, 56, girls, 3, total, 59; 1 absent; total, 60. 62 on license.

State of premises.—I found the premises clean and in good working order; they are of an ordinary character, but answer their purpose fairly well. There is a workshop for wood-chopping and mat-making. General accommodation not unsuitable.

Health and general condition.—The general health had been good. Little or no sickness of an infectious character. Only a few ordinary ailments, coughs and colds, and slight injuries. These are dealt with at the school as far as possible. The boys looked clean and fairly tidy. Boys were cheerful and in good spirits.

Conduct and discipline.—Conduct had been on the whole satisfactory. Good order is maintained without difficulty. The boys do not give much trouble in the school. The chief difficulty comes from truancy and bad attendance. A few cases of petty theft. The boys were quiet and orderly.

Educational state.—This is properly attended to. The school makes very fair progress. 3 in Standard Five: 1 failed in arithmetic; good recitation and geography. 6 in Standard Four: class gave me satisfaction; good recitation; no failures; elementary geography. 19 in Standard Three: 1 weak in reading and spelling, a new boy; 1 weak in arithmetic; the remainder did well. 16 in Standard Two: very fair work; class progressing. 16 in Standard One: with one or two exceptions class did well. General order very good.

Industrial training.—The working time is taken up in wood-chopping and mat-making. Something more might well be attempted to give the boys some technical instruction in the use of tools and mechanical drawing. It would be a great boon to the children. The boys assist in all the work of the house. A good many boys on license, who keep up their attendances at the ordinary school with much regularity.

Staff.—Superintendent, Mrs. Mills; teacher and general assistant, Miss C. Mills (now Mrs. Marriott); cook and caretaker, Mr. and Mrs. Neale.

Average number, 50. Total cost for 1894, 54*l.* 11*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 10*l.* 16*s.* 7*d.*

Industrial profits, 15*l.* 8*s.* 2*d.*

Oxford.

Oxford School Board Day Industrial School, 60, St. Aldate Street, Oxford.

Inspected September 25, 1894.

Number of inmates on day of inspection, boys, 28; girls, 9; total, 37; 5 absent through sickness; 9 (7 boys and 2 girls) on license.

State of premises.—The premises are fairly suitable and were in good working order. Some minor improvements had been carried out. The dining and school rooms are satisfactory, but the laundry and outside offices are capable of improvement. There is a good covered shed. Very fair workshop and a useful plot of garden. The play-yard needs paving. One of the main walls had been strengthened by iron bolts, and these had been cased in by the boys.

Health and general condition.—There had not been much sickness till just before the inspection. Of the five who were absent, one had scarlet fever, one a bad cold, and three with sore eyes. The children present looked well and tolerably well clad.

Conduct and discipline.—About a dozen cases of truancy, two or three of disorder, and three of smoking. Generally the children give little trouble. They are, however, of a worse class since the introduction of Free Education. All behaved well during the examination. The management is kindly and considerate.

Educational state.—The schoolroom work had suffered during the year through changes in the teachers. 1 in Standard Five: passed in all subjects. 7 in Standard Four: very fair work, no failures; very fair recitation; geography had been rather neglected. 11 in Standard Three: very fair work; 1 failure each in dictation and arithmetic; recitation very fair. 9 in Standard Two and 10 in Standard One: reading and recitation very fair; spelling and arithmetic rather defective. Order and attention excellent.

Industrial training.—This department had received thoughtful attention. Besides gardening and wood-chopping for the boys and knitting, sewing, and housework for the girls, manual instruction both in wood and iron work is given, and has lately taken a more practical turn. There were several serviceable articles, cupboards, &c., about the place, the result of the boys' handiwork.

Staff.—Superintendent and matron, Mr. and Mrs. Williams; school teacher (pro tem.), Mr. F. E. Williams; one domestic..

Average number, 39. Total cost for 1894, 544*l.* 3*s.* 6*d.*

Comparative cost per head on ordinary maintenance and management, 13*l.* 19*s.* 1*d.*

Staffordshire.

Wolverhampton School Board Day Industrial School, Salop Street, Wolverhampton.

Inspected August 3, 1894. Visited December 4, 1894.

Number of scholars present on day of inspection, boys, 70, girls, 14; total, 84. 86 on the books, 2 absent; attendance well maintained. Average for the year, 86·2.

State of premises.—The school premises were in their usual condition of good order. The arrangements are suitable. Very good schoolroom and classroom, and large dining-hall. Separate play-yard for boys and girls. Large workshop.

Health and general condition.—The report as to the health of the children was favourable. There had been little or no infectious disease. The children seemed well managed and looked healthy, bright, and cheerful. Medical advice is called in when required. Good physical drill. General appearance satisfactory.

Conduct and discipline.—A good many new children, and a rather big list of petty offences and punishments, chiefly for truancy, disobedience, idleness, and disorder. The children behaved very well, were most willing and tractable, and appeared to advantage. Prizes are given periodically for regular attendance, cleanliness, and general good conduct.

Educational state.—Well attended to. 2 in Standard Six: intelligent boys, and good work. 3 in Standard Five: class did well. 14 in Standard Four: all gave satisfaction but one boy, generally defective. 22 in Standard Three: excellent work, very careful exercises, and good progress; no failures. 24 in Standard One: with one or two exceptions class did well. 3 in preparatory class in the elements; recitation good. Fair knowledge of elementary geography. General behaviour excellent.

Industrial training.—There is a commodious workshop for wood-chopping. Some movement in the way of technical education is very necessary. Manual instruction of some kind should be provided for the boys, and some systematic cooking lessons for the girls. The girls learn to knit and to sew.

Staff.—Superintendent, Miss Kirby; assistant teachers, Miss M. A. Griffiths and Miss E. A. Stokes; labour-master and caretaker, cook.

Average number, 83. Total cost for 1894, 680*l.* 1*s.*

Industrial profits, 90*l.* 11*s.* 4*d.*

YORK.

Leeds School Board Day Industrial School, Edgar Street, Leeds.

Inspected October 9, 1894.

Number of inmates on day of inspection; 142 boys and 33 girls were presented for examination. The total numbers on the books were boys 151, girls 35; on license, boys 21, girls 7.

State of premises.—In very good order. There are three school-rooms, or rather one large schoolroom and two classrooms, two small play-yards, one for boys, the other for girls; on the opposite side of the road are the dining-room and kitchen, and over them a large room for industrial training. There is sufficient bath and lavatory accommodation, both for boys and girls.

Health and general condition.—The general health had been very good; two of the children on the roll of the school had died during the year. When ill, the children are sent to the dispensary for advice and medicine, but in some cases of minor ailments they are treated at the school. The children, though generally of a very poor class, looked bright and healthy.

Conduct and discipline.—Very good. The principal complaint was truancy. Reward cards are given for attendance, and prizes are given to those who make 95 per cent. of possible attendances. Prizes are given at Christmas. The children are managed judiciously, with firmness, but kindly. The worst case of non-attendance was that of 11 boys who walked to York races, 23½ miles off, and back, and I think repented of their escapade before they got back.

Educational state.—There were 7 boys in Standard Five: good reading, writing, dictation, arithmetic, and recitation, and geography of the

British Isles; no failures. 17 in Standard Four: another good class; no failures. 37 boys and 8 girls in Standard Three; very good work; no failures. 46 boys and 10 girls in Standard Two: the only failures were 3 in arithmetic. 37 boys and 13 girls in Standard One: coming on very well. Order and attention excellent. The children are taught singing, and are exercised in dumb-bell drill. 36 boys go down to one of the board schools, once a week, for technical instruction. Drawing is taught once a week.

Industrial training.—The boys are employed in rug-making and wood-chopping. The girls do house-cleaning, washing, knitting, and sewing, and help in the kitchen.

Staff.—Superintendent, Miss Wren; schoolmistresses, Miss Clark, Miss Wren, Miss Dobbings, Miss Ossett; caretaker and wife, Mr. and Mrs. McGarry.

Average number, 187. Total cost for 1894, 1,542*l.* 7*s.* 4*d.*

Comparative cost per head on ordinary maintenance and management, 8*l.* 4*s.* 11*d.*

Leeds School Board Day Industrial School, Czar Street, Leeds.

Inspected October 9, 1894.

Number presented for examination on day of inspection, boys 91, girls 23.

State of premises.—Ample room for 300. Very large and well arranged buildings, recently built; in excellent order. A large swimming bath and good baths and lavatories for boys and girls. There is a large play-shed in the play-yard, and over it some well-fitted workshops for technical instruction, to which children are sent from some of the board schools. Day industrial scholars have two hours' instruction on Wednesdays.

Health and general condition.—Very good.

Conduct and discipline.—A good many cases of disobedience, bad language, and a few cases of pilfering; 36 cases of truancy. Attendance generally very good; very little punishment.

Educational state.—Very well attended to, with good results. Special attention has been paid to writing. 5 in Standard Five: a very good class; no failures. 11 in Standard Four: no failures. 30 in Standard Three: 3 failures only in dictation. 31 in Standard Two: no failures. 37 in Standard One: no failures. Good neat work and good writing in all classes. Geography is taught, and there was good recitation in all classes. Drawing is taught, the last report was "Excellent." Singing is taught, and musical drill; order and attention excellent.

Industrial training.—Boys are employed in working hours in wood-chopping; girls in sewing and knitting and housework; they also help in kitchen and laundry.

Detailed Reports.

Day Industrial Schools.

* Since dead, succeeded by Miss Louisa Clark

Certified Day Industrial Schools.

SCOTLAND.

Glasgow Day Industrial School, 61, Rotten Row, Glasgow.

Inspected May 29 and 30, 1894. Visited December 10, 1894.

Number of inmates present on day of inspection, boys 119, girls 65, total, 184. Average for year ending March 31, 1894, 158·3. Number on books, boys 135, girls 71, total 266.

State of premises.—The premises supply good accommodation for an industrial school. The class-rooms and workrooms are commodious, airy, and lofty. There is a good assembly room for music and lectures. Good separate play-rooms for boys and girls. A good workshop. I found all in good working order and going on steadily.

Health and general condition.—The medical officer calls weekly. A few girls not very strong; one case of debility; one whooping-cough; one febricula; one scarlet-fever case; a few cases of measles. Health very fair; not much illness during the year. Children were in good spirits, cheerful and gay. They are very kindly treated and give comparatively little trouble.

Conduct and discipline.—Truancy and irregular attendance the chief grounds of offence. Punishment moderate; some cases of disobedience, rudeness to teachers, and idleness; some bad language, but very seldom careless work; children tractable, and as a rule well-behaved and obedient. The behaviour was good in my presence, and I found the children agreeable to deal with. The school continues to exercise a very good influence.

Educational state.—14 in Standard Five: very fair work; reading spelling, and dictation very good; two or three weak in arithmetic; good geography of England and Wales; recitation good. 25 in Standard Four: good reading, spelling, and dictation; 9 failures in arithmetic; fair recitation and geography. 36 in Standard Three: a good class and improving work; careful teaching and creditable results; recitation and geography very fair. 32 in Standard Two: a very good class; good results and careful teaching. 42 in Standard One; class making good progress, and children doing well. 21 infants: all beginning to read and spell. The children sing very nicely, under able and persevering instruction.

Industrial training.—I found 30 in the brushmaking shop, having plenty of work, but not of a very lucrative kind. Some very good work turned out, and a ready sale for all that is made. Very good knitting and needlework from the girls' department, and good specimens of woolwork. The girls might be taught some plain cooking. Some good musical drill was exhibited.

Staff.—Superintendent, Miss Campbell; school assistants and teachers, Miss Brown, Miss Galbraith, Miss Reith, Miss McInnes, and Miss

Grant; brushmaker and assistant, janitor, cook, and one general assistant.

Average number, 167. Total cost for 1894, 1,612*l.* 9*s.* 1*d.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 13*s.* 1*d.*

Industrial profits, 24*l.* 3*s.* 1*d.*

LANARK.

Glasgow Day Industrial School, Green Street, Calton, Glasgow.

Inspected May 29, 1894. Visited December 10, 1894.

Number of inmates present on day of inspection, boys 101, girls 71, total 172. On roll 104 boys and 72 girls, total 176; of these, 4 boys and 2 girls on the voluntary list. Average for the year, 135.

State of premises.—The premises are not very splendid, but are of a useful and practical character, very serviceable for the work carried on, and very convenient for the purposes of supervision. Good separate play-yards for boys and girls. A good workshop for manual instruction. Shed below. The baths and lavatories are small, but turned to good account. Careful attention paid to sanitary requirements.

Health and general condition.—The health of the children has been well kept up. Very little infectious disease or serious illness. The medical officer comes once a week by way of prevention. Every suspicious case is brought before him, and is sent to the infirmary if necessary. A great deal is done for the children by the superintendent and her staff; petty ailments seen to, sores bound up, wounds attended to. There had been scarlet fever in one of the homes; one child of low intelligence, a few cases of eczema, one scalp disease; general appearance encouraging, children comparatively clean, tidy, and respectable. The school has a very good influence, and does its best to raise the children in the scale of decency and good behaviour.

Conduct and discipline.—A small amount of punishment, some cases of truancy, irregularity of attendance, disobedience, idleness, and improper language, but a very small average of other offences or punishment. The school does not found its influence on severity, censure, or punishment, but on ceaseless efforts for the good of the children, sympathy with their misery and sufferings, anxious endeavour for their enlightenment and elevation, and unwearied interest in the great opportunity for doing good to those much in need.

Educational state.—The education continues to be carried on with zeal and marked success. 4 in Standard Five: excellent work; geography of Europe; good recitation. 17 in Standard Four: superior work, no failures. 26 in Standard Three: very good results; careful teaching and excellent work. 38 in Standard Two: extremely good work, very painstaking class, work very good; good recitation and elementary geography. 33 in Standard One: class well taught, doing well. 19 infants; doing well and under proper instruction. General order, exemplary.

Industrial training.—The boys do some wood-chopping in their working hours and assist in all the work of the house. Was glad to find

28 boys in the joiner's shop, in two divisions, doing useful work, 2 making good progress in woodwork and use of tools. Some good specimens of work under a good teacher ; the boys make mattresses also. There is a good knitting machine room for the use of the girls. I found them fully employed and turning out excellent work. A very good exhibit of knitted articles and needlework, and other fancy work Good musical and physical drill. In these various matters I found intelligent training going on, and much effort to raise the children to a sense of what can be achieved by work and skill combined. The children sing and recite very nicely. In December I testsd the registers very carefully and found them quite correct.

Staff.—Superintendent, Miss Mary Duncan; school teachers and assistants, Miss E. R. McLachlan, Miss M. G. McLean, Miss E. M. B. Chalmers, Miss Jessie Miller, and Miss E. S. Craig; janitor and housekeeper, Mr. and Mrs. James Renwick ; cook and one general assistant.

Average number, 154. Total cost for 1894, 1,415*l.* 6*s.* 2*d.*

Comparative cost per head on ordinary maintenance and management, 9*l.* 3*s.* 10*d.*

Industrial loss, 32*l.* 3*s.* 4*d.*

Glasgow Day Industrial School, Rose Street, Hutcheson Town, Glasgow.

Inspected May 30 and 31, 1894. Visited December 11, 1894.

Number of inmates on roll on day of inspection, boys 153, girls 70, total 223. Number present in school, 214. Average for the year, 185·1.

State of premises.—The buildings were expressly constructed for a day industrial school, and are substantial and good, and supply good accommodation. The lavatories and bathrooms are not sufficiently capacious. A good laundry and an additional workroom were in course of completion. I found all in good order.

Health and general condition.—The health of the children had been very fair. One subject to epileptic fits, one gastric disturbance, one pustules, one irregular heart action, one scabies, one bite of a cat on lip, one chorea, one epilepsy, discharged; one swollen knee, one case of measles, two cases of abscess on foot, one lichen. General appearance very fair; children clean, improving in manner and appearance. The medical officer visits the school once a week. The school deals with petty ailments.

Conduct and discipline.—The school goes on pretty quietly and regularly. Truancy and unpunctuality the chief source of complaint. A good many cases of truancy, disorder, leaving the school without permission, disobedience. Some rudeness and impertinence to teachers. Some deceit and lying. Not a very great deal to complain of. The children are considerately dealt with, and there s very little disturbance of the peace of the house.

Educational state.—16 in Standard Five : good reading and spelling; 2 failures in dictation; writing good; arithmetic indifferently done, 6 failures ; geography of Europe very good; recitation fair; 1 boy a complete failure. 26 in Standard Four: good reading and spelling;

dictation good; arithmetic poor, and 6 failures; recitation good. 41 in Standard Three: a well-taught and successful class; results very good; no failures in dictation or arithmetic; good geography of Scotland. 49 in Standard Two: a large class: results very fair; a few weak in arithmetic; dictation very good; work well done—on paper; elementary geography and good recitation. 43 in Standard One: very good work; class well taught, and all improving; arithmetic very good. 10 in preparatory class and 9 infants, all under instruction, and making good progress. General order very good. The children sing well and are under very able and careful instruction in this branch.

Industrial training.—The boys' working time is taken up by paper-bag making and printing. Both of these trades are capable of extension, especially the latter, which might be made a paying concern, and with very great advantage to a larger number of boys. About 8 boys are at present employed; 20 or 24 might be set to the work, in two shifts. The girls learn to knit and to sew, and assist in the kitchen and house work. There will soon be an available laundry for their use.

Staff.—Superintendent, Miss MacFadyen; school-teachers and assistants, Miss Dempster, Miss Comrie, Miss Kerr, Miss Kenneth, Miss Gunnion; janitor, Mr. T. Fraser; cook, Mrs. Fraser; printer, Mr. Cameron; paper-bag department, Mrs. Ballantyne; laundress.

Average number, 177. Total cost for 1894, 1,530*l.* 0*s.* 2*d.*

APPENDIX No. III. (E.)

Reformatory Schools.

RETURN

OF

Receipts and Expenditure on account of Maintenance, Industrial Training, &c.

For the Year ending December 31, 1894.

Note.—The following Tables have been prepared with the view,—1st, of showing the cost of each Certified Reformatory under the distinct heads of management, maintenance, and disposal of inmates, and buildings; and 2ndly, of comparing the expenses of the different schools fairly together, and so enabling the various managers to judge what the charges for their school ought to be.

In reference to the first of these objects,—All charges connected with the superintendence, food, clothing, and lodging of the inmates are classed and summed up separately. The result gives the cost of maintenance and training, and divided by the average number of inmates gives the cost per head for these.

Rent of school premises, cost of disposal of inmates by emigration or employment in England, and building expenses are taken separately. The rent of the land attached to the school is included in the "Farm account," and makes an item in the industrial expenses.

The profit or loss on account of the industrial departments are given separately. In estimating the profit or loss of the industrial employments carried on in any Reformatory, the increase or decrease of the value of the stock has been taken into account.

In reference to the second object,—The schools are arranged according to the counties, boys' schools and girls' schools being classed respectively together, and the Scotch Reformatories being taken separately from the English ones. The annual cost of food and clothing of the inmates is added as an important element of the comparison.

Reformatory Schools.

It will be seen that the cost per head for food in the year 1894, averaged—

	£	s.	d.
For boys, England	5	15	1
For boys, Scotland	5	18	2
For girls, England	6	5	3
For girls, Scotland	5	16	2

Also, that the cost per head for clothing averaged—

For boys, England	2	12	2
For boys, Scotland	2	19	8
For girls, England	2	11	1
For girls, Scotland	2	18	6

	£	s.	d.
The total Expenditure for Reformatories for the year was	109,874	11	6
The Total Receipts were	110,218	5	9

A separate table [Appendix No. III. (E.) Summary] is annexed at the end of these returns, showing, in one view, the total cost per head of each Reformatory to its supporters under all the ordinary heads of expenditure for the year. In this the total cost for maintenance and management is first given, including rent. The amount expended on the emigration or other mode of disposal of the inmate follows next, and then the profit realised or the loss sustained from the industrial department. The result divided by the number of inmates gives the net expense of each inmate for the year.

I. List of Reformatory and Industrial Schools under Inspection, . . 20

II. Statistical Returns of Reformatory and Industrial Schools for the year 1893, ... 28

THIRTY-THIRD REPORT

OF THE

INSPECTOR

OF

REFORMATORY AND INDUSTRIAL SCHOOLS IN IRELAND.

TO THE

RIGHT HON. JOHN MORLEY, P.C., M.P.,

&c., &c.,

CHIEF SECRETARY TO THE LORD LIEUTENANT OF IRELAND.

OFFICE OF INSPECTOR OF REFORMATORY AND INDUSTRIAL SCHOOLS IN IRELAND,
DUBLIN CASTLE,

21st June, 1895.

SIR,

I have the honour to submit the Thirty-third Report on Reformatory and Industrial Schools in Ireland. It deals mainly with their working and management during the year 1894.

At the close of 1894 there were 7 Reformatory and 69 Industrial Schools in existence in Ireland. The following Table shows the number of Roman Catholics and Protestant Schools respectively :—

TABLE.

—	REFORMATORIES.		INDUSTRIAL SCHOOLS.	
	Roman Catholics.	Pro-testants.	Roman Catholics.	Pro-testants.
Number of Schools for Boys, . .	2	1	16	4
Do. Girls, . . .	3	1	42	6
Do. Young Boys and Girls,	–	–	1	–
Total, .	5	2	59	10

REFORMATORIES.

The following Table shows the number of Children in Reformatory Schools on 31st December, 1893, and on 31st December, 1894:—

	On 31st December, 1893.			On 31st December, 1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
In School,	536	83	619	528	76	604
On Licence,	36	1	37	15	–	15
In Prison,	6	–	6	2	–	2
Absconded—sentence unexpired,	8	–	8	4	–	4
In School—sentence expired,	–	1	1	–	–	–
Total,	586	85	671	549	76	625

It will be perceived that the diminution of committals to Reformatories still continues. This decrease, however, can hardly be expected to go on much further. The change in the law under which imprisonment is no longer an obligatory portion of a Reformatory sentence must affect committals, but it is still too recent to justify the pronouncement of a definite opinion as to the extent of its effect on them.

Philipstown. The largest Reformatory is at Philipstown, King's County. There were 266 boys under detention at the close of 1894, as against 299 at the end of 1893. I described the working of this School so fully in my last Report that I do not propose to treat of it at any great length in the present one. Nothing has happened in it during the year calling for any special remark, except that it has lost the services of the Rev. Charles Cox, who has been transferred to Glencree, and who, during his term of office as Manager, made several reforms of a most valuable character, especially as regards discipline. During his time every rule not absolutely necessary for the preservation of order was abolished. No undue restraint was imposed upon the boys, and they were taught to use with moderation the liberty accorded to them. The present Manager, the Rev. Mr. Gubbins, is following in the steps of his predecessor with equally beneficial results.

Glencree. At Glencree there were 203 boys under detention at the close of 1894, as against 218 at the end of 1893. During the year there have been many more discharges than admissions; but the strength of the staff and the efficiency of the Industrial Department have been maintained. The discipline of the establishment is very similar to that at Philipstown, and severity is not one of its qualities. Order has been maintained without any difficulty.

During the year 1894, 39 boys were committed to this School. They were of the following ages: 3 were eleven, 4 were twelve, 3 were thirteen, 15 were fourteen, and 14 were fifteen years of age. The numbers from the various counties and cities were as follows:—

County Clare,	1	County Limerick,	1
County Dublin,	8	Limerick City,	3
Dublin City,	26		

Of these 39 boys, 4 had lost both parents, and 12 had only one parent living. Of the 35 who had one or both parents living, 17 had not been under parental control.

As to their educational proficiency, only 2 could read and write fairly well, 17 could read and write imperfectly, and 20 were illiterate.

Education in Reformatory Schools.

The difficulty of affording elementary education in these Reformatory Schools is very great. Boys are sent to them at the ages of about 14 and 15 who have not learnt to read, and who it is very difficult to teach so effectively as to make up for past neglect. A Reformatory school must therefore always contain a far larger mixture of backward boys than any ordinary school. With regard to Glencree and to all the other Reformatories, I am able to report that the inmates are taught conscientiously, and that on the whole the results are satisfactory.

The health of the boys at Glencree has been good; there was but one death during the year—that was from meningitis, and the boy belonged to a delicate family.

Malone.

There is but one Reformatory for Protestant boys in Ireland, situated near Belfast, known as the Malone Reformatory, and managed by a very representative Committee of Protestants in Belfast. This Reformatory was the only one in Ireland where there were more admissions than discharges during 1894. There were 23 boys committed to it during the year; of these 2 only were able to read and write well, 16 did so imperfectly, and 5 were totally ignorant. The health of the boys has been good, and the accounts of those who have left the Institution continue to be satisfactory. Their employment is reported as constant, and that in itself is an evidence of good character. As to the Female Reformatories, there were in existence at the close of 1894, 3 Roman Catholic—High Park, Drumcondra, St. Joseph's, Limerick, and Spark's Lake, Monaghan—and 1 Protestant, situated in Cork-street, Dublin.

Female Reformatories.

Of these—two contained a very small number of inmates:—Spark's Lake having only 7 at the end of the year, and the Protestant Reformatory at Cork-street 8.

Industrial Schools.

The following Table shows that 8,553 children were under detention in Industrial Schools on 31st of December, 1894, as against 8,585 on 31st December, 1893:—

—	On 31st December, 1893.			On 31st December, 1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
In School (number paid for under the Rules),	3,333	4,142	7,475	3,314	4,149	7,463
In School (in excess of the number paid for, or under 6 years of age),	65	282	347	41	309	350
On Licence,	309	380	689	337	332	669
Absconded—sentence unexpired,	5	–	5	3	–	3
Remaining in School—sentence expired,	5	64	69	8	60	68
Total,	3,717	4,868	8,585	3,703	4,850	8,553

Of the children under detention at the close of 1894, 3,703 were boys, and 4,850 were girls. Of these, 1,222 boys and 1,285 girls came from Dublin.

Artane.

The most important Industrial School is Artane, in which 900 boys were under detention during the past year. 177 were discharged. They are accounted for as follows:—

To employment or service,	130
Returned to friends,	36
Emigrated,	1
Enlisted,	1
Specially discharged,	4
Absconders discharged by expiration of sentence,	1
Discharged on account of insufficient grounds of detention,	4
	177

Education.

The education given by the Christian Brothers leaves nothing to be desired, and I have great pleasure in stating that at the recent Examination by the Science and Art Department of South Kensington this School got the highest note possible to be obtained. I believe that it is almost the only case on record in which so large a School won such high distinction. The importance of this cannot be over-rated. I have repeatedly insisted on the necessity of drawing being included in the educational system of these Industrial Schools. It is of course the foundation of all Technical Training. No one who is not able to draw with skill can design well, and it is impossible for anyone to become a first-rate workman who is unable to design.

As regards health the sanitary condition of the School was satisfactory during the year. There was a slight epidemic of scarlet fever, seven of the boys having contracted this disease. These cases were at once isolated and sent to Hospital and they all recovered. Thirteen of the boys suffered from influenza of a severe type. There were two deaths in the Institution during the year, and one boy died in St. Vincent's Hospital from the effects of a surgical operation. As showing the result of the training which the boys receive in Artane it gives me much pleasure to state that during the three years ending 31st December, 1893, 510 boys have been discharged, of these 7 have died, 493 are doing well, and 10 only have turned out unsatisfactory. Health. Disposal.

On the morning of 27th October a fire occurred in the band-room, which extended to the concert-room. All the musical instruments in both rooms were destroyed, and considerable damage done to the buildings. Fire.

The promptness with which Captain Purcell and the Fire Brigade, who were notified by telephone, appeared on the scene, and the energy displayed by them on their arrival, saved the building from destruction.

Other Roman Catholic Schools for Senior Boys.

Of the other Schools for senior Roman Catholic boys I note with pleasure that there has been a great improvement in Tralee where some very important alterations have been made on the premises. Tralee.

The general health and education of the boys at Upton continues excellent. As regards the former, while giving due credit to all in authority for vigilance, I must attribute it, in part at least, to the excellent situation of the School, the spacious grounds around it, and to the circumstance that it possesses a playing field of such dimensions as no other Industrial School in Ireland can boast of. Galway and Letterfrack, both managed by the Christian Brothers, have, it is needless to say, a good record as far as education is concerned. The former obtained satisfactory results at the recent examinations by the Science and Art Department, South Kensington. Upton. Galway and Letterfrack.

The School which was formerly at Kilmore under the Christian Brothers has been removed to Carriglea on the south side of Dublin Bay, where suitable buildings have been erected in a spacious park, and the Institution is now under the management of Mr. Hoope, who was the founder of Artane, and who managed that Institution from its foundation in 1870 for a period of 20 years. The working of the other Schools for Senior Boys has been generally satisfactory and calls for no special comment. Kilmore.

Junior Schools for Roman Catholic Boys.

There are a special class of Schools managed by Nuns for junior Roman Catholic boys. I continue to hold generally the favourable opinion of them which I have expressed in former Reports. They are undoubtedly the means of rescuing children from the temptations of the streets at an early age, and of implanting in their minds sound moral principles. Moreover, the teaching in them is exceedingly good, and boys leaving them are very seldom backward in their books. I wish, however, to impress upon the Managers the necessity of paying the greatest care to dietary, of being specially vigilant as regards all affections of the eyes, and of unceasingly inculcating habits of cleanliness.

Roman Catholic Female Industrial Schools.

The Female Industrial Schools for Roman Catholics are all under the management of Nuns, and many of them such as Dundalk, the Good Shepherd in Cork, St. George's and St. Vincent's in Limerick, those at Waterford, New Ross, and others have all most satisfactory records of usefulness.

Queenstown Industrial School.

As regards special industries taught in these Institutions, I may mention that the weaving industry which was established at Queenstown in the year 1890 continues to flourish, and constant employment is given to 17 young girls.

Kinsale, Lacemaking

The Convent School at Kinsale which has a remarkable and interesting history in connection with Irish Lace Industry, finds that the best workers in the extern Lace Department have learnt their work in the Industrial School. The Nuns, however, teach it only to those children who are likely to find it useful in after life. For instance, those belonging to the neighbourhood who propose to settle down in Kinsale, and find employment in connection with the Convent.

Newtownforbes.

The poultry farm in Newtownforbes brought in a profit last year of £51 9*s*. Although this was not a great success, it represents steady progress. It has likewise proved both beneficial and healthy to the children employed, some of whom have lately got situations with families who make the rearing of poultry a special business. Owing to the knowledge of the work acquired in the school these girls have given the very greatest satisfaction.

Sligo.

The poultry yard of the Sligo School is entirely used for supplying the Institution with eggs and poultry. It affords, however, a great opportunity for training the children, and is doing most excellent work.

Protestant Industrial Schools.

There are ten Protestant Industrial Schools—six for girls and four for boys. The female school at Bray continues to have the advantage of the zeal and experience of Lady Kathleen Brabazon; and Hampton House and Shamrock Lodge are both directed by those who have managed them so excellently in the past. In both of them, special and successful arrangements have been made to keep up family life, and they are in many respects model Institutions. Bray. Hampton House. Shamrock Lodge.

There are two schools for Protestant boys in Belfast—Fox Lodge and the Grampian Training Ship. Boys are drafted from the former to the latter.

The ship, during the greater part of the year, had the full complement of boys. I still, however, maintain the opinion expressed in former reports, that it would be very much more in the interest of the Protestant population of Belfast that the expensive attempt to train lads for sea on a stationary ship should be renounced, and a suitable Institution established on shore for boys who may be committed to Industrial Schools. Grampian.

Very few of the boys discharged from the Grampian take to a sailor's life. In 1892, 50 were discharged, 7 joined the Merchant Service, but not one joined the Navy. In 1893, 54 were discharged, and 9 were sent to sea; and in 1894, 69 were discharged, of these only 6 went to sea, and not one entered the Royal Navy. This state of things seems to me likely to be permanent. The majority of these boys, in consequence of their constitutions having been undermined by hardship in infancy, early neglect, and hereditary taints, are not sufficiently strong for a sailor's life. The health of the boys during the year has been good. A mild epidemic of catarrhal ophthalmia occurred, which however soon yielded to medical treatment. The educational condition of the School is good, and discipline and order have been well maintained.

The Meath School at Blackrock has prospered during the year. As regards education, its position is highly creditable, and the teaching continues to be most careful and efficient. A great improvement has recently been carried out, in the erection of a gymnasium for the boys at a total cost of over £800. It is 70 feet long, 36 feet broad, and its height extends to 25 feet. This is the most important new departure made in any Industrial School in Ireland since I have been in office, and it would be most desirable that every male school in the country should contain a similar structure, where boys could not only be taught gymnastics, but be drilled regularly every day. The erection of the gymnasium decided the Committee to employ a regular Instructor in gymnastic exercises, who would also aid in the general management. In connection with this school the "Gordon Home," about which I spoke in my last year's Report, and in which boys who have left, and who are engaged in business in the city of Dublin, can live, continues fully to realize the expectations of its founder. Meath, Blackrock.

Financial Statement—Reformatory Schools.

During the past year the total amount received for these Schools reached £15,198 18*s.* 4*d.*, which was £1,174 12*s.* 4*d.* less than in 1893. The subjoined table gives the respective amounts for the two years :—

——	1893.	1894.	Increase.	Decrease.
	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*
Received from Treasury, .	10,480 4 4	9,621 10 11	—	858 13 5
Do. Local Rates, .	4,756 15 6	4,832 6 11	75 11 5	—
Do. Other Sources, .	328 9 7	356 14 5	28 4 10	—
Estimated Profits, . . .	808 1 3	388 6 1	—	419 15 2
Total, . . .	16,373 10 8	15,198 18 4	103 16 3	1,278 8 7

Expenditure.

Comparing the items of expenditure between the last two years the following table shows that there has been a decrease in 1894 over 1893 of £214 7*s.* 8*d.*, this is easily accounted for by the fact that there has been a falling off in the number of children under detention.

——	1893.	1894.	Increase.	Decrease.
	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*

	16,104 15 10	15,890 8 2	825 2 4	1,039 10 0

Appended is a return showing the cost per head for each child during the last two years. There is an increase per head of £1 7*s.* 6¼*d.* The explanation, of course, is that as the number of children become smaller the cost for each increases.

—	1893.	1894.
	£ *s.* *d.*	£ *s.* *d.*

Average cost for each child,	25 11 1½	26 18 7¾

Industrial Schools.

Receipts for 1894.

The various sums received on behalf of these Schools during the two years ending 31st of December, 1893 and 1894, were as follows :—

—	1893.	1894.	Increase.	Decrease.
	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*
Received from Treasury,	97,518 13 2	97,418 11 2	—	100 2 0
Do. Local Rates,	39,277 7 8	39,621 8 2½	344 0 6½	—
Do. other sources,	8,018 3 4½	8,072 6 4	54 2 11½	—
Estimated profits,	11 301 6 1½	9,320 11 4	—	1,980 14 9½
Total,	156,115 10 4	154,432 17 0½	398 3 6	2,080 16 9½

Expenditure.

The total expenditure for 1894 amounted to £171,134 4*s.* 9½*d.*, which was made up of the following items :—

	£ *s.* *d.*		£ *s.* *d.*
Salaries for Officers,	15,970 16 10	Medical Expenses,	2,478 7 9½
Rations for do.,	8,374 1 5	Sundries, Rewards,	2,640 17 4
Food for Inmates,	59,587 4 8	Rent,	3,693 15 1
Clothing for do.,	20,458 2 8	Interest,	8,423 11 11
Washing, Fuel, Light,	12,015 19 6	Disposal,	3,392 18 2
Repairs, Rates, and Taxes,	7,587 6 8½	Building,	16,414 2 8
Furniture and Sundries,	6,458 9 7½	Loss on Industrial Department,	508 19 10
Printing, &c.,	2,263 19 6		
Travelling, &c.,	865 11 1	Total,	171,134 4 9½

This is an increase of £10,181 14*s.* 7*d.* over the previous year, and is due to the very exceptional increase of £10,139 17*s.* 11½*d.* expended in buildings. There is no great difference in the other items of expenditure.

The average cost per head for each child during the past year was £21 4*s.* 11*d.*

Parental Money.

The receipts under this heading for the past year amounted to £870 9*s.* 11*d.*, and is thus shown:—

—	Reformatories.	Industrial Schools.	Total.
	£ *s.* *d.*	£ *s.* *d.*	£ *s.* *d.*
Dublin, ...	230 6 2	127 8 6	357 14 8
Provinces, . .	105 2 5	407 12 10	512 15 3
Total, . . .	335 8 7	535 1 4	870 9 11

In 1893 the amount collected was £982 4*s.* 6*d.* This shows a falling off of £111 14*s.* 7*d.*, and is chiefly attributable to the decrease of the number of children committed to Reformatory Schools. As parents of these children can be sent to prison in default of contributing towards their support they prefer paying the amount imposed on them by the Magistrates to going there. In the case of parents of children in Industrial Schools Magistrates have no such power.

Baltimore Industrial School.

The improvement and consequent development of the Fisheries, particularly on the West Coast, are so much dependent on the success of this Institution that I propose to call more attention to it than to other Industrial Schools which may not have such material effect on the prosperity of a great national resource.

Irish Fisheries.

Ireland possesses a coast which, with the indentation of estuaries, is considerably over 2,000 miles in length; she has, therefore, an extent of ocean and shore greater than most other countries. One would therefore think she ought to be the natural home of fishermen. That she is not so, is beyond all question, largely owing to her disastrous industrial history. In the early part of the 17th century the sea fisheries of Ireland were prosperous and extensive. During the Civil War, like all the other industries of the country, this one became almost extinct; and the transportation of a large number of the most active and energetic fishermen to Barbadoes and other sugar growing colonies effectually completed its annihilation. Towards the second decade of the present century it began to revive. In 1846, just before the famine, nearly 20,000 boats were engaged in fishing; and the number of men and boys who worked them were about

113,000. There were also a number of curing houses erected that year, which did much good work in providing markets for fish, in giving employment to many persons, and serving as technical work-shops for the fishing population. The famine, however, destroyed all this. The curing houses were closed in the year 1848, just as they were beginning to be really useful, and all attempts, however meagre and inadequate, to provide any means of special instruction for fishermen finally ceased.

The result of this neglect was summed up very cogently by the late Rev. Charles Davis in a "Paper on the Deep Sea Fisheries of Ireland," read before the Scientific and Literary Society, Cork, in '86—He says

"But beyond all question the greatest drawback to the progress of the Irish Fisheries and their cognate industries, is the want of skill in technical knowledge. Even capital without skill is useless. No attempt has been hitherto made to instruct our fishermen in the improved modern systems of fishing. The only knowledge they possess is acquired by association with the strangers who frequent our shores. . . . . Except in a few favoured localities the want of technical skill is universal all round the coast of Ireland."

Foundation of Baltimore School.

To remedy this state of things was the object of the Founders of Baltimore School. They proposed, in addition to ordinary literary education, to teach boys every art connected with fishing, from the making of lines and nets to the building of boats, curing of fish, etc., and the most improved modes of fishing, out of first class fishing smacks.

In the establishment of a school of this description, the difficulties are many and great. Peculiar technical training is required. This can only be carried out at very great expense. A vessel fully equipped costs from £700 to £800, and she can carry only two boys in addition to her regular crew. This was one of the great primary difficulties which the Founders of the School had to meet, in addition to the very large expenditure required for building.

Grants and Contributions.

To meet the latter the Government generously made a free grant of £5,500.

The Grand Jury of the County Cork contributed £1,000; the Duke of Norfolk, £550; Miss Corcoran, £400; Lord Carberry, £200; the Baroness and Mr. Burdett Coutts, £200; the Fishmongers Company, £105; Lord Iveagh, £100, and many others; the total amount of contributions to end of the year 1894 amounting to £5,796 3*s.* 3*d.*

Expenditure on Buildings.

The expenditure on the buildings alone up to the present amounts to £7,832 9*s.* 3*d.* Each year, as educational requirements have advanced, structural improvements and additions are constantly demanded and have to be met. The capitation grant has defrayed the current costs of the Institution but has left little, if any, margin to meet exigencies, or to extend its usefulness by increasing the fishing fleet, which is very necessary. At present there are only five first class vessels working from the Institution.

Difficulties of Working.

The Founders of the School expected that there would be more boys requiring admission from the seaboard counties than they could accommodate. In this they were disappointed, as from several counties abutting on the sea, where boys were accustomed to some kind of seafaring pursuits, and would naturally be more likely to follow fishing than others from the inland counties, there was an objection on the part of many Pastors of parishes to allow boys destined for sea life, even though destitute and without proper guardianship, to be committed by magistrates, stamping them, as they said, with the seal of degradation.

Admission of Boys from inland Counties.

It became necessary, therefore, to receive many lads from inland counties. Without them the Institution could not have been maintained. It is extraordinary how well several boys from inland counties have turned out. In my last report an account is given of the pluck and bravery of two of these boys while at sea during one of the severest gales that has visited the southern coast for many years past.

Discharge of boys at 16 years of age.

Another great difficulty in making this School what it ought to be is the obligation imposed by the Act of Parliament of discharging boys when they arrive at sixteen years of age. This has been commented on in previous reports, and I cannot do better now than quote the following extract from my report dated 9th June, 1894:—

"The difficulty of making boys at Baltimore thoroughly efficient sailors is very great, because as the law now stands the Industrial Schools Act requires their discharge at the age of sixteen. Whatever may be said as to the advisability of discharging children from Industrial Schools at this age, I think no such obligation should exist in the case of a Piscatorial School. This seems clear from the fact that no boy under the age of fourteen can be sent to sea. The risks to life and the hardships to be endured while fishing all night are too many and too great for boys of a more tender age. It will therefore be observed that a boy at Baltimore has only two fishing seasons for his training as a fisherman, and cannot as a rule obtain sufficiently full instruction either in fishing or the handling of a first-class vessel to make him thoroughly proficient. Moreover, a boy of sixteen cannot get the place of a man in a vessel, and consequently cannot obtain a man's share, which he could easily do at the age of eighteen. An amendment of the law to enable boys to be detained to the age of eighteen is therefore most desirable if this School is to be given a fair chance of fulfilling the purpose for which it was founded."

After another year's experience, and close attention to the working of this School, these views have not only been confirmed, but are even more deeply impressed on me.

An illustration of the good effects resulting from keeping a boy steadily at fishing after the age of sixteen years is given in an interesting pamphlet lately published by Henry Stanley Newman, Esq., entitled "The Harvest of the Sea for Ireland," to be had at "The Orphans' Printing Press, Leominster." After visiting Baltimore he published his impressions about the School, and

when commenting on the question of compulsory discharge at sixteen, he writes as follows :—

"A practical illustration of carrying on fishing instruction is exemplified in the case of a young lad only nineteen years of age, the son of the fishing Instructor at the School, who, in consequence of being kept steadily at fishing since he was almost a child, is now the master of a first-class fishing smack, and working out of Baltimore, having two of the School boys on board. The vessel and gear are valued for at least £600 to £700, and this young skipper has full charge of this valuable property, and the command of a crew of seven men."

The following table shows the number of Boys discharged from the School during the 4 years ending 31st December, 1894, and the occupations to which they have since gone. Discharges during the last four years.

Total number discharged during the 3 years ending 31st December, 1893,		61
" " during year ending 31st December, 1894,		26
Total,		87
Disposal.		
Engaged in Trades or Businesses,	24	
" as Labourers and Farming,	22	
" in Net Mending and Farming,	2	
" in Army,	6	
" in Navy,	5	
" in Seafaring, Merchant Vessels, &c.,	9	
" in Fishing,	12	
" in Net Manufacturing,	1	
Emigrated,	3	
Retained in School as Servant,	1	
Not known,	2	
Total,		87

Engaged at Seafaring and fishing, nearly ⅓rd.
As connected with do., Navy and Army, over ⅔ths.

The following tables show the admissions and discharges during year 1894, and the occupations which the Boys discharged are engaged in. Admissions during 1894.

Admitted during the year 1894,		30

Of these there were

Transferred from other Institutions,	12	
Committed by the Magistrates,	18	
		30

These 30 boys were from the following Counties :—

County Cork,	8
" Dublin,	11
" Louth,	4
" Mayo,	2
" Meath,	1
" Waterford,	4
Total,	30

Discharges during 1894.

Discharged during the year.

By order of the Chief Secretary on account of ill-health or unfitness for detention,	4
In the ordinary course, having arrived at the age of 16,	26
Licensed,	5
Total,	35

Disposal of Boys in 1894.

The 26 boys who were discharged, having arrived at the age of 16 years, were disposed of as follows :—

In Trades or Business,	7
In Farming, Labourers, &c.,	8
In the Army,	2
In the Navy,	2
In Seafaring, Merchant Vessels, &c.,	2
In Fishing,	1
Emigrated,	1
Retained in School as Servant,	1
Not known,	2
Total,	26

Notwithstanding all the difficulties which have hampered the working of this Fishery School, it is pleasing to be able to record that out of eighty-seven boys discharged from the Institution during the last four years, twenty-seven have gone into pursuits connected in some way or other with the sea, viz. :—

Into the Navy,	5
Seafaring and Fishing,	21
Net making,	1

So far as the Governors have had the means they have carried out the original programme laid down by the Founders of the School. Still much remains to be done to complete it. With all the attention and care they can give to its full development, and the records of their attendance at the regular and special meetings of the Board reveal the active interest they take in it, the want of funds has been a great stumbling block in carrying out the original intention of its framers. The accounts, which are always open for inspection, are carefully kept, and regularly audited by the Government auditor, show the economy and care with which the School has been managed.

Audit of Accounts.

Insufficiency of Fleet.

There should, however, be attached to the Institution, instead of five, at least ten to twenty vessels, with a sufficient number of men, capable of taking boys over fourteen years of age to sea during all fishing seasons. These lads should be kept constantly at sea till they are eighteen, the former years of their residence in the School being devoted mainly to education.

Aid to Fishing Lads on discharge.

By this means a good race of fishermen, well educated, would be brought into existence, and if seven or eight of these lads on their discharge joined in a fishing vessel as co-proprietors, no better security could be had for the advance of money now available for the assistance of fishermen.

In my last report I mentioned that at my suggestion the Governors had made considerable alterations in the dietary. Dietary.

Since the beginning of the present year more important changes have again been made by them at their own instance. On the first of the New Year they placed the whole of the cooking and dietary under an Instructor who had received a diploma from the Science and Art Department, and appointed a cook to receive instructions as to the best and most varying food to give the boys. This arrangement was carried out for a month, and the method of dietary has since been continued. So well do I think of this change that I have directed a week's dietary, taken at random, to be published in my present report, together with the forms of books kept recording the dietary of not only the boys but of all officers and servants as a useful guide for other schools. These form an addition to the usual Appendices. The books are directed by the Governors to be always left open for inspection, so that any friends of the pupils or any person interested can ascertain at once what the boys had for breakfast, dinner, or supper on any day throughout the year. Great credit is due to the Governors for laying down a system which, if followed by other schools, must prove of incalculable benefit and interest. It is gratifying also to know that while a greater variety of wholesome and better cooked food is now given to the boys, the expense has not been increased. The average cost of the old dietary was over £11 a week, that of the present about £10.

The boys are now regularly drilled, and gymnastics are taught. I should like, however, to see a covered gymnasium, like the one at the Meath School, Blackrock, erected on the grounds. Drill and Gymnastics.

The education at Baltimore has hitherto been conducted rather too rigidly on the lines laid down for National Schools, and some modification in the programme is necessary. Education.

The attendance of pupils at National Schools being more or less irregular, and many of the children being withdrawn from school at an early age, the Board's regulations are framed so as to concentrate almost all the teachers' efforts, especially in the junior classes, on the instruction of the pupils in certain obligatory subjects. Variation from National System

With this view the rules do not permit any extra branch being taught for Results' Fees until the children are promoted into the Second Class, when vocal music may be taken up; drawing may be commenced in the Third Class, but no other extra branch can be commenced—at least with a view to earning Results' Fees—until the pupils have passed into the Fifth Class, when, under ordinary circumstances, they would be about eleven or twelve years of age.

These restrictions would not apply to a Technical School, such as that at Baltimore, where the lads are in constant attendance, with an ample teaching staff, and the entire day available for instruction of one kind or another—omitting of course the time required for recreation.

Special subjects of Instruction.

In such a school less time is required for what are regarded as obligatory subjects in National Schools, and suitable extra subjects, of which a knowledge would be valuable in technical branches, should receive more attention, and, in case of some of the subjects at least, be taken up earlier. Drawing might be taught to pupils of all classes, and algebra and geometry commenced as soon as the lads were possessed of the attainments required for the Fourth Class: Trigonometry could not with advantage be taken up until the boys had attained a fair knowledge of geometry, and navigation could not be introduced until they possessed a pretty advanced knowledge of both geometry and trigonometry.

Net-mending, Carpentry, &c.

Net-mending, carpentry or general handicraft, cottage gardening, and the like, could be taught to the lads in all the classes.

By forming a programme combining studies which are at present obligatory, with extra and optional subjects in the curriculum for National Schools, a suitable course of instruction might be arranged for the Baltimore Piscatorial School.

I have therefore suggested to the Governors one on the following lines :—

Suggested course of Instruction.

Second Class.—Reading, writing, arithmetic, spelling, elementary instruction in drawing.

Third Class.—Reading, writing, arithmetic, spelling, geography, drawing, cottage gardening, and net-making or mending.

Fourth Class.—Reading, writing, arithmetic, spelling, geography, drawing, carpentry, net-making, algebra, and geometry.

Fifth Class.—Same subjects as in Fourth Class, with due extension of programme of requirements in each.

Sixth Class.—Reading, writing—including instruction in correct form and style of letter-writing—arithmetic, spelling, geography, drawing, algebra, geometry, trigonometry, mechanics, navigation, with technical subjects such as net-making and carpentry.

When the pupils reach the Sixth Class they ought to possess such a competent knowledge of reading, writing, spelling, and geography that only occasional lessons should be required in these subjects, attention being mainly concentrated on the remaining branches.

Instruction in algebra, geometry, trigonometry, mechanics, and navigation would of course be imparted only to boys showing ability for learning them, and in whose cases a knowledge of these subjects would be likely to be practically useful in their subsequent careers.

The boys should not necessarily be kept for a year in any Class, but be promoted as soon as it was plain that their knowledge was such as to make it desirable to do so.

Pupils of average intelligence, and properly taught, should complete the above course between 14 and 15 years of age.

In bringing these remarks to a conclusion I think the idea of establishing a school of this kind was a happy one, and notwithstanding many difficulties it could be made a useful national institution. It is, however, my settled conviction that it will never fulfil the end for which it was founded as long as it is worked under the Industrial School Act, as that Act at present stands. Moreover, if the suggestions I have offered are ever carried out radical changes will have to be made in its management. A system of discipline, fairly suited to the actual condition of the School, would be totally unfit for young sailors of seventeen or eighteen years of age. Rigid separation would have to be enforced between boys kept steadily at school and the lads who go to sea. New buildings would have to be erected. An addition of several ships should be made to the present fleet, having a much larger tonnage than any now employed upon the coast, capable of remaining many days on distant fishing grounds, and of weathering the fiercest gale of the Atlantic.

The possibility of making the School a National Institution.

General Remarks.

The health of the children in all the schools has been most satisfactory. I am glad to notice that the medical attendance is far more regular and frequent than when I first came into office. I trust this improvement will continue; for it seems to me that the more regular medical attendance, and greater attention paid to sanitary arrangements and dietary, account largely for the reduced death-rate. In 1890, 1891, and 1892, out of about 10,000 children under detention the number of deaths were 82, 89, and 81, while, for last year and the year before, out of about the same number of children the deaths were 70 and 64, respectively.

In concluding this report, I have again to express my acknowledgment of the assistance which I have received from Managers, and my appreciation of the readiness with which they have accepted and carried out any suggestions which have been made for the improvement of the Institutions entrusted to their care, and their earnest desire of making them capable of meeting new and varying social wants, and thereby continuing to render solid service to the country.

I have the honour to be,
Sir,
Your obedient servant,
Rowland Blennerhassett, Bart., D.L.

APPENDIX.

Names of Reformatory Schools.

APPENDIX I.

1.—LIST of REFORMATORY SCHOOLS in IRELAND, with date of Certificate, Locality, Name of Corresponding Manager, and Sex and Religion of Young Offenders received.

County.	Name and Situation of Reformatory, Date of Certificate, and Name of Corresponding Manager.
ANTRIM, . .	1. Malone Reformatory School for Protestant boys, Belfast. Certified 13th March, 1860. Manager, Mr. Wm. M'Clintock.
DUBLIN, . .	2. High Park Reformatory School for R. C. girls, Drumcondra, Dublin. Certified 21st December, 1858. Manager, Mrs. Mary Tobin.
,,	3. Reformatory School for Protestant girls, 103, Cork-street, Dublin. Certified 12th April, 1859. Official Manager, Rev. James Monahan, D.D., Rector of St. Mary's, Dublin.
KING'S CO., .	4. King's County Reformatory School for R. C. boys, Philipstown. Certified 22nd December, 1870. Manager, Rev. J. Gubbins.
LIMERICK, .	5. St. Joseph's Reformatory School for R. C. girls, Limerick. Certified 25th January, 1859, Manager, Mrs. Bridget Haugh.
MONAGHAN, .	6. Spark's Lake Reformatory School for R. C. girls, Monaghan. Certified 29th July, 1859. Manager, Mrs. M. X. Finegan.
WICKLOW, .	7. St. Kevin's Reformatory School for R. C. boys, Glencree, Enniskerry. Certified 12th April, 1859. Manager, Rev. Charles Cox.

2.—List of Industrial Schools, showing locality, &c.

County.	Name and Situation of Industrial School, Date of Certificate, and Name of Corresponding Manager.	Number for which Treasury Pay.
Antrim, . .	1. The Ulster Industrial School Training Ship *Grampian*, for Protestant boys, Belfast. Certified 22nd June, 1872. Hon. Secretary, David M'Dowell, esq., Belfast; A. J. O'Rorke, esq., R.N., Capt. Superintendent.	250
„ . .	2. Fox Lodge, Ballynafeigh, Belfast, for young Protestant boys under 10 years of age. Certified 10th January, 1884. Hon. Sec., David M'Dowell, esq. C.M.—David Barclay, esq.	100
„ . .	3. Hampton House Industrial School for Protestant girls, near Belfast. Certified 13th April, 1874. C.M.—Rev. A. J. Wilson.	120
„ . .	4. St. Patrick's Industrial School for R. C. boys, Milltown, Belfast. This is a transfer of the certificate from the school, Donegal-street, Belfast, certified 27th August, 1869. Re-certified 11th January, 1873. C.M. — Rev. D. M'Cashin, Administrator, Belfast.	150
„ . .	5. St. Patrick's Industrial School for R. C. girls, Belfast. Certified 27th August, 1869. C.M.—Rev. James Hamill, Belfast.	110
„ . .	6. Shamrock Lodge, Belfast, for Protestant Girls. Certified 26th March, 1887. C.M.—Mrs. Margaret Byers.	70
Armagh, .	7. Middletown Industrial School for R.C. girls. Certified 21st June, 1881. C.M.—Mrs. Mary E. O'Donovan.	50
„ . .	8. Lurgan Industrial School for R. C. Girls. Certified 28th April, 1888. C.M.—Mrs. Elizabeth O'Hagan.	50
Cavan, . .	9. St. Joseph's Industrial School for R. C. girls, Cavan. Certified 1st October, 1869. C.M.—Mrs. A. M. Irwin.	87
Clare, . .	10. Ennis Industrial School for R. C. girls. Certified 28th February, 1880. C.M.—Mrs. M. J. Murray.	80
Cork, . .	11. St. Aloysius' Industrial School for R. C. girls, Clonakilty. Certified 13th November, 1869. C.M.—Mrs. M. de S. Murray.	130
„ . .	12. St. Coleman's Industrial School for R. C. girls, Queenstown. Certified 5th September, 1870. C.M.—Mrs. Mary B. O'Sullivan.	46

DUBLIN CASTLE,

24th August, 1895,

SIR,

I have to acknowledge the receipt of your letter of the 21st instant, forwarding, for submission to His Excellency the Lord Lieutenant, your Annual Report on the Reformatory and Industrial Schools of Ireland for the year 1894.

I am, Sir,

Your obedient Servant,

D. HARREL.

The Inspector of Reformatory
and Industrial Schools.

[C.—7841.]

THE FIFTY-SIXTH REPORT

OF THE

DEPUTY KEEPER OF THE PUBLIC RECORDS.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,

I RESPECTFULLY beg to submit to Your Majesty a Report of the proceedings in the Public Record Office during the year 1894, pursuant to the Act 1 & 2 Vict. c. 94. § 17.

Certain outstanding questions with regard to the organisation of the Department were in January referred to the Consultative Committee established by Your Majesty's Order in Council of 15th August, 1890. Several meetings were accordingly held, the Committee consisting of the Hon. Sir Robert Meade, K.C.B., Mr. W. J. Courthope, and Mr. A. Milner, the Lords Commissioners of Your Majesty's Treasury being represented by Sir R. E. Welby, K.C.B., and the Public Record Office by me. In the end, a scheme was prepared by which the salaries of the Clerks were somewhat improved, and the distinction between Senior Clerks and Junior Clerks was abolished. This scheme received the approval of the Lords Commissioners of Your Majesty's Treasury in May 1894.

A separate enquiry into the organisation of the subordinate establishment of this Office was also conducted by the Hon. Sir C. W. Fremantle, K.C.B., and Mr. H. W. Primrose, C.S.I., who drew up a long and careful report on the subject. Eventually the Lords Commissioners of Your Majesty's Treasury sanctioned their proposal that the permanent subordinate establishment should consist of 36 attendants and repairers, instead of 49 workmen, and that there should be 9 temporary messengers and doorkeepers and 5 porters, selected if possible from Pensioners of the Army, Navy, or Police.

1 87569. Wt. 2078.

§ I. LEGAL AND LITERARY SEARCH ROOMS.

The number of registered applications for the production of Records, State Papers, &c. in the year 1894 has been—

In the Legal Search Room	15,151
In the Literary Search Room	29,386
Total	44,537

The value of stamps purchased by the public and cancelled in the Legal Search Room has been—

	£	s.	d.
For 940 copies	546	13	6
„ 11 attendances	5	10	0
„ 2,545 inspections	127	15	0
„ 255 general searches	31	17	6
Total	711	16	0
Stamp duty on the same	13	13	0

Fees to the value of 76*l.* 0*s.* 6*d.* have been remitted to certain Departments of State.

§ II. DEPARTMENTAL SEARCH ROOM.

The following table shows the number of applications and searches made on behalf of Government Departments whose archives are deposited in the Public Record Office, and the number of volumes or bundles issued or inspected, during the year 1894:—

Department.	Applications and Searches.	Issues and Inspections.
Treasury	97	269
Home Office	19	55
Foreign Office	19	76
Colonial Office	29	76
War Office	1,823	2,326
Admiralty	116	753
Lord Chamberlain's Office	2	4
Charity Commission	3	9
Total	2,108	3,568

The following table shows the number of volumes or bundles inspected by private searchers provided with permits from Government Departments to consult their archives, deposited in the Public Record Office, but not open to the public:—

Department.	Inspections.
Treasury. - - - - -	69
Home Office - - - -	237
Foreign Office - - - -	818
Colonial Office - - - -	4,843
War Office - - - - -	193
Admiralty - - - - -	339
Lord Chamberlain's Office - - -	47
Miscellaneous - - - -	62
Total - - -	6,608

§ III. TRANSFERS.

The following documents have been received at the Public Record Office during the year 1894:—

From the Admiralty:—
Entry, dates of Commissions and Ages of Officers, 1 Vol. 1844.
Entry Book of Officers' Commissions, 1730–1818. 1 Vol.
Obituary, 1833–1846. 2 Vols.

From the British Museum:—
Two hundred and five small boxes of Chapter House writs, previously sent by error to the British Museum by the Dean and Chapter of Westminster.

From the Duchy of Lancaster Office:—
Court Rolls of the Manor of Newcastle-under-Lyme.

From the Home Office:—
Minute Books of the Royal Commission on Labour. 7 Vols.
Old Domestic Registers, 1849–1851. 3 Vols Index to ditto.
Old Criminal Registers, 1849–1851.
One hundred and fifteen Pouches of Papers, "Old Series."
Forty-nine Pouches, "Old Criminals.
Fourteen Pouches, Naturalisation papers.
One Pouch, Denization papers, 1832 and 1835.
Addresses, &c. 1846–1850.

From the Home Office—*continued.*

Domestic, Vols. 100 to 104, 1848–1851.
Jersey, Guernsey, &c., 1846–1851.
Public Offices, Vols. 8 & 9, 1847–1851.
Treasury, Vol. 26, 1847–1849.
Metropolitan Police, 1849–1851.
Prisons, 1850–1851, 3 Vols.
Prison Inspectors and County Prisons, 1849, 1 Vol.
Public Departments, 1850–1851, 2 Vols.
Public Prisons, 1849, 1 Vol.
Register of Criminal Cases, 1850–1851, 1 Vol.
Register of Criminal Petitions, 1847–1849, 1 Vol.
Socialist Commission, 1840–1841, 1 Vol.
Scotch Criminals, 1849, 1 Vol.
Municipal Election Petition Reports, 56 Vols.
Attested Lists, Convict Hulks, 1802–1834.
Attested Lists, Convict Hulks, 1805–1836.
Attested Lists, Convict Prisons, 1824–1826, 9 Vols.
Attested Lists, Convict Prisons, 1861–1876, 61 Vols.
Convicts shipped to Van Dieman's Land, 1 Vol.
Pentonville Registers, 2 Vols.
Millbank Female Registers, 1843–1850, 5 Vols.
Criminal Registers, 1867–1873, 21 Vols.
Criminal Warrants, 1850, 1 Vol.

From the Patent Office:—
Specifications of Patents, 1879, Nos. 1301–5338.

From the Registrar General's Office:—
Registers of Births, Deaths, and Marriages, 1891–1892, 24 Vols.

From the Treasury:—
Treasury Weeded Papers, 1867, Nos. 1 to 20,271, 28 bundles.
Registers and Minute Books, 1867, 6 Vols.

§ IV. CALENDARS.

PATENT ROLLS:

I have stated in previous Reports that I had made arrangements for a systematic Calendar of the Patent Rolls, and that identical instructions had been given to the different officers employed upon the work. Reserving the reign of Henry III. for future treatment, the object of my scheme is to provide an English Calendar to these invaluable documents from the reign of Edward I. to that of Henry VII. inclusive. The work has been started at five points:—

Edward I.—The text of a volume, embracing the period between the twenty-first and the twenty-ninth years inclusive,

was completed at press in 1894, and the index was in the printers' hands at the end of the year.

Edward II.—A volume, embracing the first six years of the reign was published in 1894. (*See* § X.) Four sheets of a second volume had been set up in type by the end of the year.

Edward III.—Twenty-two sheets of the third volume for this reign were completed at press in 1894, and nine more sheets were in type at the end of the year.

Richard II.—The text of the first volume for this reign was completed at press in 1894. A considerable amount of material for the second volume was also prepared.

Edward IV.—A Calendar for this reign was begun in the later part of the year.

Certain initial difficulties having been overcome, I hope that this important series of Calendars will proceed steadily.

ANCIENT DEEDS:

The second volume of the Descriptive Catalogue of Ancient Deeds, mentioned in previous Reports, was published in 1894. (*See* § X.)

Three sheets of a third volume had been set up in type by the end of the year.

ANCIENT CORRESPONDENCE:

Further progress was made with the Calendar of mediæval Letters, and the whole collection has been arranged in approximately chronological order.

LETTERS AND PAPERS, FOREIGN AND DOMESTIC, OF THE REIGN OF HENRY VIII.:

Mr. J. Gairdner, who was assisted, as before, by Mr. R. H. Brodie, proceeded with the important Calendar of all historical documents in England relating to the reign of Henry VIII. The first part of Volume XIV. was published in 1894. (*See* § X.)

STATE PAPERS RELATING TO IRELAND, OF THE REIGN OF ELIZABETH:

Fourteen sheets of a new volume, beginning with the year 1598, were passed for press in 1894.

STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES I.:

Mr. W. D. Hamilton having, in 1893, completed the twenty-second volume of this Calendar and brought it down to the end of the reign, undertook to prepare materials for a supplementary volume dealing with papers that had not been previously described. Twenty-one sheets of it had been passed for press by the month of August 1894, when Mr. Hamilton died.

STATE PAPERS, COLONIAL SERIES:

Twelve sheets of a volume dealing with America and the West Indies in and after 1677 were passed for press in the course of 1894.

CLOSE ROLLS:

A Calendar of the Close Rolls from the twelfth to the sixteenth year of Edward II. prepared by Mr. W. H. Stevenson, was practically completed in 1894. Thirty-three sheets of the succeeding volume had also been passed for press by the end of the year.

INQUISITIONES POST MORTEM:

Further progress was made with the Calendar of *Inquisitiones post mortem* of the Courts of Chancery and Exchequer in the reign of Henry VII. The printing of the first volume was begun in May 1894, and twenty sheets had been passed for press by the end of the year.

STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES II.:

Seven volumes of this Calendar, embracing the period from 1660 to 1667, were published between the years 1860 and 1866, but the work was suspended for a considerable time. As stated in my last Report, Mrs. Green issued a volume in 1893 dealing with the papers of eleven months from November 1667 to September 1668. This has been followed by a volume which carries the Calendar down to the end of 1669. (*See* § X.)

The work has also been resumed at a later point, and by the end of 1894, Mr. F. H. Blackburne Daniell had passed for press thirty-seven sheets, comprising the whole text, of a volume dealing with the papers of 1671.

STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF WILLIAM AND MARY:

A Calendar of the State Papers, Domestic, of the reign of William and Mary has also been undertaken, and the work

has been entrusted to Mr. W. J. Hardy, a son of my predecessor. By the end of 1894, he had passed for press thirty-five sheets, comprising the whole text, of a volume dealing with the papers of 1689.

§ V. LISTS AND INDEXES.

INQUISITIONES POST MORTEM:

Some progress has been made with the alphabetical arrangement of the tabular Index of the *Inquisitiones post mortem* of the Courts of Chancery, Exchequer, and Wards and Liveries, between the reigns of Henry VII. and Charles I. inclusive.

EARLY CHANCERY PROCEEDINGS:

The tabulated List of Bills and Answers filed on the Equity side of the High Court of Chancery, before the reign of Elizabeth, has undergone further revision with a view to the publication of a first instalment of it at an early date.

CHANCERY PROCEEDINGS:

Considerable progress was made in 1894, with the printing of a similar List of Bills and Answers addressed to Sir Nicholas Bacon, in the reign of Elizabeth, but not noticed in the three volumes issued by the Record Commission in 1827–1832

MINISTERS' ACCOUNTS:

The First Part of the comprehensive List of Ministers Accounts mentioned in my last Report was published in 1894, (*See* § XI.) An index has to follow.

COURT ROLLS:

Considerable progress was made in 1894 with the printing of a similar List of all the Manorial Rolls in this Office, which are open to public inspection.

PROCEEDINGS IN THE COURT OF REQUESTS:

This work has been suspended since the retirement, in March, 1891, of Mr. P. S. Leigh Hunt, the officer who was engaged upon it.

PLEA ROLLS:

The list of Plea Rolls and other Rolls of proceedings in courts of law in England and Wales, mentioned in my last Report, was published in 1894. (*See* § XI.)

SUBSIDY ACCOUNTS:

Considerable progress had been made with the List of these documents which was mentioned in my last Report.

RENTALS AND SURVEYS:

Considerable progress has been made with the List of these documents which was mentioned in my last Report.

ENROLLED ACCOUNTS:

Considerable progress has been made with a List of Accounts, other than those of Sheriffs, enrolled upon the mediæval Pipe Rolls and Chancellor's Rolls, which was mentioned in my last Report.

EARLY ACCOUNTS:

A List of original Accounts of expenditure; formerly preserved at the Treasury of the Receipt and in the Office of the Queen's Remembrancer, has been completed in manuscript.

SHERIFFS:

Further progress has been made with a List of Sheriffs, based upon entries in the Pipe Rolls, and the Fine Rolls, which was mentioned in my last Report.

STATE PAPERS:

A List of volumes of State Papers relating to Great Britain and Ireland and the Channel Islands, preserved in the Public Record Office, has been prepared and printed. (*See* § XI.)

§ VI. CLASSIFICATION AND ARRANGEMENT.

A great deal of time and attention has been devoted during the past year, as during the previous seven years, to the classification of documents hitherto unsorted, and the identification of documents insufficiently described, especially to the early records of the Chancery and the Exchequer. The number of unsorted documents in the Office has thus been very materially reduced.

Large additions have been made to several classes of documents which are being brought together from various parts of the office, especially to the series of Ancient Deeds.

§ VII. OPERATIONS BY WORKMEN.

——	Rolls, Files, or Suits.	Bundles.	Membranes.	Leaves.	Volumes or Rolls.
Numbered -	57,532	23	2,974	31,432	80
Flattened -	—	57	357	89	—
Repaired -	—	—	777	29,671	—
Sized - -	—	—	—	31,477	—
Guarded -	—	—	154	55,329	—
Sewed - -	—	—	320	1,251	166
Bound - -	—	—	—	—	98
Ticketed -	3,803	753	72	—	—
Filed - -	—	—	44,819	—	—
Arranged and dusted.	310	608	—	—	—
Stamped -	—	—	—	183,766	

The classes to which most attention has been given have been Ancient Correspondence, Ancients Deeds, (Series A., B., and C.), Chancery Depositions and Proceedings, Patent Rolls, Exchequer Bishops' Certificates, Chancellor's Rolls, Recusant Rolls, Certificates of Residence, Border Papers, Domestic Letters and Papers Charles II., Surveys and Rentals, Colonial Office Papers Charles II., Accounts relating to Windsor Castle, Duchy of Lancaster Depositions and Surveys, &c., &c.

§ VIII. BUILDINGS.

A further sum of 35,000*l.* was voted by the House of Commons for the financial year 1894–95 towards the erection of a new block of the Public Record Office, the total cost of which was estimated at 79,650*l.*

Considerable progress was accordingly made by the contractors Messrs. Foster and Dicksee, and I hope to be able to mention the completion of this block in my next Report.

§ IX. THE ACT 40 & 41 VICT. c. 55.

The Inspecting Officers appointed for the purposes of the first section of the above-mentioned Act have continued their duties in accordance with the Rules of which Your Majesty's approbation was declared by Order in Council on the 30th of June 1890.

The Schedule of Documents removed from the Office of the Prothonotary of the Court of Common Pleas of the County Palatine of Lancaster to the Public Record Office, but not considered of sufficient public value to justifiy their preservation therein, which was mentioned in my last Report, was laid before the House of Commons on the 12th, and before the House of Lords on the 13th of March 1894, and it lay on the table of each House for the required period of four weeks.

Some further progress has been made with the Schedule of Documents from the Office of the Registrar of the Chancery of the County Palatine of Lancaster, which was also mentioned in my last Report. The completion of it has, however, been deferred because, owing to the manner in which the Documents are arranged, the examination of them requires more than ordinary care and attention.

A Schedule of Documents removed from the Office of the Clerk of the Crown of the County Palatine of Lancaster to the Public Record Office, but not considered of sufficient public value to justify their preservation therein, having been approved by the Master of the Rolls, was laid before both Houses of Parliament on the 19th of June, 1894, and it lay on the table of each House for the required period of four weeks.

The Clerk of the Peace for the City of Birmingham, having addressed an enquiry to Your Majesty's Principal Secretary of State for the Home Department, in relation to the disposal of Documents which he considered valueless, the matter was referred to this Department by direction of the Secretary of State.

The documents were inspected at Birmingham by one of the Inspecting Officers, who made a Report upon the subject. A Schedule was afterwards prepared, approved by the Master of the Rolls, and laid before both Houses of Parliament on the 16th of April, 1894, and it lay on the table of each House for the required period of four weeks.

Some assistance was again rendered, during the earlier portion of the year, by Clerks acting under the direction of Mr. Moran, of the Home Office, who have finished the sorting of the miscellaneous papers mentioned in my last Report. Considerable progress has been made with the second Schedule of Home Office Documents, which have been removed to the Public Record Office. It has not yet been completed because some documents, in addition to those miscellaneous papers upon which the Home Office Clerks have been engaged, ought probably to be included in it, and further classification will be required.

Considerable attention has been given to certain documents which relate to the practice in the office of the Masters in Ordinary of the High Court of Chancery. There are many which, it is believed, cannot now be of any further use, and a Schedule of them is in course of preparation.

Various applications continue to be made to the Inspecting Officers as well in relation to the disposal of documents which are included in Schedules already laid before the two Houses of Parliament as in relation to the preparation of future Schedules.

The utility of the method pursued, not only in freeing the Department from useless matter, but also in rendering useful documents accessible, is demonstrated year by year; *e.g.* in making a list of the Logs of the Royal Navy which are to be preserved, several were found which were not specified in the old Lists.

§ X. CALENDARS PUBLISHED.

CALENDAR OF THE PATENT ROLLS, preserved in the Public Record Office, prepared under the superintendence of the Deputy Keeper of the Records.

One volume of this new series was published in 1894:—

Edward II. 1307–1313.—This volume was prepared by Mr. G. F. Handcock of the Public Record Office.

DESCRIPTIVE CATALOGUE OF ANCIENT DEEDS, in the Public Record Office, prepared under the superintendence of the Deputy Keeper of the Records. Vol. II.

This volume deals with Nos. 1820 to 3836 of the A. series, Exchequer, Treasury of the Receipt; Nos. 1799 to 3870 of the B. series, Court of Augmentations; and Nos. 1781 to 2915 of the C. series, Chancery. The text was prepared by Mr. G. F. Handcock, Mr. E. Salisbury, and Mr. C. H. Woodruff, and it was revised by Mr. J. M. Thompson and to some extent by me.

CALENDAR OF LETTERS AND PAPERS, Foreign and Domestic, of the reign of Henry VIII., preserved in the Public Record Office, the British Museum, and elsewhere in England. Edited by James Gairdner, late an Assistant Record Keeper, and R. H. Brodie of the Public Record Office. Vol. XIV. Part I.

This part of the fourteenth volume carries on the Calendar for the last seven months of the year 1539. Among the chief subjects illustrated by documents hitherto unpublished, are the arrest and trial of Sir Nicholas Carew, Master of the Horse; the mission of Cardinal Pole to the Pope to organise a confederation of the Emperor and the King of France against his own

sovereign; the schemes for the assassination of the Cardinal; the preparations of Henry VIII. against an expected invasion by the French; and his plans for fomenting dissensions in Germany and Northern Italy; the beginning of his negotiations with the young Duke of Cleves; the intrigues for the return of well-disposed persons to Parliament; and the steps taken to carry out the King's desire "to extinguish diversities of opinion by law."

CALENDAR OF STATE PAPERS, DOMESTIC SERIES, OF THE REIGN OF CHARLES II. preserved in the Public Record Office. Edited by Mary Anne Everett Green. Vol. IX. 1668–1669.

The first seven volumes of this Calendar were published between the years 1860 and 1866, but the work was suspended for twenty-seven years in order that the editor might deal with the Domestic State Papers of the reign of Elizabeth and of the period of the Commonwealth. The eighth Volume, published in 1893, carried the Calendar down to the end of September 1668, and the ninth deals with the period from October 1668 to December 1669.

CALENDAR OF STATE PAPERS, relating to English affairs, preserved principally in the archives of Simancas. Elizabeth, Vol. II. 1568–1579. Edited by Martin A. S. Hume.

The early part of this volume consists of translations of despatches from Guzman de Silva, ambassador from Philip II. to Queen Elizabeth, and of occasional letters from that monarch to him. He was succeeded in August 1568 by Guerau de Spes, who was expelled from England in December 1571. The correspondence for the next five years was conducted by a Spanish merchant named Antonio de Guaras, who was arrested in October 1577, but a regular ambassador was accredited in 1578 in the person of Don Bernardino de Mendoza, whose letters occupy the latter part of the volume.

The number of volumes of the series of Calendars sold for Your Majesty's Stationery Office during the year 1894 was 996, making a total of 21,358.

§ XI. LISTS AND INDEXES PUBLISHED.

No. 3. LIST OF STATE PAPERS RELATING TO GREAT BRITAIN AND IRELAND AND THE CHANNEL ISLANDS. PART I.

The main object of this List is to furnish clear references to the various volumes of State Papers of the Domestic Series to the end

of the reign of George II., preserved in the Public Record Office. The English papers comprised in it begin with the reign of Edward VI., those of the preceding period being incorporated with the series of "Letters and Papers, Foreign and Domestic, of the reign of Henry VIII." The Scottish and the Irish papers comprised in it, having been separately bound, begin with the reign of Henry VIII.

In re-numbering the whole series of volumes upon a uniform system, care has been taken to make the references agree with those given by the different editors of Calendars published by this Department since 1855. Volumes not yet calendared have been numbered in continuation.

The List has been prepared by Mr. R. A. Roberts of the Public Record Office.

No. 4. List of Plea Rolls of various Courts.

This is a List of all the Plea Rolls preserved in the Public Record Office, with the exception of Pleas of the Forest, which will be included in a future List of Forest Proceedings.

As some uncertainty exists with regard to the exact date of the separation of the Courts of King's Bench and Common Pleas, the Rolls prior to the reign of Edward I. have been described, according to precedent, as Rolls of the Curia Regis. Under the general title of "Eyre Rolls, Assize Rolls, &c." are included:—

(1.) Rolls of Justices Itinerant, which generally comprise "Placita de Juratis et Assisis," "Placita Coronæ," and "Placita de Quo Warranto," and in some cases "Placita de Querelis," and "Deliberationes Gaolarum." It was customary to make several copies of these Rolls, one for the King, marked "Rex," and others for the different justices engaged.

(2.) Rolls of Justices of Assize, who, by the statute 27 Edward I. were empowered to act also as Justices of Gaol Delivery.

(3.) Rolls of Justices of Oyer and Terminer.

(4.) A few original commissions to take special assizes of Novel Disseisin, &c. with the proceedings thereon, and Inquisitions and Presentments of juries and other documents subsidiary to the Eyre Rolls and Assize Rolls.

A small collection of Plea Rolls, formerly preserved in the Tower of London, and known as "Tower Assize Rolls" or "Tower Coram Rege Rolls," has been incorporated, some being added to the class of Rolls of the Curia Regis, and the remainder to the class of Eyre Rolls and Assize Rolls.

The List has been prepared by Mr. S. R. Scargill-Bird, an Assistant Record Keeper, with the assistance of Mr. H. Rodney, and the Rolls have been re-numbered under his direction,

in such a way as to simplify the references necessary for their production in the Search Room.

No. 5. List of Original Ministers' Accounts. Part I.

This is mainly a List of original Accounts of Bailiffs, Reeves, Farmers, Receivers and other ministers, or officers, appointed to collect the issues of manors and lands in various parts of England, Wales, and Ireland, which did not form part of the "Firma Comitatus," or yearly farm of the different sheriffs. Some of them are scored through, in evidence of their having been enrolled on the Pipe Roll or elsewhere.

The Ministers' Accounts of the Duchy of Lancaster have been given the first place in this List, because a List of them has been already printed in the 45th Report of the Deputy Keeper of the Records, and it appeared desirable to retain the references there assigned to them.

The General Series consists mainly of Accounts formerly preserved among the so-called Ancient Miscellanea of the Queen's Remembrancer's Office, a brief list of which is given in the Appendix to the 20th Report of the Deputy Keeper (pp. 95–111), but with these have been incorporated analogous documents formerly preserved in the Chapter House at Westminster, in the Office of Land Revenue Records, and in the Tower of London.

Some of the smaller series which follow are briefly described in the 20th and 21st Reports of the Deputy Keeper.

The present List comprises only Accounts anterior to the reign of Henry VII., and it will have a separate Index. A List of similar Accounts of later date is in course of compilation.

This first instalment of the work has been prepared by Mr. R. D. Trimmer, an Assistant Record Keeper, with some help from Mr. A. Hughes, and Mr. C. G. Crump of this Office, and others.

§ XII. CHRONICLES AND MEMORIALS OF GREAT BRITAIN AND IRELAND DURING THE MIDDLE AGES.

The three following volumes were issued during the year 1894:—

The Historians of the Church of York and its Archbishops. Edited by James Raine, M.A., D.C.L., Chancellor of York. Vol. III. (Publication sanctioned in 1872.)

The documents printed in this volume are for the most part derived from the archives of the Dean and Chapter of York and the registers of the Archbishops. They range

in date from the year 930 to the beginning of the sixteenth century. The volume contains also an index to the whole work now completed.

ICELANDIC SAGAS, AND OTHER HISTORICAL DOCUMENTS relating to the Settlements and Descents of the Northmen on the British Isles. Vol. III. The Orkneyingers' Saga, with Appendices. Vol. IV. The Saga of Hacon, and a fragment of the Saga of Magnus, with Appendices Translated by Sir G. W. Dasent, D.C.L. (Publication sanctioned in 1859.)

These are translations of the two volumes of Icelandic Sagas issued in the original language by the late M. Gudbrand Vigfusson in 1887.

The number of volumes of the Chronicles and Memorials sold for Your Majesty's Stationery Office during the year 1894 was 822, making a total of 54,051.

At the end of the year there were five works belonging to this series in the press, all of which were sanctioned before my appointment to be Deputy Keeper of the Records.

YEAR BOOKS OF THE REIGN OF EDWARD III. Vol. VII. Edited and translated by Luke Owen Pike, M.A., Barrister-at-Law. (Publication sanctioned in 1879.)

RANULF DE GLANVILL; TRACTATUS DE LEGIBUS ET CONSUETUDINIBUS ANGLIÆ. Edited and translated by Sir Travers Twiss, Q.C., D.C.L. (Publication sanctioned in 1884.)

CHRONICLE OF HENRY KNIGHTON, Canon of Leicester. Edited by the Rev. Joseph Rawson Lumby, D.D. Vol. II. (Publication sanctioned in 1885.)

THE RED BOOK OF THE EXCHEQUER. Edited by Hubert Hall, F.S.A., of the Public Record Office. Parts I. II. and III. (Publication sanctioned in 1885.)

MEMORIALS OF ST. EDMUND'S ABBEY. Edited by Thomas Arnold, M.A. Vol. III. (Publication sanctioned in 1885.)

§ XIII. MISCELLANEOUS PUBLICATIONS.

ACTS OF THE PRIVY COUNCIL OF ENGLAND. New Series. Vol. VIII. A.D. 1571–1575. Vol. IX. A.D. 1575–1577. Edited by John Roche Dasent, M.A., Barrister-at-Law.

The publication of these two volumes in 1894 shows that this series is making very satisfactory progress.

§ XIV. RESEARCHES IN FOREIGN ARCHIVES.

ROME:

Mr. W. H. Bliss has continued his researches in the archives of the Vatican. Two volumes prepared by him have been in the press during the year 1894, viz.:—

CALENDAR OF ENTRIES IN THE PAPAL REGISTERS, RELATING TO GREAT BRITAIN AND IRELAND. PAPAL LETTERS, VOL. II. A.D. 1305–1342.

Thirty-seven sheets, comprising the whole of the text, were passed for press between February and November.

CALENDAR OF ENTRIES IN THE PAPAL REGISTERS, RELATING TO GREAT BRITAIN AND IRELAND. PETITIONS TO THE POPE. VOL. I. A.D. 1342–1419.

Twenty-two sheets were passed for press between March and December.

Mr. Bliss has also prepared some materials for a third volume of the Calendar of Papal Letters.

VENICE:

Mr. Horatio F. Brown has continued his researches in the Venetian archives. By the end of 1894, he had passed for press the whole text and the preface of a Calendar of documents and entries relating to English affairs between the years 1581 and 1591.

SPAIN, BRUSSELS, and VIENNA:

Don Pascual de Gayangos has continued his researches, and has prepared the index to a Calendar of documents relating to English affairs in the years 1542 and 1543.

Major M. A. S. Hume has also completed at press a volume, embracing the period from 1568 to 1579. (*See* § X.). Two sheets of the succeeding volume had also been passed for press by the end of the year.

PARIS:—

Transcripts of certain despatches from French ambassadors in England have been made in order to fill up gaps in the series formed by the late M. Armand Baschet between the years 1870 and 1885.

§ XV. HISTORICAL MANUSCRIPTS COMMISSION.

The work of this Commission has, as in former years, been conducted at Rolls House, the Deputy Keeper of the Records

being the Acting Commissioner, and the Secretary of the Public Record Office being the Secretary.

Some of the Clerks of the Public Record Office have been employed in calendaring the Cecil Manuscripts from Hatfield House, out of office hours, and others have, also out of office hours, compiled indexes to the Calendars and Reports issued by the Commissioners.

All which is humbly submitted to Your Majesty.
Dated this 5th day of July 1895.

(Signed) H. C. MAXWELL LYTE.

I humbly certify to Your Majesty that this Report is made by the Deputy Keeper of the Records, pursuant to the 17th section of the Statute 1 & 2 Vict. c. 94.

(Signed) ESHER, M.R.

REPORT

OF THE

BREHON LAW COMMISSIONERS.

TO THE RIGHT HONOURABLE ROBERT OFFLEY ASHBURTON, BARON HOUGHTON,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

We beg to submit the following statement as our Report for the past year.

The special work in which Dr. Atkinson, the Editor of the Brehon Laws, has now for a considerable time been engaged, is the preparation of a Glossary to the entire body of those Laws. This work has not advanced as far as we had expected, because Dr. Atkinson has suffered from weakness of the eyes, which has been caused in part by constant occupation on the Brehon texts. This has greatly limited the labours at night on which he had previously largely relied, much of his day-hours being necessarily spent in the discharge of his professorial duties in the University of Dublin. Still, much progress has been made, and we are confident that Dr. Atkinson will do all in his power to bring the work to a termination as soon as possible, consistently with its satisfactory execution.

From the nature of a Glossary, the printing of it cannot be commenced until the whole has been completed in manuscript. But, on the other hand, when it is so completed, the printing will go on without interruption or delay.

It will not be necessary to include any sum for this service in the Estimates for the year 1895–6.

January, 1895.

APPENDIX.

An Index to Calendar of Christchurch Deeds (1174 to 1684) will be printed separately.

No. 18333.

DUBLIN CASTLE,
11*th October*, 1895.

SIR,

I have to acknowledge the receipt of your letter of the 3rd instant, forwarding, for submission to His Excellency the Lord Lieutenant, the Twenty-seventh Report of the Deputy Keeper of the Public Records and Keeper of the State Papers in Ireland.

I am, Sir,
Your obedient servant,

(Signed) D. HARREL.

The Deputy Keeper,
Public Record Office,
Four Courts.

THE TWENTY-SEVENTH REPORT

OF THE

DEPUTY KEEPER OF THE PUBLIC RECORDS AND KEEPER OF THE STATE PAPERS

IN IRELAND.

TO THE RIGHT HONORABLE BARON HOUGHTON,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

1. I regret to have to report the untimely death, early in the year, of Mr. Alfred J. Fetherstonhaugh, a Junior Clerk in this Department. His distinguished career in Trinity College, Dublin, and the interest and thoroughness he displayed in the discharge of his duties here, pointed him out as one destined to be an ornament to the Public Service. The vacancy caused by his death was filled by the appointment of Mr. T. D. James, B.A.

2. I have also to report the death of Mr. Richard Tucker, who held the post of Foreman Searcher since the formation of the Department in 1868, having been transferred from the Rolls Office, Chancery, where he had served as Bookbinder for many years; he has been succeeded by Mr. J. J. Tucker, promoted from the grade of Workman Searcher.

3. The Records of the Clerk of the Crown and Peace of the County and City of Limerick have been arranged and a schedule of them is given at paragraphs 43 and 44. This completes the transfer and arrangement of the Records of the Counties affected by the Order of Council, dated the 22nd May, 1891. *Vide* pars. 43 and 44.

4. An Order in Council, dated the 23rd December, 1893, placed the Records of the Clerks of the Crown and Peace of the Counties of King's County and Roscommon under the charge and superintendence of the Master of the Rolls. A Schedule of those transferred from King's County will be found at paragraphs 41 and 42, but a fire which took place in Roscommon in the year 1882 destroyed practically all the Records of that County prior to that date. *Vide* pars 41 and 42.

State Paper Office.

5. There were received from the Chief Secretary's Office the Letters and Papers of that Department for the year 1885, together with the Correspondence Register and Index (four large volumes) for 1883.

6. The papers received from the Chief Secretary's Office have been examined and checked and placed in seventy-seven carton boxes, numbered 3124 to 3201. Further progress has been made in replacing the numbered files received out of place in former years.

7. The draft Calendar of the British Departmental Correspondence has been completed. The draft Index to the Military Memorials has been finished, and a fair copy engrossed.

8. A re-arrangement and a catalogue has been made of the Chief Secretary's Office and Miscellaneous Manuscript Books deposited in the two upper floors of the Record Tower.

9. The Searches for Government during the year numbered two hundred and ninety-seven, very nearly the largest number registered during a like period.

10. The Papers and Books transferred to the Public Record Office are detailed in paragraph 31. The Papers comprise those completing the two important series, viz., British Departmental Correspondence (practically ending in 1759, though by some additional papers carried down to 1795) and Petitions, and the whole of the smaller series of Military Memorials. These papers had been retained in the State Paper Office to allow of the completion of their Index.

Vide par. 31.

11. There have been transferred and deposited here Records from the undermentioned Courts and Offices as set forth in the following Schedules:—

51. The Quit Rent Office has deposited one hundred and five Deeds affecting the rights of the Crown, seventy-seven of which are Conveyances of Crown and Quit Rents.

52. The diagram showing the changes and increments of Records in the Record Treasury during the past year is, as usual, annexed.

Sorting and Arrangement of Records.

26 Rep., sec. 75. 53. The rearrangement of the Parchment Bills of the Court of Chancery has been steadily proceeded with, and the Bills of the current century down to the year 1867, when this series is succeeded by printed Bills on paper, bound in volumes, have been completed amounting to five thousand and sixty-eight of the former fasciculi arranged in seven hundred and twenty-four parcels. The same process has been proceeded with in the case of the Bills and Answers of Chancery of the Palatinate of Tipperary, comprising one hundred and thirty-three fasciculi arranged in the like form.

54. Seven hundred and sixty parcels of Records of the Clerk of the Peace Office, Dublin, seventy-six of Kildare, and ninety-six of Carlow have been encased in brown paper.

26 Rep., sec. 77. 55. Sixty-eight parcels of See Leases belonging to the Dioceses of Armagh, Cashel, Clogher, and Derry, transferred here from the Offices of the Land Commission, have been folded to an uniform size.

56. The contents of one thousand four hundred and eighty-four parcels of Records have been stamped, in addition to those stamped each day prior to their being sent into the Public Search Room each day for inspection.

57. Three hundred and six Wills, and twenty-nine Books and Rolls have been repaired, and one hundred and fifty volumes of Inventions Patents, and one hundred Miscellaneous Volumes, including Parish Registers sent up from their places of Deposit in the country, have been bound.

Indexing and Calendaring.

58. The Index to the Marriage Licence Bonds of the Diocese of Cashel and Emly has been bound and placed in Search Room for the use of the Public. The engrossment of the Index to Marriage Licence Bonds of Clogher has been completed, and the whole compared. The draft Indexes to the Marriage Licence Bonds of Tuam and Waterford and Lismore have been engrossed and compared, that for Cloyne has been completed, and that for Dublin continued to 1823 of the letter R.

59. Indices have been completed to the Marriage Licence entries in the Grant Books of the dioceses of Kildare, 1802–1815, and Ossory and Leighlin, 1824–1827, and bound up with their respective volumes; and the Marriage Licence Books of Killala and Achonry, 1821–1823, and 1839–1869, and Grant Book of the same diocese for 1800–1857, and the Kildare Grant Book, 1802–1857, have been indexed, as well as the Tuam Will Book, 1641-1820.

60. The Lexicographical Index to the Wills of the Diocese of Meath has been compared with the original Wills, and a fresh engrossment has been made of it.

61. The Draft Catalogue to the Bills of the ancient Pleadings of Chancery has been compared with the original Bills as far as No. 1,000, covering the period from 1552 to 24 January, 1609. 24 Rep., sec. 60.

62. The fair copy for the printer of the Index to the Calendar of Christ Church Deeds has been completed and prepared for press, and will be printed as an Appendix to this Report. 24 Rep., sec. 86

63. The following consolidated Indexes have been advanced as follows: Chancery, second volume to page 494, and a third volume to page 503; Bankruptcy to page 152; the second volume of the Records of the Clerks of the Crown and Peace to page 150; Queen's Bench to page 511; Common Pleas to page 431; and Record Tower to page 408.

Proceedings under the Parochial Records Acts, 38 & 39 Vic., c. 59, and 39 & 40 Vic., c. 58.

64. The total number of Retention Orders granted by the Master of the Rolls is now 546. The Reports of Parochial Officers having custody of Records were all duly furnished.

65. In four parishes the Records were stated to be more or less affected by damp, and the usual precautionary measures were recommended.

66. The Records of the following Parishes were transferred to the Public Record Office in the year 1894:—

Parish.	County.	Vols.	Baptisms.	Marriages.	Burials.
Ardagh,	Meath,	2	1805–1894	1812–1845	1814–1894
Clonmany,	Derry,	2	1810–1890	1813–1843	1810–1892
Columbkille,	Longford,	2	1824–1894	1823–1846	1831–1893
Enniskeen	Cavan,	4	1794–1881	1805–1845	1795–1894
Moynalty,	Meath,	1	1829–1893	1831–1845	1831–1893
Ringagonagh,	Waterford,	3	1833–1891	1830–1843	1864–1885
Tamlaght O'Crilly, Upper,	Derry,	2	1827–1894	1827–1845	1827–1893
Tyholland,	Monaghan,	2	1806–1875	1806–1845	1806–1875

67. In the following parishes the Records, which became attachable during the year 1894, were allowed to be retained in local custody under Retention Orders.

Ardtrea.
Ballymena.
Donegal.
Drumragh.
Magheragall
S. Audoen and S. Nicholas Within.
Shankill.

68. Registers of the following parishes were bound at the request of the Parochial Custodians:—

Killyman.
Knappagh.
Owenduff.
Oughteragh.
Tickmacrevan.

69. The fees received in the year 1894 show a decrease of £41 5*s.* 6*d.*, compared with the amount for the previous year.

In addition, to the above, fees on copies made for Public Departments have been remitted to the amount of £61 11*s.*

70. I have to acknowledge the following donations:—Thirteen volumes of Record Publications by the Right Honorable the Master of the Rolls in England; three volumes by the Keeper of the Records of Scotland; and one volume entitled "The Wolfes of Forenaghts" presented by the author, Lieutenant-colonel R. T. Wolfe.

71. A large number of literary certificates were granted during the year in connexion with historical and antiquarian research. Amongst the many subjects investigated were:—The History and Antiquities of Counties Dublin, Louth, Monaghan and Wexford; the Civil and Ecclesiastical History of the Arran Isles; Maynooth College; the Geraldines of Co. Kilkenny; Irish Ecclesiastical History of the Middle Ages; the Huguenot settlers in Ireland; the Diocese of Ossory; the parish of Taney; and the Military History of the 8th Hussars, the Rifle Corps, and the City of Cork Militia.

Dated at the Public Record Office,
Four Courts, Dublin, this 6th
day of June, 1895.

J. J. DIGGES LA TOUCHE,

Deputy Keeper of the Public Records and Keeper of the State Papers in Ireland.

I hereby certify to Your Excellency that this Report is made by the Deputy Keeper of the Public Records in Ireland, under my direction, pursuant to the Statute.

A. M. PORTER,

Master of the Rolls.

DUBLIN: Printed for Her Majesty's Stationery Office.
